#### MANGEL WURTZEL.

The following extract from a paper by the Abbe Rozier, will show very conclusively the great value of this root as a material in the food of stock. He says :-

" In giving these roots to cattle for food, they are first washed and then cut into pieces about the size of a nut. It is always best to accompany them, when given to horned cattle, with clover, or other hay or straw, and if the hay or straw has been previously cut fine, it will be preferable. " If horses are fed with this root with a

proportion of cut hay or straw, (half of each) they will be fat, vigorous, and healthy. If they are worked severely, a little oats or corn may be added. It is thus they are treated in Germany, where this root stands in the stead of meadows or grass lands, and whose excellent horses are well known. "Hogs fed upon them raw, after they

have been cut up and mixed with milk or other drink, fatten as well upon them as upon boiled potatoes.

" As to the cattle, much will depend on the proportion of other fodder which you allow them. Cows fed twice a day in winter upon eighteen pounds of these roots at each time, together with four pounds of hay or chopped straw, will give as much milk as in summer, and they will be kept in the best possible state.

" Oxen fed with forty weight of these roots per day, with ten pounds of hay for one month, and after that with fifty weight. per day of the roots alone, will be fat enough for sale in two months more."

#### BOYS AND GIRLS.

The times have indeed sadly changed. One entire portion of human life struck out. It is now boyhood or manhood. There is no conservative state-(we do not speak politically.) Once there were intermediate states of boy hood-barefooted and bean porridge eating state-a spelling and cyphering period-when there were boys to do the chores and go errandswhen apprentice indentures were in fashion, and manhood was well defined by the "freedom suit." But there are no such things now. The child steps out of his diaper and frock into a long tailed coat and high heeled boots. He exchanges the breast for the cigar. Not one of the present generation has ever seen a real bona-fide "nine-day-old" pot of bean-porridge; and Noah Webster's spelling-book is crowded out of school by high works on philosophy and metaphysics. There are no apprentices now. Young men take a few lessons in the trade they fancy, and then set up for themselves.

But the present generation is as destitute of girls as boys. It is either baby or lady -nursery or parlor. The mother tends her infant or waits upon her daughter. Instead of spinning flax for her father's shirt they reel silk for the ladies' fair ; and instead of knitting stockings and mending trousers for their brothers they work lace and make stays for themselves. The mother milks, churns, mends, washes and irons-and their daughters-the "ladies" -read novels, dress, and make parties instead of puddings, and cook from the book rather than from knowledge.

We should be delighted to see a generation of boys and girls, in looks, actions, and dress ; we should then hope for health and strength, industry and sobriety, frugality and economy, prosperity and happiness. We go for protection to this class of the community. Every father should impose a tariff, one that should amount to entire prohibition, on the introduction of fashionable follies into the family. He should protect and *enforce* home industry. He and his wife and children should enter into a "Home League" on the subject. This is the tariff that will restore confidence. This is the bank that will freely discount and never suspend .- Alex. Index.

The profits on the sale of drugs are well known to be very great-often exceeding 300 per cent. on the cost-so that the present exorbitant prices can be greatly reduced, and yet a good profit be realized. The adulteration of drugs the most valuable, (Opium, Calomel, Quinine, &c.,) is a most dangerous and destructive, but very common, fraud, and cannot be detected without a careful chemical analysis. My stock has been selected with great care, and I will sell drugs warranted free from all impurity, CHEAPER THAN THE ADULTERATED ARTICLE HAS BEEN SOLD.

All prescriptions will be made up after the most approved method, and medical advice given to purchasers WITHOUT CHARGE.

GERMAN BITTERS PREPARED BY

DR. C. M. JACKSON,

Their power over the above diseases is not excelled-if equalled-by any other preparation in the United States as the cures attest, in many cases ofter skilfulphysicians had

These Bitters are worthy the attention of invalids. Possessing great virtues in the retification of diseases of the Liver and lesser glands, exercising the most searching powers in weakness and affections of the digestive organs, they are withal, safe, certain and plea

READ AND BE CONVINCED. CHAS. ROBINSON, Esq., Easton, Md., in a letter to Dr. Jackson, January 9, 1850, said-"My wife and myself have received more benefit from

our medicine than any other we have ever taken for the Dyspepsia and Liver disease."

"THE TENTH LEGION," published at Woodstock, Va January 10, 1850, said-

#### "A GREAT MEDICINE."

"We have uniformly refrained from recommending to the public any of the various Patent Medicines of the day, unless thoroughly convinced of their value. Among those we consider worthy of notice is the German Bitters, invented by Dr. Hoofland, and prepared by Dr. Jackson in Philadelphia. One instance in particular, in which the superior virtues of this medicine has been tested, has fal-len under our observation. During the last summer, a son of MR. ABRAHAM GRABILL, of this county, was ver seriously afflicted with Liver Complaint, and after trying in value various remedies, he purchased a bottle of the Bitters, and after using it, was so much relieved of hi distressing malady, that he procured another bottle, and is restored entirely to health."

READ FURTHER A FEW FACTS FROM "THE WELDON HERALD," published at Weldon N. C., January 24, 1850, which said-

" PATENT MEDICINES."

"It is very seldom that we make any allusion to Patent Medicines, either approving or otherwise. Unfortunately for the country, and for honest and conscientious investors and venders of these medicines, the land is becoming flooded with quack preparations, that are made alone for profit and are fit not even for the dogs. In this state of things it is hard to tell which are, and which are not worth having. If a person gets an indifferent medicine the first time he purchases, he is very apt to condemn the whole the purchases, he is very ap to content the whole of them and buy no more, and inventors must only blame those of their number, (who ignorantly combine plain medicines together for the purpose of making money.) for the ill success which attends the efforts of the deserving." "We believe Dr. C. M. Jackson's 'Hoofland's German Bitters' to be a most excellent medicine, and one that should be highly popular in these days of Temperance; for they are altogether *Vegetable* in their composition, without one drop of *Alcoholic Spirits* in them. This med icine is innocent, but strengthening in its effects, and richly deserving of an unbounded popularity, which, when it becomes known, it will, no doubt, fully enjoy."

JUDGE M. M. NOAH said, in his " WEEKLY MESSEN. GER," January 5, 1850.

THE SPIGELIA, says a work of highest authority, " Dr. Hoofland's German Bitters .- Here is a preparastands at the head of the list of Anthelmintics or Worm dicines. It is adapted to a wider range of cases, and unanimous in recommending, and thereason is obvious. TAS just received the Beebe & Costar and latest Philadelphia and New York Spring Fashion of Hats and Caps, and is now versity of Jena, private physician to the king of Prussia, and one of the greatest medical writers Germany has ever produced. He was emphatically the enemy of humbug, and therefore a medicine of which he was the inventor and enforcer an medicine of which he was the inventor and enforcer may be confidently relied on. He specially recommended it in Liver Complaint, Dyspepsia, Debility, Verigo, Acidity of the Stomach, Constipation, and all complaints arising from a disordered condition of the stomach, the liver and the intestines. Nine Philadelphia papers express their conviction of its excellency, and sev-eral of the editors speek of its effects from their own indieral of the editors speak of its effects from their own indi vidual experience. Under these circumstances, we feel warranted, not only in calling the attention of our readers to the present proprietor's (Dr. C. M. Jackson's) prepara-tion, but in recommending the article to all afflicted."

THE HEART .- The little I have seen of the world, and known of the history of mankind, teaches me to look upon the errors, of others in sorrow, not in anger. When I take the history of one poor heart that has sinned and suffered, and represent to myself the struggles and temptations it has passed through ; the brief pulsations of joy; of the feverish inquietude of hope and fear ; the pressure of want ; the desertion of friends; the scorn of the world that has little charity; the desolation of the soul's sanctuary, and threatening voices within, health gone, happiness gone, I would fain leave the erring soul of my fellow man with him from whose hands it came .-- Longfellow.

A LITTLE HEATHEN.-" Will you please to mend my trousers ?" said a little fellow the other day to a lady friend of his mother, the rags exhibiting themselves pretty clearly about the knees.

"Why, no, you little mischief you ; why don't you go and ask your mother to do it ?"

Compound Syrup, it is so concentrated that the dose is very small, so combined as to ensure a purgative opera-tion, and so palatable as to be taken, not only with ease, but with positive pleasure. The precise composition of this syrup and the mode of preparing it, are the result of a series of experiments continued for years. Before offering it for sale, it was subjected to the test of experience in the hands of emi-parthwaterians in Polledalbhais and elements who have nentphysicians, in Philadelphia and elsewhere, who have recommended it in the highest terms, and still employ it in their practice. In addition to this evidence of its mer-

its, we offer the following, selected from a number of un-solicited testimonials. Ist. A distinguished physician of Virginia, of much experience, writes of it thus: "I should have written before this, but felt disposed

first to try the efficacy of your Vermifuge. I have used more than half the quantity received, and the experiment has been most successful. I really believe that it possesses advantages over any other Vermifuge I have ever used. Independent of the smallness of the dose, and the pleasantness of the syrup (great advantages in dosing children) the advantage of administering it under a variety of circumstances, enhances its value; indeed there is scarcely a condition of the system in which it may not 2d. A respectable physician of Lebanon county, in this

state, writes-

" I have been in the habit of prescribing your Compound Syrup of Spigelia for some time past, and have found it an excellent worm medicine, particularly for children.— Please forward per bearer 2 doz. bottles.—Yours, &c." 3d.—An intelligent merchant of Virginia to whom we

put us up 5 or 6 dozen in a small package, and send to the care of W. Anderson & Co., Richmond, as soon as possi-ble, and forward the bill per mail.—Yours, &c."

4th.—A respectable merchant of Ohio, on a late visit to Philadelphia, stated, that some time since he had been ap-plied to by a customer for a vial of \_\_\_\_\_'s Vermifuge for his son. Not having the article asked for, he advised a trial of Harris, Turner & Hale's Compound Syrup of Spigelia and gave him a part of a bottle which was all that remained in the store. A day or two after this the gentleman returning to the store, expressed his surprise and delight at the effect of the Syrup, declaring it had expelled 200 worms and entirely relieved his son. The merchant added an expression of his great regret that he had not had on hands a bottle of the Syrup at the time

"It is seldom that we recommend what are termed Pat-ent Medicines to the confidence and patronage of our readers : and, therefore, when we recommend Dr. Hoofland's German Bitters, we wish it to be distinctly under-stood that we are not speaking of the nostrums of the day, that are noised about for a brief period and then forgotten after it has done its guilty race of mischief, but of a med-icine long established, universally prized, and which has met the hearty approval of the faculty itself."
