Poetry.

SONNET. BY SHAKESPEARE. No longer mourn for me when I am dead, Than you shall hear the surly sullen bell Give warning to the world that I am fled From this vile world, with vilest worms to dwell: Nay, if you read this line, remember not The hand that writ it; for I love you so, That I in your sweet thoughts would be forgot, If thinking on me then should make you woe. O if I say you look upon this verse, When I perhaps compounded man with clay, Do not so much as my poor name rehearse, But let your love even with my life decay: Let the wise world should look into your morn, And mock you with me after I am gone.

and asked him to look if it was empty—it was. Mr. Anderson brought some water, and in the Prince's hand, filled it, ordered glasses, and asked the Prince what wine he preferred. Port was selected. The Prince poured port, and then sherry, then milk, then champagne, then broke the bottle, and in it was discovered a beautiful turtle-dove.—Caledonia Mercury.

THE Girard Life Insurance Annuity and Trust Company of Philadelphia, Office No. 159 Chesnut Street. Capital \$300,000. Charter Perpetual. CONTINUE to make Insurances on Lives on the most favorable terms; receive and execute Trusts, and receive deposits on interest. The Capital being paid up and invested, together with accumulated premium fund, affords a perfect security to the insured. The premium may be paid in yearly, half yearly, or quarterly payments. The Company adds a BONUS at stated periods to the insurances for life. This plan of insurance is the most approved, and is more generally in use than any other in Great Britain, (where the subject is best understood) by the people, and where they have had the longest experience. As appears from the fact that out of 117 Life Insurances contracted there, of all kinds, \$7 are on this plan. The first BONUS was appropriated in December, 1844, amounting to 10 per cent. on the sum insured under the oldest policies; to 8 1/2 per cent. 7 1/2 per cent. &c., &c., on others, in proportion to the time of standing, making an addition of \$69,500; \$75,000, &c., to every \$1000, originally insured, which is an average of more than 50 per cent. on the premium paid, and without increasing the annual payment to the company. The operation of the Bonus will be seen by the following example from the Life Insurance Register of the Company, thus:

of one and a quarter inch calibre, and intends to keep a supply on hand at all times. The subscriber is determined to make the ware out of the very best material that can be procured; and for the accommodation of distant purchasers, keeps wagons and horses for the purpose of delivering stoves at any point within eighty miles, free of any additional charge. All the stoves are warranted to stand the fire and perform well, and if not, the money will be refunded on their return; if a plate should break or crack, it will be replaced free of charge. There is connected with the Foundry, a Tinning Establishment, for manufacturing Tin Ware of every Kind, where purchasers will please call.

Great Attraction!

STOVES! STOVES!! Improved Hathaway. THIS great improvement, just got up, are satisfied stands unequalled, for general use, and simplicity of arrangement, by any Cooking Stove yet offered to the public. To be satisfied of this, we think it needs but to be seen. It is a regular Hathaway, of the size now generally in use in this country, with the following improvements, viz: 1st. It is so arranged that a stout Sheet Iron Oven can be put in at the top, back of the fire, (the flame passing under it,) sufficiently large to do ordinary roasting or cooking, and is heated as quick as the fire is cleverly burning; thus avoiding the necessity of heating up the regular oven for ordinary purposes, which often when heated, requires as much fire to do a small roast as would do a large amount of cooking. Further, the small oven being loose, can be put in or taken out at pleasure with very little trouble. When much cooking is required, it can be kept out, and the stove is then the same as a regular Hathaway. 2d. The Griddles are improved, so that the top is smoother, the wire handles being dispensed with, and a loose handle used to lift them off. 3d. The damper is much more convenient, by being placed in the side instead of the back. 4th. The bottom flue is the Laubach, so arranged that the draft is the same as the Hathaway. N. B. We warrant this stove in every particular. We have also on hand a large assortment of other valuable Cooking Stoves, consisting of the Star, two sizes, at \$20 to \$22; Complete Cook, at \$13; and Laubach, two sizes. Also, the Prime, Keystone, and Etna Air-Tight, for wood or coal, at from 16 to 25 dollars. AIR-TIGHT PARLOR STOVES.—A large assortment, of beautiful patterns. COAL STOVES.—For parlors, offices, and chambers. A large assortment of handsome styles, from \$3.50 up. NINE-PLATE STOVE.—From 20 to 28 inches. A heavy 28 inch at \$5.50. To all who want stoves we would say come and examine our stock. F. J. HOFFMAN, Lewistown, Sept. 29, 1849.

Afflicted Read!

Philadelphia Medical House, ESTABLISHED 15 years ago, by DR. KINKELIN. The oldest, surest and best hand to cure all forms of secret diseases of the skin, and hereditary taints of youth is DR. KINKELIN. Northwest corner of THIRD and UNION Streets, between Spruce and Pine, a square-and-a-half from the Exchange, Philadelphia. TAKE PARTICULAR NOTICE. There is a habit which boys teach each other at the Academy or College—a habit indulged in when by himself, in solitude, growing up with the boy to manhood; few of those who indulge in this pernicious practice are aware of the consequences until they feel the nervous system shattered, feel strange and unaccountable feelings, vague fears to the mind. The individual becomes feeble, he is unable to labor with accustomed vigor, or to apply his mind to study; his step is tardy and weak, he is dull irresolute. Persons of all ages can now judge what is the cause of their declining health, losing their vigor, becoming weak, pale and emaciated. YOUNG MEN! Let no false modesty deter you from making your case known to one who, from education and respectability, can alone benefit you. He who places himself under Dr. Kinkelin's treatment, may religiously confide in his honor as a gentleman, and in whose bosom will be forever locked the secret of the patient. Thousands have been restored to health, from the devastations of those terrific maladies by DR. KINKELIN, German Physician. PACKAGES OF MEDICINES, ADVICES, &c. forwarded, by sending a remittance, and put up secure from damage or discovery. For-Paris-Letter answered forthwith. Philadelphia, January 27, 1849—1y.

Miscellaneous.

A PLEASANT SURPRISE. A young man, of eighteen or twenty, a student in a university, took a walk one day with a professor, who was commonly called the student's friend, such was his kindness to the young men whom it was his office to instruct. While they were now walking together, and the professor was seeking to lead the conversation to grave subjects, they saw a pair of old shoes lying in the path, which they supposed belonged to a poor man who was at work in the field close by, and who had nearly finished his day's work. The young student turned to the professor, saying, 'let us play the man a trick; we will hide his shoes and conceal ourselves behind those bushes, and watch to see his perplexity when he cannot find them.'

'My dear friend,' answered the professor, 'we must never amuse ourselves at the expense of the poor. But you are rich, and you may give yourself a much greater pleasure by means of this poor man. Put a dollar in each shoe, and then we will hide ourselves.' The student did so, and then placed himself with the professor behind the bushes hard by, through which they could easily watch the laborer, and see whatever wonder or joy he might express. The poor man soon finished his work, and came across the field to the path, where he had left his coat and shoes. While he put on the coat, he slipped one foot into one of his shoes; but feeling something hard, he stooped down and found the dollar. Astonishment and wonder were seen upon his countenance; he gazed upon the dollar, turned it around and looked again and again; then he looked around on all sides, but could see no one. Now he
