

THE GAZETTE. LEWISTOWN, PA. SATURDAY, OCTOBER 20, 1849.

TERMS: ONE DOLLAR PER ANNUM. For six months, 75 cents. All NEW subscriptions must be paid in advance.

For markets, see last column of next page.

Completion of Volume III. The present number of the Gazette completes three years since we came into possession of the office.

Since the adoption of our system of receiving no new subscribers without payment of a year's subscription in advance, and striking from our list a large number who probably never intended to pay, we have found it works so well that we shall adhere to it as rigidly as ever.

We have a considerable amount of money standing on our books for advertising and job work—all of which ought long since to have been paid.

As to the future, we have but little to say. Our past course indicates what it will be; and if improvement in type or enlargement of the paper be called for, it can only be accomplished by prompt payment of all dues, whether subscription, advertising, or job work.

Five Irishmen were arrested at this place a few days since, charged with having committed a rape in Juniata county.

Another prisoner in our jail gave leg-bail to the keeper on Wednesday morning. We begin to think that the concern had better be shut up, and the county saved the expenses incident to a building of the kind.

The Hollidaysburg Register has put on a new dress, in which we hope it will attract lots of beaux and belles in the shape of subscribers and advertisers.

Miss FILLMORE, a daughter of the Vice President of the United States, recently received an appointment as teacher in one of the public schools of Buffalo, and is now acting in that capacity.

COURT OF INQUIRY.—A Military Court of Inquiry, consisting of Major General R. C. Hale, of Lewistown, Gen. Jas. G. Reed, of Gettysburg, and Gen. Samuel D. Karns, of Harrisburg, met in Bloomfield on Thursday afternoon, the 11th instant.

Our business men, and others, are referred to the advertisements of Messrs. CRAIG & BELLAS, Agents for the Pennsylvania Railroad and Commission Merchants.

The Central Railroad.—We invite attention to the advertisement of Craig & Bellas, who state the rates at which they will transport freight from this point to Lewistown, via the Pennsylvania railroad, and thence to any point south or west.

Notice of Advertisements. Our business men, and others, are referred to the advertisements of Messrs. CRAIG & BELLAS, Agents for the Pennsylvania Railroad and Commission Merchants.

The Commissioners of the Union Hall Company will meet on the 22d inst. The Administrators of Geo. W. OLIVER publish a notice.

Election Returns. OFFICIAL RETURNS Of the Election held in Mifflin County, on Tuesday, October 9th, 1849.

Table with columns for County, Precinct, Candidate, and Votes. Includes precincts like East Ward, West Ward, and various townships.

Official Returns for Canal Commissioner.

Table with columns for Name, Gamble, Fuller, and Votes. Lists names like Allegheny, Adams, Armstrong, Berks, etc.

Kimber Cleaver, the Native American Candidate, received the following vote—Phila. city and county, 2,513; Montgomery, 82; Berks, 2; Dauphin, 45; Allegheny, 523; Northumberland, 62.

We have not added the above figures, but suppose that Gamble's majority will reach from 12,000 to 15,000.

Centre County.

Table with columns for Name, Pack, Cur, Milesburg, and Votes. Lists names like Bellefonte, Boggs, Ferguson, etc.

Huntingdon County.

Table with columns for Name, Gamble, Fuller, and Votes. Lists names like Henderson, Dublin, Warriorsmark, etc.

Mexican volunteers. Lieut. Doyle was a gallant officer in the service, while the locofoco candidate staid at home, yet every effort was made to defeat the man who had faithfully served his country—but, we are glad to say, in vain.

Commissioner—Peightel, whig, 1748; Chaney, loco, 1322. Auditor—Fisher, whig, 1765; Carl, loco, 1288.

Locofocoism is tottering under popular condemnation—and under such auspices, we ask it to be wondered at that Locofocos Tremble. The above paragraph, which appeared in our columns while the Gazette was in charge of one of our hands, is seized upon by our neighbor of the True Democrat with more than ordinary relish, and he exultingly refers to Tennessee, Indiana, Iowa, North Carolina, Connecticut, Virginia, Texas, Kentucky, Maryland, Georgia and Pennsylvania, and then avows that he will be satisfied "to continue tottering after the same fashion."

There was a time within the recollection of even young men, when the self-styled democratic party, professing to stand upon principle, refused to amalgamate with any faction, but who stands the case in most of the States referred to! In the south that party panders to the slaveholding interest, even while it threatens to dissolve the Union; in Connecticut it boldly coalesced with the abolitionists; in Vermont it did the same, but failed to succeed; in Ohio it entered into a coalition with free soilers, both selling themselves like sheep in the shambles; in New York the several factions have united—not on principle, for there they differ wide as the poles—but, as was openly avowed, for the sake of plunder; and in our own State we have even seen them making advances towards a reconciliation with the "church burners," as our locofoco friends used to delight in designating the natives! We might refer to other instances, but these are sufficient to show that, notwithstanding its apparent success, modern "Democracy" is in a more tottering condition than its advocates are perhaps willing to allow, when any and everything that is willing to bargain and intrigue with it to prevent an inglorious defeat.

A bitter controversy has been going on for some time past among the colored Daughters of Temperance at Harrisburg. In a recent reply issued by one of the parties, James McCrummell, the founder of the order, is styled a male Daughter of Temperance!

WOUNDED WHILE DEFENDING.—Several thefts having been committed in the workshop of Mr. Albertson, a resident of Rowandtown, Camden co., New Jersey, a number of boys contrived to place an old musket so that it would shoot the intruder if he again attempted his thefts. In the night the gun was discharged, and a young man who has always been esteemed and respected, received the charge in his face, mutilating him in a dreadful manner. As soon as he was wounded he attempted to staunch the blood with a piece of cloth, and after much trouble, at last succeeded in reaching the barn, and hid himself in the hay. He was finally discovered and arrested, and is now confined in Camden jail.

EXPLOSION.—The Hollidaysburg Standard, of Oct. 10, says: One of the boilers at the head of Plane No. 10 blew up on Saturday morning last, scalding Mr. J. Funk severely, and throwing him about three rods. One of Mr. Leech's carmen, a dutchman, was also badly scalded, and the assistant engineer was thrown from the door on to the track.

The bursted boiler was thrown one-third way down the Plane, and the others raised completely out of their beds. The stack was blown to atoms, the shed blown and burnt up, and the rest of the building saved with great difficulty. No cause can be assigned for the explosion. The passenger car was hitched to the rope at the foot ready to ascend, and while the engineer was watching for the usual signal to let on the steam, the explosion occurred. Had the car been at the head instead of the foot, there is no telling the loss of life which might have resulted from the falling of the stack and shed.

A WONDER IN CALIFORNIA.—One who has just returned from the "El Dorado," says that a gentleman rather dandily dressed, and having white kid gloves on his hands, appeared a few months since in the streets of San Francisco, and made a prodigious "sensation." The white kids were the first that had been seen there, and at once attracted the attention and excited the curiosity of even the busy gold diggers. A crowd soon gathered around the man in gloves, and expressed their determination to dispose of him by raffle, as being the greatest curiosity in the country!

NEW JERSEY RAILROADS.—There is much excitement in New Jersey, on the subject of the monopoly of railroads and canals, which the Legislature of that State granted to certain companies some years ago. The conditions of their charters were, if they (the companies) would pay to the State the interest on \$200,000 worth of stock, and transit duties on all passengers and freight, the State would guarantee to the companies, that no road should be made through it, to compete with their road. The Legislatures of 1835, '36 and '37 re-affirmed the contract. The transit duties now paid to the State amount to about \$80,000. An effort is making to set aside these contracts as unjust and unconstitutional. In the New York and Philadelphia papers an appeal is published by Commodore Stockton, in relation to the joint companies of the Camden and Amboy Railroad and the Delaware and Raritan Canal Company, in which he states that he invested the whole of his fortune, amounting to \$400,000, in these companies, under the contract with the State of New Jersey, and complains of the efforts to induce the State to repudiate their contract. As Commodore Stockton is a good locofoco, he ought not to complain when a practical illus-

tration is given him of locofoco doctrines respecting monopolies.

Latest Foreign News.

The steamer Niagara, Capt. Ryrie, arrived at Halifax on Wednesday morning, with Liverpool papers to the 6th instant.

The European Times contains reports of the unfavorable appearances of the potatoes in Ireland. By far the most important political news by this arrival, is the possible and even probable rupture of Russia and Austria by Turkey. It forms the chief topic of discourse in the English and French Journals, as well as amongst all classes, and in its paramount importance, the Roman difficulty, as well as all other matters of national importance, appears to have been almost wholly lost sight of.

The most recent accounts from Constantinople state that the Emperor of Russia has made a formal demand through a special envoy to the Porte for the surrender of Kossuth, Bem and other patriots, who played a prominent part in the late Hungarian struggle, and who have sought refuge at Widdin, on the Danube, in the territories of the Sultan.

The Turkish government, with a manliness which cannot be too highly commended, refused to be bullied into a compromise of its independence, and Prince Rodjaf, after having ineffectually endeavored to bully the Sultan into a compliance of his demands, has taken an abrupt departure from Constantinople, and Count Tioff, the Russian Minister, has closed all diplomatic relations with the Porte.

The Paris Journal des Debats of Thursday says: "We are glad to learn that England and France are most cordially united in their determination to support their Ambassadors in the advice given by them to the Porte, respecting the extradition of the Hungarian refugees."

There has continued a moderate demand for cotton during the past week, and the market remains at the same position as at the sailing of the Calcutta.

The demand for breadstuffs has been limited, and prices have a declining tendency.

ADDRESS OF THE PEOPLE OF CANADA IN FAVOR OF ANNEXATION TO THE UNITED STATES.—The people of Montreal favorable to the annexation of Canada to the United States, have issued an address in favor of that project. The address is of considerable length, and brings up for brief discussion various remedies which have been proposed for the amelioration of the present depressed and suffering condition of Canadian commerce and industry.

The New State of Bserect.

The boundaries of this new State, recently formed by the Merions, around the region of the Great Salt Lake, unknown ten years ago, are thus defined: Commencing at the 33 deg. north latitude, where it crosses the 103 deg. longitude, west of Greenwich; thence running south and west to the northern boundary of Mexico; thence west to and down the main channel of the Gila River, on the northern line of Mexico, and on the northern boundary of Lower California to the Pacific Ocean; thence along the coast northwesterly to the 119 deg. 30 min. of west longitude; thence north to where said line intersects the dividing ridge of the Sierra Nevada mountains; thence north along the summit of the Sierra Nevada mountains to the dividing range of mountains that separate the waters flowing into the Columbia River from the waters running into the Great Basin; thence easterly along the dividing range of mountains that separate said waters flowing into the Columbia River on the north, from the waters flowing into the Great Basin on the south, to the summit of the Wind River chain of these mountains; thence southeast and south by the dividing range of mountains that separate the waters flowing into the Gulf of Mexico, from the waters flowing into the Gulf of California, to the place of beginning, as set forth in a map drawn by Charles Preuss, and published by order of the Senate of the United States, in 1848.

AFFAIRS IN MINNESOTA.—The St. Paul Chronicle and Register, of September 22, gives various correspondents sundry information in regard to Minnesota and its capabilities. We copy a portion of its remarks:

"Minnesota is a good country. All it wants is improvement. Nature has done her part well, and we know of no place where a man can do better with the same labor and means. Capital can be invested profitably in various ways. The farming business we think the best at present, as we have yet but few farmers, and produce is high. This state of things must continue for some time to come, as the increased demand will keep pace with the supply. There is no richer soil in the world, nor a country better adapted to all kinds of farming than the 'Prairie' between here and Point Douglas."

"The winters are long. It is true, but the ground is invariably covered with snow six or eight inches deep, from December until March. It is cold, but dry, and good sleighing during the winter. Very little mud at any time, as the soil is composed of loam and black sand. There is less wind than in Illinois during the winter; and all those who have been here during the winter prefer it to a more southern latitude, where the weather is more variable. Mechanics of almost all kinds are wanted, especially house builders. Enterprising artisans of small means could acquire property and grow up with the country. The lumber business is becoming one of great importance; it might now be profitably extended, and still more as the population increases. With regard to mercantile pursuits, we think the prospect not equal to many other avocations, the capital now employed being equal to the demand; but as numbers increase, so will the demand for merchandise."

BE UNPREJUDICED.—Let no foolish person be so prejudiced against this now truly celebrated medicine as to despise this advice; let it be used immediately on pain being felt; no matter where it may be, whether in the head or feet, whether it be in the back or abdomen, whether arising from external or internal cause, use the Brandereth's Pills, and rely upon it, that the pain will go, the body will be restored to health, as soon as nature has received sufficient assistance from their effect. The quantity of impure humors discharged from the body by the action of the Brandereth's Pills, is replaced in the course of a few hours with new and pure blood, the digestion of a moderate meal. By purging the body with this medicine the whole mass of blood becomes entirely purified and regenerated.

That the blood is the life of the body, I presume is undisputed, therefore I shall say that it being the SEAT OF LIFE, it must also be the seat of disease. If disease be in the blood, we should abstract the disease only, not the blood. It is the impurities which must be removed by purgation to secure our health, in all states of the weather, in all situations, and in all climates. The blood, like a good spirit, is always trying to benefit the body by its struggle to expel impurities. But it is not able to effect its own purification at all times; to do this it most often has assistance. When the blood is loaded with impurities, especially in this climate, the consequences may be fatal, provided the blood is not purified at once, and this is sure to be effected if Brandereth's Pills are used. Purchase the genuine medicine of the following agents: JOHN A. STERETT, Lewistown; William Hardy, McVeytown; Jones & Swington, Huntingdon; Moore & Seape, Alexandria; A. & N. Crosswell, Petersburg; Hartman, Smith & Co., Manassahill; T. M. Owens, Birmingham.
