One of the richest cases we remember to have heard of happened a short time since in a neighboring State, not a thousand miles from New Hampshire. A difficulty had occurred, as difficulties sometimes will occur between a preacher and the choir of his church, which for a considerable time deprived the congregation of the benefits of the services of the above named orchestra. The delinquents at length repented, and appeared in full numbers at the usual time of services. The parson ascended the pulpit as usual, looked about on the congregation, paying particular notice to the unexpected accession to his hearers, and when the time arrived for reading the hymn, he rose, and with a very significant tone, look and air, and with his eyes fixed upon the recent absentees, began-"Are ye wretches yet alive,

guards, ye?

And do you yet rebel."
