Agricultural.

On the Use of Mules.

1. Mules on a general average, live more than twice as long as horses. They are fit for service from three years old to thirty. At twelve a horse has seen his best days and is going down hill, but a mule at that age has scarcely risen out of his colthood, and goes on improving till he is twenty.
Instances are recorded of mules living sixty or seventy years, but these are exceptions. The general rule is that they average thirty.

2. Mules are never exposed to disease as horses are. Immense sums of money are annually lost in the premature death of high spirited horses by accident and The omnibus lines in the city of New York have not been able to sustain their losses, and are beginning to use mules, as less liable by far even to accident as well as disease. This results from the next consideration which is that,

3. Mules have organs of vision and hearing far superior to those of the horse. Hence they seldom shear, and frighten, and run off. A horse frightens, because he imagines he sees something, but a mule, having superior discernment, both by the eye and ear, understands every thing he meets, and therefore is safe. For the same reason he is sure footed, and hence more valuable in mountainous regions, and on dangerous roads. I doubt whether on the Alpine paths a mule ever made a misstep. He may have been de-ceived in the firmness of the spot where he set his foot, but not in the propriety of the choice, all appearances considered.

4. The mule is much more hardy than the horse. A pair of these animals owned by a neighbor of mine, although small in size, will plough more land in a week than four horses. Their faculty of endurance is almost incredible.

5. Another very important fact is, that in the matter of food, a mule will live and thrive on less than one-half it takes to keep a horse. The horses of England at this present time, are consuming grain which would save the lives of thousands of British subjects. In a national point of view, the agricultural interest is so great that the greater the demand for grain of all kinds, the better for the farmer. But yet individual farmers, who are in debt, and whose land is not improved, would find it profitable, in the course of ten years, to have the labor of a full team, and save one-half and more of the food necessary to keep it up, as might be the case in substituting mules for horses .-New York Farmer and Mechanic.

Seed Wheat.

The late Rev. Henry Colman, some years since, in his " Notes by the Way," related the following anecdote of a farmer in Vermont, who always obtained a high price for his seed wheat called "barrel wheat"-his neighbors resorting to him for their seed, and paying as high as \$3 per bushel. The wheat was, in fact, superior in appearance, productiveness, and early maturity. The secret was at last discovered, when those who had been in the habit of paying him three prices, availed themselves of his practice of making "barrel wheat" for themselves, and they saved the difference in price.

The farmer in question used, before reshing his wheat, to select the best sheaves, and striking them over the head of an open barrel three or four times before laying them down to be threshed, obtained in this way a superior seed. As, in this way, the largest earliest white kernels would be shaken out and fall into the barrels, he obtained what might be considered a select seed, which he denominated his "barrel wheat," and which until the farmers heard how to do it for themselves, found it to their advantage in purchasing."

The hint contained in the above anecdote, may, we think, be profitably availed by wheat growers generally.

DR. J. B. MITCHELL, DRUGGIST & CHEMIST, WHOLESALE AND RETAIL

RESPECTFULLY informs his friends and the public generally that he is now opening in the new and splendid storeroom lately occupied by W. J. Sterrett, in Market street, Lewistown, south side, a few doors above the Hardware store of F. G. Franciscus, the best selected, purest and cheapest assortment ever offered for sale in this place, of

Fresh Drugs and Medicines, French and English CHEMICALS; Paints, Oils and Dye Stuffs; Varnishes, Patent Medicines, Townsend's

Sarsaparilla, Concentrated Sarsaparilla, Wistar's Balsam of Wild Cherry, Dr. Jayne's Family Medicines,

&c., &c., &c. Paint and Varnish Brushes; Native and Foreign Herbs and Extracts; Surgical Instruments, warranted; Sash Tools, Window Glass, Spices, &c.;

Roussell's Perfumery, &c., &c. great variety of ELEGANT FANCY GOODS, His drugs have been purchased from Linn, Smith & Co., 2131 Market street, Philadelphia, one of the most extensive and reputable establishments in that city, and every article is warranted to be pure and of the first quality.

The profits on the sale of drugs are well known to be very great-often exceeding 300 per cent. on the cost-so that the present exorbitant prices can be greatly reduced, and yet a good profit be realized. The adulteration of drugs the most valuable, (Opium, Calomel, Quinine, &c.,) is a most dangerous and destructive, but very common, fraud, and cannot be detected without a careful chemical analysis. My stock has been selected with great care, and I will sell drugs warranted free from all impurity, CHEAPER THAN THE ADULTERATED

All prescriptions will be made up after the most approved method, and medical advice given to purchasers WITHOUT CHARGE.

Physicians and druggists in the country or neighboring towns, will be supplied on the most liberal terms. All orders promptly filled, and boxes and packages of drugs, &c., carefully put up and forwarded.

HARRIS, TURNER & HALE'S Compound Syrup of Spigelia or Vegetable Vermifuge,

The most effectual, the safest, pleasantest and most convenient Worm Medicine ever offered to the public.

THE SPIGELIA, says a work of highest authority, Medicines. It is adapted to a wider range of cases, and to a greater variety of constitutions and states of the constitution, than any other. But prepared as it com-monly is, in the form of tea, it can seldom be given to children in sufficient doses. In Harris, Turner & Hale's Compound Syrup, it is so concentrated that the dose is very small, so combined as to ensure a purgative opera-tion, and so palatable as to be taken, not only with ease, but with positive pleasure.

The precise composition of this syrup and the mode o

reparing it, are the result of a series of experiments tinued for years. Before offering it for sale, it was subjected to the test of experience in the hands of emi nentphysicians, in Philadelphia and elsewhere, who have recommended it in the highest terms, and still employ it in their practice. In addition to this evidence of its merits, we offer the following, selected from a number of unsolicited testimonials.

1st. A distinguished physician of Virginia, of much

experience, writes of it thus:
"I should have written before this, but felt disposed first to try the efficacy of your Vermifuge. I have used more than half the quantity received, and the experiment has been most successful. I really believe that it possesses advantages over any other Vermifuge I have ever used Independent of the smallness of the dose, and the plea santness of the syrup (great advantages in dosing chil dren) the advantage of administering it under a variety of circumstances, enhances its value; indeed there is scarcely a condition of the system in which it may not be administered. Yours, &c.' 2d. A respectable physician of Lebanon county, in this

"I have been in the habit of prescribing your Compound Syrup of Spigelia for some time past, and have found an excellent worm medicine, particularly for children. Please forward per bearer 2 doz. bottles .- Yours, &c. 3d.—An intelligent merchant of Virginia to whom we had previously sold the syrup, writes:

"Since my return home, I find that your Syrup of Spi since my return home, I find that your Syrup of Spigelia has come into general use in this neighborhood. We have sold what we had on hand, and it gave such satisfaction that it is now called for evey day. You will please put us up 5 or 6 dozen in a small package, and send to the care of W. Anderson & Co., Richmond, as soon as possible, and forward the bill per mail.—Yours, &c.'

4th.—A respectable merchant of Ohio, on a late visit to Philadelphia, stated, that some time since he had been applied to by a customer for a vial of — 's Vermillure for his son. Not having the article school of the soon will be supported a few of the leading articles.

this the gentleman returning to the store, expressed his surprise and delight at the effect of the Syrup, declaring it had expelled 200 worms and entirely relieved his son. The merchant added an expression of his great regret that he had not had on hands a bottle of the Syrup at the time when his own little daughter died, as he confidently believed it would have saved her life.

sth—A gentleman of Hudson, N. Y., having sent a bot-tle of Harris, Turner & Hale's Compound Sytup of Spi-gelia, to a young friend who had tried in vain a great num-ber of worm medicines, writes, that his friend was imme-diately relieved; the words of the patient were: "It took every worm out my body."

These Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of diseases of the Liver and lesser glands, exercising the most search-

ing powers in weakness and affections of the digestive or-gans, they are withal, safe, certain and pleasant. READ AND BE CONVINCED.

Chas. Robinson, Esq., Easton, Md., in a letter to Dr. ackson, January 9, 1850, said— "My wife and myself have received more benefit from our medicine than any other we have ever taken for the Dyspepsia and Liver disease." "THE TENTH LEGION," published at Woodstock, Va...

"A GREAT MEDICINE."

"We have uniformly refrained from recommending to be public any of the various Patent Medicines of the day, unless thoroughly convinced of their value. Among those we consider worthy of notice is the German Bitters, invented by Dr. Hoofland, and prepared by Dr. Jackson in Philadelphia. One instance in particular, in which the superior virtues of this medicine has been tested, has fallen under our observation. During the last summer, a son of Mr. Abraham Grabill, of this county, was very seriously afflicted with Liver Complaint, and after trying in vain various remedies, he purchased a bottle of the Bitters, and after using it, was so much relieved of his distressing malady, that he procured another bottle, and is restored entirely to health.

READ FURTHER A FEW FACTS FROM "THE WELDON HERALD," published at Weldon, N. C., January 24, 1850, which said-

"PATENT MEDICINES." "It is very seldom that we make any allusion to Patent Medicines, either approving or otherwise. Unfortunately for the country, and for honest and conscientious inventors and venders of these medicines, the land is becoming flooded with quack preparations, that are made alone for profit and are fit not even for the dogs. In this state of things it is hard to tell which are, and which are not worth having. If a person gets an indifferent medicine the first time he purchases, he is very apt to condemn the whole of them and buy no more, and inventors must only blame those of their number, (who ignorantly combine plain medicines together for the purpose of making money,) for the ill success which attends the efforts of the deserving." "We believe Dr. C. M. Jackson's 'Hoofland's German Bitters' to be a most excellent medicine, and one that should be highly popular in these days of Temperance; for they are altogether Vegetable in their composition, without one drop of Alcoholic Spirits in them. This med icine is innocent, but strengthening in its effects, and richy deserving of an unbounded popularity, which, when it

comes known, it will, no doubt, fully enjoy. JUDGE M. M. NOAH said, in his "WEEKLY MESSEN-"Dr. Hoofland's German Bitters.-Here is a prepara-

nanimous in recommending, and the reason is obvious It is made after a prescription furnished by one of the most celebrated physicians of modern times—the late Dr. Christopher Wilhelm Hoofland, professor to the University of Jena, private physician to the king of Prussia, and one of the greatest medical writers Germany has ever produced. He was emphatically the enemy of humbug, and therefore a medicine of which he was the inventor and endorsor may be confidently relied on. He specially recommended it in Liver Complaint, Dyspepsia, Debility, Vertigo, Acidity of the Stomach, Constipation, and all complaints arising from a disordered condition of the stomach, the liver and the intestines. Nine Philadelphia apers express their conviction of its excellency, and several of the editors speak of its effects from their own indi vidual experience. Under these circumstances, we feel warranted, not only in calling the attention of our readers to the present proprietor's (Dr. C. M. Jackson's) preparation, but in recommending the article to all afflicted.'

MORE EVIDENCE. "PHILADELPHIA SATURDAY GAZETTE," the best

amily newspaper published in the United States. The Dr. Hoofland's German Bitters: "It is seldom that we recommend what are termed Patent Medicines to the confidence and patronage of our readers; and, therefore, when we recommend Dr. Hoof-and's German Bitters, we wish it to be distinctly under-

stood that we are not speaking of the nostrums of the day. that are noised about for a brief period and then forgotten after it has done its guilty race of mischief, but of a medicine long established, universally prized, and which has met the hearty approval of the faculty itself." Evidence upon evidence has been received (like the foregoing) from all sections of the Union, the last three years, and the strongest testimony in its favor, is, that there is more of it used in the practice of the regular Physicians of Philadelphia than all other nostrums

and fully proving that a scientific preparation will meet with their quiet approval when presented even in this form. That this medicine will cure Liver Complaint and Dyspepsia, no one can doubt after using it as directed. It acts specifically upon the stomach and liver; it is preferable to calemel in all bilious diseases-the effect is immediate. They can be administered to FEMALE OF INFANT

combined, a fact that can easily be established,

with safety and reliable benefit, at any time. BEWARE OF COUNTERFEITS. This medicine has attained that high character which is necessary for all medicines to attain to induce counterfeiters to put forth a spurious article at the risk of the lives of those who are innocently deceived

SCHOFULA:

PURIFY! PURIFY!

Life and Health are in the Blood. Not one of all the numerous medicines that have been prepared, begins to be of as great medical virtue, power, and unfailing certainty to cleanse and purify, produce new, healthy blood, and strengthen and invigorate the whole system as

BRANT'S INDIAN PURIFYING EXTRACT.

This Purifier is the most wonderful and astonishing remedy in the world. No other medicine has effected such almost miraculous cures of

Scrofula, Fever Sores, Salt Rheum.

SYPHILIS, and other cruptice and skin diseases, viz.: Ery sipelas, Sores, Ulcers, Ulcerated Sore Mouth and Throat, Nursing Sore Mouth, Sould Hoad, Biles, Piles, Pinples on the Face, Rheumatism, LIVER COMPLAINT, and many other diseases. THOUSANDS of such diseases have been cured by this PURIFIER, and cured by the use of FOUR TIMES Less Quantity, at Less Cost

by four-fold, than ever such diseases were before or since cured, by Sarsaparilla, or any other remedy. What then, is the question for those interested to decide, as to economy and health? FIRST—Will it cure my complaint? SECOND—Is it cheaper? THIRD—Will ONE DOLLAR'S WORTH

of BRANT'S PURIFIER effectively cure FOUR TIMES as much disease as one dollar's worth of Sarsaparilla? If it will, then it is FOUR TIMES CHEAPER than Sarsaparilla. And to prove this we offer one case of cure, out of the many cases of

MOST HORRID SCROFULA. To realize the great power of this medicine as a purifier, read, in our Pamphiets, the perfect cure effected on Mr. J. B. Haskin, of Rome, Oncida county, N. Y. He was confined to his bed One Year—was not expected to live twenty-four hours longer—his neck was eaten nearly off, from ear to ear—a hole was eaten through the Wind-pipe—his ear nearly eaten out—the use of one arm asstroyed—an Ulcer, as large as a man's hand, had nearly eaten through his side—and there were on him, in all,

Twenty Large, Deep, Discharging Ulcers, which were ALL CURED, and he restored to kealth and strength to labor again, by the use of ONLY TWELVE BOTTLES. This wonderful cure is certified to by

Fourteen Respectable Witnesses.

And it is the greatest cure, the most undoubtedly substantisted, of one of the most horrid and most hopeless came of Scrofula, that has ever been cured since the world was created—completely establishing the great power and certain faces of the medicine.

BRANT'S INDIAN PULMONARY BALSAM

This Balsam possesses all the cleaning and purifying Virtues of the above-named Purifying Extract, and also possesses everal other medications, perficularly and pecuarly adapted to cure COUGHS and CONSUMPTIONS. It heals and cures Ulcers in the Lungs, and elsewhere internally, as readily and as easily as the Purifying Extract heals and cures externally. and cures externally.

Thousands of cures of the most kopeless Consumption fully prove its almost miraculous efficacy in all diseases of the LUNGS, THROAT, and BREAST.

A DYING WOMAN SAVED! CONSUMPTION CURED!

We give the following certificate as a fact of cure, which goes to prove the power to save life, even when the person seems to be in the very last stages of existence, when Brant's Indian Pulmonary Balsam is administered :-

Town of Ballston, Saratoga Co., N. Y.—ss. Zina Dykk-Man, being daily sworn, says: That in the winter of 1845, deponent's wife was believed by her physician and others to be dying with a coasumption of the lung; and deponent believing that to be the case, went to Mr. John Wait's store, in the village of Ballston Spa, to purchase cloth for a shroud, and other necessaries, to prepare his wife for burial after she should die. Deponent further says, that while he was in said Wait's store, he was persuaded by the Propuretor of BRANT'S INDIAN PULMONARY BALSAM," who was then present to take a hastic of said Medicing—he remark-BRANT'S INDIAN PULMONARY BALSAM," who was then present to take a bottle of said Medicine—he remarking, that if the dying woman be now past recovery, yet, if she be much oppressed and distressed, the said medicine would soothe and relieve her, and make the pillow of death more easy. Deponent took the said medicine home with him, together with the cloth he had purchased preparatory to the anticipated death of his wife. Deponent caused a portion of said medicine to be administered to his wife, and to his astonishment it soon relieved her she continued the use of said medicine until she recovered from her disease, and has been able since (it being now more than three years) to do the work, and attend to all her household affairs; and deponent verily believes that, through the blessing of Providence, the restoration to health of his wife was the result of the curative and healing effithrough the blessing of Providence, the restoration to health of his wife was the result of the curative and healing effi-

DOCT. J. W. FRENCH, of Hillsdale, Hillsdale Co., Michawrote to us. Doc. 8, 1848: "I have been in the regular practice of medicine in this place for Nine Years; but was obliged to quit the practice of my profession in consequence of ill health. I was so severely afflicted with a chronic disease of the lungs, as to convince me that I had the Consumption post doubt. I coughed almost incessantly night and day, and had severe pains and soreness in my chest, side, and breast. I tried the remedies recommended by the most skilful of my profession, all to no effect, excepting the nausea and debility caused by them. I was prejudiced against Patent Medicines, and have no faith now in them, generally. But I was induced, as an experiment, more than through faith, to try a bottle of Brann's Induan Petmonary Balsam, and I do here acknowledge, for the bestift of the affilicted or whom it may server, that the effect of its use on me, was the most prompt and salutary of any med cinnes I ever witnessed the effect of in all my practice. My cough was inmediately restered for the continuous of the chest, and

could was immediately relieved, and in about eight ten days. I was free from cough, soreness of the chest, it pain, and now consider and pronounce myself a well ma Doct. French is now a respectable druggist and merch ANOTHER IMPORTANT VICTORY!

Messrs. Holtstander & Co., respectable merchants of Oberlin, Lorain Co., Ohio, wrote December 19, 1848: "After allowing the Brant's Medicines which you sent to us, to remain at Cleveland about three months, we sent for them. We have been so often deceived by such medicines not proving to be equal to their recommendations, and therefore would not sell, when their want of efficacy was known, that we considered it unprofitable to keep such, and were therefore prejudiced against Brant's, supposing it to be no better than many others we have on sale. After we had received Brant's, I. (A. Holtstander) was persuaded from reading the psimphle to take a bottle of the Pulmoary Balsam home. My wife bad been afflicted with a severe cough for about ten months, and our friends were alarmed and fearful that she would find nothing to relieve or cure her. But notwithstanding our prejudices to patent medicines, we are obliged to say, and cheerfully confess, that Brant's Balsam and Purifying Extract, can be depended on in preference to any or all of the many kinds that have been left with us for sale. My wife was immediately relieved in her cough, and before she had finished using the first bottle, began to gain strength and health, and only three bottles effected a perfect cure. The Purifying Extract I have personally used for a general debility of the system, and I have no hesitancy in saying that it is the best medicine to restore and invigorate the system, that I have ever found. In every instance where we have sold these medicines they have proved their efficacy, and given the best satisfaction." Messrs.
