Agricultural.

CHARRING AND SETTING FENCE POSTS. and setting posts, which we copy as an

item of interest to every farmer: " MR. COLE: I observe in your present was, I will say a word about this matter. · Experience,' is said to be the best · schoolmaster.' When I was a lad, my father made a set of bars at the end of a

in the ground, all of which are sound, last volume. with the exception of a very few, which It is not necessary here to particularize found that they were set but-end down.

might have been more successful.

" It has been my invariable rule for more than twenty years to have all my posts set top down;-but my men are sometimes usually tell the stupidity of the workmen sale at in fifteen or twenty years, by breaking off at the surface of the ground. How long posts are to last in the ground, top-down, CELEBRATED COMPOUND HEMLOCK PLASTER. must be left for time to determine. Twenty-one years in coarse, porous sand, does not yet tell, either in regard to oak or ceents may give some information on each of the foregoing points, and will greatly oblige a lover of improvement by commu-nicating the same."

THE MOST PROFITABLE BREED OF SHEEP.

There is much discussion upon the ques- chapped hands, &c., &c., for sale by tion as to the most profitable breed of sheep. One party asserts that the true breed is the finest and purest Saxony; another is equally certain that it's the hardy gummy Merino; a third is opposed to all fine wooled sheep, and can only grow the South Down; while still another ! can see no profit in any but the long wooled and stately Cotswold or Leicester; while a great multitude are in favor of the mongrels, obtained by a cross from a part or all of the kinds mentioned.

The object of raising sheep, as of any other kind of farming, is to make money, to turn the herbage into cash. The best breed of sheep for the farmer to adopt will depend in a great degree upon his locality. Whether near or at a distance from a good market for live stock, as large towns, or upon railroads leading thereto; whether in a grain growing or grazing district, or in a warm or cold climate.

It is settled that a fine staple of wool cannot be grown upon a profitable carcass for the butcher. A large and early maturing sheep, like the South Down and Cotswold, cannot be made to produce a fine clothing wool. But the wool they do produce is valuable, and brings a remunernerating price, especially the long wool of the Leicesters. Then coarser and larger bodied sheep require a larger amount of pasture, and cannot be kept in large flocks. For the farmer who keeps but a few, say from 50 to 100, we should recommend the coarse wooled sheep. Many a farmer, who can keep his 50 or 60 head, could make his two dollars annually clear upon each with very little trouble. It would require care, and that is what a great many farmers complain of, though constantly grumbling of hard times. In a warm climate, and especially at the South, fine wooled Saxons should be preferred. The experience of years demonstrates that, in the growing of fine wool, the South need have no competitor, and we feel fully satisfied that it would now be the most profitable branch of their agricultural industry. There are flocks in that region which produce wool that cannot be surpassed by any in Germany. Among them, and perhaps the very first, is the flock of M. R. Cockrill, Esq., of Nashville, Tennessee. For evenness, firmness, and strength of staple, his flock has not yet been outdone the very highest bred German flocks. Though there is little encouragement for growing fine wool any where, yet we should dvise our friends South not to abandon it, wool market entirely to themselves; for grown this side of the Ohio river will grow less and less every year. Some men may 10 J. B. MII

who have superior flocks, like our friends Reed, of Dalton, Ohio, and Ladd of Richmond, Ohio, and who are fond of and un-A correspondent of the New England destand breeding, will continue them and Farmer gives his experience in charring make them profitable. But we fear that unlesss there is some great change soon,

The great belt of our country lying volume, Page 148, an article taken from north of the Allegheny mountains, and the the American Farmer, recommending charring the but-ends of posts for fence. Now, Rocky mountains, seems admirably adaptas the public may be deceived as I once ed for the Negretti and Infantado branch of the Merino families, as south of that line does for the Escurial and Electoral branch. The best representative of this branch is found in what is now termed the lane leading to the cow pasture. One of Vermont Merino. They are a hardy race, these bar-posts outlasted the other two or with thick heavy fleeces, full of gum and three times over; at last, the good post, yoke, and formed to withstand well the which had lasted so long, was by accident rigors of our hard winters. Like their turned out of the ground by running the congenier the Saxon, they delight in a dry cart against it, whereupon it was found soil, and will thrive upon pastures where that the post had been charred as far as it larger sheep would starve. In Vermont, went into the ground. This fact, corrobo- objections are made to this breed of sheep rated by others, led me to conclude with by wool dealers, because the wool is so great certainty that charring would add heavy by reason of its gum and yolk. It greatly to the durability of posts, burning may not be so profitable for them, but it them as far up as they were set in the shows the great value of the breed for ground. Now, as I was about to build a cold and bleak regions. But as this sheep garden fence and a barn-yard fence in the travels West it loses this objection, for in spring of 1818, I cut and split, out of the this State, and throughout the West the very best white oak timber, a sufficient wool retains its fineness, but loses much quantity for this purpose. These posts of its superfluous gum and oil, but none were all charred with great care to five or of its vigorous constitution. Crossed upon six inches above the surface of the ground the common breeds of Ohio, Michigan, when set. But to my surprise and disap- and the other Western States, it produces pointment, all had to be renewed in seven a valuable breed, giving a finer and heavier fleece, and a stronger and more healthy "In 1819, I set about two hundred and habit. GERMAN BITTERS, PREPARED BY

DR. C. M. JACKSON. At the German Medicine Store, 120 Arch st.

PHILADELPHIA. Their nower over the above diseases is not excelled-if equalled—by any other preparation in the United States as the cures attest, in many cases after skilful physicians had

These Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of diseases of the Liver and lesser glands, exercising the most search

gans, they are withal, safe, certain and pleasant READ AND BE CONVINCED.

Chas. Robinson, Esq., Easton, Md., in a letter to Dr. Jackson, January 9, 1850, said-"My wife and myself have received more benefit from your medicine than any other we have ever taken for the Dyspepsia and Liver disease." "THE TENTH LEGION," published at Woodstock, Va.

"A GREAT MEDICINE."

"We have uniformly refrained from recommending to the public any of the various Patent Medicines of the day, unless thoroughly convinced of their value. Among those we consider worthy of notice is the German Bitters, invented by Dr. Hoofland, and prepared by Dr. Jackson, in Philudelphia. One instance in particular, in which the superior virtues of this medicine has been tested, has faln under our observation. During the last summer, a seriously afflicted with Liver Complaint, and after trying in vain various remedies, he purchased a bottle of the Bitters, and after using it, was so much relieved of his distressing malady, that he procured another bottle, and

READ FURTHER A FEW FACTS FROM "THE WELDON HERALD," published at Weldon,

" PATENT MEDICINES." "It is very soldom that we make any allusion to Patent Medicines, either approving or otherwise. Unfortunately for the country, and for honest and conscientious invenflooded with quack preparations, that are made alone for profit and are fit not even for the dogs. In this state of things it is hard to tell which are, and which are not worth having. If a person gets an indifferent medicine the first of them and buy no more, and inventors must only blame "We believe Dr. C. M. Jackson's 'Hoofland's German Bitters' to be a most excellent medicine, and one that should be highly popular in these days of Temperance;

CER," January 5, 1850.
"Dr. Hoofiand's German Bitters.-Here is a prepara-

unanimous in recommending, and the reason is obvious. It is made after a prescription furnished by one of the most celebrated physicians of modern times—the late Dr. Christopher Wilhelm Hoofland, professor to the Unibr. Caristopher Whitein Hoohand, processor to the Curversity of Jena, private physician to the king of Prussia,
and one of the greatest medical writers Germany has ever
produced. He was emphatically the enemy of humbug,
and therefore a medicine of which he was the inventor
and endorsor may be confidently relied on. He specially
recommended it in Liver Complaint, Dyspepsia, Debility,
Vertigo, Acidity of the Stomach, Constination, and all Vertigo, Acidity of the Stomach, Constipation, and all complaints arising from a disordered condition of the stomach, the liver and the intestines. Nine Philadelphia papers express their conviction of its excellency, and several of the editors speak of its effects from their own indi-vidual experience. Under these circumstances, we feel warranted, not only in calling the attention of our readers to the present proprietor's (Dr. C. M. Jackson's) prepara-tion, but in recommending the article to all afflicted."

MORE EVIDENCE.

that are noised about for a brief period and then forgotter after it has done its guilty race of mischief, but of a medicine long established, universally prized, and which has met the hearty approval of the faculty itself."

Evidence upon evidence has been received (like the foregoing) from all sections of the Union, the last three years, and the strongest testimony in its favor, is, that there is more of it used in the practice of the regular Physicians of Philadelphia than all other nostrums combined, a fact that can easily be established, sented even in this form.

That this medicine will cure Liver Complaint and Dyspepsia, no one can doubt after using it as directed. It acts specifically upon the stomach and liver; it is preferable to calemel in all hillous diseases-the effect is immediate. They can be administered to FEMALE OF INFANT with safety and reliable benefit, at any time.

BEWARE OF COUNTERFEITS. This medicine has attained that high character which is necessary for all medicines to attain to induce counterfeiters to put forth a spurious article at the risk of the lives of those who are innocently deceived Look well to the marks of the genuine.

PURIFY! PURIFY!

Life and Health are in the Blood. Not one of all the numerous medicines that have been prepared, begins to be of as great medical virtue, power, and unfailing certainty to cleanse and purify, produce new, healthy blood, and strengthen and invigorate the whole system, as

BRANT'S INDIAN

PURIFYING EXTRACT.

This Purifier is the most wonderful and astonishing remedy in the world. No other medicine has effected such almost miraculous cures of

Scrofula, Fever Sores, Salt Rheum.

SYPHILIS, and other eruptive and skin diseases, viz.: Ery spelas, Sores, Ulcers, Ulcerated Sore Mouth and Throat, Nursing Sore Mouth, Scald Head, Biles, Piles, Pimples on the Face, Rheumatism, LIVER COMPLAINT, and many other diseases. THOUSANDS of such diseases have been cured by this PURIFIER, and cured by the use of FOUR TIMES

Less Quantity, at Less Cost

by four-fold, than ever such diseases were before or since cured, by Sarsaparilla, or any other remedy. What, then, is the question for those interested to decide, as to economy and health? FIRST-Will it cure my complaint? SECOND—Is it cheaper? THIRD—Will

ONE DOLLAR'S WORTH of BRANT'S PURIFIER effectively cure FOUR TIMES as much disease as one dollar's worth of Sorsaparilla; will, then it is FOUR TIMES CHEAPER than Sarrilla. And to prove this we offer one case of cure, of the many cases of

MOST HORRID SCROFULA.

To realize the great power of this medicine as a purifier read, in our Pamphlets, the perfect cure effected on Mr. J. B. Haskin, of Rome, Oncida county, N. Y. He was confine to his bed One Year—was not expected to live twenty-four hours longer—his neck was eaten nearly of, from ear tear—a hole was eaten through the Wind-pipe—his ear nearly eaten out—the use of one arm asstroyed—an Ulcer, as larg as a man's hand, had nearly eaten through his side—anothere were on him, in all,

Twenty Large, Deep, Discharging Ulcers, which were ALL CURED, and he restored to kealth and strength to labor again, by the use of ONLY TWELVE BOTTLES. This wonderful cure is certified to by

Fourteen Respectable Witnesses.

And it is the greatest cure, the most undoubtedly substantiated, of one of the most herrid and most hopeless cases of Scrofula, that has ever been cured since the world was created—completely establishing the grex power and certain facety of the medicine. BRANT'S INDIAN

PULMONARY BALSAM This Balsam possesses all the cleaning and purifying Virtues of the above-named PURIFKING EXTRACT, and also possesses several other modications, particularly and possesses several other modications, particularly and possesses several other modications, particularly adapted to cure COUGHS and CONSUMPTIONS. It heals and cures Ulters in the Lungs, and elsewhere internally, as readily and as easily as the Purifying Extract heals and cures externally.

and cures externally.

Thousands of cures of the most hopeless Consumption
fully prove its almost miraculous efficacy in all diseases of
the LUNGS, THROAT, and BREAST. A DYING WOMAN SAVED:

CONSUMPTION CURED!

We give the following certificate as a fact of cure, which goes to prove the power to save life, even when the person Indian Paimonary Balsam is administered:—
Town of Ballston, Saratoga Co., N. Y.—ss. Zina DykeMan, being duly sworn, saya: That in the winter of 1845,
deponent's wife was believed by her physician and others to
be dying with a consumption of the lungs; and deponent
believing that to be the case, went to Nr. John Wait's store,
in the village of Ballston Spa, to purchase cloth for a shroud,
and other necessaries, to prepare his wife for burial after
she should die. Deponent further says, that while he was in
said Wart's store, he was persuaded by the Proprietor of
"BRANT'S INDIAN PILMONARY BALSAM," who was
then present, to take a bottle of said Medicise—he remarking, that if the dying teman be now past recovery, yet, if
she be much oppressed and distressed, the said medicine
would soothe and relieve her, and make the pillow of
death more casy. Deponent took the said medicine home
with him, together with the cloth he had purchased preparatory to the anticipated death of his wife. Deponent
caused a portion of said medicine to be administered to
his wife, and to his astonishment it soon relieved her
She continued the use of said medicine until she recovcred from her disease, and has been able since (it being
now more than three years) to do the work, and attend to
ail her household affairs; and deponent verily believes that,
through the blessing of Providence, the restoration to health
of his wite was the result of the curative and healing efficacy of Brant's Indian Pulmonary Balsam. be in the very last stages of existence, when Brant's

cy of Brant's Indian Pulmonary Balsan

Subscribed and sworn to, before me, this 29th day of April.

1848. THOS. G. YOUNG, Justice of the Peace.

Town of Ballston, Scratoga county, N. Y.—22. This is to certify, that I am, and have been for many years, well and intimately acquainted with the above-named Ziba Dykeman, who is one of our most worthy and respectable citizens, and whose statements are entitled to full credit and belief.

THOS. G. YOUNG, Justice of the Peace.

Town of Ballston, Values of R. Parker, St. P. Peace. April 29, 1848.

Town of Ballston, Village of Ballston Spa-ss.; This is to exitiy, that the circumstances and facts stated above by iba Dykeman are to my knowledge strictly true, and that e has frequently since stated to me that Brant's Indian laisum saved the life of Mrs. Dykeman.

April 29, 1848.

JOHN WAIT.

BRANT'S PULMONARY BALSAM cures CONSUMP TION, Coughs, Colds, Spitting of Blood, Bleeding at the Lungs, Pain in the Breast and Side, Night-Sucals, Nervous Complaints, Palpitation of the Heart, Female Weaknesses and Complaints, Cholera Infantum Dysentery, and Summer Com

PHYSICIAN, HEAL THYSELF. DOCT. J. W. FRENCH, of Hillsdale, Hillsdale Co., Mich. wrote to us. Dec. 8, 1848: "I have been in the regular practice of medicine in this place for Nine Years; but was consequent to the practice of medicine in consequent to the practice of the practice wrote to us, Dec. 8, 1845: "I have been in the regular practice of medicine in this place for Nine Years; but was obliged to quit the practice of my profession in consequence of ill health. I was so severely afflicted with a chronic disease of the lungs, as to convince me that I had the Consumption past doubt. I coughed almost incessantly night and day, and had severe pains and soreness in my chest, side, and breast. I tried the remedies recommended by the most skillful of my profession, all to no effect, excepting the nausea and debitity caused by them. I was prejudiced against Patent Medicines, and have no faith now in them, generally. But I was induced, as sen experiment, more than through faith, to try a bottle of Brant's Indian Pulmonary Balsam, and I do here acknowledge, for the benefit of the afflicted or whom it may serve, that the effect of its use on me, was the most prompt and solutary of any medicines I ever witnessed the effect of in all my practice. My cough was immediately relieved, soreness of the chest, and pain, and now consider and promounce myself a well man." Doct. French is now a respectable druggist and merchant at Hillsdale.

ANOTHER IMPORTANT VICTORY:

ANOTHER IMPORTANT VICTORY:

ANOTHER IMPORTANT VICTORY:

Messrs. Holtstander & Co., respectable merchants of Oberlin, Lorain Co., Ohio, wrote December 19, 1848: "After allowing the Brant's Medicines which you sent to us, to remain at Cleveland about three months, we sent for them. We have been so often deceived by such medicines not proving to be equal to their recommendations, and therefore would not sell, when their want of efficacy was known, that we considered it unprofitable to keep such, and were therefore prejudiced against Brant's, supposing it to be no better than many others we have on saie. After we had received Brant's, I. (A. Holtstander) was persuaded from reading the pumphlet to take a bottle of the Pulmorary Bo's am home. My wife had been afflicted with a severe cough for about ten months, and our friends were alarmed and fearful that she would find nothing to relieve or cure her. But notwithstanding our prejudices to patent medicines, we are obliged to say, and cheerfully confess, that Brant's Balsam and Publiving Extract, can be depended on in preference to any or all of the many kinds that have been left with us for sale. My wife was immediately relieved in her cough, and before she had finished using the first bottle, began to gain strength and health, and only three bottles effected a perfect cure. The Publiving Extract I have personally used for a general debility of the system, and I have no hesitaney in saying that it is the best medicine to restore and invigorate the system, that I have ever found. In every instance where we have sold these medicines they have proved their efficacy, and given the best satisfaction."

FOR SALE BY ALFRED MARKS, Lewistown, G. W. BREHMAN, McVeytown, M. STEELY & CO., Belleville JOHN ALBRIGHT, Reedsville,

And by Agents in all parts of the State." All letters and orders must be addressed to WALLACE & Co., 106 Broadway, New York.
