

India and China.—The details of the battle of Goujeral confirm the report by the India mail of the 17th March, of the victory gained by Lord Gough. The British captured 53 of the 69 guns which the Sikhs brought into action, together with all their camp magazine, ammunition &c. The loss on the part of the British was five officers and 92 men killed. The war of the Punjab is considered at an end. The news from Hong Kong is to the 27th of February. The dispute about opening the city gates at Canton was going on, but there was a general confidence that the stipulations of the treaty of Nankin would be enforced.

Russia and Turkey.—The London Times says the Emperor of Russia having ascertained that the military preparations going forward in the Turkish empire were undertaken at the instigation of Sir Stratford Canning, acting under orders from London, dispatched on the 28th of March his Aide de Camp, General Grabbe, to Constantinople, with an ultimatum which requires the immediate cessation of warlike preparations in Turkey, as well as the recall of the Ottoman troops assembled on the Danube. It further requires the Porte's acquiescence in the occupation of the Principalities of Wallachia and Moldavia by Russia. Failing the acceptance of these terms by the Divan, the Russian Minister is to quit Constantinople, and the Autocrat's troops, which are already in Transylvania, are to advance on Constantinople, turning (not crossing) the Balcans. The Russian fleet from Sevastopol is to lend its co-operation.

Indictable Music.—At a recent term of the court of Common Pleas in Darke county, Ohio, a number of individuals were indicted and found guilty of riot, for serenading a wedding party with instruments of music disagreeable to "ears polite." Judge Holt's charge to the jury, copied below from the Greenville Banner, settles the law of all such cases in that circuit, and may be interesting to some of our readers:

"The assemblage of three or four persons with bells, horns and fire arms, and with these to approach the house where a family resides, rattling bells, blowing horns and discharging fire arms, especially in the night season, calculated to alarm and terrify the inmates, is against the peace, and riotous. Nor does it change the character of such transaction, that a wedding was the occasion of it. Nor can it be justified on the ground that it was intended as a serenade, and was customary in the neighborhood where it was enacted. In this age of progress, while progressing in physical science and improvements of every kind, we should see to it that we do not fall behind in the improvement of manners and morals.

"Some of the witnesses have spoken of a custom in that neighborhood to honor weddings with music of this kind. Such a custom is illegal; it belongs not to civilization, and should not receive the sanction of a court and jury sitting in a civilized community. It has been said that—

"Music hath charms to soothe the savage breast," "It must indeed be a savage breast that can be soothed by the hideous sounds of cow bells, horse fiddles, rams' horns, and like musical instruments, rattling, ringing, and commingling together, and interspersed with the occasional explosion of gunpowder.

"Such serenades are unlawful and riotous. Such is the law. The jury will find the defendants guilty or not guilty as they understand the facts.

BE UNPREJUDICED.—Let no foolish persons be so prejudiced against this truly celebrated medicine as to despise this advice; let it be used immediately on pain being felt; no matter where it may be, whether in the head or feet, whether in the back or abdomen, whether arising from external or internal cause, use the Brandereth's Pills, and rely upon it, that the pain will go, the body will be restored to health as soon as nature has received sufficient assistance from your effect.

The quantity of impure humors discharged from the body by the action of the Brandereth's Pills, is replaced by the course of a few hours with new and pure blood, by the digestion of a moderate meal. By purging the body with this medicine the whole mass of blood becomes entirely purified and regenerated.

THE blood is the life of the body. I presume is undisputed, therefore I shall say that it being the SEAT OF LIFE, it must also be the seat of disease. If disease be in the blood, we should abstract the disease only, not the blood. It is the impurities which must be removed by purgation to secure our health, in all states of the weather, in all situations, and in all climates. The blood, like a good spirit, is always trying to benefit the body by its struggles to expel impurities. But it is not capable to effect its own purification at all times; to do this it must often have assistance. When the blood is loaded with impurities, especially the Brandereth's Pills, is replaced by a fresh blood, provided the blood is not purified at once, and this is sure to be effected if Brandereth's Pills are used.

LEWISTOWN MILLS. THE subscriber has taken the Lewistown Mills, and wishes to buy a large quantity of All Kinds of Grain, for which he will pay the CASH, in full, as high as the market will afford, according to its quality. Any person having good Wheat will do well to call and show a sample of it, as he thinks he can afford to give more than any other person in the place, the mill being situated on the creek, where flour can be loaded out of the mill into boats, and all expense of hauling, storing, and shipping saved; besides, the flour is in better order, as the barrels are not injured by hauling and handling. If wheat brings a better price than it will afford to grind, he has the same chance of shipping it as any other, as the mill is the most convenient storehouse in the place, and saves a great deal of time and labor in hoisting by water power. OR, HE WILL RECEIVE ON STORAGE, and forward to Philadelphia or Baltimore, and give the following receipt: "Received, Lewistown Mills, of A. B., Wheat, to be kept in store till the first of August, unless disposed of sooner."

When the receipt is given the quality of the wheat will be mentioned in it, so as to prevent any trouble when the owner comes to sell. Any person storing, having four hundred bushels and upwards, and desires it, it will be kept in a garner by itself. Any person taking a receipt, and not selling before, or giving notice to keep it, till after the first of August, it will be carried out to their credit at the market price on that day. If shipped, or sold to any person that does not get it ground in the mill, two cents per bushel storage will be charged. If he give notice, and keep it over after the first of August, the storage will be ONE-HALF cent per month, afterwards. The grain will be clear from high water. The subscriber will keep Plaster, Fish, Salt and Groceries of all kinds, which will be sold low for cash to Farmers, by the quantity.

THE GOLD MINES OF CALIFORNIA! THE excitement produced by the discovery of the Gold Regions has carried off a large number of our citizens, who will, it is to be hoped, reap a rich reward from Sacramento's Golden mud. We had almost determined to go along with the crowd, but after mature deliberation as to the consequences of leaving Lewistown without a Store where cheap goods could be bought, we concluded that the interests of our friends demanded that we should remain, and we have accordingly determined to make the sacrifice. There will, therefore, be no need for any one to go to California to get rich, as our store will afford a splendid opportunity for acquiring gold and silver in abundance, in the shape of cheap goods—so low, that a picayune is worth more here than an ounce of gold in the Sacramento Valley with flour at \$100 per barrel, other things in proportion, and not to be had at that. We therefore invite all our old customers (whose name is "legion") and ten thousand new ones to give us a call as soon as they read this notice, so that they may have an early choice from the Tremendous Piles of goods of all descriptions we are now placing on our counters, or shelves, under the counters, in drawers, in the store-rooms, in the cellars, garrets, ware houses, custom houses, etc., and so forth, lest they disappear as quickly as they came. It is hardly worth while to enumerate a few articles where there are so many—we therefore only say that there are lots of Cloths, Cassimeres & Satinets, from Great Britain, France, Germany, and the United States, embracing all prices from 37 1/2 cents a yard to \$10; SHAWLS, from India's coral strand and the vales of Cashmere; SILKS from Italy; Plaids from Scotland; LINENS from Ireland; HANKERCHIEFS from Australasia and Poland; FINE MUSLINS from the ice-bound hills of Switzerland; CAPES, Collars, Edgings, Insertings, Laces, &c., &c., &c. from Greece, Turkey, and Egypt; GINGHAMS from here, there, and everywhere, and thousands of yards of CALICOES from all creation. In all other matters, from a row of Pins to a hoghead of Sugar, we more than hold our own, as any one can test by calling. We've got all in the Grocery line that anybody else has—as good as the best—as cheap as the cheapest, and perhaps A LITTLE CHEAPER. As "seeing is believing," and we don't ask people to put on a pair of green spectacles to make them believe that a barrel of shavings is a barrel of green grass, like the yankee pedlar did his horse, just walk in and judge for yourselves—and you'll say, as everybody else does, that the place for good goods and cheap goods, is NUSBAUM, BROTHERS.
