### The Compromise Measures.

A caucus of the Whig members of zation of that body, at which, after deciding not to nominate candidates for officers, the following resolution was adopted with but two or three dissenting voices:

"Resolved, That we regard the series of acts known as the adjustment measures, as forming in their mutual dependence and connexion, a system of compromise the most conciliatory and the best for the entire country that could be obtained from conflicting sectional interest and pinions; and, that, therefore, they ought to be thered to and carried into faithful execution as a final settlement, in principle and substance, of the dangerous and exciting subjects which

The resolution elicited some discussion, being opposed earnestly by Mr. Stevens, of Pa., and Mr. Fowler of Mass., who moved to lay it on the table. This motion was lost, when Mr. Stevens, Mr. Fowler and one or two others, withdrew

The resolution was then carried with but two or three dissenting voices.

We stated last week that a similar resolution, offered in the democratic caucus, had been voted down! By putting this and that together, the people can now judge whether locofocoism is not pandering to abolitionism for the purpose of securing that vote for the presidency. The A. A. On the other hand, locofocoism and abolitionism elected a governor in Ohio and proclaimed it as a democratic victory! the same coalition succeeded in Massachusetts, and similar proclamation was made; in other States bargains of the same kind are in a train of adjustment; and to cap the climax, a caucus of democratic members of congress is controlled by the abqof the south! Mr.: Foote withdrew his Kossuth resolution, remarking that he had found opposition to it from unexpected quarters, and did not wish to occupy time in discussions. Mr. Seward then gave notice of another resolution of welcome to Kossuth.

On Monday Mr. Foote's resolutions on the compromise were taken up. Mr. F. said he did not expect the resolution to be unanimously adopted by both Houses of Congress. He knew there were gentlemen in both Houses who desired to perpetuate agitation, and such persons he thought would not be disposed by resolution or otherwise to sacrifice their personal popularity or local ambition. He hoped it would be supported by such a large number in both Houses as would give assurance to the whole country, that no successful opposition can be given to that settlement or any portion of it. He had not brought it forward as a party man, though from early manhood to the present time, an inflexible, unyielding member of the Democratic party. He would scorn any attempt to blend the interests of party with this movement. His objects were higher. They were the attainment of higher ends than the mere advantages of party. He would think it unsafe to rely on party votes alone for the adoption of any measure of this kind. It was well known that Free Soilism was attached to and connected with both parties at the North. He had hoped on his arrival here to find both the Whig and Democratic parties prepared to repudiate all connection with that faction and its members. They are no such thing, and their talk and conduct here does not show the slightest improvement on their former position. What they now want is the control of the Baltimore convention; and because they are alone too weak to effect this, they naturally look to their old friends and allies, the abolitionists and free-soilers of the North to help and assist them; and the free-soilers, with the gratitude which always marks political factions working for the same end, have once more shaken hands with the secessionists, and by their co-operation effected the victory in the caucus of last Saturday.
