The profits on the sale of drugs are well known to be very great-often exceeding 300 per cent. on the cost-so that the present exorbitant prices can be greatly reduced, and yet a good profit be realized. The adulteration of drugs the most valuable, (Opium, Calomel, Quinine, &c.,) is a most dangerous and destructive, but very common, fraud, and cannot be detected without a careful chemical analysis. My stock has been selected with great care, and I will sell drugs warranted free from all inpurity, CHEAPER THAN THE ADULTERATED ARTICLE HAS BEEN SOLD.

All prescriptions will be made up after the most approved method, and medical advice given to purchasers without charge. Physicians and druggists in the country or

One instance in particular, in which the superior virtues of this medicine has been tested, has fallen under our observation. During the last summer, a son of Mr. Adraham Grabill, of this county, was very seriously afflicted with Liver Complaint, and after trying vain various remedies, he purchased a bottle of tters, and after using it, was so much relieved of distressing malady, that he procured another bottle, and

"It is very seldom that we make any allusion to Patent ledicines, either approving or otherwise. Unfortunately for the country, and for honest and conscientions inven-tors and venders of these medicines, the land is becoming flooded with quack preparations, that are made alone for profit and are fit not even for the dogs. In this state of things it is hard to tell which are, and which are not worth having. If a person gets an indifferent medicine the first time he purchases, he is very apt to condemn the whole of them and buy no more, and inventors must only blame those of their number, (who ignorantly combine plain medicines together for the purpose of making money.) for the ill success which attends the efforts of the deserving."

JUDGE M. M. NOAH said, in his "WEEKLY MESSEN-"Dr. Hoofland's German Bitters .- Here is a prepara tion which the leading presses in the Union appear to be unanimous in recommending, and the reason is obvious. It is made after a prescription furnished by one of the most celebrated physicians of modern times—the late Dr. Christopher Wilhelm Hoofland, professor to the University of Jena, private physician to the king of Prussia, and one of the greatest medical writers Germany has ever produced. He was emphatically the enemy of humbug, and therefore a medicine of which he was the inventor and endorsor may be confidently relied on. He specially recommended it in Liver Complaint, Dyspepsia, Debility Vertigo, Acidity of the Stomach, Constipation, and all complaints arising from a disordered condition of the stomach, the liver and the intestines. Dr. Hoofland's German Bitters: "It is seldom that we recommend what are termed Pat-ent Medicines to the confidence and patronage of our readers; and, therefore, when we recommend Dr. Hoofland's German Bitters, we wish it to be distinctly understood that we are not speaking of the nostrums of the day, that are noised about for a brief period and then forgotten after it has done its guilty race of mischief, but of a med icine long established, universally prized, and which has met the hearty approval of the faculty itself."

Evidence upon evidence has been received (like the foregoing) from all sections of the Union, the last three years, and the strongest testimony in its favor, is, that there is more of it used in the practice of the regular Physicians of Philadelphia than all other postrums combined, a fact that can easily be established, and fully proving that a scientific preparation will meet with their quiet approval when presented even in this form.

That this medicine will cure Liver Complaint and Dyspepsia, no one can doubt after using it as directed. It acts specifically upon the stom ach and liver; it is preferable to calomel in all bilious diseases-the effect is immediate. They can be administered to FEMALE OF INFANT with safety and reliable benefit, at any time.

A man by the name of CLAPP has engaged with a young man of the name of S. P. Townsend, and uses his name to put up a Sarsaparilla, which they call Dr. Town send's Sarsaparilla, denominating it GENUINE, Original etc. This Townsend is no doctor, and never was; but was formerly a worker on railroads, canals, and the like, Vetha assumes the title of Dr., for the purpose of gaining credit for what he is not. This is to caution the public not to be deceived, and purchase none but the GENUINE ORIGI-NAL OLD Dr. Jacob Townsend's Sarsaparilla, having on it the Old Dr's likeness, his family coat of arms, and his signature across the coat of arms.

OLD DR. JACOB TOWNSEND.

Genuine Townsend Sarsaparilla. Old Dr. Townsend is now about 70 years of age, and har ong been known as the AUTHOR and DISCOVERER of the GENUINE ORIGINAL. "TOWNSEND SARE APARILLA." Being poor, he was compelled to limit summificature, by which means it has been kept out of maret, and the sales circumscribed to those only who had roved its worth, and known its value. It had reached the ears of many, nevertheless, as those persons who had een hesded of sore diseases, and saved from death, prolaimed its excellence and wonderful.

HEALING POWER. HEALING POWER.

Knowing, many years ago, that he had by his skill, science and experience, devised an article which would be of incalculable advantage to mankind when the means would be furnisked to bring it into universal notice, when its inestimable virtues would be known and appreciated. This time har come, the means are supplied; this GRAND AND UNEQUALLED PREPARATION is manufactured on the largest scale, and is called for is manufactured on the largest scale, and is called for throughout the length and breadth of the land, especially is manufactured on the largest scale, and is called for throughout the length and breadth of the land, especially as it is found incapable of degeneration or deterioration. Unlike young S. P. Townsend's, it improves with age, and cever changes, but for the better: because it is prepared on scientific principles by a scientific man. The highest knowledge of Chemistry, and the latest discoveries of the arr, have all been brought into requisition in the manufacture of the Old Dr's Saraparilla. The Sarsaparilla root, it is well known to medical men, contains many medicinal proporties, and some properties which are inert or useless, and others, which if retained in preparing it for use, produce fermentation and acid, which is injurious to the system. Some of the properties of Sarsaparilla are so relatile, that they entirely evaporate and are lost in the preparation, if they are not preserved by a scientific process, known only to those experienced in its manufacture. Moreover, these volatile principles, which fly off in vapor, or as an ethalation, under heat, are the very essential medical properties of the root, which give to it all its value.

SOURING, FERMENTING, ACID "COM-POUND" OF S. P. TOWNSEND, and yet he would fain have it understood that Old Dr. Jacob Pownsend's Genurae Original Sarsaperulla, is an IMITATION of his inferior preparation!

Heaven forbid that we should deal in an article which would bear the most distant resemblance to S. P. Townsend's article! and which should bring down upon the Old Dr. such a mountain load of complaints and criminations from Agents who have said and prepares who have said and pr

om Agents who have sold, and purchasers who have used. P. Townsend's FERMENTING COMPOUND. We wish it understood, because it is the absolute truth, nat S. P. Townsend's article and Old Dr. Jacob Townsend's Barsparilla are hearen-wide apart, and infinitely dismitlar; that they are unlike in every particular, having ot one single thing in common.

As S. P. Townsend is no doctor, and never was, is no

As S. P. Townsend is no doctor, and never was, is no hemist, no pharmaceutist—knows no more of medicine or disease than any other common, unscientific, unprofessional man, what guarantee can the public have that they are receiving a genuine scientific medicine, containing all the virtues of the articles used in preparing it and which are in capable of changes which might render them the AGENTS of Disease instead of health.

But what else should be expected from one who knows nothing comparatively of medicine or disease! It requires a person of some experience to cook and serve up even a common decent meal. How much more important is it that the persons who manufacture medicine, designed for WEAK STOMACHS AND EXPERTILED SYSTEMS.

WEAK STOMACHS AND ENFEEBLED SYSTEMS. should know well the medical properties of plants, the sext manner of securing and concentrating their healing cirtues, also an extensive knowledge of the various diseases which affect the human system, and how to adapt remedies

to these diseases!

It is to arrest frauds upon the unfortunate, to pour balm into wonned humanity, to kindle hope in the despairing bosom, to restore health and bloom, and vigor into the crushed and broken, and to banish infirmity that OLD DR. JACOB TOWNSEND has SOUGHT and FOUND the opportunity and means to bring his Grand Universal Concentrated

within the reach, and to the knowledge of all who need it,
that they may learn and know, by joyful experience, its Transcendent Power to Heal. Any person can boil or stew the root till they get a dark Any person can boil or sew the local thirty get a dust-colored liquid, which is more from the coloring matter in the root than from any thing else; they can then strain this insipin or vapid liquid, sweeten with sour molasses, and then call it "SARSAPARILLA EXTRACT or SY-

GENUINE OLD DR. JACOB TOWNSEND'S SARSAPARILLA. SARSAPARILLA.

This is so prepared, that all the inert properties of the Sarsaparilla root are first removed, every thing expable of becoming acid or of fermentation, is extracted and rejected; then every particle of medical virtue is secured in a pure and concentrated form; and thus it is rendered incapable of losing any of its valuable and healing properties. Prepared in this way, it is made the most inswerful proof, is the

Cure of innumerable diseases. Hence the reason why we hear commendations on every de in its favor by men, women, and children. We find it doing wonders in the cure of CONSUMPTION. The medicine you pre-eminently need?

But can any of these things be said of S. P. Townsend's Inferior article? This young man's liquid is not to be COMPARED WITH THE OLD DR'S, because of one GRAND FACT, that the one is INCAPA BLE of DEPERIORATION, and NEVER SPOILS.

while the other DOES; souring, fermanting, and blowing the bottles vontaining it into fragments; the sour, acia liquid exploding, and damaging other goods? Must not this borrible compound be poissonous to the system!—What! put acid into a system already discassed with acid? What causes Dyspepsia but acid? Do we not all know that when food sours in our stomachs, what mischiefs it produces? flatulence, heartburn, palpitation of the heart, liver complaint, diarrheae, dysentery, colic, and corruption of the blood? What is Scrofuls but an acid humor in the body? What produces all the humors which bring on Eruptions of the Sion, Scald Head, Sait Rheum, Erysipelas, White Swell Higs, Fever Sores, and all'ulcerations internal and external it is nothing under heaven, but an acid substance, which sours, and thus spoils all the fluids of the body, more of less. What causes Rheumatism but a sour or acid fluid, which insinuates itself between the joints and clsewhere, circulating and inflaming the deficate insteas upon which it acts? So of nervous discasses, of impurity of the blood, or defranged circulations, and nearly all the allments which afflict human mature.
