THESE PILLS are composed entirely of Vegetable 1 Substances, and in ninty-nine cases out of every hun-dred, will perform a perfect and Complete cure in three days. No instance has ever been known, where more than six days have been required to perform a complet cure, even in the very worst cases, and on the strongest constitutions. We would earnestly say to all who are afflicted with this distressing disease, to get one box and try them, and in all cases, two boxes are warranted to eure, if taken according to the directions, or the money

These pills not only perform a perfect cure in three days, but remove the bite and create a healthy action of the liver, and consequently fortify the system against a future attack.

ALSO. My Vegetable Anti-Dyspepsia Bitters.

This Medicine is a certain cure for Dyspepsia in its This Medicine is a certain cure for Dyspepsia in its very worst forms. Thousands of cases have been completely cured by it within the last year, which have been entirely despaired of by the regular family physicians. We do not recommend it to cure everything—we recommend it to cure Dyspepsia, and the diseases originating from it, and that it will cure in almost every case, and it is recommended for nothing else. In many instances, even the worst of cases have been completely cared in two and three mouths, but it depends somewhat cured in two and three months, but it depends somewhat npon the constitution of the patient. We would say to all who are afflicted with Dyspepsia, give this medicine a fair trial, and if it fails to do good, your money will be

My Vegetable Worm Powders. This is the most wonderful Worm Destroyer ever known, and at the same time, so pleasant to take, that almost every child will be fond of it, and many instances have been known of children crying for more after once

This medicine is in the form of a powder, the only This medicine is in the form of a powder, the only medicine ever used in that form, and it operates on a principle entirely different from any other medicine ever administered by any other physician. It is the only medicine which has no Worm-seed Gil or Turpentine combined with it, which is believed by all other physicians, to be the only two things which will destroy worms, and these two things combined, together with castor oil, are the active principles of all other worm medicines, which every person who has ever tasted or smelled, knows to be the most nauseous of all parseous smelled, knows to be the most nauseous of all nauseou smeltines, and on account of which, there is generally something added to destroy this nauseous taste, and in order to do this, it must be something stronger than the medicine itself, and therefore, it must necessarily destroy some of its medicinal properties. These powders are simple and so harmless, that a child may eat a whole box simple and so natifices, that a cilid may eat a whose nox at once, and it will not be hurt, while at the same time, the principle upon which it acts being different from any-thing else ever used, it will destray all kinds of Worms with a certainty never equaled. It will not only destray the seat worms, or Ascarides, and long, round worms, or Teres, but is the most effectual medicine for the destruc-tion of the Tape Worm ever known. Ten doses have brought as many as FIVE Tape Worms from one person. If your children have any symptoms of worms, try these powders, and in nine cases out of ten, you will nevuse any other. These are also warranted.

These medicines are all separate, and one for each disease, and each for only one disease. They are not recommended, as many other medicines are, to cure some fifteen or twenty diseases, and all of different natures, but they are each to cure but one disease, and that they will do in ninety nine cases out of every hundred, and where they have a fair trial and fail in all cases, the

I fidence we feel in an article which seldom fails to re-alize the happiest effects that can be desired. So wide is the field of its usefulness and so numerous the cases of its cures, that almost every section of the country abounds in persons, publicly known, who have been re-stored from alarming and even desperate diseases of the lungs, by its use. When once tried, its superiority over every other medicine of its kind is too apparent to es observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the dis-tressing and dangerous affections of the pulmonary organs, which are incident to our climate. And not in the formidable attacks upon the lungs, but for the milder varieties of Colds, Coughs, Hoarscness, &c., and CHILDREN it is the pleasantest and safest medicine that can be obtained. No family should be without it, and

nose who have used it, never will.
