

FOREIGN NEWS.

BY THE STEAMER HIBERNIA.

THE FRENCH EXPEDITION.—Affairs in France continue tranquil. The expedition in aid of Pope Pius sailed on the 22d ult., and arrived at Civita Vecchia, and would immediately proceed to Rome.—It is understood that the Pope will remain at Gaeta until the temper of his revolted subjects is first ascertained.

Sardinia.—The Sardinian Government have rejected the terms offered by Austria, and the two Governments are again at issue. The Piedmontese Ministers have given fresh directions to the War Department to prepare for the immediate resumption of hostilities.

Austria.—The Austrians have been again defeated in a general battle, and Welden, the best General in the Austrian service, as he has been called, has not been more successful against the Magyars than was his predecessor. On the 20th, Welden concentrated all his forces, withdrawing even the garrison from the Pesh and from the camp in the neighborhood of Ofen, for the purpose of making a general combined attack upon the Hungarian forces, Welden attacking them in the front and Jellachich and Schlick taking them in flank and rear. This grand combined attack took place on the 21st and 22d, at Gran, and ended in the complete defeat of Welden.

The account states that the Austrians were driven back, with the loss of 20 guns and 2000 prisoners, and that they had been compelled to raise the siege of Comorn.—It is rumored in Paris that a murderous engagement has taken place under the walls of Comorn, in which Gorgey had defeated the Austrians, that the latter had evacuated Pesh, and that the Hungarians were under the walls of Vienna. It was reported at Vienna, on the 19th, that an insurrection had broken out at Cracow.

As an offset to the foregoing, it is asserted by the Vienna correspondent of the Constitutional Zeitung, writing under date of April 20, 9 P. M., that the Hungarians were totally defeated near Giron, their loss in prisoners alone being 2000. The Austrian Government has decided to credit 200,000 florins Hungarian Treasury Bonds, which are to be paid when they are subdued. A Gazette states that 40,000 Russians had entered Montravia by the Buthowins; they bring the answer of the Cabinet of St. Petersburg to that of Olmutz, to the question on what condition Prussia would place her diplomatic and material resources at the disposition of the Austrian Government. It is said that the abandonment by Austria of all influence in the Danubian principalities, is the price demanded by Russia for services.

Denmark.—Hostilities still continue to be waged between Denmark and Prussia, without any marked preponderance on either side likely to affect the general issue. A large body of German troops entered Jutland on the 20th ult.

The town of Kalding, which lies about a mile and a half from the frontier of Schleswig and ten from the frontier of Fredoups, was taken by the Schleswig troops under Gen. Borin on the 20th instant, fighting continually for many hours in the streets before the town was evacuated by the Danes. The loss in killed and wounded is not given. Hamburg papers of the 24th contain no further intelligence from Kalding, except that the city has suffered much from fire. The German troops are in quiet possession. It is ascertained that steps have been taken to induce Leopold, king of the Belgians, to act the part of mediator.—Whether he will or not accept this office is not yet known; the last accounts were that the Danes were assembling in large numbers on the heights beyond Kalding.

NAPLES AND SICILY.—The war between these two powers still continues. The advantages are all on the side of Naples.—In addition to Catania, Solo has surrendered to the Neapolitan troops. Palermo has also prepared to capitulate.

THE MARKETS.—The Hibernia brings Liverpool dates down to the 28th ult.—Trade in Liverpool had been very dull.—The London Money Market is represented as being steady. Consols closed at 92 to 91 1/2. The French are firm.

BREADSTUFFS.—In breadstuffs the market has been dull. Wheat has declined 2d to 3d. Flour declined 6d. to 9d. We give the following quotations:—Western Canal Flour, 23s. to 23s. 6d.; Philadelphia and Baltimore brands, 23s. to 23s. 6d.

COTTON MARKET.—We have no marked change of notice in the transactions of the last week. We quote Uplands at 3 1/2d. to 6d.; Orleans 3 1/2d. to 5 1/2d.; Alabama and Mobile 3 1/2d. to 4 1/2d.

FROM CALIFORNIA.

From the New Orleans Freighter, May 8. By the arrival of the ship Tyrone, from Vera Cruz, we have authentic accounts from San Francisco to the 7th of March. The annexed letters were brought down from San Francisco to Mazatlan by Mr. Parrot, who lately went to California as bearer of despatches. It will be seen that the steamship California has been entirely deserted by her crew, which accounts for her non-arrival at Panama.—But we need not anticipate the letters which we now append, and for which we are indebted to the courtesy of Mr. Clifford, of the house of Clifford & Garr, of this city, to whom they were addressed by his partner, Mr. Andrew Garr. Mr. Garr went up from the Isthmus in the California.

SAN FRANCISCO, Mar. 2, 1849. My Dear C.—I have the pleasure to advise our safe arrival at this place on the 29th ult., after a tedious passage of twenty-eight days from Panama. We were detained nearly a week at Monterey, about money notes below this, in consequence of being short of fuel; after taking aboard twenty cords wood, we arrived here with

about two hours' supply of fuel on hand. I have been on shore but a short time, and am heartily surprised with everything that I see. Speculation of all kinds is rife, and exceeds anything I ever witnessed in Mississippi in the palmy days of '36 and '7. Town lots are held at the most exorbitant prices, and every lot-holder is worth from fifty to two hundred and fifty thousand dollars. I have yet had no means of ascertaining the state of affairs generally, as I was prevented going on shore yesterday in consequence of a severe cold, but believe that there is an unnatural and fictitious value placed on every thing, which will soon be corrected. Merchandise and labor are extraordinarily high.

In relation to the mines, there is unquestionably an abundant supply of gold, and it is continually discovered in new places. The gold region is now believed to extend down as low as Lower California.

SAN FRANCISCO, March 7, 1849. My Dear C.—I wrote to you a few days since on our arrival, and availed of the detention of the vessel for Mazatlan, to give you some items of matters and things in this delectable country. In the first place, so far as one can learn, gold stories are all true. The consequence is that labor, rents, provisions, &c., are enormously high. Town property for cash is beyond anything ever heard of in a new country, and lots are selling in this place from five to twenty thousand dollars; rents from five hundred to one thousand dollars per month. Carpenter's wages eight to ten dollars per day. The steamer California is deserted by every soul except the captain and chief mate, and there is no probability of her leaving under two or three months. This is speculation on my part, for there is no saying when she will get either fuel or a crew.

Fifty to one hundred dollars per day is nothing extraordinary for miners to make. There is, however, some danger from Indians and our own countrymen, prowling about the country, committing murder and theft. Gold is very abundant and goods extravagantly high, and an immense population coming forward, who all resort to the mines and return merely to throw away the proceeds of their labor. In fact, I can hardly give you an idea of the state of the country. Those who have been here a year, with common industry and prudence, are worth from twenty thousand to two hundred dollars. I have not been able to procure board in the place, and in company with Mr. Frazer and young Ducros, have pitched our tent a quarter of a mile from town. Wages of servants \$150 to \$200 per month, and in the course of two or three weeks, when it will be seasonable weather to go to the mines, none will be had at any price. You may judge what a state of things exists when common laborers can go to the mines and return in a month or six weeks with from one to three thousand dollars in gold.

It is yet too early for the mass to start to the mines, the weather having been very inclement. We intend to go up to the mines and see the country, and have formed a party of five for that purpose.—The price of passage to Sutter's Fort is \$35 each and \$5 per cwt. for baggage and provisions. We have an idea of buying a whale boat, the price is \$700. From Sutter's Fort to the Stanislaus the transportation is difficult and expensive, as a team of oxen and wagon earn \$100 per day.

Gold is selling at \$14 per ounce, but is taken in trade at \$16. It is worth in Valparaiso \$18, and would net in the States \$17, all expenses paid.

FROM THE FRONTIER.—Letters from St. Joseph, Mo., dated April 25th, say:—From what I have been able to ascertain, there appears to be a greater number of emigrants rendezvousing at this point than at Independence. At the commencement of the season this was not anticipated by the good people of the latter place, or expected by the business men or citizens of St. Joseph.

The roads, in every direction, are lined with wagons of emigrating parties from the lower countries of Missouri, and from Iowa, Wisconsin, Michigan and Illinois.—The majority of these intended moving leisurely as far as Fort Kearney and Council Bluffs, and there make their final start.

Up to this time at least three thousand emigrants have arrived at this point, en route for California. Several companies have already departed, and are now about one hundred miles from the frontier; they intended remaining in camp for some days at Grand Island, which is about two hundred and eighty miles distant. The roads from Independence, St. Joseph, Fort Kearney and Council Bluffs, there connect.—The trying times to many will arise before they succeed in reaching Grand Island. Postal communication ceases after leaving their several places of rendezvous, and the emigrant has no ready means to communicate to his friends his progress, &c.

From the Lexington, Mo., Express, we clip the following:—Hardly an hour in the day passes, but what wagons may be seen passing on their way to California. Many, we learn, take the left hand road at Old Town, and go to Independence. Others cross the river; train after train are passing up.

A letter in the St. Louis Reveille, dated near Fort Kearney, April 24th, says:—We are all in good spirits, and have, I think, passed through almost the greatest trials of our trip—the "breaking in" part being generally the hardest part of an undertaking. Indeed, our early arrival here has been very advantageous to us, as we shall be completely prepared for the journey, for its exposures and all emergencies. We have nothing to apprehend from the Indians, not even the stealing of our animals. This point has been selected by

the Mormons as much the best route to the States, either in returning or going out and will be taken by those emigrating this spring. Several hundred Mormons are expected here in a few days. The Buffalo are very numerous two hundred and fifty miles from this. Advise friends to produce everything either at St. Louis, Independence or St. Joseph, as nothing but corn can be procured here, and even that not conveniently. This route is very desirable, the road, for several hundred miles, being unexceptionably good; plenty of water is found in the valley of the Platte by digging two and a half feet, wherever they choose to camp. The water is better in warm weather than when procured from the river. This is important to travellers, as they can stop to camp whenever they wish, and besides after striking the Platte, the road is parallel with it for several hundred miles. I have not learned about the facility of procuring wood, but it is not so important as water and grass—that is, if those emigrating are properly provided with pilot bread and dried meats as we are; also with chafing dishes and spirits of wine. We are thus entirely independent of wood and buffalo chips—particularly when it rains—and can make our coffee under the tent or in the wagon.

If wheat brings a better price than it will afford to grind, he has the same chance of shipping it as any other, as the mill is the most convenient storehouse in the place, and saves a great deal of time and labor in hoisting by water power. OR, HE WILL RECEIVE ON STORAGE, and forward to Philadelphia or Baltimore, and give the following receipt:—"Received, Lewistown Mills, of A. B., Wheat, to be kept in store till the first of August unless disposed of sooner." When the receipt is given the quality of the wheat will be mentioned in it, so as to prevent any trouble when the owner comes to sell. Any person storing, having four hundred bushels and upwards, and desires it, it will be kept in a garner by itself. Any person taking a receipt, and not selling before, or giving notice to keep it, till after the first of August, it will be carried out to their credit at the market price on that day. If shipped, or sold to any person that does not get it ground in the mill, two cents per bushel storage will be charged. If they give notice, and keep it over after the first of August, the storage will be ONE-HALF cent per month, afterwards. The grain will be clear from high water.
