Raising Calves—A New Method.
While on a short visit to the farm of Mr. D. M. Crowell, of this town, a few days ago, our attention was drawn to a plan of raising calves for early sale, which, to us, in this section of the country, has the appearance of novelty, and seems worthy the attention of stock growers.

Mr. Crowell took ten calves (all heifers) last spring, and commenced feeding them on sour milk at a few days old, keeping them on the same kind of food during the summer, taking good care to feed them uniformly, but not very abundantly, so as to keep them growing thriftily without forcing too rapidly. In the fall they were put in the stable, and fed on hay and a little meal, increasing the quantity of the latter gradually, with a view of fitting them for beef in the spring, at one year old or a little under.

These ten calves now look like young oxen, and are estimated to weigh about 500 lbs. each alive. They will probably be sent to market soon, say next month, when we shall see how it will be relished by the lovers of good eating. For ourselves we should hardly find it in our hearts to decline a dinner from one of the best of them. We understand from Mr. C., who is one of our best farmers, and who is making this trial by way of experiment, that he is not quite satisfied thus far with the present attempt to raise beef in one year, and he thinks some improvement can be made.—*N. J. Furner.*

Currants and Gooseberries.

It is to be presumed that not one in a hundred understands the simple process of cultivating either currants or gooseberries, although it has been detailed in all the horticultural books with which the world abounds. Thousands of persons, with every appliance of success, are still content to live without a plentiful supply of these delicious, healthy, and cheap luxuries, merely because they have not thought of the matter. They have a few stunted bushes set in the grass, with three-fourths of the stock dead, and then wonder why they do not bear in abundance.

There is not a more beautiful shrub growing than the currant, properly propagated; and the same may be said of the gooseberry. Cultivators who pay any attention to the subject, never allow the root to make but one stock, or, as the English say, "Make them stand on one leg"—thus forming a beautiful miniature tree.

To do this, you must take sprouts of last year's growth, and cut out all the eyes, or buds in the wood, leaving only two or three at the top; then push them about half the length of the cutting into mellow ground, where they will root and run up a single stock, forming a beautiful symmetrical head. If you wish it higher, cut the eyes out again the second year. I have one six feet high. This places your fruit out of the way of hens, and prevents the gooseberry from mildeewing, which often happens when the fruit lies on or near the ground, and is shaded by a superabundance of leaves and sprouts. It changes an unsightly bush which cumber and disfigures your garden into an ornamental dwarf tree. The fruit is larger and riper, and will last on the bushes by growing in perfection until late in the fall.

The mass of people suppose that the roots make out from the lower buds. It is not so; they start from the bark and wood, at the place where it is cut from the parent root.—*Vermont Chronicle.*

PHILADELPHIA, Jan. 1st, 1852.

The Salamander Safe which I purchased a few years since, and which was in use by Messrs. C. G. Henderson & Co. at the destruction of their store in the building known as "BARNUM'S MUSEUM," on the 26th of 11, has this morning been got at, and the interior wood work, with some Stereotype plates which were in the safe during the fire (the books having been removed), are found to be UNHARMED. I have this day purchased from Mr. John Farrel another "Patent Salamander," and would confidently recommend these well known safes to all who wish security against accidental fire.

GEORGE S. APPLETON.
We fully concur in the above, and would also add that the large WALL FIRE-PROOF, near which the above safe stood, has also since been opened, and although the appearance is good, and the walls of the same still standing, the whole interior is charred to a cinder.

The Greatest Historical and Allegorical Print of the Age.
In Commemoration of the most important event in the AMERICAN REVOLUTION,
The British surrendering their Arms to GEN. WASHINGTON
After their defeat at YORKTOWN, Virginia, October, 1781.

THE Engraving is executed by Tanner, Vallance, Kearney & Co., from an original drawing by J. F. Reynolds, and published by Benjamin Tanner, Engraver, Philadelphia. The size of the print is 25 by 34 inches, and was originally published to Subscribers at \$12 in the sheet.

EXPLANATION.
THE HISTORY.—In the first and grand plan are exhibited three large groups of the principal officers, who were present at the transaction, with a faithful likeness of each.

In the first group is seen General Washington, General Rochambeau, General Lincoln, Colonel Hamilton, an old Frenchman eager to contemplate the scene, Billy the servant, and the horse of General Washington.

In the second group are American and French Officers; General Knox, Secretary Wilson, the Duke de Lauzun, and Monsieur de La Fayette.

The third group is descriptive of the British surrendering their arms. Lord Cornwallis, General O'Hara, Commodore Simons, Colonel Tarleton, with two officers out of Lieutenant Colonel Ralph Abercrombie, Lieutenant Colonel Dundas, Lord Claverton, &c. Lord Cornwallis appears presenting his sword to the first General Officer he meets, but General Washington is pointed out to him as the only person to whom he is to surrender his sword.

On the heights and in the distance are the different armies and crowds of spectators. The House of Secretary Wilson, occupied by Lord Cornwallis and his staff, which was bombarded and pierced with balls; the Marquis de La Fayette having remarked that they were carrying dishes for the dinner of Lord Cornwallis, asked leave of General Washington to serve him a dish of his own cooking, and immediately after several bombshells fell through the roof on the table, and wounded some, and dispersed the party.

On the left is erected a monument in honor of those illustrious heroes who sacrificed their lives and fortunes to insure to their citizens, the Liberty and Independence they now enjoy.

Published at \$3 by W. M. LANE, Philadelphia, and to be had at the office of the "American Courier," No. 11 Chestnut street, Philadelphia, at premiums to that paper. A liberal discount to Agents. ap1

ANOTHER SCIENTIFIC DISCOVERY!
GREAT CURE FOR
DYSPEPSIA!
DR. J. S. HOUGHTON'S

PEPSIN
THE TRUE
DIGESTIVE FLUID,
or, Gastric Juice.

Prepared from RENNET, or the fourth STOMACH OF THE OX, after directions of BARON LIEBIG, the great Physiological Chemist, by J. S. HOUGHTON, M. D. Philadelphia, Pa.

This is a truly wonderful remedy for INDIGESTION, DYSPEPSIA, JAUNDICE, LIVER COMPLAINT, CONSTIPATION, and DEBILITY, Curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

25-Half a teaspoonful of Pepsin, infused in water, will digest or dissolve, Five Portions of Roast Beef in about two hours, out of the stomach.

PEPSIN is the chief element, or Great Digesting Principle of the Gastric Juice—the Salient of the Food, the Preserving, and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an ARTIFICIAL DIGESTIVE FLUID, precisely like the natural Gastric Juice in its Chemical properties, and furnishing a COMPLETE and PERFECT SUBSTITUTE for it. By the aid of this preparation, the pains and evils of INDIGESTION and DEBILITY are removed, just as they would be by a healthy stomach. It is doing wonders for Dyspepsia, curing cases of DEBILITY, EMACIATION, NERVOUS DECLINE, and DYSPEPTIC CONSUMPTION, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree CURIOUS and REMARKABLE.

Scientific Evidence!
BARON LIEBIG in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Ox, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

25-Call on the Agent, and get a Descriptive Circular, gratis, giving a large amount of Scientific Evidence similar to the above, together with reports of REMARKABLE CURES, from all parts of the United States.

As a Dyspepsia Curer,
DR. HOUGHTON'S PEPSIN has produced the most marvellous effects, in curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of the cases in the limits of this advertisement; but authenticated certificates have been given of more than TWO HUNDRED REMARKABLE CURES, in Philadelphia, New York and Boston, alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful, but permanent.

It is a GREAT NERVOUS ANTIDOTE, and particularly useful for tendency to Bilious disorder, Liver Complaint, Fever and Ague, and the evil effects of Quinine, Mercury, and other Drugs upon the Digestive Organs, after a long sickness. Also, for excess in eating, and the too free use of ardent spirits. It almost reconciles Health with Intemperance.

DR. HOUGHTON'S PEPSIN is sold by nearly all the dealers in Fine Drugs and Popular Medicines, throughout the United States. It is prepared in Powder and in Fluid Form—and in prescription vials for the use of physicians.

Great Scientific Discoveries.

BY DR. J. W. COOPER.
FEVER AND AGUE
Completely Cured in Three Days,
By Dr. J. W. Cooper's Vegetable Compound
Fever and Ague Pills.

THESE PILLS are composed entirely of Vegetable Substances, and in ninety-nine cases out of every hundred, will perform a perfect and Complete cure in three days. No instance has ever been known, where more than six days have been required to perform a complete cure, even in the very worst cases, and on the strongest constitutions. We would earnestly say to all who are afflicted with this distressing disease, to get one box and try them, and in all cases, two boxes are warranted to cure, if taken according to the directions, or the money returned.

These pills not only perform a perfect cure in three days, but remove the bile and create a healthy action of the liver, and consequently fortify the system against a future attack.

ALSO,
My Vegetable Anti-Dyspepsia Bitters.
This Medicine is a certain cure for Dyspepsia in its very worst forms. Thousands of cases have been completely cured by it within the last year, which have been entirely despaired of by the regular family physicians. We do not recommend it to cure everything—we recommend it to cure Dyspepsia, and the diseases originating from it, and that it will cure in almost every case, and it is recommended for nothing else. In many instances, even the worst cases have been completely cured in two and three months, but depending on the constitution of the patient. We would say to all who are afflicted with Dyspepsia, give this medicine a fair trial, and if it fails to do good, your money will be returned.

ALSO,
My Vegetable Worm Powders.
This is the most wonderful Worm Destroyer ever known, and at the same time, so pleasant to take, that almost every child will be fond of it, and many instances have been known of children crying for more after once taking it.

This medicine is in the form of a powder, the only medicine ever used in that form, and it operates on a principle entirely different from any other medicine ever administered by any other physician. It is the only medicine which has no Worm-seeds, Oil or Turpentine combined with it, which is believed by all other physicians, to be the only two things which will destroy worms, and these two things combined, together with castor oil, are the active principles of all other worm medicines, which every person who has ever tasted or smelled, knows to be the most nauseous of all nauseous medicines, and on account of which, many persons, something added to destroy this nauseous taste, and in order to do this, it must be something stronger than the medicine itself, and therefore, it must necessarily destroy some of its medicinal properties. These powders are simple and safe for every disease. They are not recommended, as many other medicines are, to cure some fifteen or twenty diseases, and all of different natures, but they are each to cure but one disease, and that they will do in ninety-nine cases out of every hundred, and where they have a fair trial and fail in all cases, the money will be returned.

DR. J. W. COOPER'S
Celebrated Vegetable Anti-Dyspepsia Pills,
A certain cure for Indigestion, Debility, Sickness or Burning in the Stomach, Pain in the bowels, Flatulency, Costiveness, Sensation of Weight in the Stomach after Eating, Difficulty of Breathing, Restlessness, Want of Appetite, Palpitation of the Heart, and all other Diseases which arise from INDIGESTION.

AYER'S
CHERRY PECTORAL
For the Cure of
COUGHS, COLDS, HOARSENESS,
BRONCHITIS, WHOOPING-COUGH,
CROUP, ASTHMA, AND
CONSUMPTION.

THIS invaluable remedy for all diseases of the THROAT and Lungs, was introduced as a novelty from its remarkable cures, never equalled by any other medicine before. Other preparations have shown themselves palliatives, and sometimes effected notable cures, but none have ever so fully won the confidence of every community where it is known. After years of trial in every climate, the results have indisputably shown it to possess a mastery over this dangerous class of diseases, which could not fail to attract the attention of physicians, patients, and the public at large.

See the statements, not of obscure individuals and from far distant places, but of men who are known and respected throughout the country.

The worthy celebrated Surgeon, Dr. Valentine Mott, of New York city, says:
"It gives me pleasure to certify the value and efficacy of Ayer's Cherry Pectoral, which I consider peculiarly adapted to cure diseases of the throat and lungs."
Dr. Perkins, the venerable President of the Vermont Medical College, one of the eminently learned physicians of this country, writes, the Cherry Pectoral is extensively used in this section, where it has shown unmistakable evidence of its happy effects upon pulmonary diseases.

The Rev. Jno. D. Coker, a distinguished Clergyman of the English Church, writes to the proprietor from Montreal, that "he has been cured of a severe asthmatic affection, by Cherry Pectoral." His letter at full length, may be found in our circular, to be had of the agent, and is worth the attention of all scientific patients.

This letter is from the well known Druggist at Hillsdale, Michigan, one of the largest dealers in the State; and this case is from his own observation.

HILLSDALE, MICH., Dec. 10, 1849.
DEAR SIR—Immediately on the receipt of your CHERRY PECTORAL, I carried a bottle to an acquaintance of mine who was thought to be near his end with quick consumption. It was unable to rise from his bed, and was extremely feeble. His friends believed he must soon die, unless relief could be obtained for him, and I induced them to give your excellent medicine a trial. I immediately left town for three weeks, and you may judge of my surprise on my return, to meet him in the street on my way home from the cars, and find he had entirely recovered. Four weeks from the day he commenced taking your medicine, he was at work at his arduous trade of a blacksmith.

There are other cases within my knowledge, where the CHERRY PECTORAL has been singularly successful, but none so marked as this.

G. W. UNDERWOOD.

Beware of Counterfeits!
This medicine has attained that high character which is necessary for all medicines to attain to induce counterfeits to put forth a spurious article, at the risk of the lives of those who are innocently deceived.

Look well to the Marks of the Genuine.
They have the written signature of C. M. JACKSON upon the wrapper, and the name blown in the bottle, without which they are spurious.

DR. HOOFLAND'S
CELEBRATED
GERMAN BITTERS,
PREPARED BY
DR. C. M. JACKSON.
At the German Medicine Store, 120 Arch st., PHILADELPHIA.

Their power over the above diseases is not equalled—few equalled—by any other preparation in the United States. The cures attest, in many cases of these skilful physicians had failed.

These Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of diseases of the Liver and lesser glands, exercising the most searching powers in weakness and affections of the digestive organs, they are withal, safe, certain and pleasant.

READ AND BE CONVINCED.
JOSIAH C. YOUNG, Dauphin, Dauphin county, Pa., in a letter to Dr. Jackson, of May 5, 1851, said:
"For a long time I was afflicted with general debility and intestinal weakness, continuing for several years, and many different remedies, without change. At last I accidentally stumbled upon Hoofland's German Bitters, prepared by you. I took a few bottles according to directions, and was completely cured. I have not been so healthy for a long time as I have been since I took your Bitters, which was some year ago. Some of my neighbors are now using them, and deriving great benefit."

ANOTHER LETTER.
From Dr. J. C. GILES, Newton Hamilton, Pa., said:
"I have used a half dozen of your German Bitters myself, for Liver Complaint and diseases of a nervous character, resulting from the abuse of mercury. I was pained and afflicted with colic, and after the use of this Bitters, and your German Bitters were the first article from which I obtained relief, although I have not yet quite recovered. All who have used this medicine of yours speak well of it."

DYSPEPTICS AND SKEPTICS, READ.
In three-fourths of all cases of jaundice, Stone, Gravel, and Nerves, the effect of Dr. Hoofland's celebrated German Bitters, (prepared only by Dr. Jackson, at the Medicine Store, 120 Arch street,) is as positive as in the case of A. A. Kaufman. *Read what he says!*
LANCASTER, April 20, 1850.
Respected Sir: I have been for a series of years afflicted with Dyspepsia, Inactivity of the Liver, and Nervous Debility. My mental powers have been so reduced as to render me quite unfit for the transaction of any kind of business. After consulting many eminent physicians, and using their prescriptions, and after using the most popular remedies of the day, supposed to be applicable to my case, I always failed to derive any benefit, and finally, in
