

Miscellaneous.

How to Catch a Thief.—A short time ago, a gentleman residing on the Delaware, upon going into the smoke house in the morning to make up his fire as was his custom, discovered that the house had been broken open the previous night, and all his meat stolen.

'I have,' said Mr. S. 'Ah! who might it be?' 'It's you'—seizing the man by the collar—you scoundrel, and unless you immediately return me all my meat, I'll have you arrested and punished.'

The negro, trembling with affright, promised instant compliance, if maesa wouldn't have him sued. In half an hour after, the meat was again in Mr. S's smoke house, and the fellow agreed at once to leave the neighborhood.

As the guilty party was retiring, he asked Mr. S. how he discovered that it was he that robbed him, as he was sure that nobody had witnessed the theft, and that he had told nobody.

'That was just the case with me. I told nobody, so that we were the only persons that knew any thing about it.'

HUMORIST.—The Duke of Montague was a great humorist. Among other original modes in which he contrived to minister to his own amusement, he had a defective looking-glass suspended in his drawing-room, so that all the noble guests who chanced to dine at Montague House were induced, on passing the treacherous mirror, to adjust their wigs awry.

A RAY OF ASTRONOMY.—'Caesar,' said a negro to a colored friend of his, 'which do you think is de more useful ob de comets, de sun or de moon?'

'Well, Clem, I don't tink I should be able to answer dat question, seeing as how I neber had much book larnin.'

'Well, Clem, I speck de moon orta take de fust rank in dat particular.'

'Why so, nigger?'

'Because, de moon shines in de night when we need de light, and de sun shines in de daytime, when de light am ob no consequence.'

'Well, Clem, you is de most larn'd darkey I eber seed; I guess you used to sweep out a school house for a libbin.'

MARYLAND GALLANTRY.—A letter from a lady to the Elkton Democrat, describing a picnic at Gilpin's Rocks, a most romantic spot in Cecil county, speaks of the gallant deportment of two of the gentlemen of the party, and adds:—'A third took off his hat to attract to himself a nest of hornets which he and a party of ladies while walking had accidentally disturbed, while he begged the ladies to hasten beyond their reach! The hornets you may be sure expressed their full appreciation of the gallant act, by stinging him most unmercifully; all of which he bore with the courage of a martyr! I will only add—can this be beaten?'

MOONY AND STARRY.—An interrogatory of silvery sweetness, and an answer of diamond beauty, are contained in the following method of 'getting to go home with her.'

The Prevailing Epidemic. PREVENTIVES. AMONG the preventives of the present disorders of the stomach and bowels, none are so fashionable and so frequently recommended, even by most physicians, as old Brandy, Port Wine, old Monongahela Whiskey, good Gin and Cherry Brandy. That these strong Alcoholic drinks are frequently beneficial, no one will deny, but they are only serviceable as a medicine, and their daily use, now so common, is certain to prevent, in a very great degree, the above disorders—for sale at C. EDITORIAL STATE CONVENTION.

The undersigned publishers of Newspapers in the 17th Congressional District, concurring with their editorial brethren generally in the necessity of having an Editorial State Convention in Pennsylvania, for the purpose of correcting numerous abuses now practiced to the positive injury of Country publishers, respectfully recommend to the Fraternity, that they meet in State Convention, at Harrisburg, on THURSDAY, the 8th day of November, 1849, and earnestly urge a general attendance.

The Postage Reform may be effected during the next Session of Congress. A Law whose practical effect is to make the rich richer and the poor poorer, cannot be too soon erased from our National Statute Book; and we deem the time recommended for a State Convention an auspicious one for urging effectually upon our National Congress the necessity and expediency of a speedy and permanent change. This and other Reforms immediately affecting the interests of the Country Press, demand the prompt and serious attention of the Fraternity, and we call upon our brethren throughout the State to act with us harmoniously and energetically, feeling confident that by so doing the Country Press can be placed upon a proper platform.

LEWISTOWN MILLS.

THE subscriber has taken the Lewistown Mills, and wishes to buy a large quantity of All Kinds of Grain,

for which he will pay the CASH, in PARASOLS, as high as the market will afford, according to its quality. Any person having good Wheat will do well to call and show a sample of it, as he thinks he can afford to give more than any other person in the place, the mill being situated on the creek, where flour can be loaded out of the mill into boats, and all expense of hauling, storing, and shipping saved; besides, the flour is in better order, as the barrels are not injured by heating and handling. If wheat brings a better price than it will afford to grind, he has the same chance of shipping it as any other, as the mill is the most convenient storehouse in the place, and saves a great deal of time and labor in hoisting by water power. OK, we will receive on STORE, and forward to Philadelphia or Baltimore, and give the following receipt: 'Received, Lewistown Mills, of A. B., Wheat, to be kept in store till the first of August unless disposed of sooner.'

When the receipt is given the quality of the wheat will be mentioned in it, so as to prevent any trouble when the owner comes to sell. Any person storing, having four hundred bushels and upwards, and desires it, it will be kept in a garner by itself. Any person taking a receipt, and not selling before, or giving notice to keep it, till after the first of August, it will be carried out to their credit at the market price on that day. If shipped, or sold to any person that does not get it ground in the mill, two cents per bushel storage will be charged. If they give notice, and keep it over after the first of August, the storage will be ONE-HALF cent per month, afterwards. The grain will be clear from high water.

The subscriber will keep Plaster, Fish, Salt and Groceries of all kinds, which will be sold low for cash to Farmers, by the quantity. FLOUR, MIDDINGS, and all kinds of Grain and Feed, will be constantly kept on hand, and sold low for cash. A. W. W. STERRETT. N. B. JOHN SPERRETT is authorized to transact any business in the above premises as my Agent. Lewistown, April 14, 1849—1y.

Pennock's Patent SEED AND GRAIN PLANTER.

FOR PLANTING WHEAT, RYE, BARLEY, ANDLAIN CORN, OATS, BEANS, PEAS, RUTA BAGAS, TURNIPS, &c.

THIS Machine operates equally well on all kinds of land, and is not injured by coming in contact with rocks, roots, &c. It will plant point rows, and all irregular shaped fields, without sowing any part twice over. With a saving of from 10 to 15 per cent. in labor, it will, with ease for two horses, plant from 10 to 12 acres per day of wheat, oats, barley, and other small grains; and with one man and horse, it will readily plant from 15 to 20 acres per day of Indian corn, beans, peas, ruta bagas, &c. It will save from 2 to 3 pecks of seed per acre, and yield from 15 to 20 per cent. more than the broad cast sowing, by distributing the grain uniformly at any desired depth, and leaving a ridge of earth between the rows. The roots of the young plant are protected during the winter by the action of the frost and rain mouldering the earth upon them, instead of being thrown out and exposed as in broad cast. On this account the stalk is stronger and less subject to mildew, and is not so liable to injury by the fly. The farmer is frequently prevented by rain from harrowing in his grain after it is sown, which harrowing is needless in sowing with this machine as it completes the work at once.

PREMIUMS. Were awarded these Drills as follows: By the Philadelphia and Delaware County Agricultural Society, First Premium, in 1841. By the St. George's and Appoquinimink Agricultural Society, in 1841. By the American Institute, Silver Medal, in 1842. By the Franklin Institute, Diploma, Honorary, in 1842. By the New Castle County (Delaware) Agricultural Society, First Premium, in 1843. By the New York State Agricultural Society, Diploma, (Honorary) in 1846. By the New York State Agricultural Society, First Premium, in 1847.

Recommendations. BELLEFONTE, 6th month 23d, 1849. Thompson & Reed: Esteemed Friends—I have had the Pennock Drill in use for two seasons, and from the vast difference in the wheat crop over the broad cast, it is my decided opinion that every farmer should have one of them, as he will be a gainer of at least one-third on each acre of his crop. A. S. VALENTINE. VALLEY, May 28, 1849. Mr. Abner Thompson: Dear Sir—The Pennock Drill I got from you last summer, worked to my entire satisfaction, in rough and smooth ground. Each tube and hopper working separate and independent of each other, is a decided advantage, by escaping rocks, roots, sowing point rows, &c., and from the appearance of my crop at this time, there will be a better yield to the acre than what I sowed broad-cast, besides a saving of one half bushel of seed to the acre. I believe it is one of the most profitable agricultural implements in use by the farming community. JAMES BEATTY, Jr. We cordially concur in the above. JOSEPH CAMPBELL, JAMES PARKER, ADAM GREER. REEDSVILLE, May 20, 1849. Mr. Abner Thompson: Dear Sir—The Pennock Drill, that I bought of you last summer, worked to my entire satisfaction, both on rough and smooth ground; it is not injured by coming in contact with rocks or roots. I think from the present appearance of my drilled wheat, that it will yield enough more on my crop to pay the price of the Drill, at my rate. FELIX McCLINTICK. This is to certify that each of the undersigned bought one of Pennock's Drills of Abner Thompson last summer, and that we fully concur in the above statement made by Felix McCLintick. S. W. TAYLOR, Jr., JOHN TAYLOR, JNO. MACLAY, SAMUEL ALEXANDER, JAMES M. MARTIN, WILLIAM WILSON, W. B. JOHNSTON, SH. ZOOK. MIFFLIN COUNTY, May 16, 1849. Mr. Abner Thompson: Dear Sir—The Pennock Wheat Drill I purchased of you last fall worked to my entire satisfaction, both on rough and smooth ground. It saves at least one peck of seed per acre, and I believe, from the present appearance of the wheat, it will yield considerably more than that sowed in the usual broadcast way. JOHN McDOWELL. We hereby certify that, having bought and used Pennock's Drills, we cheerfully concur in the above statement, made by Mr. McDowell. WM. CUMMINS, SAML' W. TAYLOR, YOST KING, SAMUEL LANTZ, MATTHEW TAYLOR. PERRY TOWNSHIP, May 24, 1849. Mr. Thompson: Sir—The Pennock Drill I bought of you last summer worked to my entire satisfaction, both on rough and smooth ground, as it is not injured by coming in contact with rocks. Each hopper and each tube works separate and independent of each other; it will sow all irregular shaped land and point rows, without sowing any twice over; it saved at least 1/2 bushel of seed to the acre; and I believe the drilled wheat will yield considerably more than that sown in the usual way. WILLIAM F. SHAW. I fully and cordially subscribe to the correctness of the statement above. JOHN FLEMING. WM. M. FLEMING. Isaac Price substantially concurs in above. Manufactured and for sale by the subscribers, at Perrysville, Mifflin county, Pa., who will deliver Drills in any part of Bedford, Cambria, Huntingdon, Mifflin, Centre, Clinton, and Lycoming counties. The Drills are warranted to perform to the entire satisfaction of purchasers, if used according to directions—if not satisfactory, after a fair trial, they will be taken back, provided a reasonable compensation be allowed for their use. Price for a Drill, \$100. ABNER THOMPSON, WILLIAM REED. PERRYSVILLE, Mifflin county, Pa., 3mo. June 2, 1849.
