THE CHILD'S WISH.

AS SUNG BY MISS EDDY.

On the cool and fragrant grass, With the calm blue sky above my head, And the shadowy clouds that pass.

And I want the bright, bright sunshine All around my bed;
I will close my eyes, and God will think, Your little boy is dead.

Then Christ will send an angel To take me up to him; He will bear me, slow and steadily. Far through the ether dim.

He will gently, gently lay me, Close to the Saviour's side, And when I'm sure we're in Heaven, My eyes I'll open wide.

And I'll look among the angels That stand about the throne, Till I find my sister Mary, For I know she must be one. And when I find her, mother,

We will go away alone,
And I will tell how we've mourned,
All the while she has been gone. Oh ! I shall be delighted

To hear her speak again; Though I know she'll ne'er return to us-To ask her would be vain !

And look into her eyes; And remember all I say to her, And all her sweet replies. And then I'll ask the angel

So I'll put my arms around,

To take me back to you— He'll bear me slow and steadily Down through the ether blue. And you'll only think, dear mother, I have been out to play, And have gone to sleep beneath a tree, This sultry summer day

From the Baltimore American Germany! Germany!

Respectfully Dedicated to the illustrious Poet, and Exile, Dr. KINKEL. BY HENRY CLAY PREUSS.

Germany! my Fatherland!
I'm thinking of thee now—
While all the light of other days
Is bright'ning o'er my brow; I'm roaming through the forests old,
Among thy monarch pine,
And now my bark goes bounding o'er
My own dear rative Rhine!

But ah! 'tis all a boyish dream, From which I wake to weep, And find myself an orphan child Far o'er the chainless deep! Germany! Germany!
The joys of life are o'er;
Germany! Germany!
I see thy hills no more!

There's blood upon thy vine-clad plains,
There 're waitings in the air—
And dark foes lie in wait for thee, Like tiger in his lair; Yet Germany! one struggle more— One more, my native land! A God of Justice reigns above, And smiles upon thy band!

Germany! Germany!
Thy sons shall yet be free! Baltimore, Oct. 6, 1851.

Hunting Husbands.

A correspondent of the Cleveland Herald, noticing the advertisement of the four girls of Troy for husbands, is out upon the practice, and gives the following instance as a warning to young girls in a hurry: "Some twenty years since a a long time,' said an anxious mother to a lady, who, as it afterwards appeared, was young gentleman of our acquaintance the mistress of a boarding school, sent forth an other day. 'What are your intentions, advertisement for a husband. She found sir?' no difficulty in obtaining one; and for a short period all appeared to go on smoothly man; 'I intend backing out, as the coachwith the newly married pair, who were, men say.' on an eventful morning, partaking of a comfortable breakfast, when a stranger presented himself at the house, professedly to make the needful inquiries preparatory to placing a daughter at the school. He was, of course, introduced into the breakfast room, when he announced himself as a police officer, at the same moment producing a warrant for the apprehension of the lady's newly-gotten husband on a charge of murder. To the foul crime of seduction he had added that of taking the life of his victim, whom he decoyed into a barn for the purpose, which having accomplished, he buried her under the floor."

TREES BEARING OYSTERS .- On my sec- I reckon.' ond visit to San Blas, I remained a whole week, and had time to see something of the country. The immediate neighborhood, with the exception of the hill before mentioned, is all marsh, covered with an maker. impenetrable thicket of mangrove and acacia bushes. On the former of these, curious to relate, are borne that well-known and favorite fruit the oyster, which is considered to be in perfection at San Blas. The mangroves overhang the esteros, and their branches drop into the water; to these during the flood tide the oysters adhere, and when the water ebbs the branches, with their living burden, are left high and dry, so a hungry man in a canoe, at the right time of tide, may gather any quantity of this sort of fruit he pleases .--A trip to Mexico.

AMUSING ANECDOTE .- The Archbishop of Dublin tells us of a horseman, who having lost his way, made a complete circle; when the first round was finished, seeing the marks of a horse's hoofs, and never dreaming that they were those of his own beast, he rejoiced and said, 'This at least shows me that I am in some track;' when the second circuit was finished, the signs of travel were doubled, and he said, Now, surely I am in a beaten way;' and with the conclusion of every round, the marks increased till he was certain he must be in some well frequented thoroughfare, a temperance hotel in Hartford, Ct. SUMMARY OF EVENTS DURING THE LAST FORTNIGHT .- The leading event of interof counterfeits, none genuine without the est, and one which has been the chief topic of discussion in political circles during the past fortnight, is the election for State and cine, and it gave immediate relief in three county officers, which was held on the 3d inst. In this county the whigs obtained an average majority of 695 for State officers. For county officers the honors are about equally divided. The returns from several of the counties have not been received, and there is still a doubt as to the result for Governor. The vote is very close; both parties claim the victory, and the official returns can alone decide the victory. The remainder of the Democratic State ticket, including Messrs E. C. Marshall and McCorkle, for Congress, are elected. The Legislature will be Democratic in both branches, and will no doubt elect a Democrat to the U. S. Senate immediately after organizing. The vote throughout the State is small. [Several other papers think that a portion of the whig state ticket is elected, as the reported returns vary considerably from the offi-
