

THE GAZETTE.

SCIENTIFIC AMERICAN.—The sixth volume of this valuable Journal will commence on the 21st instant, offering a favorable opportunity for all to subscribe who take an interest in the progress and development of the Mechanics' Arts and manufactures of our country.

It will be published weekly, as heretofore, in Quarto Form, on fine paper, affording at the end of the year, an Illustrated Encyclopedia, of over four hundred pages, with an Index, and from five to six hundred original engravings, described by letters of reference, besides a vast amount of practical information concerning the progress of Scientific and Mechanical Improvements, Chemistry, Civil Engineering, Manufacturing in its various branches, Agriculture, Masonry, Botany—in short, it embraces the entire range of the Arts and Sciences.

It also possesses an original feature not found in any other weekly journal in the country, viz: an Official List of Patent Claims, prepared expressly for its columns at the Patent Office, thus constituting it the "American Repertory of Inventions."

In connection with the Publishing department, the proprietors transact the most extensive Home and Foreign Patent business done in this country, consequently their facilities must be correspondingly superior. Terms—\$2 a year; \$1 for six months. All letters must be post-paid and directed to MUNN & CO., publishers of the Scientific American, 128 Fulton street, New York.

HARRISBURG, Sept. 11.—The bridge at Clark's Ferry, belonging to the State, and connecting the Eastern with the Northern and Juniata divisions of the Pennsylvania Canal, was destroyed by fire last night. It cost the State for rebuilding, three years ago, \$130,000, and was a most essential improvement. The cause of the fire is supposed to have been the work of an incendiary. The length of the bridge was 4,287 feet. Steam tow-boats will be employed to transport freight canal boats across the river. Passengers need not suffer detention, because the Central Railroad, which crosses the river about ten miles below, is in the best order. No other damage was done to the State Works at the base of Peter's Mountain, or on Duncan's Island.

DROWNED.—We are informed that a man named Michael Hostetter, residing in Menno township, was drowned in the dam at Daniel Reed's saw mill, near White Hall, on Saturday week last. He was that day engaged in threshing grain, with his sons, in his own barn, and in the afternoon went out, telling them he would return in a short time. Not returning that day, search was made for him by his friends, and on Sunday he was found, as we have mentioned above. No cause has been assigned for the act, although it is alleged that he has been known at times to have been slightly deranged. He was a man about 45 years of age, a member of the Mennonite or Amish persuasion, and generally respected by those who knew him.—True Democrat.

DISTRESSING.—Dr. C. Seiler was stabbed on Sunday evening last in the abdomen, and has been in at present, considered in danger.—The act was done by two reckless young men, one of them his nephew, who had taken a horse and carriage of the Dr.'s brother without leave, and whom he was endeavoring to arrest. The young gentlemen, for a heedless act, have no doubt greatly wronged, and should the Dr. die, without further punishment, will never cease to reproach themselves.—Harrisburg Telegraph.

THE state stock in the Chambersburg and Bedford turnpike, was recently sold at public sale by the Auditor General at an average of about \$4.10 per share; and the stock in the Bedford and Stoytown at an average of about \$1.10 per share, the sale amounting to \$13,685.44.

Louis Philippe, late King of France, died in England on the 26th ult.

An excursion party numbering about six hundred persons, from Montreal, visited Boston last week, and were most hospitably entertained by the citizens and public authorities.

JENNY LIND attended divine service at Grace Church, New York, on Sunday last, much to the disappointment of a vast crowd that had assembled at Trinity Church, where it had been reported she intended going.

We regret to learn from Louisville that the Rev. Bishop BASCOM, one of the most eloquent divines connected with the Methodist Episcopal Church, died in that city on Saturday last.

MARYLAND CONVENTION.—On Wednesday of last week, an election was held in the State of Maryland for Delegates to a Convention to form a new Constitution for that State. It resulted in the choice of 49 Whigs, 42 Locofocos, and 12 who were elected on Union tickets, of whom 6 are Whigs. The Convention will assemble at Annapolis, in November, and the Constitution which they may form will be submitted to a vote of the people in the ensuing month of June.

FOREIGN NEWS.

The English harvests are well advanced, and the yield is fully equal to recent expectations.

AUSTRIA AND HUNGARY.—It is said that the people of Hungary are becoming more reconciled to the new Government, but the nobles of both Hungary and Austria were very much discontented.

The coronation of the Emperor presents great difficulties. The question to be decided upon is, whether, as was formerly the custom, he shall be crowned in each separate province, or whether he shall be crowned at Vienna alone, as Emperor of Austria.

The Cabinet are for the latter, while the provinces fiercely maintain their rights. It is thought, however, that he will not be crowned this year.

The German and Danish dispute occupies considerable attention.

RUSSIA AND TURKEY.—The cholera continues bad in Turkey.

The Emperor of Russia has added to his splendid collection of works of art the celebrated Barbary gallery of Venice.

GERMANY.—The Zollverein, which was opened at Cassel, on the commencement of July, would continue throughout the month of August, without, probably, even then terminating the business that is before it.

From California.

New York, September 5, 1850. The steamship Empire City, from Chagres, via Kingston, Jamaica, reached her wharf at 10 o'clock this morning. She has on freight \$750,000 in specie, and about \$400,000 in the hands of passengers.

The steamship Georgia, which is on her way with the mails, has about a million and a half of dollars on board.

The Empire City brings no mails, but has papers from San Francisco to the first of August—two weeks later than the last advice.

Among her passengers is Brigadier General Bennett Riley, ex-Governor of California. Hon. S. Woodworth, U. S. Senator from California, is also among the passengers.

The steamship Panama had arrived at Panama from San Francisco, with the mails to August 1. The cholera broke out on board while she was at Acapulco, and over forty of her passengers died of it before she reached Panama.

She brings \$2,300,000 in gold dust, and about 240 passengers. On the 17th the cholera broke out amongst the passengers.—Joseph Dale, of Philadelphia, (late of Lima,) was among the victims.

Other accounts are that fifty persons died of it. Among the victims were Capt. G. P. Manchester, of Martha's Vineyard, and Capt. Ashley, of Mystic, Conn.

Persons coming through from Chagres report that the Gorgona road is almost impassable. Most people take the Crusos road.

The news from the mines is somewhat discouraging. The rivers are yet too high to work advantageously, and the ravines have not dried up. Companies of miners are at work turning the rivers throughout the gold region, and we may expect good reports from them in the course of another month.

Claims on the Yuba river thirty feet square have been sold at \$2000.

A company of seven men have taken out, in one spot, in Murphy's Diggings, in less than seven weeks, \$15,000 in gold dust.—This is their net proceeds, clear of expenses.

Another company of six took out, in the same diggings, last week, forty-two pounds of dust. This company is working 54 feet beneath the surface.

The great points of concentration are the Mercedes, Tuolumne, and Stanislaus. Encouraging accounts have reached us from the Calaveras. There is no lack of provisions, and the health of the whole district is excellent.

In one portion of the mines, a party of Mexicans working under Americans, have perched themselves on a piece of table land, existing on the top of a mountain, and here, secreted from the eyes of the tax collector, they are making a pile.

The troubles at the Southern mines, particularly in the neighborhood of Sonora, continue. The accounts of murders committed there are frightful, and the end is not yet come.

The Mexicans and Chilians will be driven from the mines, and armed forces have been organized to carry this determination into effect. At the Mormon Gulch, all foreigners had received formal notice to quit in one week.

The disturbance is traced to the foreign mining tax imposed by the last legislature. The foreigners resisted the payment of the tax, and when they have good claims they are given away by individuals who urged the non-payment of the tax as an excuse for their proceedings.

A number of murders and highway robberies have been committed by Mexican guerrilla bands, and the chief of one band is now in prison.

The prospect of a large business in San Francisco this fall is encouraging.

Workmen are engaged in grading and planing the streets, in view of the rainy season. Artesian wells and reservoirs have been made, and fire companies organized.—Everything looks cheering.

The news from the Sandwich Islands are to the 24th of July. Matters were in a prosperous condition. Many important improvements were contemplated by the government.

The advices from Oregon are to the 21st of July. There was a report that some gold had been found, but the streams were so high that a satisfactory examination could not be made. There was a prospect, however, of abundance of gold.

The U. S. Propeller Massachusetts arrived at Astoria on the 20th, with the joint commission of army and navy officers appointed to select positions for light-houses and fortifications.

It is said they have completed their duties as far as Paget's Sound, and they are now examining the mouth of the Columbia. There was abundance of water in the South Channel.—

The Flood—Terrible Loss of Life. The most distressing accounts of losses of property and life by the late flood on the Schuylkill continue to reach us in our exchanges. The rise of waters was so sudden that many families were unable to escape, and were swept off by the flood.

At Reading eleven lives were lost, among whom were Mrs. Sands and three children, the wife and four children of Eli Marks, of Leesport, and Mr. Aaron Kemp, of Leesport. The number of buildings destroyed at Reading were 25 brick buildings, 21 frame dwellings, 63 stables, workshops and offices—making a total of one hundred and nine buildings! The aggregate loss at Reading is estimated at \$500,000.

At Tamqua thirty-one persons were drowned. The following are the names given: Persons Drowned.—Mrs. Foster, two girls and boy; Mrs. Edmunds, 1 boy, 1 girl and 2 granddaughters; Mrs. David Jones and child; Mrs. Creasing and child; Mr. George Welsh, 1 boy and 2 girls; Mrs. Eltingham, 2 girls and 2 boys; Mrs. Herion and four children; Catharine Williams, a hired girl living at Thomas Foster's; Mary McCartney, a young girl from Beaver Meadow, on a visit to John Sewall; a young girl 14 years of age, daughter of Daniel Oxider. Rev. P. Z. Oberfeldt, pastor of the German Lutheran Congregation of that place, came to his death in the following manner:—It appears that he mounted his horse for the purpose of assisting the family of Mr. McNail; after which he attempted to gain the mountain, and rode in a cellar above J. Broad's house, when he fell from his horse. He was seen to get out of the cellar with his horse, but another strong current of water dashed them both into the stream, which was the last seen of him.

Dead Bodies Found.—Wife of Thos. Foster; Mary Williams; Rev. P. Z. Oberfeldt; a daughter of Thos. Foster; two children of John Eltingham's daughter of Daniel Oxider; wife of Thos. Edmunds and two children; wife and daughter of Mr. Creasing.

swept half a mile down the creek; only two men were saved. The houses lodged among some trees, and were dashed to pieces. No names given, and none of the bodies recovered. The Schuylkill Haven Map says:

The damages at Young & Jones' Mt. Hecla Forge was very great. Samuel Harting, wife and step-daughter; G. Clement, son of Jacob Clement; an infant child of William Wingert; Elizabeth, Catharine, Lydia and Hannah Freed; Elizabeth, wife of Joseph Covenly, and Margaret and Henry Freed were drowned.

Mr. HOWARD, representative of Texas, was very hostile to the Boundary Bill till he found that it was likely to be lost, when he turned short round and went for it, on Friday. The Tribune thinks Howard's skill should secure him a place in an equestrian corps, to ride at the same time two horses running in opposite directions.
