THE OLD FARMER'S ELEGY.

BY 'THE PEASANT BARD.' On a green grassy knoll, by the banks of the brook That so long and so often has watered his flock, The old farmer rests in his long and last sleep, while the While the waters a low, lapsing tullaby keep:
He has ploughed his last furrow, has reaped his last grain,
No morn shall awake him to labor again.

The blue-bird sings sweet on the gay maple bough,
Its warblings oft cheered him while holding the plough;
And the robins above him hop light on the mould,
For he fed them with crumbs when the season was cold:
He has ploughed his ast furrow, has reaped his last grain,
No morn shall awake him to labor sgain.

Won tree that with fragrance is filling the air, So rich with its biossoms, so thrifty and fair, By his own hand was planted, and well did he say It would live when its planter had mouldered away He has ploughed his last furrow, has reaped his last grain, No morn shall awake him to labor again. There's the well that he dug, with its water so cold,

There's the well that he dug, with its water so cold, With its wet dripping bucket, so mossy and old, No more from its depths by the patriarch drawn, For 'the pitcher is broken'—the old man is gone! He has ploughed his last furrow, has reaped his last grain, No morn shall awake him to labor again. And the seat where he sat by his own cottage door,

And the seat where he sait by his labor was o'er, in the still summer eve, when his labor was o'er, With his eye on the moon, and his pipe in his hand, Dispensing his truths like a sage of the land: He has ploughed his last furrow, has reaped his last grain, No morn shall awake him to labor again. Twas a gloom-giving day when the old farmer died

The stout-hearted mourned, the affectionate cried; And the prayers of the just for his rest did ascend, For they all lost a BROTHER, a MAN, and a FRIEND: He has ploughed his last furrow, has reaped his last grain, No morn shall awake him to labor again. For upright and honest the old farmer was-

atia God he revered, he respected the laws; Though fameless he lived, he has gone where his worth Will outshine, like pure gold, all the dross of this earth He has ploughed his last furrow, has reaped his last grain, No morn shall awake him to labor again.

Preserves and Jellies.

GENERAL DIRECTIONS .- Gather fruit when it is dry.

Long boiling hardens the fruit.

Pour boiling water over the seives used, and wring out jelly bags in hot water the moment you are to use them.

Do not squeeze while straining through ielly bags. Let the pots and jars containing sweat- worth that amount at present."

them tight and seal them, or, what is best of all, soak a split bladder and tie it tight over them. In drying, it will shrink so as to be perfectly air-tight.

Keep them in a dry, but not warm place. A thick leathery mould helps to preserve fruit, but when mould appears in specs, the preserves must be scalded in a warm oven, or be set into warm water, which then must boil till the preserves are scalded.

Always keep watch of preserves which are not sealed, especially in warm or damp weather. The only sure way to keep them without risk or care, is to make them with enough sugar and seal them, or tie bladder covers over them.

Sweet forn Pudding.

Take three common sized ears of corn, split the kernels by drawing a sharp knife lengthwise of the rows from but to top, and scrape off the corn with the back of the knife, leaving the hulls and cob. Beat a couple of fresh eggs; add three pints of milk and a spoonful of sugar; mix this of the best quality, Segar Cases, Snuff Boxes, with the corn, and salt to your liking .-Bake from two to three hours. It should be eaten hot, with butter.

To Pickle Tomatoes.

Gather them and put them immediately into pure cold vinegar. When a sufficiency has been obtained, take them out, and scald some spices, cloves, cinnamon, pepper, or others if you choose, in a bag in good vinegar, and pour it hot over them.

To Pickle Onions.

Divest them of the outer tunics, and boil them in milk and water, remove the liquid and pour over them vinegar scalding hot. Permit them to remain until thoroughly

Red Cedar Posts.

All kinds of Cedar are known to be very durable, but the heart of red cedar is perhaps preferable on this account to any other kind, and those parts of the tree which are most knotty will probably last longest. E. Bourne, in the Massachusetts Plowman, states that on examining some red cedar posts set by his father 48 years since, he found those which were taken from the butt end of the tree a little decayed on the outside; but those from the second and third cuts of the tree were perfectly sound.

To Decoy Rats.

Mix a shilling's worth of Spanish flies in a pint of the best French brandy, cork it well, and after shaking, let it stand six weeks, and it will be fit for use. A few drops of this liquid is said to entice the rats from their holes into any kind of trap.

Destroying Mice in Nurseries.

J. W. Hooker, of Rochester, completely effects this object by boring inch and a half holes into wooden blocks, ramming in a quantity of corn meal and arsenic, and distributing them, with the mouth inclined downward, in the most exposed places .-The holes need filling each autumn.

Transplanting Locust Trees. A correspondent informs us that the

sprouts of locust trees, if taken up in the spring, and set in open places in the woods, will grow well, and become valuable for timber. We have heard it said that locust trees planted in this way are not likely to be attacked by the borer.

Making Stone Fence.

With us the motto would be, whenever stone were removed from the field, put matism, Gout, Lumbago, Palsy, Sprains, Bruises, them into a wall. If ten rods cannot be made, make five, and the next time the field is ploughed and more loose stone appear, make five rods more, but do not throw them into the corners of the fence, nor into

To Pickle Eggs.

Boil, divest of the shell, and place them in a large jar; pour over them scalding vinegar, saturated with ginger, garlic, cloves, whole pepper and alspice.

Migcellancous.

Swearing .- We have often spoken a word against this sin. But can we say too much when our ears are daily saluted with profane oaths and vulgar words? Who can pass our streets and not hear language that makes the virtuous blush? Our youths and children are growing up exceedingly depraved. What must be done? Grown up men must be on their guard, and not set a pernicious example before children. How many you hear talking loud in our streets who have not pride and principle enough about them to keep from words of profanity! Men must first reform, before we can hope to do much with the youth. We trust this word of caution may not be in vain. When you would be profane remember who hears you. A child, perhaps, who is forming his character by your

A GEM .- We find the following arithmetical toast, by a schoolmaster, in one of our exchange papers :

The fair daughters of America-May they add virtue to beauty, subtract envy from frienship, multiply amiable accomplishments by sweetness of temper, divide time by sociability and economy, and reduce scandal to its lowest denomination.

No man ever regretted that he was virtuous and honest in his youth, and kept aloof from idle companions.

AN OBLIGING JUSTICE.-Many years ago, in Connecticut, a certain justice was called to liberate a worthless debtor, by receiving his oath that he was not worth £5. " Well, Johnny," said the justice, as he

entered, " can you swear that you are not worth £5, and never will be ?" " Why," said the other, rather chagrined at the question, "I can swear I am not

"Well, well," returned the justice, " I

can swear to the rest-so step onward, "Swipes, if I were in your place, I'd

go and hang myself!" "So would I, Snarl, if I were as big a fool as you !"

great variety of ELEGANT FANCY GOODS. His drugs have been purchased from Linn, Smith & Co., 2131 Market street, Philadelphia, one of the most extensive and reputable establishments in that city, and every article is warranted to be pure and of the first quality.

The profits on the sale of drugs are well known to be very great-often exceeding 300 per cent. on the cost-so that the present exorbitant prices can be greatly reduced, and yet a good profit be realized. The adulteration of drugs the most valuable, (Opium, Calomel, Quinine, &c.,) is a most dangerous and destructive, but very common, fraud, and cannot be detected without a careful chemical analysis. My stock has been selected with great care, and I will sell drugs warranted free from all impurity, CHEAPER THAN THE ADULTERATED ARTICLE HAS BEEN SOLD.

All prescriptions will be made up after the most approved method, and medical advice given to purchasers WITHOUT CHARGE.

Physicians and druggists in the country or neighboring towns, will be supplied on the most liberal terms. All orders promptly filled, and boxes and packages of drugs, &c., carefully put up and forwarded.

HARRIS, TURNER & HALE'S

Compound Syrup of Spigelia or Vegetable Vermifuge, The most effectual, the safest, pleasantest and most convenient Worm Medicine

Medicines. It is adapted to a wider range of cases, and unanimous in recommonly is, in the form of tea, it can seldom be given to children in sufficient doses. In Harris, Turner & Hale's Compound Syrup, it is so concentrated that the dose is very small, so combined as to ensure a purgative operation, and so palatable as to be taken, not only with ease,

but with positive pleasure.

The precise composition of this syrup and the mode of preparing it, are the result of a series of experiments continued for years. Before offering it for sale, it was subjected to the test of experience in the hands of eminentphysicians, in Philadelphia and elsewhere, who have recommended it in the highest terms, and still employ it in their practice. In addition to this evidence of its merits, we offer the following, selected from a number of unsolicited testimonials.

lst. A distinguished physician of Virginia, of much experience, writes of it thus:

"I should have written before this, but felt disposed first to try the efficacy of your Vermifuge. I have used more than half the quantity received, and the experiment has been most successful. I really believe that it possesses advantages over any other Vermifuge I have ever used. Independent of the smallness of the dose, and the plea MERCHANTS wishing to replenish will dren) the advantage of administering it under a variety of circumstances, enhances its value; indeed there is scarcely a condition of the system in which it may not be administered. Yours, &c."

2d. A respectable physician of Lebanon county, in this 'I have been in the habit of prescribing your Compou Syrup of Spigelia for some time past, and have found it an excellent worm medicine, particularly for children.— Please forward per bearer 2 doz. bottles.—Yours, &c."

3d .- An intelligent merchant of Virginia to whom we had previously sold the syrup, writes:
"Since my return home, I find that your Syrup of Spigelia has come into general use in this neighborhood. We have sold what we had on hand, and it gave such satisfaction that it is now called for evey day. You will please put us up 5 or 6 dozen in a small package, and send to the

care of W. Anderson & Co., Richmond, as soon as possi-ble, and forward the bill per mail.—Yours, &c." 4th.—A respectable merchant of Ohio, on a late visit to Philadelphia, stated, that some time since he had been applied to by a customer for a vial of ----mifuge for his son. Not having the article asked for, he advised a trial of Harris, Turner & Hale's Compound Syrup of Spigelia and gave him a part of a bottle which was all that remained in the store. A day or two after this the gentleman returning to the store, expressed his surprise and delight at the effect of the Syrup, declaring it had expelled 200 worms and entirely relieved his sor The merchant added an expression of his great regret that he had not had on hands a bottle of the Syrup at the time when his own little daughter died, as he confidently be

lieved it would have saved her life.

5th—A gentleman of Hudson, N. Y., having sent a bottle of Harris, Turner & Hale's Compound Syrup of Spi-gelia, to a young friend who had tried in vain a great num-ber of worm medicines, writes, that his friend was immediately relieved; the words of the patient were: "It took every worm out my body."

"My wife and myself have received more benefit from

your medicine than any other we have ever taken for the Dyspepsia and Liver disease." "THE TENTH LEGION," published at Woodstock, Va.,

"A GREAT MEDICINE." "We have uniformly refrained from recommending to the public any of the various Patent Medicines of the day, unless thoroughly convinced of their value. Among those we consider worthy of notice is the German Bitters, invented by Dr. Hoofland, and prepared by Dr. Jackson, in Philadelphia. One instance in particular, in which the superior virtues of this medicine has been tested, has fallen under our observation. During the last summer, a son of Mr. Abbaham Grabill, of this county, was very seriously afflicted with Liver Complaint, and after trying in vain various remedies, he purchased a bottle of the Bitters, and after using it, was so much relieved of his distressing malady, that he procured another bottle, and is restored entirely to health.'

READ FURTHER A FEW FACTS FROM "THE WELDON HERALD," published at Weldon, N. C., January 24, 1850, which said— "PATENT MEDICINES."

"It is very seldom that we make any allusion to Patent Medicines, either approving or otherwise. Unfortunately for the country, and for honest and conscientious inven-tors and venders of these medicines, the land is becoming flooded with quack preparations, that are made alone for profit and are fit not even for the dogs. In this state of things it is hard to tell which are, and which are not worth having. If a person gets an indifferent medicine the first time he purchases, he is very apt to condemn the whole of them and buy no more, and inventors must only blame those of their number, (who ignorantly combine plain medicines together for the purpose of making money.) for the ill success which attends the efforts of the deserving." "We believe Dr. C. M. Jackson's 'Hoofland's German Bitters' to be a most excellent medicine, and one that should be highly popular in these days of Temperance; for they are altogether Vegetable in their composition, without one drop of Alcoholic Spirits in them. This med cine is innocent, but strengthening in its effects, and rich y deserving of an unbounded popularity, which, when it becomes known, it will, no doubt, fully enjoy."

JUDGE M. M. NOAH said, in his " WEEKLY MESSEN-

GER," January 5, 1850. "Dr. Hoofland's German Bitters.-Here is a preparation which the leading presses in the l to a greater variety of constitutions and states of the constitution, than any other. But prepared as it common to the constitution, than any other. But prepared as it common to the constitution of the constitution of the constitution of the constitution. most celebrated physicians of modern times—the late Dr. Christopher Wilhelm Hoofland, professor to the Uni-versity of Jena, private physician to the king of Prussie, and one of the greatest medical writers Germany has ever produced. He was emphatically the enemy of humbug, and therefore a medicine of which he was the inventor and endorsor may be confidently relied on. He specially recommended it in Liver Complaint, Dyspepsia, Deblity, Vertigo, Acidity of the Stomach, Constination, and all complaints arising from a disordered condition of the stomach, the liver and the intestines. Nine Philadelphia papers express their conviction of its excellency, and sev eral of the editors speak of its effects from their own indi vidual experience. Under these circumstances, we feel warranted, not only in calling the attention of our readers to the present proprietor's (Dr. C. M. Jaci s m's) prepara-

tion, but in recommending the article to all afflicted. MORE EVIDENCE. The "PHILADELPHIA SATURDAY GAZETTE," the best

family newspaper published in the United States. The Dr. Hoofland's German Bitters: "It is seldom that we recommend what are termed Pat-ent Medicines to the confidence and patronage of our readers; and, therefore, when we recommend Dr. Hoof. land's German Bitters, we wish it to be distinctly under-stood that we are not speaking of the nostrums of the day, that are noised about for a brief period and then forgotten after it has done its guilty race of mischief, but of a med-icine long established, universally prized, and which has

met the hearty approval of the faculty itself." Evidence upon evidence has been received (like the foregoing) from all sections of the Union, the last three years, and the strongest testimony in its favor, is, that there is more of it used in the practice of the regular Physicians of Philadelphia than all other nostrums combined, a fact that can easily be established. and fully proving that a scientific preparation will meet with their quiet approval when pre-

sented even in this form. That this medicine will cure Liver Complaint and Dyspepsia, no one can doubt after using it as directed. It acts specifically upon the stomach and liver; it is preferable to calomel in all bilious diseases-the effect is immediate. They can be administered to FEMALE OF INFANT with safety and reliable benefit, at any time.

BEWARE OF COUNTERFEITS.

This medicine has attained that high character which is necessary for all medicines to attain to induce counterfeiters to put forth a spurious article at the risk of the lives of those who are innocently deceived. Look well to the marks of the genuine. They have the written signature of C. M.

It heals and cures Ulcers in the Lungs, and elsewhere internally, as readily and as easily as the Purifying Extract heals and cures externally.

THOUSANDS of cures of the most kepeless Consumption fully prove its almost miraculous efficacy in all diseases of the LUNGS, THROAT, and BREAST.

A DYING WOMAN SAVED: CONSUMPTION CURED! We give the following certificate as a fact of cure, which goes to prove the power to save life, even when the person

seems to be in the very last stages of existence, when Brant's Indian Pulmonary Balsam is administered:—

Town of Ballston, Saratoga Co., N. Y.—ss. Ziba Dykeman, being duly sworm, says: That in the winter of 1845, deponent's wite was believed by her physician and others to be dying with a consumption of the lungs; and deponent believing that to be the case, went to Mr. John Wair's store, in the cillage of Ballston Spa, to purchase cloth for a shroud, and other necessaries, to prepare his wife for burial after she should die. Deponent further says, that while he was in said Wair's store, he was persuaded by the Proprietor of "BRANTS INDIAN PULMONARY BALSAM," who was then present, to take a bottle of said Medicine—he remarking, that if the dying woman be now past recovery, yet, if she be much oppressed and distressed, the said medicine would soothe and relieve her, and make the pillow of death more easy. Beponent took the said medicine home with him, together with the cloth he had purchased preparatory to the anticipated death of his wife. Deponent caused a portion of said medicine to be administered to his wife, and to his astonishment it soon relieved her She continued the use of said medicine until she recovered from her disease, and has been able since (it being very continued the use of said medicine until she recovered from her disease, and has been able since (it being Indian Pulmonary Balsem is administered :-She continued the use of said medicine until she recov-ered from her disease, and has been able since (it being now more than three years) to do the work, and attend to all her household affairs; and deponent verily believes that, through the blessing of Providence, the restoration to health of his wife was the result of the curative and healing effi-

Town of Ballaton, Village of Ballaton Spa-sn.: This is to certify, that the circumstances and facts stated above by Ziba Dykeman are to my knowledge strictly true, and that he has frequently since stated to me that Brant's Indian Balsam, saved the life of Mrs. Dykeman.

DOCT. J. W. FRENCH, of Hillsdale, Hillsdale Co., Mich., wrote to us, Dec. 8, 1848: "I have been in the regular practice of medicine in this place for Nine Years; but was obliged to quit the practice of my profession in consequence of ill health. I was so severely stillicted with a chronic disease of the lungs, as to convince me that I had the Consumption past doubt. I coughed almost incessantly night and day, and had severe pains and soreness in my cheet, side, and breast. I tried the remedies recommended by the most skilful of my profession, all to no effect, excepting the nausos and debility caused by them. I was prejudiced against Patent Medicines, and have no faith now in them, generally. But I was induced as an experiment, more than through faith, to try a bottle of Beant's Indian Pulmonary Balsam, and I do here acknowledge, for the benefit of the afflicted or whom it may serve, that the effect of its use on me, was the most prompt and salutary of any medicines I ever witnessed the effect of in all my practice. My cough was immediately believed to my soreness of the cheet, and pain, and now consider and pronounce myself a well man." Doct. French is now a respectable druggist and merchant at Hillsdale.

ANOTHER IMPORTANT VICTORY:

ANOTHER IMPORTANT VICTORY!

Messrs. Holtstander & Co., respectable merchants of Oberlin, Lorain Co., Ohio, wrote December 19, 1848: "After allowing the Brant's Medicines which you sent to us, to remain at Cleveland about three months, we sent for them. We have been so often deceived by such medicines not proving to be equal to their recommendations, and therefore would not sell, when their want of efficacy was known, that we considered it unprofitable to keep such, and were therefore prejudiced against Brant's, supposing it to be no better than many others we have on sale. After we had received Braut's, I. (A. Holtstander) was persuaded from reading the pumphlet to take a bottle of the Pulmoarry Balsam home. My wife had been afflicted with a severe cough for about ten months, and our friends were alarmed and fearful that she would find nothing to relieve or cure her. But notwithstanding our prejudices to patent medicines, we are obliged to say, and cheerfully confess, that Brant's Balsam and Purifying Extract, can be depended on in preference to any or all of the many kinds that have been left with us for sale. My wife was immediately relieved in her cough, and before she had finished using the first bottle, began to gain strength and health, and only three bottles effected a perfect cure. The Furifying Extract I have personally used for a general debility of the system, and I have no hesitaney in saying that it is the best medicine to restore and invigorate the system, that I have ever found. In every instance where we have sold these medicines to restore and invigorate the system, that I have ever found. In every instance where we have sold these medicines to restore and invigorate the system, that I have ever found. In every instance where we have sold these medicines to restore and they proved their efficacy, and given the best satisfaction."
