Whigs of Miffin!

On Tuesday next you will be called upon once more to cast your suffrages in vindication of Whig Principles. On that day will be decided the great questions, whether the Canal Board shall be composed wholly of Locofoco or not—whether Miffin shall be represented in the next Legislature by one who will render his aid in carrying out Locofoco measures, however much to the detriment of our best interests they may be—and, whether our County Officers shall all be of the same party which has for years ruled the county without restraint.

From California.

The Gold-Health of the Emigrants—Troubles anticipated between the Americans and Spaniards. The New York Tribune publishes news from California, 16 days later, by the steamer Panama, received through Mazatlan, Mexico, and by the steamship Severn, at Mobile.

The health of the population, both at the mines and elsewhere, is generally good, and neither cholera nor any other serious malady is reported as having made its appearance. The jealous, unfriendly feeling which has so long been in existence between the Americans and South Americans of Spanish origin, has at last approached a crisis, and by the next arrival last approached a crisis, and by the next arrival last approached a crisis, and by the next arrival last approached a crisis.

Politics seem to be much more quiet throughout the Territory than at the last dates when the bustles of the elections had not yet ended, and the excitement of parties was still fresh. Now it is comparatively stagnant.

FOREIGN NEWS.—The steamship Canada, Capt. Jenkins, arrived at Halifax Wednesday morning, with dates from Liverpool to the 22d, and from London to the 21st ult.

A Russian General arrived at Constantinople on the 15th on a special mission. That special mission being to bully the Sultan into a compliance with the demands of Austria, a council was held, and the Turkish Government resolved not to surrender the Hungarian refugees to either the Russian or Austrian Governments.

Military operations, with the exception of the siege of Comorn, now regularly established, have ceased throughout all Europe. Comorn still holds out, and it is said that the besiegers can defy the besieged one year.

Arrested for Larceny.

We understand that a young man, named G. A. Gotwald, a native of Centre county, was arrested last week in Philadelphia, charged with committing a number of robberies at different hotels in that city, at Cape May, and other places. The property stolen comprises money, gold watches, and numerous articles of valuable jewelry.

Sentence and Suicide of a Murderer.

FREDERICK SMITH, who, it will be remembered, was found guilty of the crime of murder at the August term of the Court of Adams county, and whose counsel had filed a motion for a new trial, was on the 25th ult. again brought before the Court, and the application for a new trial having been overruled, his Honor Judge Durkee accordingly passed sentence of death upon him.

Locofoco Lost for the Volunteers.

They have kicked Capt. Small off the ticket for Senate in Philadelphia. They oppose the election of Mr. Coulter of Westmoreland for Sheriff. He served through the whole of the Mexican War.

SERIOUS ACCIDENT.—A son of Dr. Riley, of Harrisburg, aged about 20, while on a hunting excursion with his father on Saturday last, accidentally discharged his fowling piece into his arm below the elbow, rendering amputation necessary.

BUTLER DIVORCE CASE.

The Court of Common Pleas has decided in favor of the petition of Fanny Butler, asking for a divorce from her husband, Mrs. Fanny Kemble Butler. The decision was made on Saturday last; the divorce is absolute, and gives each entire freedom, as if no marriage had ever taken place.

NEW ORLEANS, Sept. 30.

By an arrival here from Corpus Christi, we have a report that the Comanche Indians held a council of war and concluded to commence hostilities upon the Texas frontier settlements.

ST. LOUIS, Oct. 1.

Advices have been received here from Chihuahua stating that the Indians are daily becoming more hostile. Fifty Mexicans and several Americans have recently been killed by them. An American trader named Vaughn was murdered by the Indians about the middle of July last.

THE APACHE CHIEF, it is said, offers large premiums for American and Mexican scalps.

The cholera is raging very badly at Durango and other posts in Mexico.

NEW YORK, Sept. 28, 8 P. M.

GREAT FIRE IN OREGON.—A fire broke out in Oregon, N. Y., at 4 o'clock this morning, and continued to burn with great fury for seven hours.

Before the flames could be arrested about one hundred buildings were destroyed, including two Hotels, the Bank, the Post-office and several others on the river at that place. Nearly all the business part of the town has been destroyed. The total loss is estimated at \$150,000 to \$200,000, of which about \$50,000 falls on insurance offices in Wall street, New York. It is not known how the fire originated. Much distress has been produced by this conflagration—many have lost their all.

WONDER.—Having observed a Cow pasturing in the Court House Yard, it is wondered by some of our citizens which of our country officers is about to engage in the milk business.

POSTPONEMENT OF THE NATIONAL COMMON SCHOOL CONVENTION.

At the suggestion of several State Superintendents and other influential friends of the cause of popular education, in different sections of the Union, the meeting of the National Convention of the friends of Common Schools, which was to have taken place in this city on the 22d inst., has been postponed to the 17th of October, on account of the prevalence of the Cholera throughout the country.

Officers of Conventions or Associations which have appointed delegates, will please forward to the Corresponding Secretary the names of persons appointed as delegates.

By order of the Local Committee of Arrangements.

JOS. R. CHANDLER, Chairman.

ALFRED E. WRIGHT, Cor. Sec'y.

Philadelphia, Aug. 1, 1849.

BE UNPREJUDICED.—Let no foolish persons be so prejudiced against this truly celebrated medicine to despise this advice; let it be used immediately on pain being felt, no matter where it may be, whether in the head or foot, whether it be in the back or abdomen, whether arising from external or internal cause, use the Brandreth's Pills, and rely upon it, that the pain will go, the body will be restored to health as soon as nature has received sufficient assistance from their effect.

The quantity of impure humors discharged from the body by the action of the Brandreth's Pills, is replaced in the course of a few hours with new and pure blood, by the digestion of a moderate meal. By purging the body with this medicine the whole mass of blood becomes entirely purified and regenerated.

Thus the blood is the life of the body, I presume is undisputed, therefore I shall say that it being the SEAT OF LIFE, it must also be the seat of disease. If disease be in the blood, we should abstract the disease only, not the blood. It is the impurities which must be removed by purgation to secure our health, in all states of the weather, in all situations, and in all climates. The blood, like a good spirit, is always trying to benefit the body by its struggles to expel impurities. But it is not capable to effect its own purification at all times: to do this it must often have assistance. When the blood is loaded with impurities, especially in this climate, the consequence may be fatal in the head, and in not particular cases, and this is sure to be effected if Brandreth's Pills are used.

Purchase the genuine medicine of the following agents: JOHN A. STERETT, Lewistown; William Hardy, McVeytown; Jones & Livingston, Huntingdon; Moore & Savage, Altoona; A. & N. Cravens, Pottsville; Lewis, SARGENT & Co., Manchester; T. M. Owens, Birmingham.

THE NEW YORK TRIBUNE.—This sterling whig paper still maintains its position at the head of the newspaper press of this country. We know of no other journal in the country conducted with the same amount of talent and energy. In a prospectus, recently published for 1850, the proprietors say:—

"The Tribune is now too widely known to need special elucidation. Its conductors aim, and believe they are enabled, to furnish a larger amount and variety of information in a year, whether in its Daily, Semi-Weekly, or Weekly issue, than can be obtained as cheap in any other form. They endeavor to make their Daily at \$5 each in every thing but advertisements to any \$10 Daily in the world; so of their Semi-Weekly at \$3, and their Weekly at \$2, which is afforded to clubs at very reduced prices. Having no other than advance subscribers, sending no papers except for cash actually paid, and favored with a subscription almost if not quite without parallel, they are enabled to incur expenses for Literary Assistance, Correspondence, Telegraphing, etc., which very few can afford.

Sarsaparilla!

None of your sour, fermenting stuff, Well whose is it! Why, it is not Old Dr. Jacob Townsend's. When those who say it is not Dr. S. P. Townsend's. (Whose upon earth is it then!) I will tell you: it is that which is made in strict accordance with the U. States Pharmacopoeia laid down by the Medical Faculty. There is more Sarsaparilla in one quart of this than in four quarts of either of the Townsends'. Every Physician in the United States knows how it is manufactured, and to those who refer for the genuineness of the above compound Syrup of Sarsaparilla. It is for sale by the pint, quart, gallon, or any amount desired. Prepared and sold at GREEN'S Medical Depot, No. 11, Lewistown, Pa. October 6, 1849.
