

THE GAZETTE.

The present and ensuing month closes the year for a large number of subscribers. Those who wish to take advantage of the advance terms, had better send on their money, as a DOLLAR will now pay for a year—a fact worth remembering.

Foreign News.

The steamship Pacific, with Liverpool dates to March 14th, arrived at New York on Sunday afternoon. Breadstuffs were depressed. Wheat had declined 23, and flour 6 1/2 cts. Provisions continued in good demand. The political news is not important. The re-elections of the new ministers were proceeding. France was quiet. The difficulties with Switzerland had been arranged for the present. The Legislative Council and Senate were convened for the 29th inst. More favorable accounts from the Cape of Good Hope have been received. A desperate mutiny occurred on the packet ship Queen of the West, at Liverpool, on the 6th. The police went on board and quelled it, and the ship sailed on the 9th with a new Captain and crew.

A London letter of the 5th March, says—There is nothing new from any part of the continent, except the announcement from the Prussian Government that, in consequence of the scarcity of food in Germany, all ports of the Zollverein have been thrown open for the admission of grain, flour and vegetables, duty free, until the 31st of August next.

The meeting at Manchester for the revival of the Anti-Corn-Law League, was a crowded one. George Wilson, the former chairman, presided, and a large number of the most zealous and distinguished members of the League were present.

A memorial, addressed to the Queen, remonstrating against the re-imposition of protective duties on corn, was presented to the meeting and adopted. Papers were then handed round, and in about twenty-five minutes the chairman announced that £26,500 had been subscribed, being at the rate of more than £1000 per minute. (Cheers.) This, he said, surpassed everything that could have been supposed possible, considering the want of previous preparation. Nothing would tend so rapidly to settle the question as a large subscription list to be begun with. A committee would sit daily during the week to receive subscriptions.

The Voss Gazette states, under the head of Vienna, Feb. 23, that the Austrian Cabinet had declared its entire approbation of the conduct of M. Hulsemann, the Austrian Charge d'Affairs in the United States.

Advices from St. Petersburg inform us that the position of the French Minister there was daily growing more difficult. It had lately been remarked that he had had very frequent conferences with Count Nesselrode, and immediately after one of these he despatched a member of the mission with verbal statement of some business of strange import to the President. Since that period M. de Castellbajac is said to have avoided all diplomatic intercourse, and hardly to have quitted his hotel, appearing to wait for despatches from his government with great anxiety.

The Emancipation, of Brussels, states that the Duke de Leuchtenberg, son-in-law of the Emperor of Russia, has within the last few days, invested 500,000 francs in the Belgium funds.

The Journal of St. Petersburg, of the 20th, contains accounts of new and brilliant successes obtained on the 6th and 7th January, in the Caucasus, by the Russians, under Gen. Prince Bariantinski, over the mountaineers, commanded by Chamyl. The operations took place in the great Tschetchnia, which was completely devastated. After two days' fighting, and much skillful manoeuvring, Chamyl was completely defeated.

Letters from Cracow, recently received in Paris, mention that numerous magazines are in course of formation on the neighboring frontier of Russian Poland.

It is reported that M. Rothschild is the principal proprietor of the London Times.

Costumes for French Senators and Councilors of State.

Louis Napoleon, the Republican President, has decided upon the costume of the Senators and Councilors of State, which is truly French in its fanciful character. The grave and reserved Senators are to wear a coat of blue velvet, with standing collars and cuffs embroidered, fitting close to the waist, and ornamented with embroidery on the pocket flaps. The embroidery is to be in gold, representing palm trees interlaced with oaks; the palm trees in convolvulus, with the back of the palm leaves in spangles, the oak leaves being worked *en passe*, with the lines of leaves in spangles; the whole of the coat to be edged round with embroidery, three inches wide at least. Council of State—Light blue coat with nine gilt buttons in front; waist-coat of white pique, cut straight, with five gilt buttons; trousers of white kerseymer, with gold bands down the sides. The vice president, the president of sections, and the councilors of state are to wear gold embroidery composed of oak leaves and olive leaves interlaced, on the collar, cuffs, the front of the coat and coat tails, the whole coat being edged with gold embroidery. The vice-president has gold embroidery above the pockets, and an edging of wide embroidery round the dress in every part. The masters of requests are to have the same description of gold embroidery on the collar, cuffs and pockets, with narrow embroidery round the coat. The auditors have embroidery on the collars and cuffs, but none round the coat. The hat is of black beaver, with gold ornaments placed on the velvet, white plumes for the vice president and presidents of sections, and black plumes for the councilors of state, the masters of requests and auditors. The sword is to be a straight one, with gilt hilt. In undress, the councilors of state and the masters of requests, are to wear coats embroidered on the collar and cuffs, but without the gold edging, white waistcoat, and black trousers. There is enough of gold here, surely, to dazzle the eyes of the people, and to compensate, perhaps, for any little deficiency of the article in their own pockets.

HEAVY FAILURE.—The business community have been taken by surprise, in the suspension of Messrs. Moore & Hooven, of Norristown, who have been largely engaged in the iron business for some years. It is hoped that their creditors will make some arrangements, that will enable them to prosecute business again. The Potstown Ledger says that they very honorably called in their workmen, and paid them off before quitting work. Their liabilities are about 100,000 and their works and real estate are estimated to be worth \$125,000.—Reading Gazette.

Major George Getz, whig, has been re-elected Mayor of Reading by a majority of 53 votes over Daniel R. Clymer, locofoco.

LOSS OF THE CLAY MEDAL.—The splendid gold medal, which was recently presented to the Hon. Henry Clay by a number of citizens of New York, in testimony of their admiration for his great public services, is said to have been lost in that city on Saturday evening, 13th inst. It appears it was entrusted by Mr. Clay to Miss Lynch, in Washington, to be delivered to Mr. Ullman in New York, and that she left the former city on Friday, in company with the family of Charles Butler, Esq., who induced her to place it in his carpet bag, which he held in his hand until he arrived in New York on Saturday afternoon. It was then placed on the driver's seat of the hack which conveyed them to the dwelling of Miss Lynch, but on their arrival in Ninth street, the bag with its valuable contents was missing. Search was immediately instituted, and a reward of \$500 offered for its recovery—but, so far, without success. It was of solid gold, enclosed in a massive silver case, and cost \$2,500.

THE PLAGUE.—It is stated that much apprehension is felt in New Orleans of the approach of a new disease called the plague, and is now said to be prevailing in some of the West India Islands. A disease by the same name has made its appearance in some parts of the West. It is said to be like the cholera, but more fatal. Whether it is the same disease as that which goes by the name of plague in the East is not stated.

The Boston Medical Journal alludes to the subject as follows: "It is very certain, from the accounts received, both here and in England, that the true plague has been introduced into Madeira, and the work of death has been really appalling. The question has frequently been agitated, 'will that dreadful disease ever reach this continent?' There is reason to believe it will; the wonder is why it has not already.—Our commercial intercourse is extensive with various parts of Africa and the Asiatic shore of the Mediterranean, where this great scourge is never dead or dying, but simply reposing from one period to another, like a fatigued giant, to gather strength for a renewal of slaughter. Should it come, it may be hoped there will be found more science, and a stronger barrier of medical skill, to meet and disarm it of its terrors, than has been exhibited in tropical climates, or in the filthy, scourge-inviting regions of Moslem Turkey. Plague, appertains to the Arabs in this age; and where the same condition of things exist as characterizes their modes of life, their social condition, and the absence of all common-sense efforts to avert or arrest it, will have an abiding foothold."

BOUNTY LAND WARRANTS.—The bill making land warrants assignable, having passed both Houses of Congress, the Intelligencer says, there is no reason to doubt, it will at once receive the signature of the President, and thus become a law. It will benefit many of the recipients of this bounty of the Government, who, possessing warrants for land, are themselves unable to locate them.

This act authorizes all warrants issued, or hereafter to be issued, under any law of the United States, and all valid locations, to be assignable by deed or instrument of writing, made and executed after the taking effect of the act according to forms and regulations prescribed by the commissioners of the General Land Office. Any person entitled to pre-emption right to any land, shall be entitled to use any such warrant in payment of the same, at \$1.25 per acre. Warrants may be located in one body upon any lands in the United States, subject to private entry at the time of such location, at the minimum price. When said warrants shall be located on lands which are subject to entry, at a greater minimum than \$1.25 per acre, the locator of said warrants shall pay to the United States, in cash, the difference between the value of such warrants at \$1.25 per acre and the tract of land located on.

REGISTRATION LAW.—The bill providing for the Registration of Marriages, Births and Deaths, passed at the last session of the Legislature, has become a law without the signature of Gov. Johnston; agreeably to the provision of the Constitution which requires bills passed at a previous session to be returned within three days after the meeting of the next Legislature. We think that its observance will occasion no little trouble to the parties interested, viz:—clergymen, and all who perform the marriage ceremony, physicians, coroners, sextons, &c.

DAUPHIN AND SUSQUEHANNA RAILROAD.—This company has connected their road with that of the Pennsylvania railroad, which gives it an outlet for its valuable coal down the Harrisburg and Mountjoy road to Philadelphia, across the Cumberland Valley road to Chambersburg, and down the Baltimore and Susquehanna road to the city of Baltimore. The cars of the Baltimore and Susquehanna railroad company are now at the mines for the purpose of conveying this coal to a southern market.

General Scott and the Locofocos. The following amusing incident, which occurred at the recent Indiana Locofoco State Convention.

Mr. Case, at one time connected with the Cincinnati Inquirer, introduced a resolution in favor of universal war, and of whipping all Europe into republicans, whether they want republics or not. Mr. Case said that 'place Gen. Scott at the head of ten thousand American soldiers, and he would march to the gates of St. Petersburg.' This remark called down thunders of applause, in which the Whigs were joined. At this, Mr. Hughes suggested that they intended to send General Scott to the head waters of the Salt River, and could not spare him to go and whip Russia. "No matter for that," said the indomitable Case, "Scott could go to Salt River and afterwards whip Russia, and the balance of Europe thrown in." This did not sit very well with the Democracy. We heard one of them swear that he did not come there to hear a Whig speech.

A ROOM in the Lewis-ton Cheap Cabinet Warehouse is the place for all that want cheap furniture. Persons going to housekeeping, would do well by giving me a call before purchasing elsewhere, as I have now on hand a large assortment of all kinds of FURNITURE, too numerous to mention. Among his stock will be found that highly recommended Spring Bottom Bedsteads, of which I have sold within the last two years two hundred pair. Numerous certificates can be had from those that have them in use, as the following will show: A. FELIX. "This is to certify that we have purchased the above mentioned Bedstead from A. Felix, and have got him to alter our old Bedsteads, and are much pleased with them, and consider them a great improvement, and vastly superior for convenience and cleanliness to the cord Bedstead, and would recommend them to the public.
