Keeping Fowls .- Value of their Manure.

At a large agricultural discussion in Albany, Mr. Chester Moses of Skaneatles, made some valuable remarks on poultry keeping. He stated that for several years past he had kept 600 or 700 fowls, and the last winter kept 900. His object is eggs, of which his fowls average about 100 each, annually. They are not confined but are allowed to range at will. Their food is principally wheat screenings, with some eorn, buck-wheat and animal offal. He is also particular to allow them plenty of oyster shells, pounded, which, especially during spring, or any season when they lay most, they eat large quantities of. The lime of the oyster-shells doubtless contributes to the formation of the shell of the egg, and perhaps assists in the digestion of the food

Mr. Moses considers the manure of his fowls of much importance, and takes care that it is all saved and applied to his crops. Under the building in which the fowls roost is a cellar, into which all the manure is put. In the spring, a few weeks before planting time, the manure is worked over and mixed with plaster-sometimes with plaster and ashes in equal proportions, using enough of these articles to make the manure so dry as to pulverize thoroughly.

The domestic guano of which Mr. M. sometimes has the quantity of 300 bushels in a season, produces a powerful effect upon the growth of Indian corn. His mode of applying it is, to drop a handful in each hill, which is covered half an inch more with earth, in order to prevent the seed whiskey. Come and taste my liquor before from coming in immediate contact with you buy. the manure, which experience has shown would prevent its germination. Mr. M. stated that he had tried this compost in comparison with good hog manure, by applying each to corn in the same field and on a similar soil. On one part half a shovel full of hog manure was put in a hill, and on the other part, a handful of hen manure compost. The crop was better where the latter was used, and the succeeding crop. He planted pumpkins on the rows that had no manure, and on another row that had the proportion given to the rest of the field. The row which had no manure, produced no pumpkins of any value; the other produced fifty-one fair sized, good pumpkins.

Mr. M. stated that his son was engaged with another person in the poultry trade, and that in the year 1849-50, they sent between 20 and 30 tons to New York and Boston .- . Alb. Cult.

No instance has ever been known, where more than six days have been required to perform a complete cure, even in the very worst cases, and on the strongest constitutions. We would earnestly say to all who are afflicted with this distressing disease, to get one box and try them, and in all cases, two boxes are warranted to eure, if taken according to the directions, or the money

ALSO, My Vegetable Anti-Dyspepsia Bitters.

This Medicine is a certain cure for Dyspepsia in its very worst forms. Thousands of cases have been comdetely cured by it within the last year, which have been entirely despaired of by the regular family physi-cians. We do not recommend it to cure everything—we recommend it to cure Dyspepsia, and the diseases originating from it, and that it will cure in almost every case cured in two and three months, but it depends somewhat apon the constitution of the patient. We would say to all who are afflicted with Dyspepsia, give this medicine a fair trial, and if it fails to do good, your money will be

ALSO, My Vegetable Worm Powders.

This is the most wonderful Worm Destroyer ever known, and at the same time, so pleasant to take, that almost every child will be fond of it, and many instances have been known of children crying for more after once

This medicine is in the form of a powder, the only medicine ever used in that form, and it operates on a principle entirely different from any other medicine ever administered by any other physician. It is the only medicine which has no Worm-seed Oil or Turpentine combined with it, which is believed by all other physi-cians, to be the only two things which will destroy worms, and these two things combined, together with castor oil, are the active principles of all other worm medicines, which every person who has ever tasted or smelled, knows to be the most nauseous of all nauseous medicines, and on account of which, there is generally something added to destroy this nauseous taste, and in order to do this, it must be something stronger than the medicine itself, and therefore, it must necessarily destroy at once, and it will not be hurt, while at the same time, the principle upon which it acts being different from anything else ever used, it will destroy all kinds of Worms with a certainty never equaled. It will not only destroy the seat worms, or Ascarides, and long, round worms, or Teres, but is the most effectual medicine for the destruc-tion of the Tape Worm ever known. Ten doses have tion of the Tape Worm ever known. Ten doses have brought as many as FIVE Tape Worms from one person. If your children have any symptoms of worms, try these powders, and in nine cases out of ten, you will nev-

er use any other. These are also warranted. These medicines are all separate, and one for each disease, and each for only one disease. They are not recommended, as many other medicines are, to cure some fifteen or twenty diseases, and all of different natures but they are each to cure but one disease, and that they will do in ninety -nine cases out of every hundred, and where they have a fair trial and fail in all cases, the

I would recommend them to all persons, as they are easily screwed together, and can be kept cleaner than any hitherto made.

JAMES ALLISON. I concur with the above and consider it a good article for tavern keepers and others. THOMAS MAYES.

We certify that we got A. Felix to put B. Hinkley's patent bottom into our old bedsteads, and that they answer the purpose exceedingly well. We consider it a bedstead that can be kept much cleaner from insects, screwed up firmer than any others, and recommend them

CELEBRATED GERMAN BITTERS, PREPARED BY

DR. HOOFLAND'S

DR. C. M. JACKSON, At the German Medicine Store, 120 Arch st., PHILADELPHIA. Their power over the above diseases is not excelled-if

equalled—by any other preparation in the United States as the cures attest, in many cases ofter skilful physicians had These Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of diseases of the Liver and lesser glands, exercising the most search-

ing powers in weakness and affections of the digestive or. gans, they are withal, safe, certain and pleasant READ AND BE CONVINCED. JOSIAH C. YOUNG, Dauphin, Dauphin county, Pa., n a letter to Dr. Jackson, of May 5, 1851, said: "For a long time I was afflicted with general debility and intestinal weakness, costiveness, &c., for which I used many different remedies, without change. At last I ac identally stumbled upon Hoofland's German Bitters prepared by you. I took a few bottles according to directions, and was completely cured. I have not been so healthy for ten years as I have been since I took your

bitters, which was about one year ago. Some of my neighbors are now using them, and deriving great ben-

From Dr. J. C. GILES, Newton Hamilton, Pa., said: "I have used a half dozen of your German Bitters my-self, for Liver Complaint and diseases of a nervous char-acter, resulting from the abuse of mercury. I was poioned and affected with spasms from the use of this latter article, and your German Bitters was the first article from which I obtained relief, although I have not yet quite recovered. All who have used this medicine of

yours speak well of it." DYSPEPTICS AND SKEPTICS, READ.
In three-fourths of the cases of diseased Liver, Stomach and Nerves, the effect of Dr. Hoofland's Celebrated German Bitters, (prepared only by Dr. Jackson, at the Medicine Store, 120 Arch street,) is as positive as in the case of A. A. Kaufman, Esq. Rend what he says!

LANCASTER, April 30, 1850. Respected Sir: Lhave been for a series of years afflicted with Dyspepsia, Inactivity of the Liver, and Nervous Debility. My mental powers have been so reduced as to render me quite unfit for the transaction of any kind of business. After consulting many eminent physicians, and using their prescriptions, and after using the most popular remedies of the day, supposed to be applicable to my case, I always failed to have permanent relief. A friend, with much persuaston, induced me to try a bottle of your celebrated Bitters. I have used one bottle, and of your celebrated Bitters. I have used the bottley and this day commenced the second. I can with cheerfulness state that it has happily improved me. My appetite and spirits have astonishingly improved, and I begin to feel as though I had grown (suddenly) ten years younger, and really, I am almost prepared to say that I now consider myself calculated for any business, while

ten days ago, I would have as soon undertaken to square a circle as to have attempted it.

Yours respectfully,

A. A. KAUFMAN. To Dr. C. M. Jackson,

120 Arch street, Philadelphia. The Editor of "Scott's Weekly Paper," one of the rgest literary and family newspapers published in Phil-"Dr. Hooffand's German Bitters, manufactured by Dr

Jackson, are now recommended by some of the most prominent members of the faculty, as an article of much efficacy in cases of female weekness. As such is the case, we would advise all mothers to obtain a bottle, and thus save themselves much sickness. Persons of debilitated constitutions will find these bitters advantageous to their health, as we know from experience the salutary effect they have upon weak systems."

That this medicine will cure Liver Complaint and Dysepsia, no one can doubt after using it as directed. It ets specifically upon the stomach and liver; it is prefer able to calomel in all bilious diseases-the effect is i diate. They can be administered to FEMALE OF INFANT with safety and reliable benefit, at any time.

Beware of Counterfeits!

This medicine has attained that high character which necessary for all medicines to attain to induce cour erfeiters to put forth a spurious article, at the risk of the ives of those who are innocently deceived. Look well to the Marks of the Genuine.

They have the written signature of C. M. JACKSON pon the wrapper, and the name blown in the bottle, eithout which they are spurious.
