THESE SAFES possess every qualification to render them proof against the action of fire or thieves, and of sufficient strength to endure a fall from any story of a burning building. They are made of wrought iron, being kneed, rivited and welded together, and fined with a perfeet nonconducting fire proof mineral composition, no wood being used in their construction as in the majority of wood being used in their constitution as in the majority of safes sold by other makers. The doors of Gayler's Safes are secured with his THIEF DETECTOR and ANTI-GUNPOWDER LOCK, which precludes the possibility of picking or blowing them open with gunpowder. Over TWO HUNDRED of these Safes have been exposed in accidental fire to the most intense heat, in many instance remaining in the burning ruins for several days, and at no time have they ever been known to fail in preserving

Martin & Whiteley's NATIONAL TONIC. A certain Cure for Ague, Fever,

and Dyspepsia, IN our summer and fall months many sections of our country are prostrated by BILLIOUS FEVER and AGUE and FEVER.—It has been our particular study to find out some remedy to stop this dreadful scourge, and think, in this TONIC we have effected this great object. It is also we think the very best remedy in Dyspepsia, and if our directions are followed, will not fail to effect

In a letter dated, May 23d, 1849, our Agent, Mr. Elias Raub, of Wrightsville, York county, Pa., says :- I have never known any remedy for Fever and Agus equal to your invaluable National Tonic. It has given universal satisfaction, and has cured cases of Ague of years standing, and after the failure of all other medicines made use of. Mr. Henry Beverson, of the same place, says in his certificate, dated 22d March, 1849, 'I applied to a number of Physicians, and also used a variety of the most popuof Physicians, and also used a variety of the most popu-lar Agne Mixtures at different times, but all without the Assired effect; no permanent cure having been afforded. I was at length induced, at the recommendation of your worthy Agent at this place, to try a bottle of your Na-tional Tonic, and to my great satisfaction, before I had used half of it, I felt completely cured, though I contin-ned the use of it till I had taken two bottles. In a joint settleste from Marter Miller Hole William Blackers. certificate from Messrs. Miles Hoke, William Blackson, and James D. Brown, of the same place, they say—'Having tried nearly all the remedies within our reach without success, we at last purchased some of your National Tonic, which has completely cured us. We, therefore, cheerfully recommend it to the notice of all persons afflicted with that terrible disease as the best remedy yet

HARRIS, TURNER & HALE'S Compound Syrup of Spigelia or Vegetable Vermifuge, The most effectual, the safest, pleasantest and most convenient Worm Medicine

ever offered to the public. THE SPIGELIA, says a work of highest authority, stands at the head of the list of Anthelmintics or Worm Medicines. It is adapted to a wider range of cases, and

to a greater variety of constitutions and states of the constitution, than any other. But prepared as it commonly is, in the form of tea, it can seldom be given to children in sufficient doses. In Harris, Turner & Hale's Compound Syrup, it is so concentrated that the dose is very small, so combined as to ensure a purgative opera on, and so palatable as to be taken, not only with ease, but with positive pleasure.

The precise composition of this syrup and the mode of

preparing it, are the result of a series of experiments continued for years. Before offering it for sale, it was subjected to the test of experience in the hands of emi nentphysicians, in Philadelphia and elsewhere, who have recommended it in the highest terms, and still employ it in their practice. In addition to this evidence of its mer-its, we offer the following, selected from a number of un-

1st. A distinguished physician of Virginia, of much

experience, writes of it thus:

'I should have written before this, but felt disposed first to try the efficacy of your Vermifuge. I have used more than half the quantity received, and the experiment has been most successful. I really believe that it possesses advantages over any other Vermifuge I have ever used. Independent of the smallness of the dose, and the plea-santness of the syrup (great advantages in dosing children) the advantage of administering it under a variety of circumstances, enhances its value; indeed there is scarcely a condition of the system in which it may not be administered. Yours, &c.

2d. A respectable physician of Lebanon county, in this "I have been in the habit of prescribing your Compound

Syrup of Spigelia for some time past, and have found it an excellent worm medicine, particularly for children.— Please forward per bearer 2 doz. bottles - Vours. &c. 3d.—An intelligent merchant of Virginia to whom we had previously sold the syrup, writes:

"Since my return home, I find that your Syrup of Spi-gelia has come into general use in this neighborhood. We have sold what we had on hand, and it gave such satisfaction that it is now called for evey day. You will please put us up 5 or 6 dozen in a small package, and send to the care of W. Anderson & Co., Richmond, as soon as possi-

ble, and forward the bili per mail.—Yours, &c.''
4th.—A respectable merchant of Ohio, on a late visit to
Philadelphia, stated, that some time since he had been applied to by a customer for a vial of ---- mifuge for his son. Not having the article asked for, he advised a trial of Harris, Turner & Hale's Compound Syrup of Spigelia and gave him a part of a bottle which was all that remained in the store. A day or two after this the gentleman returning to the store, expressed his surprise and delight at the effect of the Syrup, declaring His extensive stock on hand, constantly changing in conformity to the improvements in taste and style of pattern and workmanship, consists of Eight day he had not had on hands a bottle of the Syrup at the time when his own little daughter died, as he confidently be-lieved it would have saved her life.

5th-A gentleman of Hudson, N. Y., having sent a bottle of Harris, Turner & Hale's Compound Syrup of Spi gelis, to a young friend who had tried in vain a great number of worm medicines, writes, that his friend was imme diately relieved; the words of the patient were: "It took MANUFACTURED ONLY BY

READ AND BE CONVINCED. CHAS. ROBINSON, Esq., Easton, Md., in a letter to Dr. Jackson, January 9, 1850, said-"My wife and myself have received more benefit from your medicine than any other we have ever taken for the Dyspepsia and Liver disease."

"THE TENTH LEGION," published at Woodstock, Va., January 10, 1850, said— "A GREAT MEDICINE."

"We have uniformly refrained from recommending to the public any of the various Patent Medicines of the day, unless thoroughly convinced of their value. Among those we consider worthy of notice is the German Bitters, invented by Dr. Hooftand, and prepared by Dr. Jackson, in Philadelphia. One instance in particular, in which the superior virtues of this medicine has been tested, has fal-len under our observation. During the last summer, a son of MR. ABBAHAM GRABILL, of this county, was very seriously afflicted with Liver Complaint, and after trying in vain various remedies, he purchased a bottle of the Bitters, and after using it, was so much relieved of his distressing malady, that he procured another balle, and is restored entirely to health."

READ FURTHER A FEW FACTS FROM "THE WELDON HERALD," published at Weldon, N. C., January 24, 1850, which said—

" PATENT MEDICINES." "It is very seidom that we make any allusion to Patent Medicines, either approving or otherwise. Unfortunately for the country, and for honest and conscientions inven-tors and venders of these medicines, the land is becoming flooded with quack preparations, that are made alone for profit and are fit not even for the dogs. In this state of things it is hard to tell which are, and which are not worth having. If a person gets an indifferent medicine the first time he purchases, he is very apt to condemn the whole of them and buy no more, and inventors must only blame those of their number, (who ignorantly combine plain medicines together for the purpose of making money.) for the ill success which attends the efforts of the deserving."

'We believe Dr. C. M. Jackson's 'Hoofland's German Bitters' to be a most excellent medicine, and one that should be highly popular in these days of Temperance; for they are altogether Venetable in their composition without one drop of Alcoholic Spirits in them. This med icine is innocent, but strengthening in its effects, and richly deserving of an unbounded popularity, which, when it becomes known, it will, no doubt, fully enjoy."

JUDGE M. M. NOAH said, in his " WEEKLY MESSEN-GER," January 5, 1850. Dr. Hoofand's German Ritters - Here is a prepare tion which the leading presses in the Union appear to be unanimous in recommending, and the reason is obvious It is made after a prescription furnished by one of the most celebrated physicians of modern times—the late Dr. Christopher Wilhelm Hoofland, professor to the University of Jena, private physician to the king of Prussia, and one of the greatest medical writers Germany has ever produced. He was emphatically the enemy of humbug and therefore a medicine of which he was the invento and endorsor may be confidently relied on. He specially recommended it in Liver Complaint, Dyspepsia, Debility Vertigo, Acidity of the Stomach, Constipation, and all complaints arising from a disordered condition of the stomach, the liver and the intestines. Nine Philadelphia papers express their conviction of its excellency, and sev eral of the editors speak of its effects from their own indi-vidual experience. Under these circumstances, we feel warranted, not only in calling the attention of our readers to the present proprietor's (Dr. C. M. Jackson's) prepara-tion, but in recommending the article to all afflicted."

MORE EVIDENCE. The "PHILADELPHIA SATURDAY GAZETTS," the best family newspaper published in the United States. The

Dr. Hoofland's German Bitters: "It is seldom that we recommend what are termed Pat-nt Medicines to the confidence and patronage of our readers : and, therefore, when we recommend Dr. Hoofland's German Bitters, we wish it to be distinctly under-stood that we are not speaking of the nostrums of the day, that are noised about for a brief period and then forgotten after it has done its guilty race of mischief, but of a med-icine long established, universally prized, and which has

met the hearty approval of the faculty itself." Evidence upon evidence has been received (like the foregoing) from all sections of the Union, the last three years, and the strongest testimony in its favor, is, that there is more of it used in the practice of the regular Physicians of Philadelphia than all other nostrums combined, a fact that can easily be established, and fully proving that a scientific preparation will meet with their quiet approval when presented even in this form.

That this medicine will cure Liver Complaint and Dyspepsia, no one can doubt after using it as directed It acts specifically upon the stomach and liver; it is preferable to calomel in all bilious diseases—the effect is immediate. They can be administered to FEMALE OF INFANT with safety and reliable benefit, at any time.

BEWARE OF COUNTERFEITS. This medicine has attained that high character which is necessary for all medicines to attain to induce counterfeiters to put forth a spurious article at the risk of the lives of those who are innocently deceived.

Look well to the marks of the genuine. They have the written signature of C. M. JACKSON upon the wrapper, and the name blown in the bottle, without which they are

PHYSICIAN, HEAL THYSELF.

DOCT. J. W. FRENCH, of Hillsdaie, Hillsdaie Co., Mich., wrote to us, Dec. 8, 1838: "I have been in the regular practice of medicine in this place for Nine Years; but was obliged to quit the practice of my profession in consequence of ill heelth. I was so severely afflicted with a chronic disease of the lungs, as to convince me that I had the Consumption past doubt. I coughed almost incessantly night and day, and had severe poins and soreness in my chest, side, and breast. I tried the remedies recommended by the most skilful of my profession, all to no effect, excepting the nausea and debility caused by them. I was prejudiced against Patent Medicines, and have no faith now in them, generally. But I was induced as an experiment, more than through faith, to try a bottle of Brant's Indian Pulmonany Ralsam, and I do here acknowledge, for the benefit of the afflicted or whom it may serve, that the effect of its use on me, was the most prompt and salutary of any med icines I ever witnessed the effect of in all my practice. My cough was immediately relieved, and in about eight or ten days. I was free from cough, soreness of the chest, and pain, and now consider and pronounce myself a well man."

ANOTHER IMPORTANT VICTORY !

ANOTHER IMPORTANT VICTORY:

Messrs. Holtstander & Co., respectable merchants of Oberlin, Lorain Co., Ohio, wrote December 19, 1848: "After allowing the Brant's Medicines which you sent to us, to remain at Cleveland about three months, we sent for them. We have been so often deceived by such medicines not proving to be equal to their recommendations, and therefore would not sell, when their want of efficacy was known, that we considered it unprofitable to keep such, and were therefore prejudiced against Brant's, supposing it to be no better than many others we have on sale. After we had received Brant's, I, (A. Holtstander) was persuaded from reading the pemphlet to take a bottle of the Pulmonary Balszam home. My wife had been afflicted with a severe cough for about ten months, and our friends were alarmed and fearful that she would find nothing to relieve or cure her. But notwithstanding our prejudices to patent medicines, we are obliged to say, and cheerfully confess, that Brant's Balszam and Purifyling Extract, can be depended on in preference to any or all of the many kinds that have been left with us for sale. My wife was immediately relieved in her cough, and before she had finished using the first bottle, began to gain strength and health, and only three bottles effected a perfect cure. The Purifyling Extract I have personally used for a general debility of the system, and I have no hesitaney in saving that it is the best medi-I have personally used for a general debility of the system, and I have no hesitaney in saying that it is the best medicine to restore and invigorate the system, that I have ever found. In every instance where we have sold these medicines they have proved their efficacy, and given the best satisfaction."

BRANT'S INDIAN PULMONARY BALSAM

This Bulsam possesses all the cleaning and purifying Virtues of the above-named Purifying Entract, and also possesses several other medications, particularly and pecu-narly shapted to cure COUGHS and CONSUMPTIONS. It heals and cures Ulcers in the Lungs, and elsewhere internal-ly, as readily and as easily as the Purifying Extract heals and cures externally.

Indian Pulmonary Bulsam is administered:—

Town of Ballston, Sareloga Co., N. Y.—ss. Zina Dyke-Man, being duly sworn, says: That in the winter of 1845, deponent's wife was believed by her physicica and others to be dying with a consumption of the lungs; and deponent believing that to be the case, went to Mr. John Maif's store, in the village of Ballston Spa, to purchase cloth for a shroud, and other necessuries, to prepare his wife for burial after she should die. Deponent further says, that while he was in said Waif's store, he was persuaded by the Proprietor of "BRANTS INDIAN FULMONARY BALSAM," who was then present, to take a bottle of said Medicine—he remarking, that if the dying woman be now past recovery, yet, if she be much oppressed and distressed, the said medicina would soothe and relieve her, and make the pillow of death more easy. Deponent took the said medicine home with him, together with the cloth he had purchased preparatory to the anticipated death of his wife. Deponent caused a portion of said medicine to be administered to his wife, and to his astonishment it soon relieved her She continued the use of said medicine until she recovered from her disease, and has been able since (it being now more than three years) to do the work, and attend to all her household affairs; and deponent verily believes that, through the blessing of Providence, the restoration to health of his wife loads.

CAUTION EXTRA

A man by the name of CLAPP has engaged with a young man of the name of S. P. Townsend, and uses his name to put up a Sursaparilla, which they call Dr. Town send's Sarsaparilla, denominating it GENUINE, Original, etc. This Townsend is no doctor, and never was; but was formerly a worker on railroads, causis, and the like. Yet he assumes the title of Dr., for the purpose of gaining credit for what he is not. This is to caution the public not to be seceived, and purchase none but the GENUINE ORIGI-NAL OLD Dr. Jacob Townsend's Sarseparilla, having or It the Old Dr's, likeness, his family coat of arms, and his

signature across the coat of arms.

OLD DR. JACOB TOWNSEND.

Genuine Townsend Sarsaparilla. old Dr. Townsend is now shout 70 years of age, and has long been known as the AUTHOR and DISCOFERER of the GENUIVE ORIGINAL. "TOWNSEND SARS SAPARILLA." Being poor, he was compelled to limit its manufacture, by which means it has been kept out of market, and the sales circumscribed to those only who had proved its worth, and known its value. It had reached the ears of many, nevertheless, as those persons who had been healed of sore diseases, and saved from death, pro-

claimed its excellence and wonderful HEALING POWER. HEALING POWER.

Knowing, many years ogo, that he had, by his skill, science and experience, devised an article which would be of incalculable advantage to mankind when the means would be furnished to bring it into universal notice, when its inestimable virtues would be known and appreciated. This time har come, the means are supplied; this GRAND AND UNEQUALLED PREPARATION is manufactured on the largest scale, and is called for is manufactured on the largest scale, and is called for throughout the length and breadth of the land, especially is manufactured of the largest scale, and is carteed for throughout the length and breadth of the land, especially as it is found incapable of degeneration or deterioration. Unlike young S. P. Townsend's, it improves with age, and cover changes, but for the better: because it is prepared on scientific principles by a scientific man. The highest knowledge of Chemistry, and the latest discoveries of the art, have all been brought into requisition in the manufacture of the Old Dr's Sarsparilla. The Sarsaparilla root, it is well known to medical men, contains many medicinal properties, and some properties which are inert or useless, and others, which if retained in preparing it for use, produce fermentation and orid, which is injurious to the system. Some of the properties of Sarsaparilla are so volatile, that they entirely evaporate and are lost in the preparation, if they are not preserved by a scientific process, known only to those experienced in its manufacture. Moreover, these polatile principles, which fly off in vapor, or as an exhalation, under heat, are the very essential medical properties of the root, which gives to it all its value.

SOURING, FERMENTING, ACID "COM-

SOURING, FERMENTING, ACID "COM-POUND" OF S. P. TOWNSEND,

POUND® OF S. P. TOWNSEND, and yet he would fain have it understood that Old Dr. Jacob Fownsend's Genuine Original Saraparilla, is an IMITA-ITON of his inferior preparation. It heaven forbid that we should deal in an article which would bear the most distant resemblance to S. P. Townsend's article! and which should bring down upon the Old Dr. such a mountain load of complaints and criminations from Agents who have sold, and purchasers who have used S. P. Townsend's FERMENTING COMPOUND. We wish it understood, because it is the absolute truth, that S. P. Townsend's article and Old Br. Jocob Townsend's Saraparilla are hence-scale apart, and injustely dissimilar; that they are unlike in every particular, having not one single thing in common.

As S. P. Townsend's remained apart, and injustely dissimilar; that they are unlike in every particular, having not one single thing in common.

As S. P. Townsend is no doctor, and never was, is no chemist, no pharmaceutist—knows no more of medicine or disease than any other common, unscientific, unprofessional man, what guarantee can the public have that they are receiving a genuine scientific medicine, containing all the virtues of the articles used in preparing it, and which are in capable of changes which might render them the AGENTS of Disease instead of health.

But what else should be expected from one who known nothing comparatively of medicine or disease: It requires

nothing comparatively of medicine or disease! It requires a person of some experience to cook and serve up even a common decent neal. How much more important is it that the persons who manufacture medicine, designed for WEAR STOMACHS AND ENFEEBLED SYSTEMS,

within the reach, and to the knowledge of all who need it,
that they may learn and know, by joyful experience, its Transcendent Power to Heal. Any person can boil or stew the root till they get a dark the root than from any thing eise; they can then strain this insipid or vapid figuid, sweeten with sour molasses, and then call it "SARSAPARILLA EXTRACT or SY-RUP." But such is not the article beauty

RUP." But such is not the article known as the GENUINE OLD DR. JACOB TOWNSEND'S SARSAPARILLA.

This is so prepared, that all the inert properties of the Sarsaparilla root are first removed, every thing expable of becoming acid or of fermientation, is extracted and rejected; then every particle of medical virtue is secured in a pute and concentrated form; and thus it is rendered incapable of soing any of its valuable and beeling properties. Prepared in this way, it is made the most powerful agent in the

Hence the reason why we hear commendations on every side in its favor by men, women, and children. We find it doing wonders in the cure of CONSUMPTION, DYSPEPSIA, and LIVER COM-PLAINT, and in RHEUMATISM, SCROFULA, PILES, COSTIVENESS, all OUTANEOUS ERUPTIONS, PIMPLES, BLOCTHES, and all affections IMPURITY OF THE BLOOD.

Cure of innumerable diseases.

It possesses a marvellous efficacy in all complaints arising from Indigestion, from Acidity of the Stomach, from unequal circulation, determination of clood to the head, palpination of the heart, cold feet and hands, cold chills and hot flashes over the body. It has not its equal in Colds and Coughs; and promotes easy expectoration and gentle-perspiration, relaxing stricture of the lungs, throat, and every other part. Is not this then

The medicine you pre-eminently need? But can any of these things be said of S. P. Tow infer or article? This young man's liquid is not COMPARED WITH THE OLD DR'S because of one GRAND FACT, that the one is INCAPA
BLE of DETERIORATION, and
NEVER SPOILS,

while the other DOES; souring, fermenting, and blowing the bettles containing it into fragments; the sour, acid liquid exploding and demagling other goods? Must not this horrible compound he poisonous to the system?—IFhat! put the bettles containing it not fragments, the south acid inquise exploding and damaging other goods? Must not this horrible compound he poisonous to the system?—What! that exid into a system aready diseased with acid? What causes Dyspepsla but acid? Do we not all know that when food sours in our stomachs, what mischiefs it produces? flatuence, heartburn, patpitation of the heart, liver complaint, diarrhesa, dysentery, colic, and corruption of the blood? What is Serofuls but an acid thumor in the body? What produces all the humors which bring on Eruptions of the Skin, Scald Head, Sait Rheum, Eryspelas, White Swellings, Fever Sores, and all ulcerations internal and external! It is nothing under heaven, but an acid stabstance, which sours, and thus spoils all the fluids of the body, more or less. What causes Rheumatism but a sour or acid fluid which instinates itself between the joints and elsewhere, irritating and inflaming the delicate tissues upon which it acis? So of nervous diseases, of impurity of the blood, acceptance of the control of the control of the control of the control of the sum and the safficit human nature.
