

Whig State Convention.

A WHIG STATE CONVENTION will be held at Harrisburg, on the 25th of March, 1852, for the purpose of nominating a Canal Commissioner, forming an Electoral Ticket, and choosing delegates to the National Convention.

Notices of New Advertisements.

The valuable mill property of GEORGE WAGFIELD, deceased, will be offered at public sale on the 15th March.

Portrait Painting.—Mr. ATWOOD, who was selected to proceed to Mexico to take a portrait of Gen. Taylor, and has attained a high reputation as a faithful and correct painter, has been spending some weeks in this place, during which time he has painted a number of portraits of ladies and gentlemen, as well as some children, which need but be seen to be recognized.

A large portrait of Gen. Scott, by the same painter, now in the side room of the Lewistown Hotel, created a desire in the minds of some of our citizens to retain it—and the project has accordingly been started to purchase it by subscriptions of 50 cents per share, and dispose of it by lot (in fact being an "Art Union" on a small scale.) The list is now open, and as the number of shares is limited, an early subscription will be necessary.

Captain T. F. McCoy delivered a Lecture before the Apprentices Literary Society, on the 14th inst., on "Our Country," in which he portrayed its advantages for intellectual development, moral improvement and social duties, and otherwise handled his subject with marked ability.

We learn that Mr. Haupt has made an arrangement with the Canal Commissioners by which railroad cars are allowed to carry 16,000 lbs. freight, being an increase of 3000 lbs. This will in a measure relieve the station here of a large quantity of freight that had accumulated in consequence of the want of cars.

Governor Bigler is trying his hand at vetoing. Thus far the game has been small—we shall know better how he can shoot when some monsters come before him in the shape of banks and corporations.

A CHANCE FOR BARGAINS!—Our tailors are complaining of little work and less money, and it may therefore be considered a favorable time to have a suit made up with "neatness and despatch."

GRAHAM'S MAGAZINE for March has more than a hundred pages of literary matter from the pens of James and others of a similar calibre, included in which are several dishes of pepper and salt from Graham himself. It is embellished with sundry wood cuts and two or three steel engravings, which most folks would call very fine, and taken altogether is as comely and readable a volume as we have looked over for some months. Any person desirous of getting it by mail, will please call on the editor of the Gazette—if otherwise, go to Cogley and buy it.

THE SCALPEL for February completes the third year of that publication, during which time the editor says it has cost \$8,000, he has received \$8,700, has the stereotype plates of each number, the hatred of the entire conservative class of his brethren, and 7,800 notices of the press! The work certainly hits right and left among the inconsistencies of medical practice, and doubtless frequently makes "its mark." It is edited and published quarterly by Edward H. Dixon, M. D., New York, at \$1 per annum.

AMERICAN RAILWAY GUIDE.—This excellent work, got up in convenient pocket form, continues to give monthly correct tables for time of starting from all stations, distances, fares, &c. on all the railway lines in the United States, and ought to be in the hands of every one who has occasion to travel, or feels an interest in noting the improvements constantly being made. Published monthly by Curran Dinsmore & Co., New York.

THE MAINE LIQUOR LAW, which at present engrosses public attention in a number of States, provides—

1st.—That no spirituous or intoxicating liquors, or any mixed liquors a part of which is spirituous or intoxicating, shall be manufactured or sold as a beverage in the State of Maine, under a heavy penalty.

2d.—That an agent, receiving a fixed salary, shall be appointed in each town or township in the State, to sell such liquors for medicinal and mechanical purposes only.

3d.—That no person engaged in the unlawful traffic in intoxicating liquors, shall be competent to sit upon a jury in any case arising under the act.

4th.—That liquors may be searched for and seized on complaint of any three persons, voters, who are willing to make oath that they have reason to believe that spirituous liquors are kept or deposited and intended for sale by persons not authorized to sell the same,—that is, by the person appointed in each city and town as aforesaid.

5th.—That all contracts for liquor sold in violation of law shall be utterly null and void. These are the main provisions of the law, which in the whole comprises seven-teen sections, providing against every possible case of evasion, and instituting heavy penalties for violation of its enactments. The great fight between the teetotalers and liquor dealers and their adherents will unquestionably be fought on the basis of this law, and we shall not be surprised if it comes off much sooner than anticipated, appearances indicating a most determined effort on the part of temperance men to enlist in their favor everything that will conduce to the advantage of the stand taken.

CANAL COMMISSIONER.—The whig papers in the eastern counties pretty generally recommend JACOB HOFFMAN, Esq., of Reading, while in this section and westward Wm. M. LLOYD, of Hollidaysburg, is spoken of in most commendable terms, and it is probable one of these two gentlemen will be selected by the whig convention as their candidate for Canal Commissioner.

We heard it seriously stated a few days ago that Jack Cummings, of Union county, would probably be the nominee of the locofoco convention for canal commissioner. If so, and should he be elected, the taxpayers of this State may well exclaim, "God save the Commonwealth!"

Two Whig meetings were held in Union county last week, for the purpose of appointing delegates to the State Convention. The regulars appointed Charles Merrill and D. W. Woods, Esqrs. Senatorial Conference, with instructions to support Mr. Middlesworth as Senatorial Delegate, and the others Dr. Isaac Rothrock and Henry S. Boyer, with instructions to support Col. Slifer as Senatorial and Major Sharon as Representative Delegate. Juniata county will probably concur in the appointment of Middlesworth and Sharon, which will render a conference meeting unnecessary.

Among the decisions of the Postmaster General on the proposals for mail-service, are the following:

Harrisburg to Millersburg; Wm. Colder, Jr., \$540.

Applications for tavern licenses must be published next week.

The Canal Board, at their meeting on Tuesday, passed a resolution directing supervisors to have the main line open on the 12th of March.

By a recent vote in the House of Representatives, touching the banking system, many persons are alarmed lest the large democratic majority in that branch of the Legislature may not prove to be as democratic as they should be.—Clearfield Republican.

Foreign News.

The Cambria arrived at Halifax on Saturday afternoon. Cotton was dull and some reports represent a decline in it and Flour.

The Queen opened the British Parliament in session on the 31 instant. Father Mathew has been sick but was improving at the last accounts. Efforts are still being made for the release of the Irish Exiles.

French affairs are quiet. Two preachers, Abbe Lacordiere and M. Laersiere have been ordered to leave. The universal suffrage law has been proclaimed. All Frenchmen 21 years of age, possessing civil and political rights, are electors. All electors aged 25 are eligible as representatives. There are to be 261 deputies. Algeria and the Colonies are still entitled to deputies. The ratio is one deputy for every 35,000 electors. Arrests are still going on to some extent. The President of the Senate, Jerome Bonaparte, has an annual salary of 25,000 francs. An attempt was made to assassinate the Queen of Spain on the 24 instant. The pistol-ball struck her on the shoulder, but the wound was not serious.

Pennsylvania Legislature.

Mr. Muhlenberg, Senator from Berks, read in place a bill for the regulation of the Public Works. He proposes the election next fall of a Secretary of Internal Improvements, to serve for three years, at \$2500 per annum. He can be removed for misdemeanor in office on the address of a majority in each House and has entire charge of the public works. He is to appoint the different superintendents, supervisors, collectors of tolls and weighmasters, subject to the confirmation of the Senate. He is to have the power of removal but is required to file a statement of the causes in each case in the office of the Secretary of the Commonwealth, whence they are to be sent to the Legislature for their information.

The Governor is to appoint a Civil Engineer for three years at an annual salary of \$2500, who may be removed by the Governor, with the assent of a majority of the Senate. The Engineer is to have charge of all repairs, alterations, surveys, &c. Monthly reports, containing full details of all expenditures and debts, with the object, name of person, &c., are required, and provision is made for the examination of all vouchers and bills. The superintendents of the Columbia and Portage railroads and supervisors of the various divisions of the Canal are to appoint all subordinates, the number of whom is to be fixed by the Secretary of Internal Improvements. All free tickets for persons or property over the public works are abolished under heavy penalties. It is provided that the present Canal Board be abolished as soon as the Secretary is installed in office, and that a Canal Commissioner be not elected next fall.

In the Senate, on the 17th, Mr. Crabb read in place a bill to authorize the granting of licenses to vendors of merchandise from boats and other vessels on canals and navigable streams in the Commonwealth.

In the Senate, on the 18th, Mr. McMurry presented a remonstrance against any law to prevent boatmen trading on the canal.

In the Senate, on the 19th, Mr. Carson offered the following resolution, which was adopted:

Joint resolutions, authorizing the Governor to open correspondence with the Governors of neighboring States, relative to the circulation of small notes, passed second reading and were then ordered to be transcribed.

In the House, on the 19th, on motion of Mr. Acker, Senate bill to authorize the employment of counsel by the State of Pennsylvania, in reference to the case of Rachael Parker, a free person who is detained as an alleged fugitive slave in Baltimore county, Maryland, was taken up, read, discussed, and

Mr. Gillis moved to refer it to the Committee on the Judiciary for investigation; which was not agreed to—yes 40, nays 51.

And on the passage of the bill on second reading, there were yeas 67, nays 18, and the bill passed finally.

In the Senate, on the 20th, the various bank bills being the order of the day, the following were passed through committee of the whole:

- A bill to incorporate the Anthracite Bank of Tamaqua.
A bill to increase the capital stock of the Southwark Bank.
A bill to incorporate the Farmers' and Mechanics' Bank of Allentown.

The message and the bill were read. On the question, "Shall the bill vetoed pass?" it was not agreed to.

42. And after the bill had been read in the committee of the whole, the question recurring, "will the House agree to proceed to the second reading of the bill?" it was decided in the negative—yeas 43, nays 45.

In the Senate, on the 14th, Mr. Slifer read in place a bill to incorporate the Mill-County saving fund society.

In the House, on the 21st, Mr. Miller, of Philadelphia county, offered the following:

Resolved, That a committee of five be appointed to inquire into the expediency of having erected at some suitable site a dwelling house, to be used for the residence of each Governor of this State while in office; the committee to report as early as practicable.

Which was agreed to.

And Messrs. Miller, of Philadelphia county, Goodwin, Evans, Hart, and Madeira, were appointed the committee under the resolution.

Mr. Blair introduced a bill to authorize a State road from Boalsburg to Reedsville; and a bill to incorporate the Phillipsburg turnpike road company.

A bill has been introduced authorizing the Canal Commissioners to abate the tax of three mills per ton per mile on coal, lumber, pig iron, blooms, flour, grain and other mineral or agricultural products, when carried for distances exceeding twenty miles on the Pennsylvania Railroad: Provided, the Pennsylvania Railroad Company shall make a reduction of not less than five mills per ton per mile from their present toll sheet rates on all such articles: Provided further, that the foregoing section shall not be construed to apply to through freight. The second section provides that the State tax be remitted on live stock and all freights carried over the Pennsylvania Railroad, and Lancaster and Harrisburg Railroad, except through freight, and from the city of Pittsburg, which shall pass over the whole extent of the Columbia Railroad between Columbia and Philadelphia: Provided, An equal reduction be made by the Pennsylvania Railroad Company and the Lancaster and Harrisburg Railroad Company on the rates of toll.

The Rev. D. V. McLEAN, D. D., President of Lafayette College, at Easton, in this State, delivered a lecture on Education in the Presbyterian Church on Monday evening last, which is spoken of by the audience in attendance as an able effort in behalf of the fountain of knowledge, truth, and science. We have not room to follow the reasoning by which he clearly demonstrated that the objections often urged against colleges were founded in error, nor the close argument by which he showed that education was essentially necessary to the rising generation, whether for the service of God or their country, and we therefore proceed to notice his project for enabling persons of moderate means to secure a collegiate education for their sons or others whom they may select.

To effect this, Dr. McLean had proposed to the Trustees, through the Executive Committee, the following plan for the permanent endowment of the institution under his charge, which had been adopted, and is now in a fair way of being accomplished:

1. One hundred dollars paid shall entitle the subscriber to the tuition of all his sons, without further charge, in the College proper; or, instead of his own sons, those of any family he may designate; and for every additional hundred dollars which the same individual may pay, he shall have the privilege of designating one of any family he may think proper to receive tuition in the College, as above.

2. Five hundred dollars paid by an individual, an association of individuals, or by a congregation, shall entitle the individual, association or session of the church or congregation to a perpetual scholarship, to which the party may appoint any individual they may select—and the scholarship may be devised by will as any other property. The incumbents on any of the scholarships to be subject, of course, to all the rules and regulations of the College, as well as the discipline.

3. No subscription shall be binding until the sum of ONE HUNDRED THOUSAND DOLLARS has been actually subscribed, at which time all subscriptions shall be due and payable, and shall draw interest until collected. Upon the payment of the subscriptions, scrip will be issued, which may be transferable as other property, as above specified. The funds invested, to be secured by bond and mortgage on unincumbered real estate, or other good and sufficient security.

4. The Trustees bind themselves and their successors, that the funds thus contributed shall never be used for purposes inconsistent with the views of christian truth as now entertained by the Synod of Philadelphia in connection with the General Assembly of the Presbyterian Church in the United States.

From this it will be seen that any young man who could induce a friend or relative to advance \$100 for a subscription, and with the will to acquire knowledge, could ensure a thorough education at a very small expense—the charge for board, &c., being extremely low.

DISTRESSING CASUALTY.—A young man named John Hoffman, the foreman at the steam sawmill of Mr. John Taylor, near Tyrone, Blair county, was killed on Wednesday night last, by being caught in the machinery. He had started the engine, and discovering that the shaft was becoming heated, he went to it and was standing pouring water on it, when a key caught in the pocket of his coat, and wound him around it. If the engine could have been stopped immediately, his life might have been saved; but the other hands present, although they knew how it could be done, had not the presence of mind to take the right way to effect it, and before he could be relieved he was so much mangled that he died in twenty-one hours. Two physicians were called, but they could do nothing for him. Mr. Taylor was absent when the melancholy affair occurred.—Huntingdon Journal.

ALBANY, Feb. 23.—Last night a party of twenty-one policemen started from here and proceeded to Berne, among the Helderberg mountains for the purpose of arresting the ring leaders of the Anti-Rent rioters, who tarred and feathered E. M. Fish, Deputy Sheriff, last April. The police were all fully armed, and on reaching the place about 4 o'clock this morning, forced an entrance into a house, where they found the two Turners concealed, and arrested them without resistance. As they were returning, however, the Anti-Rent war cry was sounded, and a large party of the Anti-Renters was soon in pursuit. Some distance from the house, the police encountered a barricade, which had been thrown across the road to stop their progress, and behind which the Anti-Renters were stationed in considerable numbers. As the police approached, the Anti-Renters demanded the immediate release of the prisoners, but the police drawing their pistols, and threatening to use them, no further resistance was offered, and they proceeded on their way, reaching Albany safely, with the prisoners, who were committed to await an examination.

BALTIMORE, Feb. 23.—The funeral of Judge Heath, of the United States District Court, whose death occurred on Saturday, took place this afternoon, from his residence in Courtland street, and was attended by the members of the bar, the Judges of the various city courts, and by a numerous train of friends and acquaintances.

Ben Artillery is the name of a new military company in Cincinnati. We presume their motto is, "Hem, Bam, Boom."

Gov. Bigler is appointing a whole army of Aids. The title of 'Colonel' will soon be at a discount.

Hon. James Buchanan has been visiting Virginia to put in for Southern support for the Presidency. He is willing to go all lengths to secure it.

A Homeopathic College, in Cleveland, Ohio, has been mobbed in consequence of the discovery of the remains of several 'subjects' in the immediate vicinity. The military were called out to protect the building.

HEALTH.—If persons really knew how necessary digestion was to health, they would never allow dyspepsia to work its ravages upon their system. We are aware that indigestion is regarded as a slight matter, and that persons speak of their stomachs being out of order, and evince no concern or alarm; still when disease ravages their bodies they become wild with fright, and swallow all the patent nostrums of the day in the hope of resuscitating their debilitated systems, and restoring healthy actions of the various functions. The best medicine to prevent all bilious attacks, and restore health to the system once assailed by disease, is Dr. HOOPER'S GERMAN BITTERS, which is prepared and sold by Dr. Jackson, 120 Arch street, Philadelphia, and by his authorized agents.

ANOTHER SCIENTIFIC WORKER! Important to Dyspepsia.—Dr. J. S. HOUGHTON'S PEPSIN, "The True Digestive Fluid, or Gastric Juice," prepared from the REXBURG, or the FOURTH STOMACH OF THE OX, after directions of BARON LIEBIG, the greatest Physiological Chemist, by J. S. HOUGHTON, M. D., Philadelphia. This is truly a wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Consumption and Debility, curing after Nature's own method by Nature's own Agent, the Gastric Juice. Pamphlets, containing Scientific evidences of its value, furnished by agents gratis. See notice among the medical advertisements.

The deceased had just arrived at that age when he could make some return to his parents for their care, and he had for some time endeavored to render himself useful in various ways; but disease came, and a few days of suffering laid him in the grave to sleep the sleep that knows no waking. His remains, attended by the scholars of Messrs. Lytle, Barr, and Vanvalzah's schools, and a number of sympathizing friends, were interred at the Methodist burying ground.
