The Magazines for October.

We take the following notices of the Magazines for October from the Evening Bulletin:

Graham's Magazine has a store of fine reading for October, embracing several excellent tales and essays, and a number of poems, including one of Buchanan Reade's gems. A masterly essay on Music, by Giles, is given, of which our readers had a specimen on the fourth name of Friday's Bulletin The embellishments as they always are in Graham, of the first

The Lady's Book has articles by a number of its best contributors, including the names of Mrs. Ellett, Mrs. Neal, W. G. Simms, Richard Coe, and others. The embellishments are numerous and good, and the articles on various kinds of faney work and different branches of household economy will please the ladies.

Sartain has a large and beautiful variety of

illustrations, while the literary contents are of a high order. Miss Martineau, Mrs. Kirkland, Professors Rhoads and Hart, Parke Benjamin, R. H. Stoddard, and others, are smong the contributors. An interesting article by Chas. G. Leland is given under the head of 'Art-Notices.'

THE NASHVILLE CONVENTION .- The Nashville Convention, it will be remembered, adjourned to meet again six weeks after the adjournment of Congress, at the call of the President of the Convention. The Charleston Mercury learns that Judge Sharkey is satisfied with the action of Congress, and declines to issue his call for the re-assembling of the convention. The Mercury, however, contends that the convention will meet on the 11th of November next, with or without the call of the president, and urges the election of delegates. The Southern Press at Washington appeals to the South to elect true men as delegates to the convention, of high standing-men of " strong moral courage."

The Natives recently held a Convention at Pittsburgh, and nominated the following State ticket; - Canal Commissioner, Dr. Jacob Dewees, Montgomery county; Surveyor General, Kimber Clea-E. S. Neal, Allegheny county.

A New Watch .- A great improvement in the manufacture of watches has just been made in Geneva, by which watch keys are rendered unnecessary. By simply turning a screw in the handle, the watch is wound up, and another movement regulates the hands. The first watch manufactured with this improvement is intended for America, and its case is said to be a rich and curious specimen of art, and historically interesting; the ornamented border containing a view of the famous "Charter Oak, of Connecticut. "It is a good action thus to make a watch case teem with historic associations without destroying its ornamental beauty."

THE TELEGRAPH. - Dispatches were received by the telegraph, day before vesterday, from Washington, twenty minutes ahead of time. At 12 o'clock on the same day there was an official dispatch, directing a special messenger to be sent to Texas, with information of the passage of the Texas bill, and in three hours afterwards the messenger was on his way in the steamship Portland: and this fact was probably same afternoon. This is what we call doing work on the high pressure principle,-New Orleans Bulletin.

The New York Tribune states that one of the steerage passengers in the steamer Philadelphia, at that port from Chagres, had with him twenty thousand dollars, which he had gained in forty-eight hours. He first took sixteen thousand dollars from his claim in one day, and then sold it the next day for four thousand dollars, and started for the States perfectly satisfied.

AMERICAN CASSIMERE.—The Messrs. Wethered, near Baltimere, the Patriot of bankers, yesterday, but they promptly met that city says, manufacture American doe- all demands. skin cassimeres which are equal to any imported article, made of the very best American wool, the lustre ineffaceable or indestructible. The article can also be fur- which exceeds the stories told by the oldest anished at the price of \$1 50 per yard.

SLAVES IN CALIFORNIA .- A correspondent of the St. Louis Republic estimates the number of slaves in that State at one thousand, but he says their masters have no control over them, and if he attempts to take them by force, he is liable to punishment. The laws furnish no protection to this description of property.

SKELETONS DISCOVERED .- The workmen on that portion of the Central Railroad which passes through Braddock's Fields, Allegheny county, Pa., have lately dug up several skeletons, the remains, doubtless, of some of the officers and soldiers of General Braddock's brave and gallant, though ill-fated army.

YORK AND CUMBERLAND RAILROAD .-This road will be completed and the cars run over it in a few weeks. Eli Lewis. Esq., of York, has been elected President of the company, in place of T. C. Hambly, Esq., resigned.

A New STATE .- The Green Bay Advocate says, that the people of the "Upper Peninsula" of Michigan are agitating the project of separation from the State, and the formation of a new State.

There was another serious break in the Pennsylvania Canal on Sunday night at Bainbridge, which will take several days to repair.

The Borough of Columbia is still infested by incendiaries, who seem determined to destroy a portion of that place.

Joshua F. Cox, Esq., of Somerset county, died in the borough of Bedford, on Wednesday morning of last week, aged 50

CENTRAL RAILROAD.—We perceive by an ad-vertisement in the Pittsburgh Gazette that all the sections remaining unlet on the line of the Pennsylvania Railroad between Pittsburgh and Johnstown, are to be given to contractors on the 10th of October next. The whole line will then be under contract, except a part of the mountain section, for which the Portage Railroad can be substituted until it is finished

JENNY LIND .- The desire to hear this admirable songstress does not diminish in New York. The proceeds of Tuesday evening's concert have been stated at \$27,000. Those of Thursday night are estimated by the Tribune at near \$30,000. Jenny Lind's share of this would be \$12,000, or £2,500 !- which throws into the shade all her concerts in Europe.

Messrs. O'Connors & Co., of Baltimore, have effected an arrangement with the Pennsylvania Railroad Company by which they will deliver goods in Pittsburgh in the short space of four

Locks have been superceded on the Monklane canal, Canada West, by an inclined plane. The boats are floated into a box which moves on rollers, the whole drawn upon an inclined plane by a stationary engine. The new plan was tried last week, and three boats drawn up in less than five minutes.

Boston, Sept. 25.—The prize ticket for Jenny Lind's first concert, to be given in this city on Friday evening next, was bought this morning by Mr. Bodge, the vocalist, for six hundred and twenty-five dollars! The second ticket brought \$24; a lot of eight, \$16 each; fourth, \$10.50; \$10.50, and so down to \$9, at which a considerable number were sold; thence down to \$7 and \$6, at which most of the tickets were purchased. The lowest price paid for back seats, in the gallery, was \$1.50. All these prices are in addition to the regular ticket price of \$3.

PITTSBURGH, Sept. 24, 8 P. M .- A horrible accident happened at Knapp's Foundry this evening. While some men were engaged in hoisting a huge iron water pipe, weighing one thousand pounds, by a crane, the hoisting chain broke, and the pipe fell on John Barclay, James Dalzell, and a German named Sneitcham. Barclay was killed instantly. His legs were crushed ver, Schuylkill county; Auditor General, His recovery is considered doubtful. Sneitcham cannot possibly recover.

Hundreds of fugitive slaves have started off suddenly for Canada, on account of the passage of the Fugitive Slave Bill. The principal hotels are left without servants. The number that has left is surprisingly great.

From California.

New York, Sept. 20—6, P. M. The steamer Philadelphia arrived here this afternoon from Chagres. She brings dates from San Francisco to the 15th August. She has on board one million dollars' worth of gold, and brings one hundred passengers.

A terrible riot, resulting in death and much bloodshed, occurred at Sacramento city on the 12th August. It appears that a party amounting to about sixty persons, calling themselves Squat-ters—or rather designated as such—proceeded to the prison ship to release some of their com-rades. They were immediately confronted by the citizens, when a terrible fight ensued. The Mayor, Mr. Bigelow, was badly wounded during the affray. The City Assessor and many others on both sides were killed and wounded. The steamers McKim and Bianca were despatched to San Francisco for troops and other assistance In the meantime the Squatters had reinforced and numbered about eight hundred strong.-Lieutenant Governor McDougle proclaimed martial law, and the city thus remained unti the required assistance was obtained and the riot finally put down, but not without serious injury to the participants on both sides.

HEAVY FAILURE .- The stoppage of Barton Lee, for the heavy sum of \$1,100,000, in Sac known at Washington in the course of the ramento City, has produced no little excite ment both in that city and in our own. Mr Lee had been carrying on business on a most extensive scale. He had assigned over all his property to Messrs. E. F. Gillespie, E. J. C. Kewen, and Dr. Mackenzie. These gentlemen do not express the slightest fear but that he will be able to meet all his liabilities. The Sacramento papers state that the assets of the estate are \$1,400,000. His in-debtedness to Messrs. Cornwall & Priest, his former partners, now absent in the States, amounts to about \$600,000-\$400,000 of which is covered by mortgage. The special deposits amount to \$50,000, and the deposits drawing interest to \$280,000. The income of the estate is estimated at from \$50,000 to \$80,000 a month. We understand that there was a considerable run upon the Sacramento

EXTRAORDINARY Success.-We hear astenishing reports from Carson's Creek-accounts of the old miners. Lumps of gold, in value amounting to \$19,000, were deposited with Adams & Co., last evening-the proceeds of two and a half days labor by two men. One piece weighs eleven pounds, as smooth as glass and unmixed with foreign matter, and the smallest lump weighs two and a half

In conversation with one of the fortunate possessors of this treasure, he informed me that the gold was obtained about half a mile from Carson's Creek, and where, hitherto, nobody else had thought of searching for The place appears to have been formed by a mountain slide. The gold is all very coarse, and that obtained by our informant has never been washed. The clay adheres to it as when it was first picked out of the About 70 persons were at work in these diggins, and our informant says that one of them took out 27 pounds on Friday last. All in that location are meeting with remarkable success.

The late European news furnishes us with the fonowing items. Haynau, the late Commander of the Austrian forces in Hungary, seems to have been roughly treated in England.

ENGLAND.-Her Majesty is still sojourning in the Highlands, The Lord Lieutenant of Ireland has commenced a tour to the North with the view of ascertaining the condition of the agricultural and manufacturing operations of that district. Great preparations have been made for his reception in Belfast. The recent government appointment of his Excellency, has given great satisfaction, and altogether Lord Clarendon appears to have be-

come rather popular.
In Ireland the Repeal agitation has been again revived by O'Connell, but the attempt

proves almost an abortion. The Irish Tenant League, for the inforcement of Tenant Rights s beginning to attract considerable attention both in England and Ireland, and all parties are fully impressed with the necessity of pla-cing the law of landlord and tenant on a more

quitable footing than it has been.
On Wednesday the butcher Haynau received a slight indication of the regard which the English people entertained for him. He arrived at London on Monday, and on Wednesday, having previously received a letter of introduction from Baron Rothschild, in which the Baron styles Haynau as his particular friend, he went to visit the brewery of Messrs. Barelay, Perkins & Co. Haynan was accompanied by his Aidecamp and his interpreter. According to the regular practice of visitors, they were requested to sign their names in a book in the office, after which they crossed the yard with one of the clerks. On inspecting the visitors' book, the clerk discovered that one of the visitors was no other than Marshal Haynau, the late commander of the Austrian forces, during the attack upon the unfortunate Hungarians.

It became known all over the Brewery in less than two minutes, and before the General and his companions had crossed the yard, nearly all the laborers and draymen, ran out with brooms and dirt, shouting out, down with the Austrian Butcher, and other epithets of an alarming nature to the marshal.

The marshal finding how matters stood, and likely to get a warm reception from the sturdy brewers, thought prudence the better part of valor, and began to beat a retreat, but this was not so easily done. The attack was commenced by dropping a truss of straw upon his head, after which, grain and missiles of every kind were freely bestowed upon him. The men next struck his hat over his eyes, and hustled him from all directions; his clothes were torn off his back.

The Marshal's companions were treated vith equal violence: the party finally succeeded in reaching the entrance gate, but no sooner had they made their exit than a crowd of coal heavers, who waited upon his Highness, seized upon him, he was pelted and struck with every available missile, and even dragged along by his moustache, which afforded ample facilities from its excessive length, still battling with his assailants, he ran in a frantic manner along the bank side until he came to the George public where he ran up stairs and concealed himself in a small closet. The mob rushed in after him, threatening to do for the Austrian Butcher; but, fortunately for him, they did not succeed in discovering his retreat. mately the police came to his rescue, and he was removed in a police barge to the other end of the city.

This assault has been the subject of comment in nearly all the London and Provincial papers, and whilst the minority agree in condeming the act, still they frankly admit that the presence of so disreputable a character in England, was a provocation great enough to cause even a greater outrage.

Wheat .-- All our accounts represent the wheat crop, for amount and quality, as unprecedented in the country; and on thrashing, the wheat turns out better even than was anticipated. Of course, prices rule low, with a downward ten-dency. The Cincinnati Gazette says that the Wheat of the Whitewater Valley is beginning to come to market. Its quality is good. The farmers are running it to the towns along the line of the canal quite briskly. The market at these several places has opened at 60 cents per bushel; a price which is considered fair there and which it is thought will continue. A de cline is anticipated rather than an advance. At Cincinnati, the current rate is 75 cents.

At Louisville, the receipts are fair, and prices range at 70, 75, and 80 cents. At Alton, Illinois, the sales are large, and the best quality is quoted at 70 cents per bushel. At St. Louis, the receipts are heavy, and prices range from 73 to 52 cents, according to quality. At Sandusky City, 200,000 bushels have already been received, the highest price being 78 cents. On the 21st, the Sanduskian reports sales of 5,000 bushels, to be put on ship board, at 78 cents; 4,000 at 77, and 26,000 at private terms. On the afternoon of the 21st, the Mirror says buyers offered but 75 cents. The receipts at Sandusky on the 20th were 12,500 bushels.

The Buffalo Commercial Advertiser, on the 21st, reports a sale of 33,000 bushels, not prime, at 78 cents. The market review says: "It seems to be the general impression that prices must still further recede, and with this belief, millers come into the market with reluctance, and purchase sparingly, barely sufficient to keep their mills in operation, choosing to defer laying in their winter stock till the market has found its level, and prices become more settled.

From these statistics, our farmers will be able judge of the prices which will rule this year. If there is a good crop abroad, wheat must go very low, as there is more in the country than can be consumed. The only remedy is to increase home consumption by increasing manufactures .- Pittsburgh Gazette

He left Lewistown in the fall of 1842, with his father's family, for Ohio, where he has been residing ever since until late last spring, when he left home with a party of young men by the land route for the land of gold. They reached Fort Larimie in safety, from whence the writer had a letter from him, speaking in glowing terms of his future prospects. But alas! they were des-tined to be blasted! Death came, and he was cut off in the prime of life. He was a young man of intelligence and worth, honest and up-

right in all his actions, a warm friend, a dutiful son, and kind brother. His loss will be deeply mourned by his many friends and acquaintances here and elsewhere.
