Lewistown, June 28, 1850-tf WARM SPRINGS, PERRY COUNTY, PA.

THE undersigned begs leave to inform the public, that The has recently purchased the Warm Springs, in Perry county, Pa, and has improved and refurnished the buildings for the entertainment of visiters, in a style calculated to ensure comfort and convenience to all who ay feel disposed to patronize the establishment. These springs are situated on the banks of and empt

Sherman's creek, a stream associated with the thril ig scenes between the early settlers of that part of nsylvania and the aborigines, whose hunting groun on its margin. They are 11 miles from Carlis on its margin. They are 11 miles from Carlisi rough which the Cumberland Valley Railroad pass m Chambersburg to Harrisburg,) from which place iters can at all times procure excellent conveyance ose also from the east, wishing to reach the springs by he Central Railroad, can do so by taking passage to the Juncannon Iron Works, (13 miles distant from the rings) where coaches are constantly in readiness! nvey them thither; and those coming from the wes the same road, can at all times obtain easy conveyanges at the Railroad Hotel at Newport, which is but a few

lies distant from the springs.

The qualities of the water at these springs are most traordinary indeed for the speedy and permanent cure in SCROFULA, TETTER, Eruptions of the Skin, and fected by using this water internally, and by bathing i obtained as well from strangers as from those residir only experienced the infallible efficacy of the w mselves, but witnessed the same upon others. Pro MES C. BOOTH has analyzed the waters, and found them to contain 9.2 grains of solid matter in the gallor

hich is composed as follows: Carbonate of lime, magnesia,
Alkaline salts, chiefly chlorides, with a por-1.093 tion of sulphate, silicia . Organic matter. 2.897

There are also at the same place half a dozen of other prings, of different descriptions, among which is one of ulphur and one of cold water. It may not be improper to state why a knowledge of th

traordinary medical qualities of these springs has no then more extensively known than is indicated by the crificates of those only who have resided in their im-ediate neighborhood. Years ago the property fell into ne hands of a number of heirs, who were indisposed to indertake the responsibility of making it a place of pub ic entertainment—probably because the patronage of the lic would not have justified the undertaking, as a nat time (before the spirit of improvement had rendered istant and difficult points of speedy and cheap access, is location was out of the way, and the roads to it rough nd aimost impassable. At the death of Mr. Kennedy t fell into the hands of his heirs, neither of whom seem d disposed to take hold of it, but leased it to tenants ore for the cultivation of the land than a regard to the ise of the water. It was finally rented to Mr. Hipple (now proprietor of a large hotel in Tremont. Pa.) who ade arrangements to accommodate the public, and du ing his term many invalids availed themselves of thi opportunity to visit and test its medical qualities Mr pple however retired in a short time, and the property in fell into the hands of the heirs, and remained s til proceedings were instituted in the Orphans' Co or its sale. It was ordered to be sold, and the subscr er became the purchaser— It will thus be seen that with he exception of the short time it was held by Mr. Hip de, no efforts were made to bring it into notice. he, no chorts were made to bring it into notice.

The country round the springs and neighborhood is di
ersified by cultivation and beautifully wild and pictu
esque scenery, abounding in game, while the stream

ing through the property affords fine fishing. Every cention will be paid to the comfort and convenience of ests, and the charges so moderate, that all may avai uselves of the benefits of the Water. H. H. ETTER. Pennsylvania Railroad.

SALAMANDER SAFES.

Warranted Fire & Thief Proof,

AND FREE FROM DAMPNESS. HESE SAFES possess every qualification to render them proof against the action of fire or thieves, and of fficient strength to endure a fall from any story of a urning building. They are made of wrought iron, being need, rivited and welded together, and lined with a perect nonconducting fire proof mineral composition, no wood being used in their construction as in the majority of afes sold by other makers. The doors of Gayler's Safes re secured with his THIEF DETECTOR and ANTI-GUNPOWDER LOCK, which precludes the possibility of picking or blowing them open with gunpowder. Over TWO HUNDRED of these Safes have been exposed in cidental fire to the most intense heat, in many instances maining in the burning ruins for several days, and at time have they ever been known to fail in preserving

eir contents. The public are invited to call at the BRANCH DEPOT, 10 EXCHANGE PLACE, PHILADELPHIA, near Dock street, and examine the numerous testimonials in favor of Gayler's Safes, also the large assortment on

and for sale at manufacturers' prices. JOHN L. PIPER, Agent. P. S.—Also for sale low, new and second-hand Safes of ther makers, which have been taken in part payment for ayler's Salamanders.
