# CONSUMPTION.

 $T^{\rm HIS}$  remedy is offered to the community with the confidence we feel in an article which seldom fails to realize the happiest effects that can be desired. So wide is the field of its usefulness and so numerous the cases of its cures, that almost every section of the country a-bounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs, by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary or-gans, which are incident to our climate. And not only in the formidable attacks upon the lungs, but for the milder varieties of Colds, Coughs, Hoarseness, &c., and Curlines it is the pleasantest and safest medicine that can be obtained. No family should be without it, and those who have used it, never will.

Read the opinion of the following gentlemen, who will be recognized in the various sections of country where they are located—each and all as merchants of the first class and of the highest character—as the oldest and most extensive Wholesale Dealers in Medicine, with an expe-rience unlimited on the subject of which they speak. If there is any value in the judgment of experience, see

LANCASTER, April 30, 1850. Respected Sir: I have been for a series of years afflict-ed with Dyspepsia, Inactivity of the Liver, and Nervous Debility.
