JONES' NEW CHEAP CASH STORE continues to be the great resort of all JUNES people in want of good and cheap goods of every description. Goods are sold at this store at least TWENTY PER CENT. lower than any other store in Lewistown; the purchases being made in Philadelphia and New York for cash of the importers and manufacturers, enables the subscriber to get goods lower than all other merchants, as he buys in quantities sufficient to make at least ten per cent.; and again, the amount of his business being much larger than any other store, and nearly equal to the business of all the others combined, enables him to sell at a very small profit, and he does assure the people of Lewistown and of the surrounding country that he will continue this system of business, and respectfully nvites the attention of the public to his

arranged in his commodious show rooms. The stock of goods is the largest, and the assortment the most extensive by far, of any other establishment between Philadelphia and Pittsburg, and comprises every article wanted. Many kinds of goods are kept in this store not to be found in other places, and will positively be sold at Philadelphia prices.

Please remember that it is a custom amongst storekeepers generally, to put down the prices of leading articles, such as Sugars, Muslins, &c., for the purpose of giving the public the im-pression that they are selling goods very cheap. This is one of the tricks of trade, and is not practiced at this establishment All articles will be offered at the same rate of profit. Broad Cloths will be sold at very small advance as well as fip Sugar. Enough said, call and see for yourselves, and be convinced of the above facts. C. L. JONES.

Unlike young S. P. Townsend's, it improves with age, and ever changes, but for the better : because it is prepared as scientific principles by a scientific man. The highest knowledge of Chemistry, and the latest discoveries of the art, have all been brought into requisition in the manufacture of the Old Dr's Sursaparilla. The Sarsaparilla root, it is well known to medical men, contains many medicinal properties, and some properties which are inert or useless, and others, which if retained in preparing it for use, produce fermentation and acid, which is injurious to the system. Some of the properties of Sarsaparilla are to rotatist, that they entirely evaporate and are lost in the preparation, if they are not preserved by a scientific process, known only to those experienced in its manufacture.
