FROM CALIFORNIA.

Half a million in Gold-New York, Jan. 11.—The steamer Daniel Webster, from San Juan, whence she sailed, on the evening of the 1st inst., and Havana the afternoon of the 6th inst., arrived this forenoon.

She brings dates from San Francisco to

the 15th of December, 255 passengers, and \$500,000, principally in the hands of passen-

gers.
The United States steamer Saranac, Commodore Parker, arrived at San Juan on the 1st inst., and her visit was supposed to have reference to the recent outrage upon the steamship Prometheus, by the British brig of war Express. The event created great excitement at San Juan.

The British Admiral has ordered the brig of war Express, from San Juan to Kingston, in order to investigate the commander's conduct in reference to the Prometheus.

The steamer Tennessee, with the mails from New York to the 11th of November, arrived at San Francisco on the 14th December, and the mail steamer from that city was, in consequence, detained until the 16th, to give merchants time to answer their letters. was not known what amount of gold would

be dispatched by the mail steamer.

The latest intelligence from San Diego indicates most decidedly that the Indian disturbances are at an end, and Gov. McDougal had disbanded the volunteer companies which had been formed.

The weather at San Francisco continued delightful.

The accounts from the interior speak of frequent heavy rains, which have proved a great benefit to vegetation, and have raised the rivers from five to ten feet. There has not, however, sufficient rain fallen to afford the gold seekers in the dry diggings all the facilities they require for successful work.

The papers contain contradictory statements relative to the gold discoveries in the Bear Valley; some asserting that the claim has the appearance of being worked out, whilst others affirm that the first accounts have been fully realized, and that it is a reliable fact that the original discoverers have sunk their hole to the depth of twelve feet, and have taken out \$400,000.

A high state of excitement continues to exist, and the mining population of the dis-trict has increased within a few weeks more than one hundred per cent. Claims are still sought for with great eagerness, but there is no positive evidence of the actual existence of gold except at that point where the company first commenced operations.

There had been a moderate business doing at San Francisco during the last fortnight, without any improvement in prices, the stocks continuing largely in excess of the demand. Seamen's wages were firm, and engage-ments were difficult at late rates. Laborers obtain from \$5 to \$6 per day, and carpenters and masons from \$7 to \$10. Other mechanical branches are prosperous.

The general interests of the State are progressing favorably, and all matters continue gradually to assume a more settled and sat-

The miners generally are doing well. Clean gold dust \$17 25 per ounce. Sight bills on New York, 4 per cent.

Most of the damming companies and others working in the beds of the rivers, had suspended operations. The Oregon Bar Company, consisting of 25 men, on the north Fork of the American river, have taken out \$35,000 the past season, and they anticipate that their dam will withstand the floods of the approaching winter.

the approaching winter.

The New York damming company on the same stream, have taken out \$36,000 since the last of July. The company consists of seven men, who intend to resume work at The Montt party were in possession of seven men, who intend to resume work at the same place as early as practicable next

Ten out of eleven quartz-mining companies on Jamieson's creek have suspended operations till spring. The quartz increases richness as the miners sink into it. The Marysville Express states that the claims have risen, within four weeks, from \$1200 to The telegraph line of stages run from Sac-

ramento to Nevada, a distance of eighty miles, in less than eleven hours.

Seven hundred and ninety-four loaded wagons, averaging over 3000 pounds each, and drawn by over 2000 horses, mules and oxen, passed east by Plum Valley House, An extensive deposit of magnetic oxide of

iron ore had been discovered, 30 miles from Marysville, on the Placerville road.

A letter from Hon. Daniel Webster is pub-

lished in the San Francisco Courier, which denies the truth of Senator Gwin's statement, that the Administration is in favor of selling the mineral lands of California. Mr. Webster states that the Government

will take no steps in the matter, without consulting the wishes of the people of California. The Democratic State Central Committee, have issued a call for a Convention at the seat of Government of the State, on the 23d of February, to elect delegates to the National Democratic Convention at Baltimore, in June next, to nominate candidates for President and Vice President of the United States.

E. B. Lundy has been convicted of murder by the county court of Nevada, for having killed his antagonist in a duel. Efforts are being made to obtain an Executive pardon. The survey of the Pacific and Atlantic Railroad, from San Francisco to San Jose, had been completed, and Dr. Cobb was shortly to leave for New York, to raise funds for the enterprise. The project of building the road meets with good encouragement among those more immediately interested.

Beavers are said to be very numerous on Dry river, a branch of the San Joaquin.

REVOLUTION IN CHILL.—By the arrival of the barque Isabel, fifty-five days from Talca-huana, we have dates from Chili to October

It will be recollected that at the late election for President, Montt was declared elected. When the electoral college assembled, many of the members were absent, and it was claimed by the friends of Gen. Cruz that the election had been carried against him at the point of the bayonet, and by the greatest

frauds and corruptions.

The friends of Cruz organized and addressed a note to him, to take the head of the revdutionary army, to which he consented. Arrangements were made for a general out break on the 22d September, but a Govern ment steamer coming into Talcahuana about the 18th of that month, the Cruz party took possession of her, getting 1200 cunces of gold with her. After being properly armed, she was about to proceed to Coquimbo to get government money there.

At this time, however, the steamer Fire Fly came into harbor, and was fired at from the fort when she came to. It was soon disthe fort when she came to. It was soon dis-covered that she was in the possession of the Cruz party of Coquimbo. The Fire Fly be-longed to an English gentleman, at Coquim-bo, from whom she had been foreibly taken.

The two steamers were then despatched to Coquimbo for money, at which port the Chilian steamer, which was named Aurauco, arrived first. Unfortunately for her, she met an English, vessel-of-war, and was compelled to pay about \$20,000 indemnity for the taking of the Fire Fly. She then returned to Talcahuana, where she found the port blockaded by a Chilian brig-of-war, which she ran past in the night, and got safely into harbor .-Preparations were on foot to take the brigof-war by the Cruz party, when Mr. Palmer

Mr. Clay received him standing, and then, being seated on account of his feeble condition, addressed the celebrated Magyar in a speech of half an hour in length, frankly expressing his opinions. He deprecated the policy of intervention as the greatest calamity which could befal this country, and said that, as the possessors of the only existing republic, the example of man's capacity for selfgovernment, it was the duty of the American people to encourage human progress and prosperity on this continent, which might be destroyed by foreign wars, involving in their fall all hopes of free institutions. These were, he said, the sentiments of a dying man who had struggled

for freedom. Kossuth replied. He did not combat Mr. Clay's positions, but confined himself to the prospects of Hungary and the situation of France, believing that events in the latter country would terminate in civil war, and, perhaps, in a general revolution. At parting, Mr. Clay rose and bade Kossuth farewell for ever, wishing him a God speed for Hungarian Independence as the reward of the noble efforts of her people. Kossuth responded with emotion, saying that he would pray God daily for Mr. Serious apprehensions are entertained at Clay's restoration to health and usefulness.
