JEFFREY, a Luzerne county legislator, does not want to go back to the legislature, at least the presumption would be so, for he has introduced a bill in the house providing for a free junketing trip, of all members of that body, to the Chicago Fair and back. Men of his stamp should not be elected to public place. They are not safe to legislate for the people.

THE Mauch Chunk Democrat, or rather the gang of "purifiers" back of it, are exceedingly chagrined because Congressman Wm. Mutchler is a bigger man than Chairman Harrity or even Governor Pattison. To this end the Democrat persists in tantalising and playing school boy pranks on Mr. Geo. W. Esser, the wise and sagacious leader of the Carbon county Democracy. It is evident that editor Rauch is put up to these tricks by Cassidy, Klotz and a few more of their ilk who are suffering with a severe attack of jealousy over Mr. Esser's influence with Congressman Mutchler and the administration.

THE QUESTION of building a hose house is now up before Council. It will be remembered that a year ago the tax payers voted an appropriation of $6000 for this purpose including the equipment of the same throughout with the necessary articles of protection in case of fire. Since then there has been more or less agitation as to whether the proposed building should be two or three stories high. The popular feeling is that a two story structure well equipped is preferable to a three story building without equipment. Our councilmen should not act unwisely. They should see to it that a hose house is built that will serve every purpose for which it is designed and that in no case should the amount exceed the $6000 appropriated by the people. Wise legislation is the best legislation and the best legislation means a careful and judicious exercise of the powers vested in public officials by the people. Let an earnest effort be made to push forwrd the interests of the town and to perfect all necessary improvements, but at the same time keep an eye on the tax rate. Last year there was a five mill special tax, that is off this year, yet the rate is within one mill and a half of what it was last year. It wouldn't be wise to build a hose house that will make a further increase in the tax rate, because local taxes are high enough.

NEXT TUESDAY the school directors of Carbon county will meet at Mauch Chunk and elect a county superintendent to succeed Mr. T. A. Snyder, who was elected three terms in succession to this office. There are some newspapers which claim that there is no preference and that either or any one of the candidates will fill the bill. We don't believe that this is the right view of it. It is the place of the public press to be utterly fearless and honest in advocacy of men and measures, and particularly so in a matter so close to each and all of us as the county superintendency. It was with this view of the situation that we recommended to the favor of the school directors, Prof. N. M. Ballist, of Normal Square, one of the brightest and most progressive educators in the state. Mr. Ballist has a dozen year's experience in the public school and in the higher educational plane, so that there can possibly be no question as to his eminent fitness for so responsible an office. The professor has no worn out and old fogy ideas of the school system, his ideas are new bright and up to the times, so that all around he is just the man for the place The school directors of Lehighton showed their faith in his excellence some time ago, by adopting a resolution in favor of his candidcy and calling on the directors of the county in general to come to his support. No better or abler man is in the field consequently the directors will make no mistake in urging his election on next Tuesday.

The convention will meet at one o'clock in the afternoon.

OUR FINANCIAL POLICY.

The President Indorses Secretary Carlisle's Attitude.

WASHINGTON, April 24.—To a representative of the United Press the president said: "The inclinations on the part of the public to accept newspaper reports concerning the intentions of those charged with the management of our national finances seems to justify my emphatic contradictions of the statement that the redemption of any kind of treasury notes, except in gold, has at any time been determined upon or contemplated by the secretary of the treasury or any other member of the present administration. The president and cabinet are absolutely harmonious in the determination to exercise every power conferred upon them to maintain the public credit, to keep the public faith, and to preserve the parity between gold and silver, and between all financial obligations of the government."

DOING LOTS OF GOOD.

Ask M. C. Henry and Martin Dabbs of East Mauch Chunk, who saved them a clean cold $150 dollars cash on a Piano. Ask Mr. Chas. Armbruster, of the same place, who saved him $65, on a Piano Organ. Oh! I am getting there with both feet, ye high war price agents, come down to honest prices. Phillips has not seen fit to accept my proposition yet, namely: One Hundred Dollars for every new organ he sold that he did not make $20, if he gives me ten dollars for every one I will show he made from $20 to $50 dollars. He claims to be satisfied with $5 profit, that sounds nice, but why don't he carry out what he advocates. I am also headquarters for Sewing Machines. I sell the White Cottage at $25 00
White & Domestic at 30 00
Wheeler & Wilson at 30 00
Davis and Standard at 30 00
A Handsome High Arm in 7 Drawer Oak at 20 00

Bed Springs just half what you pay elsewhere.
