It is also we think the very best remedy in Dyspepsia, and if our directions are followed, will not fail to effect

a cure. In a letter dated, May 23d, 1849, our Agent, Mr. Elias Raub of Wrightsville, York county, Pa., says :- I have never known any remedy for *Fover and Ague* equal to your invaluable National Tonic. It has given universal satisfaction, and has cured cases of Ague of years stand-ing, and after the failure of all other medicines made use of. Mr. Henry Beverson, of the same place, says in his certificate, dated 22d March, 1849, 'I applied to a number of Physicians, and also used a variety of the most popular Ague Mixtures at different times, but all without the har Ague Mixtures at different times, but all without the desired effect; no permanent cure having been afforded. I was at length induced, at the recommendation of your worthy Agent at this place, to try a bottle of your Na-tional Tonic, and to my great satisfaction, before I had used haif of it, I felt completely cured, though I contin-ned the use of it till I had taken two bottles.' In a joint curtificate form Merger Mike Hoke William Blackson certificate from Messrs. Miles Hoke, William Blackson, and James D. Brown, of the same place, they say-'Hav-ing tried nearly all the remedies within our reach with-out success, we at last purchased some of your National Tonic, which has completely cured us. We, therefore, cheerfully recommend it to the notice of all persons af-flicted with that terrible disease as the best remedy yet discovered.

Their power over the above diseases is not excelled-if equalled—by any other preparation in the United States as the cures attest, in many cases after skilful physicians had failed.

These Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of diseases of the Liver and lesser glands, exercising the most search-ing powers in weakness and affections of the digestive organs, they are withal, safe, certain and pleasant

"A GREAT MEDICINE."

"We have uniformly refrained from recommending to the public any of the various Patent Medicines of the

day, unless thoroughly convinced of their value. Among

those we consider worthy of notice is the German Bitters, invented by Dr. Hoofland, and prepared by Dr. Jackson,

in Philadelphia. One instance in particular, in which the superior virtues of this medicine has been tested, has fai-len under our observation. During the last summer, a

son of MR. ABRAHAM GRABILL, of this county, was very

seriously afflicted with Liver Complaint, and after trying in vain various remedies, he purchased a bottle of the

Bitters, and after using it, was so much relieved of his

distressing malady, that he procured another bottle, and is restored entirely to health."

OER," January 5, 1850 "Dr. Hoofland's German Bitters .-- Here is a prepara-tion which the leading presses in the Union appear to be unanimous in recommending, and the reason is obvious It is made after a prescription furnished by one of the most celebrated physicians of modern times-the late Dr. Christopher Wilhelm Hoofland, professor to the Uni-Dr. Christopher Whitein Hoohand, processor to the Uni-versity of Jena, private physician to the king of Prussia, and one of the greatest medical writers Germany has ever produced. He was emphatically the enemy of *humbug*, and therefore a medicine of which he was the inventor and endorsor may be confidently relied on. He specially recommended it in Liver Complaint, Dyspepsia, Debility, Vertigo, Acidity of the Stomach. Constipation, and all complaints arising from a disordered condition of the stomach, the liver and the intestines. Nine Philadelphia papers express their conviction of its excellency, and several of the editors speak of its effects from their own individual experience. Under these circumstances, we feel warranted, not only in calling the attention of our readers to the present proprietor's (Dr. C. M. Jackson's) prepara-

tion, but in recommending the article to all afflicted.

MORE EVIDENCE.

The "PHILADELPHIA SATURDAY GAZETTE," the best family newspaper published in the United States. The editor savs

Dr. Hoofland's German Bitters: "It is seldom that we recommend what are termed Pat-ent Medicines to the confidence and patronage of our readers; and, therefore, when we recommend Dr. Hoofland's German Bitters, we wish it to be distinctly understood that we are not speaking of the nostrums of the day, that are noised about for a brief period and then forgotten after it has done its guilty race of mischief, but of a medicine long established, universally prized, and which has met the hearty approval of the faculty itself."

Evidence upon evidence has been received (like the foregoing) from all sections of the Union, the last three years, and the strongest testimony in its favor, is, that there is more of it used in the practice of the regular Physicians of Philadelphia than all other nostrums combined, a fact that can easily be established, and fully proving that a scientific preparation will meet with their quiet approval when presented even in this form.

That this medicine will cure Liver Complaint and Dyspepsia, no one can doubt after using it as directed. It acts specifically upon the stomach and liver; it is preferable to calonicl in all bilious diseases-the effect is immediate. They can be administered to FEMALE OF INFANT with safety and reliable benefit, at any time. BEWARE OF COUNTERFEITS.

This medicine has attained that high character which is necessary for all medicines to at-tain to induce counterfeiters to put forth a spurious article at the risk of the lives of those who are innocently deceived. Look well to the marks of the genuine.

They have the written signature of C. M. JACKSON upon the wrapper, and the name blown in the bottle, without which they are spurious.

THE ORIGINAL DISCOVERER OF THE Genuine Townsend Sarsaparilla.

Genuine Townsend Sarsaparilla. Oid Dr. Townsend is now about 70 years of sge, and has fong been known as the AUTHOR and DISCOFERER of the GENUINE ORIGINAL "TOWNSEND SAR-SAPARILLA." Being poor, he was compelled to limit its imanufacture, by which means it has been kept out of mar-ket, and the sales circumseribed to those only who had proved its worth, and known its value. It had reached the enrs of many, nevertheless, as those persons who had been healed of sore diseases, and saved from desth, pro-claimed its excellence and wonderful <u>HEALING POWER</u>. Knowing, many years ago, that he had, by his skill, sefine and experience, devised an article which would be of incaiculable advantage to markind when the means util be furnished to bring it into universal notice, when its inestimable virtues would be known and appreciated. This time har come, the means are supplied; this *GRAND AND UNEQUALLED PREPARATION* is manufactured on the largest scale, and is called for

throughout the length and breadth of the function, Ba it is found incapable of degeneration or deterioration. Unlike young S. P. Townsend's, it improves with age, and lever changes, but for the better : because it is prepared an estimitic principles by a scientific man. The highest knowl-edge of Chemistry, and the latest discoveries of the art, have all been brought into requisition in the manufacture of the Oid Dr's Sarsaparilla. The Sarsaparilla root, it is well known to medical men, contains many medicinal pro-perties, and some properties which are inert or useless, and others, which if retained in preparing it for use, produce fermentation and acid, which is injurious to the system. Some of the properties of Sarsaparilla are to solatic, that they entirely evaporate and are lost in the preparation. If they are not preserved by a scientific process, know only to those experienced in its manufacture. Moreover, these solatic principles, which five to it all its value. SOURING. Townsend's article and Oid Dr. Jacob Towa-send's Sarasparilla are haven-wide gast, and infinitely dis-timilar; that they are unlike in every particular, having not one single thing in common. As S. P. Townsend is no doctor, sud never was, is no chemist, no pharmsceuist--knows no more of medicine or disease than any other common, unscientific, anprofessional man, what guarantee can the public have that they are re-ceiving a genuine scientific medicine, containing all the virtues of the article used in preparing it, and which are in capable of changes which might render them the AGENTB of Disease instead of health.
