#### FROM CALIFORNIA.

The steamship Cherokee arrived at New York on Saturday evening, with two weeks further news from California, the papers from San Fran-cisco being to the 1st of October. The Cherokee has on board an immense number of passengers, and \$2,200,000 in gold.

The personal property insured by the City of San Francisco, at the present time, is seventeen millions seven hundred and forty-five thousand

The Steamer Oregon, from San Francisco for Panama, took millions of dollars on her manifest. Great rejoicing had taken place at San Francisco at the last trip of the Nicaragua route— Messrs. Gregory & Co., having delivered their passengers in twenty-seven days from New York.

RIOTAT CHAGRES.—Loss of LIFE.—A terrible fight occured at Chagres, just before the sailing of the Cherckee, between the Native and American boatmen. The Americans were beaten and fled, when the Native turned and beat all the Americans in their way. Fifteen or twenty passengers from California, on their way to the steamer, were driven back. Five are known to have been killed. The other passengers fled, taking refuge in the houses, which they barricaded.— They finally got on board the Cherokee, through the courtesy of the commander of the British steamer, who took them off in his own boats.— The specie was also taken off in the British boats. Messrs. Adams & Co's., messenger, with all their despatches, was left behind, and it is feared that he was killed by the Natives.

The returns of the late election show ma-jorities for all the candidates on the Democratic eket, ranging from one to five thousand. John Bigler is elected Governor by about fifteen hundred majority. Marshall and McCorkle are elected to Congress by heavy majorities.

The Vigilance Committee were directing their efforts to prevent the emigration of convicts,

especially from France, which seems to be

The Indians were committing unparalleled outrages upon the emigrants on the Columbia river. The family of Hudson Clark, of Illinois, was attacked by a band of thirty Indians, his mother and brother murdered, his sister dangerously wounded, and afterwards ravished by the whole

party.
Mr. Miller, of Western Virginia, had also been attacked, his brother-in-law, Mr. Jackson, killed, and his daughter and himself wounded. Two other trains had been attacked, but the Indians were repulsed. The utmost excitement prevailed in consequence of those out-

[From the San Francisco Post, Oct., 1.] Since the sailing of the last mail steamer, the result of the recent State and Congressional elections had been so far ascertained as to se-cure the election of the entire Democratic State ticket and the two Democratic candidates for Congress. The Democrats claim an average majority of 1,000, but we do not think it will reach that figure. The Legislature is largely Democratic

From all parts of the State we have the most encouraging intelligence of the success of the miners, and we hazard nothing in saying that the present yield of the mines exceeds that of any former period, The season, so far, has been very favorable to the success of the various damming companies through the State, and the result has been large yields in the department of mining. The prospects for the approaching rainy season are still more encouraging. During the dry season, great numbers of miners, who have been operating along the heads of creeks and rivers, have been engaged in raising dirt in the dry diggings to wash when rains af-ford them the requisite supply of water. Besides, a steady business is now being prosecuted by the a steady business is now being prosecuted by the various quartz companies. particularly in the vicinity of Nevada City, and along the tributaries of the San Joaquin. These companies will be able to prosecute their labors as well in the rainy as in the dry season. It may be well to remark that the quartz business appears to be that which, to a considerable extent, is attract-ing the attention of capitalists as a source of investment. The extensive outlay for costly machinery in order to prosecute this branch of other capitalists who are ready to make heavy

In the political world, the great point of interest just now is, as to who will be the United States Senator in place of Col. Fremont. Democrats have many candidates; among whom may be numbered Col. Winn, T. J. Henley, Col. Weller, Hon. David C. Broderick, Hon. Nathaniel Bennet-Col. Fremont having retired from political life, as we hear. These are all the democratic candidates we hear of.

The capital of the State has recently been removed, by order of the Governor, from Val-lego to San Jose, the former seat of Government. This was done in consequence of a non-compliance with the bonds of Gen. Vallego, as is alleged, which were taken at the time of the

The city is rapidly spreading, and now presents that massive appearance which always distinguishes a city from a village. Many large and elegant brick and stone buildings have been erected since the fires of May and June. The burnt districts may be said to have been built up again. Trade is reviving and the prospects are encouraging. It is to be hoped that we may escape the ravages of fire hereafter.

Society, also, is undergoing great and gratifying changes. Every steamer brings an acceson to the number of American ladies, and school houses and romping children have already ceased to be novelties in our midst.

## FOREIGN NEWS.

New York, Nov. 2 .- The steamship Franklin, from Havre and Southampton, arrived at 12

o'clock this morning. She brings four days later advices from all parts of Europe. The most interesting news contained in the English papers, has reference to the excitement relative to the gold discoveries in Australia, and the unpromising aspect of affairs at the Cape of

iness of removing the goods from the Crystal Palace was proceeding with extraordi-nary rapidity. Prince Albert had written auto-graph letters of thanks to each of the foreign omissioners.

When the Franklin left, Kossuth had not arrived at Southampton, but he was confidently expected from Gibralter in the steamer, due on the 24th. The most extensive preparations were being made in Southampton to give him a hearty

and enthusiastic reception. At Manchester, in consequence of the decline of the Liverpool cotton market, and the absence of a revival in the Indian markets, there was

considerable depression. At Nottingham there had been a good home trade, but a pause in the export market. The prospects of the Iron trade were more favourable. At Mark Lane on the 20th, the Corn Market

dull, and prices with difficulty obtained .-In foreign grains, the market was flat, and 30,000 quarters had been re-sold for re-exportation to Holland and Belgium. Indian Corn for Ireland, was in good demand, at six to nine per quarter advance. English Flour met a tolerably free sale, but French and inferior marks were dull. Foreign Barley unaltered. Peas scarce.

Beans lower in price. Low qualities of foreign

Grain, were in good demand.

Mrs. Fanny Kemble was thrown from her horse with great violence on the 20th, at Brighton, but fortunately sustained little injury.

One hundred and sixty inmates of the work house at Newton, Ireland, have been sent to

Dublin, on their way to America.

France.—The ministerial crisis in France remains as it was at the close of the last week, mains as it was at the close of the last week, much being predicted and conjectured, and lit-terally nothing known or done in the meantime, expecting perhaps some very limited excite-ments and disquietudes in some of the provinces, which are not at all affected by the present

Spain .- From Madrid we learn that the Queen of Spain had addressed an autograph letter to the inhabitants of Cuba, expressive of her gratitude for their conduct during the invasion by the American pirates.

Letters from Athens announce that the Gre-cian Archipelago was at last cleared of the pirates that had so long infested it. Negros. chief buccaneer, had been killed, and his band dispersed.

The Corriere Mercantile, of Genoa, states that a series of measures are in contemplation to incorporate Tuscany, de facto, with the Austrian

Germany.—The king of Hanover is seriously ill, and the Duke of Cambridge, his nephew, has been summoned to Hanover. There is little

hope of the King's recovery.

Austria.—The accounts from Vienna state that the Austrian minister at London has received instructions from his government to break off all diplomatic intercourse, if Lord

Palmerston should grant an audience to Kossuth.

The new Governor of Hungary, Archduke Albrecht, has been received by the people of Hungary with the most extraordinary demonstrations of joy. Triumphal arches were erected and flowers strewed along his way.

Our latest telegraphic advices from Vienna,

state that the Congress had assembled there, to originate measures to faciliate communications between the different nations.

Egypt.—The political difficulties which threa-

tened to prevent the construction of a railway between Alexandria, Cairo and Suez, have finally been removed by the restoration of a mutual understanding between the Sultan and Abbas Pasha.

NEW ORLEANS, Nov. 2d -Reported Copture and burning of Matamoras.—The steamship Fanny has arrived from the Rio Grande bringing dates to October 30th, being six days later. tack on Matamoras by the Revolutionists commenced on the 21st and on the 23d Caravajal had possession of the city within four squares of the Plaza. The Government troops still held out, but had suffered the loss of 150 killed and woun-The Revolutionists lost but three men including Capt. Ford, who commanded a company of Texan Rangers. Gen'l Avola was wounded during the engagement. Orders had been issued by the Mexican Commander to give no quarters to the Americans. Mr. Langstroth, formerly of Philadelphia, doing business at Matamoras, has been killed. The City was set on fire on the 23d and the custom House, together with other buildings, were consumed. On the 25th Mr. Devine's stores were also set on fire and con-

sumed, and the American Counsul wounded. All the troops destined to reinforce the American army on the Rio Grande left here this

PAGE'S ELECTRIC ENGINE -Professor Page has sent his Electric Engine, constructed at the Smithsonian Institute, under the patronage of Congress, to New York, where it is to be this week. There is no doubt something in this discovery of Professor Page, and the period is not far distant when we may hope to realise the full benefits of it. This Engine, though with an inadequate battery, generates and exerts a force of over six-horse power which costs, under the imperfect adaptions, about twenty cents per hour, or \$2 for a day of ten hours.— There is no doubt however, that the cost will be reduced and the efficiency of the machine de-cidedly increased. The immense power of the Magnet, as developed by Professor Page's apparatus, exceeds all preconception. A small crow-bar touched to or held near a smooth iron piston, around which a long magnetic wire has been coiled, is attracted with tremendous on the application of a wire connecting the coil with a battery, so that it cannot be wrenched away by an ordinary man's best exertions.—

GRETNA GREEN .- A law exists in Virginia which is somewhat onerous on those matrimonially disposed, requiring the candidates for the hymenial bands not only to take out a license mining successfully, necessarily limits it to those who have accumulated the requisite capital by other and cheaper modes of mining, and to those the ceremony can be performed, but also to go before the proper officer and give bond that the commonwealth shall not become chargeable with the support of the issue of the union. To avoid the publicity and inconveniences arising from a compliance of this law is often an object with parties, and to effect it a Gretna Green is made of the bridge at Harper's Ferry, which, spanning the Potomae from Maryland to Virginia, affords a neutral territory on which the rites can be solemnized without a compliance with the laws of either State. Two these marriages took place on the bridge last week, the Rev. Geo. D. Chenowith officiating, and Mr. G. W. Eulster and Miss Sarah Burly, and Mr. J. F. Misner and Miss Sarah Pates, forming the matrimonial parties.

Ague and Fever on the Mississippi.—The St. Louis Republican of the 23d says:—There has not, within the knowledge of the settlers on the Upper Missouri, been such a general prevalence of ague and fever as during this fall. We crossed the Missouri at old Fort Kearny into lowa and from thence down through Missouri to St. Joseph, (and the country is populous,) we scarcely found a house or family that was not afflicted with the disease, or typhoid fever in some shape or form. Whole families who have for years enjoyed uninterrupted health, were prostrated with the disease. The mortality, however, was not great. Everywhere there were complaints of the lack of what is regarded as the main remedial agent in this disease-'Quinine.' Any price would have been paid for it, but none to be had. The prevalence of this disease is attributed to the long-continued high water in the Missouri and its tributaries.

A MAN SHOT FOR A TURKEY .- William Hite, residing five or six miles from this place, and his brother John, one morning last week, were in the woods hunting turkeys. William was crawling among the bushes making a noise in imitation of a turkey, which hunters denominate "calling." John, some distance off, seeing the stir in the bushes and hearing the noise at alluded to, shot, and the ball struck his brother on the back part of the head near the ear, but did not penetrate the skull. It was afterwards extracted, and we are informed the accident is not likely to terminate fatally. We advise hunters to have a clear view of their game before they shoot .- Huntingdon Journal.

New Counterfeit.—The public are cautioned against new counterfeit \$5 notes on the School Books, Slates, &c., at Philadelphia Bank. They are letter 'A,' va-riously filled up. The general appearance of the note is not good; the medallions and the faces of the females in the vignette are imperfect. Two commas between the names of 'Un-derwood & Bald and Draper & Underwood, are omitted. Thedots between the words 'Five - Five,' on the upper and lower margins are oblong in the good notes and square in the by

A little boy and girl, the first eight years old, and the latter five, arrived in Utica a few days

Cotton Manufactures Decreasing .- The following is the number of bales of Cotton manufactured per annum in the South:

To September, 1849. 110,000 bales. To September, 1850. 107,000 bales. To September, 1851. 60, 000 bales. This is a deplorable result. But it has decreased in the North, too:

For the year 1849-50. 487,000 bales. For the year 1850-51. 404,000 bales. The increase of Cotton exported to foreign countries over last year, is estimated at 398 .-555 bales. This is not the best evidence of the prosperity of Cotton manufacture in tho United States .- Alabama Paper.

Dreadful Affray .- We learn from Messrs. Adams & Co's. express messenger, that a dreadful affray occurred at Aquia Creek, on the 21st inst., between John L. Cantwell and James W. Morrison, both connected with the through baggage train between this city and Charleston, Morrison was stabled in five places in the back, once in the breast, and terribly about the head, and it was supposed could not survive. Cantwell made his escape. The affray originated about something connected with their business .- Clipper.

Melancholy and Horrible Death - Mathew Walker, a very respectable and estimable citizen of Union Township, Whitley Co., Ky., came to his death on Friday last, at the house of David Harshbarker, whilst feeding a thrashing machine, by the buisting out of the cylinder. caused by a stone bound up in one of the sheaves of wheat. Farmers should be careful to separate the stones and brush from their wheat, for it rarely passes without some accident occurring.

Trial of a Young Girl for Murder .- Almira T. Besely, a young girl, was put upon trial at Providence on Monday, before the Supreme Court, on a charge of murdering her in fant brother, by putting arsenic in his milk .-In empannelling the jury, nineteen persons were excused from serving, having conscientious scruples as to capital punishment. The evidence of a young brother was to the effect that his sister sent him to purchase arsenic .-She was finally acquitted

Death of a Heroic Sailor .- Jerome, the heroic sailor, who saved so many lives during a dreadful shipwreck on the Atlantic, two o three years ago, was killed recently in Central America, during an affray between the natives and some Americans.

The Louisville Courier says that an aged lady, a member of the Methodist Episcopal Church, one who heard John Wesley preach in England, partook of the Lord's Supper along with the wives and widows of ministers of the gospel, at the Conference at Indianapolis, by the special request of Bishop Waugh, on the

### More Truth than Poetry.

The people dear, as politicians say, Is what makes us appear to-day, We write in rhyme so that you all May read, reflect, and give us a call For we have opened, and for sale designed, Boots and Shoes of every kind; For men and women we've supplies-For children, too, of every size We've LADIES' Boors, the best that's made, And Misses' too, of every grade; Our stock of Gaiters is complete-Our Jefferson's cannot be beat. Our Jenny Lind's are just the thing; But of them we need not sing. Merely say that they are cheap, Double soled, and can't be beat Our Boots are all of the best kind, A little the best in town, you'll find: We've boy's boots too, so very low, We are surprised how fast they go. Of half our stock we cannot sing, For it consists of every thing That women, men, So much we can't describe with care And if it suits the people's mind, We'll take produce of every kind; But, then, the Cash, it is confess'd At all times will suit us the best. You need not fear our shelves to thin, Supplies are always coming in: We buy them cheap, and well we know, We can't be beat in selling low.

#### Lewistown, October 24, 1851. HAT & CAP MANUFACTORY. W. G. ZOLLINGER, Market street, Lewistown, adjoining Ken-

We hope you'll not forget to call; You'll find us two doors from Wattson's store-

Now, we invite you, one and all,

nedy & Porter's Store. Respectfully invites the attention of the citizens of Mifflin and the adjoining counties to his ex-tensive stock of WINTER STYLE HATS & CAPS,

which he offers at prices that cannot fail to suit purchasers. COUNTRY MERCHANTS will find it decidedly to their advantage to give

him a call, for his arrangements are now such, as to enable him to furnish any quantity that may be desired on the shortest notice. The care and attention he has ever given to the manufacture of the style of Hats preferred

by his numerous Omish customers, will be

continued; and he feels warranted in giving

the assurance that they will not be disap-Grateful for the encouragement he has thus far received, he will continue to deserve it, by continued assiduity to the wants of his friends, and strict attention to his business.

Trout! Trout!! UST received, 3 barrels Mackanaw Lake Trout.

Lewistown, October 31, 1851.

cts. per lb. Also.

cash prices.

Call and satisfy yourselves. No humbug ere. SIGLER & STUART. Lewistown, Oct. 24, 1851.—tf Wanten-500,000 bushels good red and white Wheat; also, Rye, Corn, Oats, and Clover Seed, for which we will pay the highest

# HAT & CAP N.J. RUDISILL,

At his Old Stand in Market street, TAS just received from the city the WINTER FASHIONNS, and a large stock of material, which he is manufacturing into most superb HATS, which cannot fail to please. He has now on hand a large and well-assorted stock of

Men's, Boys', and Infants' CAPE, of every quality and price. He has also re-

#### LADIES' MUFFS. BOAS, TIPPETS, AND CAPES, of the latest styles, which he will dispose of at

very cheap rates.

His Omish friends will also find him prepared to suit their tastes. His unrivalled BROAD-BRIMS will receive the same care and attention which he has always bestowed upon them. Don't torget the old stand, where

vou may, depend upon not being disappointed. Thankful for the liberal share of custom bestowed on him heretofore, he solicits his old friends and 999 new ones-being all he can at present accommodate-to cail and adorn

themselves with a new hat or cap. Lewistown, Oct. 24, 1851.
