The Rolling Stone Gathers no Moss.

Neither does the uneasy farmer, who is constantly moving or talking about moving somewhere to find rich land. Generally speaking, the migrating man belongs to that class who are careless of the soil, exhaust it for present crops, without an eye to the future. His lands are heavily taxed by injurious management, and before he has secured the value of the labor bestowed in clearing them, he is left with a crippled plantation, yielding but a poor crop. To move in quest of the virgin soil again is but incurring heavy expenses, hard labor. - loss of time, deprivations innumerable, besides parting with the old homestead for a mere trifle, when he could soon make it rich and productive, if he would feed it with half the care that he feeds his own imagination upon some visionary scheme of growing rich in " El Dorado," to which he is about to emigrate.

It will not do to hoe a great field for little crops, nor to mow twenty acres for five loads of hay. Enrich the land, and it will pay you for it. Better farm fifty acres well, than fifty by halves, and it is much better to improve the old farm than to go off upon some Utopian expedition after a new one .- Agriculturalist.

Housekeepers ought to know that churning can be done with any good churn, in five to fifteen minutes, as well in the winter as summer, by having the temperature of the cream right-say sixty to sixty. three degrees. The temperature of an ordinary sitting or living room, in winter, to be comfortable, is sixty-eight degrees, and a closet opening into such a room would be the best place to keep the pot in winter. In the summer the cream can be readily reduced to the right temperature, by breaking up clean ice and putting it into the churn.

A thermometer, which is necessary to regulate these matters, costs but one dollar, and such an investment every farmer ought to make who has churning to do, and thus save labor and time, which is money, and make this much dreaded part of farmers' wives and daughters duties, much pleasanter and easier .- Ohio Cultivator.

To Keep Grapes.

See that there are no imperfect grapes on any of the bunches. They must not be too ripe. Put in the bottom of a keg a layer of bran that has been dried in the sun, or in an oven, and afterwards become quite cold. Upon the bran, place a layer of grapes with bran between the bunches so that they may not touch each other. Proceed thus with alternate layers of bran and grapes till the keg is full ; seeing that the last is a thick layer of bran. Then close the keg, nailing on the head so that no air can penetrate.

Grapes may also be packed in fine wood ashes that has been well sifted.

To Keep Apples.

Wipe every apple dry with a cloth, and see that no blemished ones are left among them. Have ready a very dry tight barrel. and cover the bottom with dry pebbles. These will attract the damp of the apples. Then put in the fruit ; head up the barrel,

Their power over the above diseases is not excelled-i equalled-by any other preparation in the United States as the cures altest, in many cases after skilful physicians had faild

These Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of diseases of the Liver and lesser glands, exercising the most search ing powers in weakness and affections of the digestive or-gans, they are withal, safe, certain and pleasant.

READ AND BE CONVINCED. CHAS. ROBINSON, Esq., Easton, Md., in a letter to Dr.

Jackson, January 9, 1850, said-"My wife and myzelf have received more benefit from ir medicine than any other we have ever taken for the

Duspensia and Liner disease " "THE TENTH LEGION," published at Woodstock, Va., January 10, 1850, said-

"A GREAT MEDICINE."

"We have uniformly refrained from recommending to the public any of the various Patent Medicines of the day, unless thoroughly convinced of their value. Among those we consider worthy of notice is the German Bitters, invented by Dr. Hoofand, and prepared by Dr. Jackson, in Philadelphia. One instance in particular, in which the superior virtues of this medicine has been tested, has fallen under our observation. During the last snimmer, a son of MR. ABRAHAM GRABILL, of this county, was very seriously afflicted with Liver Complaint, and after trying in value various remedies, he purchased a both of the Bitters, and after using it, was so much relieved of his distressing malady, that he procured another bottle, and is restored entirely to health."

READ FURTHER A FEW FACTS FROM "THE WELDON HERALD," published at Weldon, C., January 24, 1850, which said-

"PATENT MEDICINES."

"It is very seldom that we make any allusion to Patent Medicines, either approving or otherwise. Unfortunately for the country, and for honest and conscientious inventors and venders of these medicines, the land is becoming flooded with quack preparations, that are made alone for profit and are fit not even for the dogs. In this state of things it is hard to tell which are, and which are not worth having. If a person gets an indifferent medicine the first time he purchases, he is very apt to condemn the whole of them and huy no more, and inventors must only blame those of their number, (who ignorantly combine plain medicines together for the purpose of making money.) for the ill success which attends the efforts of the de "We believe Dr. C. M. Jackson's 'Hooffand's German Bitters' to be a most excellent medicine, and one that should be highly popular in these days of Temperance; for they are altogether *Vegetable* in their composition, without one drop of *Mecholic Spirits* in them. This med icine is innocant, but strengthening in its effects, and richly deserving of an unbounded popularity, which, when it becomes known, it will, no doubt, fully enjoy."

JUDGE M. M. NOAH said, in his " WEEKLY MESSEN-GER," January 5, 1850. Dr. Hoofland's German Bitters .- Here is a prepatation which the leading presses in the Union appear to be unanimous in recommending, and the reason is obvious. It is made after a prescription furnished by one of the most celebrated physicians of modern times-the late Dr. Christopher Wilhelm Hoofland, professor to the University of Jena, private physician to the king of Prussia, and one of the greatest medical writers Germany has ever produced. He was emphatically the enemy of *kumbug*, and therefore a medicine of which he was the inventor and endorsor may be confidently relied on. He specially recommended it in Liver Complaint, Dyspepsia, Debility, Vertigo, Acidity of the Stomach, Constipation, and all complaints arising from a disordered condition of the stomach, the liver and the intestines. Nine Philadelphia papers express their conviction of its effects from their own indi-eral of the editors speak of its effects from their own individual experience. Under these circumstances, we feel warranted, not only in calling the attention of our readers to the present proprietor's (Dr. C. M. Jackson's) prepara-tion, but in recommending the article to all afflicted."

PURIFYING EXTRACT. This Purifier is the most wonderful and astonishing rem-edy in the world. No other medicine has effected such al-most miraculous cures of Scrofula, Fever Sores, Salt Rheum. SYPHILIS, and other eruptice and skin discases, viz.: Ery sipelas. Sores, Ulcers, Ulcarated Sore Mouth and Throat, Nursing Sore Mouth, Scald Head, Biles, Piles, Pimples on the Face, Rheumatism. LiVER COMPLAINT, and many other diseases. THOUSANDS of such diseases have been cured by this PURIFIER, and cured by the use of FOUR TIMES TIMES Less Quantity, at Less Cost by four-fold, than ever such diseases were before or since cured, by Sarsaparilla, or any other remedy. What then is the question for those interested to decide, as to economy and health? FIRST-Will is cure my complaint? SEC-OND-Is it cheaper ? THIRD-Will ONE DOLLAR'S WORTH of BRANT'S PURIFIER effectively cure FOUR TIMES as much disease as one dollar's worth of Sarsaparilla? If it will, then it is FOUR TIMES CHEAPER than Sarsapa. rilla. And to prove this we offer one case of cure, out of the many cases of MOST HORRID SCROFULA. To realize the great power of this medicine as a purifier, read, in our Pamphlets, the perfect cure effected on Mr. J. B. Haskin, of Rome, Onzida county, N. Y. He was confined to his bed One Year-was not expected to live iterity four hour's longer—his neck was eaten nearly off, from ear to car-a hole was eaten, through the Wind-pipe-his en nearly eaten out—the use of one arm acstroged—an Ulcer, as large as a man's hand, had nearly esten through his side—and there were on him, in all.

MORE EVIDENCE.

The "PHILADELPHIA SATURDAY GAZETTE," the best family newspaper published in the United States. The editor says of

Dr. Hoofland's German Bitters:

"It is seldom that we recommend what are termed Pat ent Medicines to the confidence and patronage of our readers; and, therefore, when we recommend Dr. Hoofland's German Bitters, we wish it to be distinctly under-stood that we are not speaking of the nostrums of the day, that are noised about for a brief period and then forgotten after it has done its guilty race of mischief, but of a medicine long established, universally prized, and which has met the hearty approval of the faculty itself."

Evidence upon evidence has been received (like the foregoing) from all sections of the Union, the last three years, and the strongest testimony in its favor, is, that there is more of it used in the practice of the regular Physicians of Philadelphia than all other nostrums combined, a fact that can easily be established, and fully proving that a scientific preparation will meet with their quiet approval when presented even in this form.

That this medicine will cure Liver Complaint and Dyspepsia, no one can doubt after using it as directed. It acts specifically upon the stomach and liver; it is preferable to calomel in all bilious diseases-the effect is immediate. They can be administered to FEMALE OF INFANT with safety and reliable benefit, at any time.

BEWARE OF COUNTERFEITS. This medicine has attained that high character which is necessary for all medicines to attain to induce counterfeiters to put forth a spurious article at the risk of the lives of those who are innocently deceived

Look well to the marks of the genuine. They have the written signature of C. M. JACKSON upon the wrapper, and the name blown in the bottle, without which they are spurious.
