HEVRY W. STYDER.

W. SNYDER, the Whig candidate for Auditor General, says he is the son of Simon Snyder, whose administration as Governor of Pennsylvania will ever reflect honor upon his name, and cause his memory to be cherished by all those who love and value the prosperity of the Old Keystone State. We need not refer our German friends, says the Star, to the conduct of Simon Snyder while Governor. They already know it. They know him to have been a prudent, sound and practical statesman, and our good old Commonwealth prospered greatly during his administration. His son, Henry W. Snyder, our candidate for Auditor General, has injudgement. It is altogether superfluous for us to tell the people of Union county that Mr. Snyder is eminently qualified to fill this office. But we would send it abroad throughout the Commonwealth as Minor. Its northern declination being 72° the united voice of Union county, that we who know him, can and do bear testimony of his honesty, integrity and ability. As an accountant Mr. Snyder has few if any superiors. He possesses excellent business habits, an obliging disposition, an enlarged experience, and every other qualification requisite to make a popular, faithful and competent officer. Mr. Snyder being of German descent has a thorough knowledge of that language, and is identified with the interests and feelings of our German population. His name will be a tower of strength in the German portions of our State; and wherever the friends and admirers of Old Simon Snyder live, Henry W. Snyder, we predict, will receive a strong vote.

From the Harrisburg Intelligencer. Organization --- Its Necessity and Importance to the Whig Party.

We desire to impress upon the Whigs of Pennsylvania the great importance of early and efficient organization in the present campaign, and with this view, invite their attention to the following resolution passed by the late State Convention :

6. Resolved, That, with a view to sustain the Executive by the association of men-men of high character, sound political opinions, and large experience, we have this day nominated Joshua Dungan, Joseph Henderson, and Hen-RY W. SNYDER; surrounded by such men, and no longer embarrassed by adverse associations, the Whig Governor can, without fear or difficulty, carry into successful execution all measures ne cessary for the public good; for their election, and with it, the election of a Legislative majority, so important in every respect, we invoke activity, harmony and fidelity in the Whig ranks, from one end of the State to the other.

This resolution inculcates the proper spirit, and if properly responded to by the Whigs throughout the Commonwealth, will be attended with results to gladden every patriotic Whig heart in the land. Pennsylvania is ever regarded as the great political battle ground of the nation, and if she prove herself true to the Whig faith, as she will if the Whigs do their duty manfully as they did in 1848, her example will inspire the Whigs of the whole country with renewed zeal and energy in the good cause. Apart from this partizan view, however, the importance to the interests of the Commonwealth, of electing "men of character, sound political opinions, and large experience"-such men as are presented on the Whig ticket-as associates with the Executive in the administration of the public affairs, cannot be over-rated. It is impossible for the Governor to carry into successful execution such measures as are necessary for the public good, without the hearty co-operation of the co-ordinate branches of the government. Hence the election of a Whig Legislature, and a Whig Canal Commissioner and Auditor General, are essential requisites to insure the prosperity and that heighth of power and glory to which she is one day destined to arrive, and to which her great resources and importance entitles her.

She can only arrive at this point of eminence, however, through the successful operation of Whig principles and Whig measures, and they can only be secured by the election of Whig men to administer proved themselves the majority party in the State in all contests in which the full strength of both parties was polled. Thus in the contest of 1848, both for Governor and President, our opponents were thoroughly united, and polled the largest vote they ever had in the State, yet we beat them at both elections. This gratifying result was produced by the zeal and activity of our Whig friends in getting our vote to the polls, and proves incontestibly, that whenever the proper efforts are made we can and will be successful. Shall these efforts for success in the pending campaign be made now? We hope so, and trust that every leading Whig in the State, in view of the importance of the contest, will buckle on his armor and prepare for the fight. We cannot begin too soon, and cannot too earnestly engage in the work, and therefore, in the language of the resoution of the State Convention, " we invoke ACTIVITY, HARMONY and FIvoke ACTIVITY, HARMONY and FI-DELITY in the Whig ranks, from one lasses, Liquors, Fish, Salt, Plaster, &c. [Also, end of the State to the other.

THE NEW COMET.

The new comet is now faintly visible to the naked eve in the constellation of Ursa and its right ascension 16h. 20m. It will continue to approach the earth until the middle of July, when it will attain its minimum distance from us of about thirty-eight millions of miles, or less than one-half its present distance. As it is also approaching the sun, it will become five or six times brighter than it now is. On the 20th June its geocentric position will be between the stars Alpha and Iota Draconis.

On the 11th of July it will be seen a few degrees to the west of the bright star Arcturus, in the constellation Bootes .-Moving rapidly to the south, it will pass near the star Spica Virpinis on the 23d of July, and will soon after descend below the

As it is already fast increasing in brightness, it will probably be distinctly visible to the naked eye during the middle of July.

It is a singular fact, that the first European observations of this comet were represented by elements which made the probability of a collision with our planet a matter of serious apprehension .- Boston Traveller.

Strange Catholic Ceremonies in Italy.

At Messina, in the celebration of the assumption of the Madonna, a huge car'is introduced, forty feet high, supported by iron machinery, and very fancifully decorated. This car is drawn through the streets for three days. The base represents a tomb occupied by a choir chanting over the body of the Madonna. The twelve apostles are in attendance, personated by youths of good families. Above them is a circle that revolves horizontally, with children attached to it representing angels under a lage Sun and Moon that turn vertically, with six infants as cherubim suspended at the ends of the principal rays. The infants and children suffer exceedingly in sustaining the parts assigned them, and when taken down, are, not unfrequently, half dead from fright and fatigue. As to the girl who personates the Madonna, I was informed that it was always deemed prudent to place her under the custody of the police for some days afterward to save her from the infatuation of the lower orders, who would, unless thus restrained, tear the hair off her head for relics. The lungs it is well known cur. sustain only a subordinate part in the economy of life. In one of the religious processions a boy, who had been gilded over and exhibited to represent the Golden Age, died in consequence of the obstruction occasioned to the vessels of circulation .-Letter from an American.

THE undersigned begs leave to inform the public, that I he has recently purchased the Warm Springs, in Perry county, Pa., and has improved and refamished the buildings for the entertainment of visiters, in a style calculated to ensure comfort and convenience to all who av feel disposed to patronize the establish

These springs are situated on the banks of and empty nto Sherman's creek, a stream associated with the thrilling scenes between the early settlers of that part of Pennsylvania and the aborigines, whose hunting grounds av on its margin. They are 11 miles from Carlisle, ugh which the Cumberland Valley Railroad passe om Chambersburg to Harrisburg,) from which place visiters can at all times procure excellent conveyances. Those also from the east, wishing to reach the springs by the Central Railroad, can do so by taking passage to the Duncannon Iron Works, (13 miles distant from the rings) where coaches are constantly in readiness to nvey them thither; and those coming from the west n the same road, can at all times obtain easy conveyanes at the Railroad Hotel at Newport, which is but a few

niles distant from the springs.

The qualities of the water at these springs are most atraordinary indeed for the speedy and permanent cure f SCROFULA, TETTER, Eruptions of the Skin, and in fact every species of Cutaneous Diseases. He has hundreds of certificates, showing the wonderful cures effected by using this water internally, and by bathing in it, obtained as well from strangers as from those residing in the immediate neighborhood of the springs, who have not only experienced the infallible efficacy of the water themselves, but witnessed the same upon others. Frof. James C. Boorn has analyzed the waters, and found hem to contain 9.2 grains of solid matter in the gallon,

There are also at the same place half a dozen of other orings, of different descriptions, among which is one of ulphur and one of cold water.

sulphur and one of cold water.

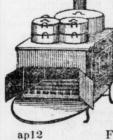

It may not be improper to state why a knowledge of the extraordinary medical qualities of these springs has not been more extensively known than is indicated by the certificates of those only who have resided in their im mediate neighborhood. Years ago the property fell into the hands of a number of heirs, who were indisposed to undertake the responsibility of making it a place of public entertainment—probably because the patronage of the public would not have justified the undertaking, as at that time (before the spirit of improvement had rendered distant and difficult points of speedy and cheap access,) its location was out of the way, and the roads to and almost impassable. At the death of Mr. Kennedy, it fell into the hands of his heirs, neither of whom seen-ed disposed to take hold of it, but leased it to tenants, more for the cultivation of the land than a regard to the use of the water. It was finally rented to Mr. Hipple (now proprietor of a large hotel in Trement. Pa.) who made arrangements to accommodate the public, and during his term many invalids availed themselves of this opportunity to visit and test its medical qualities Mr. Hipple however retired in a short time, and the property again fell into the hands of the heirs, and remained so until proceedings were instituted in the Orphans' Cour for its sale. It was ordered to be sold, and the subscri ber became the purchaser- It will thus be seen that with the exception of the short time it was held by Mr. Hip

the exception of the short time it was held by Mr. Hip-ple, no efforts were made to bring it into notice.

The country round the springs and neighborhood is di-versified by cultivation and beautifully wild and pictu-resque scenery, abounding in game, while the stream passing through the property affords fine fishing. Every attention will be paid to the comfort and convenience of guests, and the charges so moderate, that all may avail themselves of the benefits of the Water.

SAAFFEES C. J. GAYLER'S

SALAMANDER SAFES.

Warranted Fire & Thief Proof,

AND FREE FROM DAMPNESS. HESE SAFES possess every qualification to rende them proof against the action of fire or thieves, and of sufficient strength to endure a fall from any story of a burning building. They are made of wrought iron, being kneed, rivited and welded together, and lined with a perfect nonconducting fire proof mineral composition, no wood being used in their construction as in the majo safes sold by other makers. The doors of Gayler's Safes are secured with his THIEF DETECTOR and ANTI-GUNPOWDER LOCK, which precludes the possibility of picking or blowing them open with gunpowder. Over TWO HUNDRED of these Safes have been exposed in accidental fire to the most intense heat, in many instances remaining in the burning ruins for several days, and at no time have they ever been known to fail in preserving

their contents.

The public are invited to call at the BRANCH DEPOT, No. 10 EXCHANGE PLACE, PHILADELPHIA, near Dock street, and examine the numerous testimonials in favor of Gayler's Safes, also the large assortment on hand for sale at manufacturers' prices,

JOHN L. PIPER, Agent. P. S.—Also for sale low, new and second-hand Safes of ther makers, which have been taken in part payment for Gayler's Salamanders.
