Draining.

The good farmer has learned from observation, if from nothing else, that wheat is killed by water standing for weeks together on it, and by the alternate freezing and thawing consequent upon a saturated surface. He knows that when his fields are inundated through the winter, sobbing, soaking and souring, their productive powers are greatly impaired, and that they are much later arriving at a tillable condition in the spring. He knows that vegetation is accelerated by warmth and retarded by cold; that a well drained field becomes warm enough to start vegetation eight or ten days earlier than one that has been soaking and sobbing through the winter, and that wheat will ripen that much sooner on the former than on one of the latter description. This is not all that he knows: he is well assured that the grain lost in two crops from the want of draining, would thoroughly drain the fields which are usually sown in it, and that money, time and labor could not be expended more profitably. His observation, if not his reason, tells him that to spread manure on a surface which is covered with water for four months in the year, is but to throw it away.

When a good farmer fallows his fields in the fall, he does not plough them in one land by running round and round them, but he ploughs them in lands or beds of a uniform width—say wide enough for 3 or 5 corn rows—leaving raised in the middle, with deep, clean dividing furrows between them. When he thus prepares his fields, he knows that if more water falls than can be absorbed by them, the overplus does not stand on the surface to sour, or stagnate, or drown the growing crops, but runs into these dividing furrows, and is thus carried off. Thus is wheat relieved of surface water in the winter, and consequently escapes the deadly effects of that heaving process just spoken of.

When his fields are so situated that they cannot be drained in this way, he digs deep ditches, with proper width and direction, blinds them, and thus effects the same object. These blind ditches waste no land, but when properly constructed, are of an advantage in many fields equal to 100 per cent.

But it may be asked, when is a field thoroughly drained? The good farmer will tell you that if you find water standing on any of your fields three hours after it fell, they are not thoroughly drained—they are not in as good a condition as they might be—they cannot yield to the utmost of their powers—*they are not thoroughly drained*; and that time cannot be better employed than in remedying that defect.

Thus we see that a good farmer is one who not only has straight, tall, close fences, and well and convenient shaped fields, but who also *thoroughly drains them.*—*Ohio Cultivator.*

Resolution relative to an Amendment of the Constitution.

RESOLVED *by the Senate and House of Representatives of the Commonwealth of Pennsylvania in General Assembly met*, That the Constitution of this Commonwealth be amended in the second section of the fifth article, so that it shall read as follows: The Judges of the Supreme Court, of the several Courts of Common Pleas, and of such other Courts of Record as are or shall be established by law, shall be elected by the qualified electors of the Commonwealth, in the manner following, to wit: The Judges of the Supreme Court, by the qualified electors of the Commonwealth at large; the President Judges of the several Courts of Common Pleas, and of such other Courts of Record as are or shall be established by law, and all other Judges required to be learned in the law, by the qualified electors of the respective districts over which they are to preside or act as Judges; and the Associate Judges of the Courts of Common Pleas by the qualified electors of the counties respectively. The Judges of the Supreme Court shall hold their offices for the term of fifteen years, if they shall so long behave themselves well, (subject to the allotment hereinafter provided for, subsequent to the first election;) the President Judges of the several Courts of Common Pleas, and of such other Courts of Record as are or shall be established by law, and all other Judges required to be learned in the law, shall hold their offices for the term of ten years, if they shall so long behave themselves well; the Associate Judges of the Courts of Common Pleas shall hold their offices for the term of five years, if they shall so long behave themselves well; all of whom shall be commissioned by the Governor, but for any reasonable cause, which shall not be sufficient grounds of impeachment, the Governor shall remove any of them on the address of two-thirds of each branch of the Legislature. The first election shall take place at the general election of this Commonwealth next after the adoption of this amendment, and the commissions of all the Judges who may be then in office shall expire on the first Monday of December following, when the terms of the new Judges shall commence. The persons who shall then be elected Judges of the Supreme Court shall hold their offices as follows: One of them for three years, one for six years, one for nine years, one for twelve years, and one for fifteen years, the term of each to be decided by lot by the said Judges, as soon after the election as convenient, and the result certified by them to the Governor, that the commissions may be issued in accordance thereto. The Judge whose commission will first expire shall be Chief Justice during his term, and thereafter each Judge whose commission shall first expire shall in turn be the Chief Justice, and if two or more commissions shall expire on the same day, the Judges holding them shall decide by lot which shall be the Chief Justice. Any vacancies, happening by death, resignation, or otherwise, in any of the said Courts, shall be filled by appointment by the Governor, to continue till the first Monday of December succeeding the next general election. The Judges of the Supreme Court and the Presidents of the several Courts of Common Pleas shall, at stated times, receive for their services an adequate compensation, to be fixed by law, which shall not be diminished during their continuance in office; but they shall receive no fees or perquisites of office, nor hold any other office of profit under this Commonwealth, or under the government of the United States, or any other State of this Union. The Judges of the Supreme Court, during their continuance in office, shall reside within this Commonwealth; and the other Judges, during their continuance in office, shall reside within the district or county for which they were respectively elected.

HARRIS, TURNER & HALE'S

Compound Syrup of Spigelia or Vegetable Vermifuge,

The most effectual, the safest, pleasantest and most convenient Worm Medicine ever offered to the public.

THE SPIGELIA, says a work of highest authority, *stands at the head of the list of Anthelmintics or Worm Medicines.* It is adapted to a wider range of cases, and to a greater variety of constitutions and states of the constitution, than any other. But prepared as it commonly is, in the form of tea, it can seldom be given to children in sufficient doses. In Harris, Turner & Hale's Compound Syrup, it is so concentrated that the dose is very small, so combined as to ensure a purgative operation, and so palatable as to be taken, not only with ease, but with positive pleasure.

The precise composition of this syrup and the mode of preparing it, are the result of a series of experiments continued for years. Before offering it for sale, it was subjected to the test of experience in the hands of eminent physicians, in Philadelphia and elsewhere, who have recommended it in the highest terms, and still employ it in their practice. In addition to this evidence of its merits, we offer the following, selected from a number of unsolicited testimonials.

1st. A distinguished physician of Virginia, of much experience, writes of it thus:

"I should have written before this, but felt disposed first to try the efficacy of your Vermifuge. I have used more than half the quantity received, and the experiment has been most successful. *I really believe that it possesses advantages over any other Vermifuge I have ever used.* Independent of the smallness of the dose, and the pleasantness of the syrup (great advantages in dosing children) the advantage of administering it under a variety of circumstances, enhances its value; indeed there is scarcely a condition of the system in which it may not be administered. Yours, &c."

2d. A respectable physician of Lebanon county, in this state, writes—

"I have been in the habit of prescribing your Compound Syrup of Spigelia for some time past, and have found it an excellent worm medicine, particularly for children.—Please forward per bearer 2 doz. bottles.—Yours, &c."

3d.—An intelligent merchant of Virginia to whom we had previously sold the syrup, writes:

"Since my return home, I find that your Syrup of Spigelia has come into general use in this neighborhood. We have sold what we had on hand, and it gave such satisfaction that it is now called for every day. You will please put us up 5 or 6 dozen in a small package, and send to the care of W. Anderson & Co., Richmond, as soon as possible, and forward the bill per mail.—Yours, &c."

4th.—A respectable merchant of Ohio, on a late visit to Philadelphia, stated, that some time since he had been applied to by a customer for a vial of ——— ———'s Vermifuge for his son. Not having the article asked for, he advised a trial of Harris, Turner & Hale's Compound Syrup of Spigelia and gave him *a part of a bottle* which was all that remained in the store. A day or two after this the gentleman returning to the store, expressed his surprise and delight at the effect of the Syrup, declaring it had expelled 200 worms and entirely relieved his son. The merchant added an expression of his great regret that he had not had on hands a bottle of the Syrup at the time when his own little daughter died, as he confidently believed it would have saved her life.

5th—A gentleman of Hudson, N. Y., having sent a bottle of Harris, Turner & Hale's Compound Syrup of Spigelia, to a young friend who had tried in vain a great number of worm medicines, writes, that his friend was immediately relieved; the words of the patient were: "It took every worm out my body."

DR. HOOFLAND'S

celebrated

GERMAN BITTERS,

PREPARED BY

DR. C. M. JACKSON,

At the German Medicine Store, 120 Arch st.

PHILADELPHIA.

Their power over the above diseases is not excelled—if equalled—by any other preparation in the United States as the cures attest, in many cases after skilful physicians had failed.

These Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of diseases of the Liver and lesser glands, exercising the most searching powers in weakness and affections of the digestive organs, they are withal, safe, certain and pleasant.

READ AND BE CONVINCED.

CHAS. ROBINSON, Esq., Easton, Md., in a letter to Dr. Jackson, January 9, 1850, said—

"My wife and myself have received more benefit from your medicine than any other we have ever taken for the *Dyspepsia and Liver disease.*"

"THE TENTH LEGION," published at Woodstock, Va., January 10, 1850, said—

"A GREAT MEDICINE."

"We have uniformly refrained from recommending to the public any of the various Patent Medicines of the day, unless thoroughly convinced of their value. Among those we consider worthy of notice is the *German Bitters*, invented by *Dr. Hoofland*, and prepared by Dr. Jackson, in Philadelphia. One instance in particular, in which the superior virtues of this medicine has been tested, has fallen under our observation. During the last summer, a son of MR. ABRAHAM GRABILL, of this county, was very seriously afflicted with Liver Complaint, and after trying in vain various remedies, he purchased a bottle of the Bitters, and after using it, was so much relieved of his distressing malady, that he procured another bottle, and is restored entirely to health."

READ FURTHER A FEW FACTS

FROM "THE WELDON HERALD," published at Weldon, N. C., January 24, 1850, which said—

"PATENT MEDICINES."

"It is *very* seldom that we make any allusion to Patent Medicines, either approving or otherwise. Unfortunately for the country, and for honest and conscientious inventors and venders of these medicines, the land is becoming flooded with quack preparations, that are made alone for profit and are fit not even for the dogs. In this state of things it is hard to tell which are, and which are not worth having. If a person gets an indifferent medicine the first time he purchases, he is very apt to condemn the whole of them and buy no more, and inventors must only blame those of their number, (who ignorantly combine plain medicines together for the purpose of making money,) for the ill success which attends the efforts of the deserving."

"We believe Dr. C. M. Jackson's 'Hoofland's German Bitters' to be a most excellent medicine, and one that should be highly popular in these days of Temperance; for they are altogether *Vegetable* in their composition, without one drop of *Alcoholic Spirits* in them. This medicine is innocent, but strengthening in its effects, and richly deserving of an unbounded popularity, which, when it becomes known, it will, no doubt, fully enjoy."

JUDGE M. M. NOAH said, in his "WEEKLY MESSENGER," January 5, 1850:

"*Dr. Hoofland's German Bitters.*—Here is a preparation which the leading presses in the Union appear to be unanimous in recommending, and the reason is obvious. It is made after a prescription furnished by one of the most celebrated physicians of modern times—the late DR. Christopher Wilhelm Hoofland, professor to the University of Jena, private physician to the king of Prussia, and one of the greatest medical writers Germany has ever produced. He was emphatically the enemy of *humbug*, and therefore a medicine of which he was the inventor and endorsor may be confidently relied on. He specially recommended it in Liver Complaint, Dyspepsia, Debility, Vertigo, Acidity of the Stomach, Constipation, and all complaints arising from a disordered condition of the stomach, the liver and the intestines. Nine Philadelphia papers express their conviction of its excellency, and several of the editors speak of its effects from their own individual experience. Under these circumstances, we feel warranted, not only in calling the attention of our readers to the present proprietor's (Dr. C. M. Jackson's) preparation, but in recommending the article to all afflicted."

MORE EVIDENCE.

The "PHILADELPHIA SATURDAY GAZETTE," the best family newspaper published in the United States. The editor says of

Dr. Hoofland's German Bitters:

"It is seldom that we recommend what are termed Patent Medicines to the confidence and patronage of our readers; and, therefore, when we recommend Dr. Hoofland's German Bitters, we wish it to be distinctly understood that we are not speaking of the nostrums of the day, that are noised about for a brief period and then forgotten after it has done its guilty race of mischief, but of a medicine long established, universally prized, and which has met the hearty approval of the faculty itself."

Evidence upon evidence has been received (like the foregoing) from all sections of the Union, the last three years, *and the strongest testimony in its favor, is*, that there is more of it used in the practice of the regular Physicians of Philadelphia than all other nostrums combined, a fact that can easily be established, and fully proving that a scientific preparation will meet with their quiet approval when presented even in this form.

That this medicine will cure Liver Complaint and Dyspepsia, no one can doubt after using it as directed. It acts specifically upon the stomach and liver; it is preferable to calomel in *all bilious diseases*—the effect is immediate. They can be administered to FEMALE OR INFANT with safety and reliable benefit, at any time.

BEWARE OF COUNTERFEITS.

This medicine has attained that high character which is necessary for all medicines to attain to induce counterfeiters to put forth a spurious article at the risk of the lives of those who are innocently deceived

Look well to the marks of the genuine.

They have the written signature of C. M. JACKSON upon the wrapper, and the name blown in the bottle, *without which they are spurious.*

CONSUMPTION

AND

SCROFULA.

PURIFY! PURIFY!

Life and Health are in the Blood.

Not one of all the numerous medicines that have been prepared, begins to be of as great medical virtue, power, and unfailing certainty to cleanse and purify, produce new, *healthy blood*, and strengthen and invigorate the whole system, as

BRANT'S INDIAN

PURIFYING EXTRACT.

This Purifier is the *most wonderful* and *astonishing* remedy in the world. No other medicine has effected such almost miraculous cures of

Scrofula, Fever Sores, Salt Rheum,

SYPHILIS, and other *eruptive* and *skin* diseases, viz.: *Erysipelas, Sores, Ulcers, Ulcerated Sore Mouth and Throat, Nursing Sore Mouth, Scald Head, Biles, Piles, Pimples on the Face, Rheumatism, LIVER COMPLAINT*, and many other diseases. THOUSANDS of such diseases have been cured by this PURIFIER, and cured by the use of FOUR TIMES

Less Quantity, at Less Cost

by *four-fold*, than ever such diseases were before or since cured, by Sarsaparilla, or any other remedy. What, then, is the question for those interested to decide, as to economy and health? FIRST—*Will it cure my complaint?* SECOND—*Is it cheaper?* THIRD—*Will*

ONE DOLLAR'S WORTH

of BRANT'S PURIFIER effectively cure FOUR TIMES as much disease as *one dollar's worth* of *Sarsaparilla?* If it will, then it is FOUR TIMES CHEAPER than *Sarsaparilla.* And to prove this we offer one case of cure, out of the *many* cases of

MOST HORRID SCROFULA.

To realize the *great power* of this medicine as a purifier, read, in our Pamphlets, the perfect cure effected on *Mr. J. B. Haskin, of Rome, Oneida county, N. Y.* He was confined to his bed *One Year*—was not expected to live *twenty-four hours longer*—his neck was eaten nearly off, from ear to ear—a hole was eaten *through the Wind pipe*—his ear nearly eaten out—the use of *one arm destroyed*—an Ulcer, as large as a man's hand, had nearly eaten through his side—and there were on him, in all,

Twenty Large, Deep, Discharging Ulcers,

which were ALL CURED, and he restored to *health* and *strength* to *labor* again, by the use of ONLY TWELVE BOTTLES. This wonderful cure is certified to by

Fourteen Respectable Witnesses.

And it is the *greatest cure*, the most undoubtedly substantiated, of one of the *most horrid* and *most hopeless* cases of *Scrofula*, that has ever been cured since the world was created—completely establishing the *great power* and *certain efficacy* of the medicine.

BRANT'S INDIAN

PULMONARY BALSAM

This Balsam possesses *all* the *cleansing* and *purifying Virtues* of the above-named PURIFYING EXTRACT, and also possesses several other medications, *particularly* and *peculiarly* adapted to cure COUGHS and CONSUMPTIONS. It *heals* and *cures Ulcers in the Lungs*, and elsewhere *internally*, as readily and as easily as the *Purifying Extract* heals and cures *externally.*

THOUSANDS of cures of the *most hopeless* Consumption fully prove its almost miraculous efficacy in *all* diseases of the LUNGS, THROAT, and BREAST.

A DYING WOMAN SAVED!

CONSUMPTION CURED!

We give the following certificate as a fact of cure, which goes to prove the power to save life, even when the person seems to be in the very last stages of existence, when *Brant's Indian Pulmonary Balsam* is administered:—

Town of Ballston, Saratoga Co., N. Y.—ss. ZIBA DYKEMAN, being duly sworn, says: That in the winter of 1845, deponent's wife was believed by her *physician* and others to be dying with a consumption of the lungs; and deponent believing that to be the case, went to Mr. *John Wait's* store, in the *village of Ballston Spa*, to purchase cloth for a shroud, and other necessaries, to prepare his wife for burial after she should die. Deponent further says that while he was in said *Wait's* store, he was persuaded by the *Proprietor* of "BRANT'S INDIAN PULMONARY BALSAM," who was then present, to take a bottle of said *Medicine*—he remarking, that if the *dying woman* be now past recovery, yet, if she be much *oppressed* and *distressed*, the said medicine would soothe and relieve her, and make the pillow of death more easy. Deponent took the said medicine home with him, together with the cloth he had purchased preparatory to the anticipated death of his wife. Deponent caused a portion of said medicine to be administered to his wife, and to his astonishment it soon relieved her. She continued the use of said medicine until she recovered from her disease, and has been able since (it being now more than three years) to do the work, and attend to all her household affairs; and deponent verily believes that, through the blessing of Providence, the restoration to health of his wife was the result of the curative and healing efficacy of *Brant's Indian Pulmonary Balsam.*

ZIBA DYKEMAN.

Subscribed and sworn to, before me, this 29th day of April, 1848. THOS. G. YOUNG, Justice of the Peace.

Town of Ballston, Saratoga county, N. Y.—ss. This is to certify, that I am, and have been for many years well and intimately acquainted with the above-named Ziba Dykeman, who is one of our most worthy and respectable citizens, and whose statements are entitled to full credit and belief.

THOS. G. YOUNG, Justice of the Peace.

April 29, 1848.

Town of Ballston, Village of Ballston Spa—ss.: This is to certify, that the circumstances and facts stated above by Ziba Dykeman are to my knowledge strictly true, and that he has frequently since stated to me that Brant's Indian Balsam saved the life of Mrs. Dykeman.

BRANT'S PULMONARY BALSAM cures *CONSUMPTION, Coughs, Colds, Spitting of Blood, Bleeding at the Lungs, Pain in the Breast* and *Side, Night-Sweats, Nervous Complaints, Palpitation of the Heart, Female Weaknesses* and *Complaints, Cholera Infantum, Dysentery*, and *Summer Complaints*

PHYSICIAN, HEAL THYSELF.

DOCT. J. W. FRENCH, of *Hillsdale, Hillsdale Co., Mich.*, wrote to us, Dec. 8, 1848: "I have been in the *regular* practice of medicine in this place for *Nine Years*; but was obliged to quit the practice of my profession in consequence of ill health. I was so severely afflicted with a *chronic disease of the lungs*, as to convince me that I had the *Consumption past doubt*. I coughed almost incessantly night and day, and had severe pains and soreness in my chest, side, and breast. I tried the remedies recommended by the most skilful of my profession, all to no effect, excepting the nausea and debility caused by them. I was *prejudiced* against *Patent Medicines*, and have no faith now in them generally. But I was induced, as an experiment, more than through faith, to try a bottle of BRANT'S INDIAN PULMONARY BALSAM, and I do here acknowledge, for the benefit of the afflicted or whom it may serve, that the effect of its use on me, was the *most prompt* and *salutary* of any medicines I ever witnessed the effect of in all my practice. My cough was IMMEDIATELY RELIEVED, and in about eight or ten days, I was free from cough, soreness of the chest, and pain, and now consider and pronounce myself a well man." Doct. French is now a respectable druggist and merchant at Hillsdale.
