Cement for Grafting. The grafting season being at hand, it may be of advantage to some of our readers to state, that we have found the very best grafting wax made from the following ingredients : one part tallow, two of beeswax and three of rosin-melt and mix the whole-turn it into cold water, and work it as shoemaker's wax. These make a compound that will not melt in hot summer's sun, nor crack in the severest cold,

How to Catch a Sheep.

In catching sheep, never seize them by the wool on the back, as it hurts them exceedingly, and has, in some cases, been known to kill them, particularly in hot on the most favorable terms. weather, if they are large and fat. Indeed, the best way is to avoid the wool altogether, and to accustom yourself to take them by the hind leg, or what is still better, by the neck, placing one hand under the jaw, and the other at the back of the ears ; by lifting up the head, a child may hold almost any sheep.

Age of Sheep.

The age of a sheep may be known by the front toeth. They are eight in number, and appear, the first year, all of one size. In the second year the two middle ones fall out and their place is supplied by two larger ones. In the third year a small tooth on each side falls out, and its place supplied with a large one, making four large teeth in the middle, and two pointed ones on each side. In the fourth year the large teeth are six in number. In the fifth year the whole front teeth are large. In the sixth year the whole begin to get worn. In the seventh year some fall out or are broken.

It is said that the teeth of ewes begin to decay at five or six ; those of wethers at seven, and those of rams at eight. Sheep continue productive for sixteen years.

To what Soils is Lime Applicable ?

Every clay soil, every peat soil, and every soil in which vegetable fiber does not readily decay, because that is a sign that it contains some antiseptic acid, which prevents decay. This is the case with peat beds and swamps. Sandy, gravelly, or thin soils, may be overlimed and injured, because in causing the decay of vegetables, it sets free the ammonia, the very substance of fertility required. To prevent this, more food must be given for the light to act upon. No farmer, knowing what the action of lime is, upon all soils, will ever do without it, as an accessory to all crops grown by the farmer. When applied to land which had not borne wheat for many years, it has once been found to remunerate the farmer using it.

Choking Cattle.

We recollect well, when upon a farm some years ago, in the fall, a fine cow got choked, as cattle often do, upon apples or potatoes, and would have died, if the obstacle had not been at once removed from the passage of the stomach, where it was lodged. Various old remedies were tried to no purpose. Presently one recollected a remedy proposed in a paper a few weeks before. It is to put a stout line around the neck just below the substance, which can be felt with the hand on the outside, and draw it close. This prevents the piece of apple or potato, or whatever it is, from falling back when the animal makes Front Street Wire Manufacan effort to throw it out, which it will al-

Great Scientific Discoveries. BY DR, J. W. COOPER. BY DR. J. W. COOPER. BABB VND VCAR Completely Cured in Three Days, By Dr. J. W. Cooper's Vegetable Compound

Fever and Ague Pills.

THESE PILLS are composed entirely of Vegetable 1 Substances, and in ninty-nine cases out of every hun-dred, will perform a perfect and Complete cure in three days. No instance has ever been known, where more than six days have been required to perform a complete cure, even in the very worst cases, and on the strongest constitutions. We would earnestly say to all who are afflicted with this distressing disease, to get one box and try them, and in all cases, two boxes are warranted to eure, if taken according to the directions, or the money rcturned.

These pills not only perform a perfect cure in three days, but remove the bie and create a healthy action of the liver, and consequently fortify the system against a futureattack. ALSO,

My Vegetable Anti-Dyspepsia Bitters.

This Medicine is a certain cure for Dyspepsia in its very worst forms. Thousands of cases have been com-pletely cured by it within the last year, which have been entirely despaired of by the regular family physi-cians. We do not recommend it to cure everything-we recommend it to cure Dyspepsia, and the diseases origi-uting few it not the the full nating from it, and that it will cure in almost every case, and it is recommended for nothing else. In many in-stances, even the worst of cases have been completely ured in two and three months, but it depends se upon the constitution of the patient. We would say to all who are afflicted with Dyspepsia, give this medicine a fair trial, and if it fails to do good, your money will be ALSO.

My Vegetable Worm Powders.

This is the most wonderful Worm Destroyer ever known, and at the same time, so pleasant to take, that almost every child will be fond of it, and many instances have been known of children crying for more after once taking it. This medicine is in the form of a powder, the only

and it operations and it operation and it operation and it operation of a powder, and it operation of the op dministered by any other physician. It is the only nedicine which has no Worm-seed Oil or Turpentine ombined with it, which is believed by all other physi-ians, to be the only two things which will destroy rooms, and these two things combined, together with astor oil, are the active principles of all other worm tedicines, which every person who has ever tasted or melled, knows to be the most nauseous of all nauseous nections, knows one the most national of an induction nections, and on account of which, there is generally nomething added to destroy this nauseous taste, and in order to do this, it must be something stronger than the neclicine itself, and therefore, it must necessarily destroy some of its medicinal properties. These powders are simple and so harmless, that a child may cat a whole box at once, and it will not be hart, while at the same time, the principle upon which it acts being different from anything else ever used, it will destroy all kinds of Worms with a certainty never equaled. It will not only destroy the seat worms, or Accordes, and long, round worms, or Teres, but is the most effectual medicine for the destrucion of the Tape Worm ever known. Ten doses have rought as many as FIVE Tape Worms from one person

If your children have any symptoms of worars, try hese powders, and in nine cases out of ten, you will nev-r use any other. These are also warranted. These medicines are all separate, and one for each dis-

case, and each for only one disease. They are not re-commended, as many other medicines are, to cure some fifteen or twenty diseases, and all of different natures, but they are each to cure but one disease, and that they will do in ninety -nine cases out of every hundred, and where they have a fair trial and fail in all cases, the money will be returned.

Dr. Perkins, the venerable President of the Vermont Medical College, one of the eminently learned physicians of thus country, writes, the Cherry Pectoral is extensive-ly used in this section, where it has shown unmistable evidence of its happy effects upon pulmonary diseases. The Rev. Jno. D. Cochrane, a distinguished Clergyman the English Church, writes to the proprietor from Montreal, that "he has been cured of a severe asthmatic affection, by Cherry Pectoral." His letter at full length may be found in our circular, to be had of the agent, and worth the attention of asthmatic patients.

This letter is from the well known Druggist at Hills dale, Michigan, one of the largest dealers in the State; and this case is from his own observation. HILLSDALE, MICH., Dec. 10, 1819.

DEAR SIR :-Immediately on the receipt of your CHER-RY PECTORAL, I carried a bottle to an acquaintance of mine who was thought to be near his end with quick consumption. He was unable to rise from his bed, and was extremely feeble. His friends believed he must soon die, unless relief could be obtained for him, and I induced them to give your excellent medicine a trial. immediately left town for three weeks, and you may udge of my surprise on my return, to meet him in the street on my way home from the cars, and find he had entirely recovered. Four weeks from the day he com menced taking your medicine, he was at work at his arduous trade of a blacksmith.

There are other cases within my knowldedge, where the CHERRY PECTORAL has been singularly successful, but none so marked as this. Very truly yours G. W. UNDERWOOD.

Rear the Patient.

Dr. J. C. Ayers, Lowell,-DELR SIR :-Feeling under bligations to you for the restoration of my health, I send you a report of my case, which you are at liberty to publish for the benefit of others. Last autumn I took a and cold, accompanied by a severe cough, and made use of many medicines without obtaining relief. I was obliged to give up business, frequently raised blood, and could get no sleep at night. A friend gave me a bottle of your CHERRY PECTORAL, the use of which I immediately commenced according to directions. I have just pur-chased the fifth bottle, and am nearly recovered. I now sleep well, my cough has ceased, and all by the use of your valuable medicine. E. S. STONE, A. M., Principal Mt. Hops Seminary.
