GEN. SCOTT-AN OFFER DECLINED .- The ano for practice. New Orleans Delta, a democratic paper, refers to a fact of which it says it has been sometime cognizant, that General Scott, while in the city of Mexico, after its capture, was offered by sev-eral of the wealthiest citizens of the Mexican republic to be made President of that country ; and, as an inducement to the offer, they bound themselves to settle upon him the sum of one million of dollars. "The splendid offer," says the Delta, "was declined by the General, with scarcely a moment's consideration. The brave old soldier could not be tempted by such induce-ments to abandon the flag under which to the achieved so much renown and honor."

The Port Tobacco, Md., Times gives an account of a shocking occurrence which took place on Thursday last, in the vicinty of Bryan-town, Charles county. A man named James. N. Johnson had left Bryantown to proceed to his home in company with two comrades named Francis A. Osborne and George A. Smith. The next morning Johnson was found by the road-side, burnt in the most horrible manner, from his stomach downwards. He was about forty leet from the remains of a large fire, in the cin-ders of which were found the buttons and other remnants of his clothing. He died shortly after he was discovered, but in consequence of an exclamation he made, that he had been "robbed and burnt by them men," suspicion was directed towards the persons whom he had been in com-pany with the previous evening, and after the finding of the coroner's jury, they were arrested and committed to jail All the party were ha-bitual drunkards, and at the time they were seen together op the road had a bottle of liquor with them.

ture's own method, by Nature's own Agent, the Gastric Juice.

Half a teaspoonful of PEPSIN, infased in water, will digest or dissolve, Fire Pounds of Reast Beef in about two hours, out of the stomach. **PEPSIN** is the chief element, or Great Digesting

Principle of the Gastric Juice-the Solvent of the Food, the Parifying, Preserving, and Stimulating Agent of the Stomach and Intestines. It is extracted from the Diges tive Stomach of the Ox, thus forming an ARTIFICIAL DIGESTIVE FLUID, precisely like the natural Gastric Julce in its Chemical powers, and furnishing a COMPLETE and FERFECT SUBSTITUTE for it. By the aid of this preparation, the pains and evils of INDIGESTION and DYSPEPSIA are removed, just as they would be by a healthy stomach. It is doing wonders for Dyspeptics, curing cases of DEBILITY, EMACIATION, NERVOUS DECLINE, and DYSPEPTIC CONSUMPTION, sup-posed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree CURIOUS and REMARKABLE.

## Scientific Evidence!

BARON LIEBIG in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, ana-logous to the Gastrie Juice, may be readily prepared from the nucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the san ner as they would be in the human stomach."
