

RAILROAD IRON.—This article is now sold in this city, of English manufacture, at about \$42 per ton, which is death and destruction to the American manufacturer and the American laborer, in the iron works.

The mills now in operation only live on their old contracts, making iron ordered long ago, as in the case of the Hudson River Railroad, whose rails the Trenton and Bounton mills are making at \$67.50 per ton. This is a difference of \$25 per ton; and when the contract was made, it was made as low as the mills could afford it, or the company could get it; but the difference shows what ruin the tariff of 1816 is creating for American labor and American ore.

To be independent, a nation must not only make its sword, but have within its bosom the material of which it is made, and of that material make it. To be riding eternally on rails made in British workshops and by British hands, is but little better than living on British laws and customs, and surely it is paying Britain the highest tax and the highest compliment.—N. Y. Express.

FIGHT ON THE RAILROAD.—The workmen on Seiks' and Smith's Section, of the York and Cumberland Railroad, about 7 miles from town, had a fight on Friday last, and the first named contractor was struck with a stone on the head so severely, that up to the present moment he is seriously ill. The quarrel, it seems, commenced between some German and Irish workmen, and the contractor undertook to restore peace. He pursued the wrong plan, however. He entered the "Shanties" and expostulated, not succeeding as speedily as he desired, he fell upon four Irishmen, with whom he fought for probably ten minutes, and finally vanquished them by hard knocks. Emboldened by his success, and confident of his own herculean powers, he declared that he could "whip any Irishman on the works." This being too much, they assaulted him with stones, and lay him senseless on the ground.—York Advocate.

RIOING ON THE RAILROAD.—We learn from the Cumberland Mountaineer, that the men employed by the contractors on the Baltimore and Ohio Railroad, west of Cumberland, have been rioting. The cause, the Mountaineer learns, is some sectional prejudice existing between what is called the "Connaughtmen" and "Fardowns."

IMMENSE FIRES IN THE WOODS.—A telegraphic despatch from Calais, Me., states that the fires in the woods were still raging in every direction. More than 6,000,000 acres of timber land have already been destroyed. They have had no rain since the first week in April, and in that part of Maine and the province of New Brunswick, there is no water for driving logs. Nearly all the present stock is sawed. The lumber business, it was thought, must be suspended for the summer, and the fields of grass will not be worth cutting. The prospects of the country were never more gloomy than at present. The weather was excessively warm, the thermometer rising to 90 in the coolest places.

BLOWN AWAY.—The Abbeville (S. C.) Banner furnishes the following account of a storm in that district, in which a boy was blown away and has not since been heard of:

"We regret to learn that on Friday, the 5th inst., another severe storm of wind passed over the lower portion of our district, doing considerable mischief in various places. The plantation of Mr. Geo. Marshall, we are told, has been seriously injured by it, as also his growing crop; but the saddest part is, the loss by this gentleman of a negro boy some nine years of age, who was carried off by the storm, and although diligent search was made for him two entire days he has not yet been found."

The steamer New World made her first trip from New York to Albany on Thursday last. Her length is three hundred and sixty-seven feet—the longest vessel ever built and set afloat in any age or country. Her width (over all) across the wheel-houses is 67 feet 4 inches; draught of water but 14 feet. Her engines are of 76 inch cylinder and 15 feet stroke. Her wheels, which are of iron, are 46 feet in diameter. Her boilers are calculated to carry 90 tons of water.

DEATH FROM DRINKING COLD WATER.—In various parts of the country, but principally in the cities, deaths have occurred from the imprudent indulgence in cold water when the body was over heated. Too much caution cannot be used, especially by laboring persons exposed to the direct rays of the sun. If care is taken to bathe the hands and face before drinking no evil consequences is likely to arise.

FACTORIES STOPPED.—The cotton factories of Mr. Jamison, at Norristown, Pa., have suspended operations for an indefinite period. Mr. J. has something like a six-month's stock of goods on hand which cannot be disposed of on account of the depressed state of the markets.

A most singular case of travel occurred recently at St. Louis. A Miss Taylor had been attacked by cholera, and was supposed to have died on Sunday last, but her brother insisted that she should not be buried until the next day, and on Monday she revived, and to the astonishment of every one, has recovered.

A colored girl, recently convicted at Pensacola, [Florida], of an attempt to fire her master's house, was sentenced to have her ears nailed to a post for one hour, and to receive thirty nine lashes, which sentence has been carried into effect.

BE UNPREJUDICED.—Let no foolish person be so prejudiced against this now truly celebrated remedy as to despise this advice; let it be used immediately on pain being felt; no matter where it may be, whether in the head or foot, whether it be in the back or abdomen, whether arising from external or internal cause, use the Brandy's Pills, and rely upon it, that the pain will go, the body will be restored to health as soon as nature has received sufficient assistance from their effect.

The quantity of the Brandy's Pills, is replaced in the course of a few hours with new and pure blood, by the digestion of a moderate meal. By purging the body with this medicine the whole mass of blood becomes purified and regenerated.

That the blood is the life of the body, I presume is undisputed, therefore I shall say that it being the seat of life, it must also be the seat of disease. If disease be in the blood, we should abstract the disease only, not the blood, it is the impurities which must be removed by purgation to secure our health. The blood, like a good spirit, is always trying to benefit the body by its struggles to expel impurities. But it is not capable of effecting its own purification at all times: to do this it must often have aid. When the blood is loaded with impurities, especially in this climate, the consequences may be fatal, provided the blood is not purified at once, this is sure to be effected if Brandy's Pills are used.

Compound Syrup of
WILD CHERRY,
IS the best medicine yet for Cough, Cold, Consumption, Asthma, Spitting of Blood, &c. Read the following:
November 23d, 1818.
Dear Sir—I take great pleasure in saying to you that Mrs. Ross has been entirely relieved of her cough by the use of your Syrup of Wild Cherry. It had continued for fully eighteen months. She had used several preparations of the Wild Cherry, now in popular use, but not with the slightest benefit, until she took yours. She now took six bottles, and I am pleased to say she is now in good health. Every one who saw Mrs. Ross thought her in a deep delirium.

Martin & Whiteley's
NATIONAL TONIC,
A certain Cure for Ague, Fever, and Dyspepsia.
IN our summer and fall months many sections of our country are prostrated by BILIOUS FEVER and AGUE and FEVER.—It has been our particular study to find out some remedy to stop this dreadful scourge, and think in this TONIC we have effected this great object. It is also the very best remedy in Dyspepsia, and our directions are followed, will not fail to effect a cure.

In a letter dated, May 23d, 1849, our Agent, Mr. Elias Rank, of Wrightsville, York county, Pa., says:—I have never known any remedy for Fever and Ague equal to your invaluable National Tonic. It has given universal satisfaction, and has cured cases of Ague of years standing, and after the failure of all other medicines made use of. Mr. Henry Beverson, of the same place, says in his certificate, dated 24th March, 1849, "I applied to a number of Physicians, and also used a variety of the most popular Ague Mixtures at different times, but all without the desired effect; no permanent cure having been afforded. I was at length induced, at the recommendation of your worthy Agent at this place, to try a bottle of your National Tonic, and to my great satisfaction, before I had used half of it, I felt completely cured, though I continued the use of it till I had taken two bottles." In a joint certificate from Messrs. Miles Hoke, William Blackson, and James D. Brown, of the same place, they say:—"Having tried nearly all the remedies within our reach without success, we at last purchased some of your National Tonic, which has completely cured us. We, therefore, cheerfully recommend it to the notice of all persons afflicted with that terrible disease as the best remedy yet discovered."

See the Pamphlet, which you can get from one of our Agents gratis.
