Clover --- Time of Sowing.

To the Editor of the Ohio Cultivator -The great consideration of the farmer should be to keep up and increase the strength and fertility of his land. If this MANUFACTURED AND SOLD BY is properly attended to, it will constitute a deposite upon which he can freely draw without danger of having his drafts protested. But this grand object is lost sight of by a large portion of our farmers, and consequently each succeeding crop taken from the land, leaves it worth less to the owner, with the certainty of yielding a more scanty return to the tiller.

Where the cultivation of grain is the principal object of the farmer, without a corresponding amount of stock being kept, to produce manure sufficient to keep up the soil, it becomes indispensibly necessary to of vegetable matter. As a fertiliser, no crop is better adapted to a variety of soils, than clover, or a mixture of clover and timothy. Land not intended for the plow for a season, should invariably be well set with clover. I have never known a farm run down, that was regularly seeded in well. We consider it a bedstead that can be clover.

In regard to the best time for sowing clover, there is some diversity of opinion, and different results in practice. Much depends upon the season, and a time that may succeed best in one season, may utterly fail in another. I have practiced fall sowing with the most complete success; and in order to guard against contingencies September, or as late as the fifth of October, but no later, as it requires a warm sun to grow, and become well set to protect it from the winter. There is no danger of its being hoven up when small ; that never occurs until the roots become large. Fall sowing has this advantage, it gives the clover a better start in the spring before becoming shaded by the growing crop, and ler's and Anderson's Fine Cut and Solace TO-if it should fail, the ground can be re-sown BACCO; Rappee, Scotch, Macabau and Nain the spring.

For spring sowing I consider the two last weeks in March the best time. If sown too early, it may sprout immediately, and so be killed in the cold weather that follows, if sown late, it is frequently killed by drought. The best signs to sow in. is when the ground is hoven up, so as to allow the seed to settle in the openings. I have generally found from seven to eight pounds of seed to the acre sufficient.

Intimately connected with clover, is the use of plaster, upon which I may give my experience and observations hereafter. BOLIVAR, OHIO, 1850. D. YANT.

A. FELIX,

At the Lewistown Cheap Cabinet Ware Rooms, THERE the article can be seen at any time among his large stock of other FURNITURE of all descriptions. The following testimonials from those who purchased and have now in use, or had the bottom put into their old bedsteads, will speak for themselves: CERTIFICATES :

This is to certify that I purchased twenty pair of new bedsteads with Hinkley's patent elastic spring bottom in, am well pleased with them, consider them a good article, and would buy no others. I would recommend them to all persons, as they are easily screwed together, clover largely, and turn down a heavy coat and can be kept cleaner than any hitherto made. JAMES ALLISON.

I concur with the above and consider it a good article for tavern keepers and others. THOMAS MAYES.

We certify that we got A. Felix to put B. Hinkley's patent bottom into our old bedsteads, and that they answer the purpose exceedingly kept much cleaner from insects, screwed up firmer than any others, and recommend them to the public.

THE TENTH LEGION," published at Woodstock, Va January 10, 1850, said

"A GREAT MEDICINE."

"We have uniformly refrained from recommending to the public any of the various Patent Medicines of the day, unless thoroughly convinced of their value. Among those we consider worthy of notice is the *German Bitters*, invented by *Dr. Haofland*, and prepared by *Dr. Jackson*, in Philadelphia. One instance in particular, in which the superior virtues of this medicine has been tested, has falsuperior virtues of this medicine has been tested, has fal-len under our observation. During the last summer, a son of MR. ABRAHAM GRABLL, of this county, was very seriously afflicted with Liver Complaint, and after trying in vain various remedies, he purchased a bottle of the Bitters and after using it. Bitters, and after using it, was so much relieved of his distressing malady, that he procured another bottle, and is restored entirely to health."

READ FURTHER A FEW FACTS FROM "THE WELDON HERALD," published at Weldon N. C., January 24, 1850, which said-

"PATENT MEDICINES."

"It is very seldom that we make any allusion to Patent Medicines, either approving or otherwise. Unfortunately for the country, and for honest and conscientious inven-tors and venders of these medicines, the land is becoming flooded with quack preparations, that are made alone for profit and are fit not even for the dogs. In this state of things it is hard to tell which are, and which are not worth having. If a person gets an indifferent medicine the first time he purchases, he is very apt to condemn the whole of them and buy no more, and inventors must only blame those of their number, (who ignorantly combine plai medicines together for the purpose of making money.) fo the ill success which attends the efforts of the deserving.' "We believe Dr. C. M. Jackson's 'Hoofland's German Bitters' to be a most excellent medicine, and one that should be highly popular in these days of Temperance; for they are altogether *Vegetable* in their composition, without one drop of *Alcoholic Spirits* in them. This med icine is innocent, but strengthening in its effects, and richly deserving of an unbounded popularity, which, when it becomes known, it will, no doubt, fully enjoy."

JUDGE M. M. NOAH said, in his "WEEKLY MESSES OEn," January 5, 1850. "Dr. Hoofland's German Bitters.-Here is a prepari tion which the leading presses in the Union appear to be unanimous in recommending, and the reason is obvious. It is made after a prescription furnished by one of the most celebrated physicians of modern times-the late Dr. Christopher Wilhelm Hoofland, professor to the University of Jena, private physician to the king of Prussia, Versity of Jena, private physician to the king of Prussia, and one of the greatest medical writers Germany has ever produced. He was emphatically the enemy of *humbug*, and therefore a medicine of which he was the inventor and endozsor may be confidently relied on. He specially recommended it in Liver Complaint, Dyspepsia, *Debility*, Vertigo, Acidity of the Stomach, Constipation, and all complaints arising from a disordered condition of the stomach, the liver and the intestines. Nine Philadelphia anders surfaces the conviction of the aveclosure papers express their conviction of its excellency, and sev eral of the editors speak of its effects from their own indi vidual experience. Under these circumstances, we feel warranted, not only in calling the attention of our readers to the present proprietor's (Dr. C. M. Jackson's) preparation, but in recommending the article to all afflicted.'

The precise composition of this syrup and the mode of preparing it, are the result of a series of experiments continued for years. Before offering it for sale, it was subjected to the test of experience in the hands of eminentphysicians, in Philadelphia and elsewhere, who have recommended it in the highest terms, and still employ it in their practice. In addition to this evidence of its mer-lts, we offer the following, selected from a number of un-solicited testimonials. 1st. A distinguished physician of Virginla, of much

experience, writes of it thus: "I should have written before this, but felt dispose first to try the efficacy of your Vermifuge. I have used more than half the quantity received, and the experiment has been most successful. I really believe that it possesses advantages over any other Vermifuge I have ever used Independent of the smallness of the dose, and the plea santness of the syrup (great advantages in dosing chil dren) the advantage of administering it under a variety of circumstances, enhances its value; indeed there is scarcely a condition of the system in which it may not be administered. MORE EVIDENCE.

The "PHILADELPHIA SATURDAY GAZETTE," the best mily newspaper published in the United States. The editor says of

Dr. Hoofland's German Bitters:

"It is seldom that we recommend what are termed Pate ent Medicines to the confidence and patronage of our readers : and, therefore, when we reco mend Dr. Hoof land's German Etters, we wish it to be distinctly un stood that we are not speaking of the nostrums of the day, that are noised about for a brief period and then forgotter after it has done its guilty race of mischief, but of a med icine long established, universally prized, and which has met the hearty approval of the faculty itself."

Evidence upon evidence has been received (like the foregoing) from all sections of the Union, the last three years, and the strongest testimony in its favor, is, that there is more of it used in the practice of the regular Physicians of Philadelphia than all other nostrums combined, a fact that can easily be established, and fully proving that a scientific preparation will meet with their quiet approval when presented even in this form.

That this medicine will cure Liver Complaint and Dyspepsia, no one can doubt after using i as directed. It acts specifically upon the stom ach and liver; it is preferable to calounel in all bilious diseases—the effect is immediate. They can be administered to FEMALE OF INFANT with safety and reliable benefit, at any time.

BEWARE OF COUNTERFEITS.

This medicine has attained that high character which is necessary for all medicines to attain to induce counterfeiters to put forth a spurious article at the risk of the lives of those who are innocently deceived

Look well to the marks of the genuine. They have the written signature of C. M. JACKSON upon the wrapper, and the name blown in the bottle, without which they are spurious.
