

FOREIGN NEWS.

By the Steamer Niagara at Boston.

France. An Aid-de-camp of Gen. Baraguay de Hilliers has just reached Paris with important despatches—the nature of which has, in part, transpired. It would seem that there is little likelihood of an understanding being come to between the gallant General and the government of the Cardinals, owing to the manifest jealousy of French influence, entertained by the latter, while the Cardinals are for placing the Pope under the protection of a mixed garrison of Austrians and Italians. Gen. De Hilliers insists upon having a French force of 12,000 men in the city of Rome. This proposition has been met by the Cardinals with a decided refusal, and affairs are as far as ever from being arranged.

The French Funds continue to rise.—The five per cents have reached 92 1/2.

Austria. The Breslau Gazette, of the 6th, says that the public mind in Vienna is much taken up with reports of a coup d'etat—reports which are even current in military circles. The day named for putting it into effect, was the 6th or 7th instant. The military measures are really formidable.

Within a circle of six miles around Vienna, the houses are full of soldiers. There are at least 50,000 men in Vienna, and 50,000 more could be procured by the railways in the course of three or four days.

The reply of the Austrian Cabinet to a note from Prussia, on the subject of the Erfurt Assembly, is as follows: The Austrian Cabinet is sorry to find that its former communications, instead of producing the desired effect upon Prussia, have elicited replies which, though evasive, are full of significance. In its former remonstrances, the Austrian Cabinet fully stated its view of the question, and of the step which Prussia was taking.

Since these remonstrances were unheeded, Austria will not condescend to wage a war of words with the Prussian Cabinet, but reserving all her objections, protests, and rights till a further opportunity, she wishes it to be understood that her silence is not to be construed into an acquiescence with the Prussian project, nor with a dereliction of her rights.

Gen. Count Urina, who commanded the Imperialists when they were defeated at Raab by the Hungarians, has committed suicide at Verona.

The typhus fever was raging fearfully at Verona, on the 20th ult. No less than thirty medical men had been seized with it from visiting their patients.

Prussia. BERLIN, Jan. 7.—It is understood that the ministerial crisis was over, and that on this day the Chambers would receive a Royal message, proposing the oath to be taken to the Constitution, and accepting the same, with some slight amendments.

Turkey--The Hungarian and Polish Refugees. The correspondent of the London Times, under date of Dec. 19th, says: A courier has arrived here from St. Petersburg, with the Emperor's answers to the last communication made to his Imperial Highness, by the Sublime Porte, with regard to the questions of the Polish and Hungarian refugees.

In a former letter I told you that the Turkish ministers were willing to consent to the expulsion of the Poles who had been concerned in the late Hungarian insurrection, but that they objected to the expulsion of the Polish Refugees who were resident in Turkey previously to that event, and who were provided with French and other passports.

The Czar has agreed to the terms proposed by the Porte, and Dembinski and the other Poles who served in Hungary are to be expelled. Their countrymen resident in Turkey, who were not concerned in that insurrection are to remain unmolested.

If, however, any one, without reference to the country under whose protection he may be, shall, whilst resident in the Ottoman Empire, be guilty of any act hostile to the government of the Emperor Nicholas, he shall, at the demand of the Russian Envoy, be expelled from the Sultan's dominions.

Kossuth and the Hungarian refugees are to be confined in a fortified tower in the interior. They are not to be close prisoners; but their place of residence will be under the constant surveillance of the Turkish authorities.

The correspondent of the Morning Herald, however, writing on the same day, asserts that the Emperor of Russia has refused to accept the Sultan's guaranty for the conduct of the Poles, and that the matter is as far from being settled as ever.

The trial of David Knepley, for the murder of his father, was commenced in Harrisburg last week, and is now progressing slowly. The plea of the defence will be insanity, as is usual in such cases.

A New York letter of Saturday evening, published in the Philadelphia American says—about 120 officers of various grades have been discharged from the Custom House today, in order to meet the reduced expenses for collecting the revenue.

The steamer St. Joseph, from New Orleans, blew up and burnt to the water's edge on the 23d ult., near Napoleon, at the mouth of Arkansas river. The St. Joseph had on board a large cargo and a number of emigrants. Fifteen persons were killed outright, and thirty-eight horribly scalded—many of whom have since died.

A riot of a serious character took place at Poughkeepsie, N. Y., on the 29th Jan. among the Irish portion of our population. The military were called out, and seventy of the rioters arrested. Several persons were very badly hurt. One man who was shot, is not expected to recover.

MECHANICS WANTED WEST.—The Batesville (Ark.) Eagle says that place stands in need of a tin and cooper smith, saddle and harness maker, house, sign and ornamental painter, silversmith and chairmaker. There is also a demand for more bricklayers, stone masons, carpenters, shoemakers, blacksmiths, house gardeners and a barber.

The election at Quebec, Canada, closed with the following result: The Ministerial candidate received 1500 votes, and the Annexation candidate 800 votes.

There will not be a total eclipse of the sun in any part of America, until the 7th of August, 1859—20 years.

OPPRESSIVE TAXATION.—We learn from the Wisconsin papers, that the taxes of that State are so heavy, that many of the collectors have given up their commissions, rather than incur the odium of enforcing the collection.

THE ASTOR LIBRARY.—The work of constructing the Astor Library building, in Lafayette Place, New York city, has at length commenced.

COLD.—Don't suffer with the cold, but proceed at once to C. L. JONES' celebrated New Cheap Cash Store, and buy some warm clothing. Jones has a very large stock, and sells much cheaper than any body else.

ECONOMY.—The amount of money deposited in the Savings Bank of Great Britain is over £21,000,000 sterling, or more than one hundred millions of dollars! This is an enormous amount of money, and the savings of many who have labored hard, and by pursuing a habit of strict economy they have succeeded in maintaining themselves handsomely, and laid up a competency for old age. The question then arises, what is true economy? In the exercise of economy it is essential to have good judgment—a correct notion of matters and things. Every individual has in the course of a life time to purchase a large amount of goods, even if for his or her own support, merely. It will, in the course of years, amount to a considerable sum. Then the way to practice economy in this respect is to buy for cash, as it is very dangerous to go into debt, particularly with the storekeepers. Buy for cash, and buy always good goods, and at the lowest prices; and to enable the public to get goods of every grade and quality, at the lowest possible prices that they can be sold over the cost of manufacturing, C. L. JONES is conducting a large establishment on the CASH SYSTEM, and his business has now grown to such an enormous extent that he buys nearly all his goods directly of the importers and manufacturers for cash, and sells them at the smallest considerable profits, and in this way he is enabled to sell his goods at least TWENTY PER CENT. lower than all other merchants. Let any one make a calculation of the amount of goods they would probably buy in one year, and they will find that 20 per cent. or one-fifth of the amount would be a considerable item. Let this run on for some years, and they will have a sum saved in amount of no little consequence.

It is now admitted by all other merchants, as well as by the public generally, that C. L. JONES has the largest and best selected stock of goods ever shown before in Lewistown, and that he can undoubtedly buy goods cheaper than any other merchant—his business being so large and purchasing in such immense quantities.

Country persons visiting Lewistown to purchase goods for cash will soon be convinced of the foregoing facts, by calling at the Celebrated New Cheap Cash Store of C. L. JONES, and in proportion to the population of this country with Great Britain, the amount of savings might be quite equal, and probably greatly exceed the estimate made.

Among his stock they will find an assortment of CANE SEAT CHAIRS, which are sold for CASH, cheaper than they have ever been sold in this place.
