FLOOD IN THE MISSISSIPPI.—The New Orleans papers, received yesterday, contain accounts of a flood in the Mississippi, and the inundation of the country. From Natchez to Milliken's Bend, it is estimated that at least 150,000 acres of land, which had been planted in cotton, are now under water, and hundreds of the finest plantations entirely ruined. The river now extends from Natchez to the Hills of Ouachita, a distance of over 40 miles, and everything has been swept away. Every knoll and hill-top is filled with cattle, horses, and other domestic animals, and even bears, panthers and deers are herding with them, forgetting, in the presence of a common danger, their natural ferocity or timidity. At Vicksburg the river is fifty miles broad. The waters have doubtless since subsided, as New Orleans dates, by Telegraph, to the 11th, do not mention any further damage.

Suicide has become quite a popular mania in France. There's no stopping it. The latest French journals record innumerable instances of self-destruction, among old folks, young folks, rich and poor-fair and foul-all for the fun of
