

Plain Talk for a Loco. There is no mistake that the extraordinary appropriations of the people's money since Wm. Bigler has become Governor of this State, are awakening even some of the Loco-focos to the danger of an overwhelming debt which is threatening us. The last Berks County Press, an organ of that party in Old Berks, "speaks out in meeting" after this fashion:

ANOTHER STEP TO THE REAR. The Appropriation Bill of the last session of our State Legislature is one of the most voluminous documents of its kind on record. It is beyond all precedent, the most extraordinary which has ever been conjured up as to the amount of its appropriations, not only as to the ordinary expenses of the government, but as to almost everything else within its capacious grasp. Instead of being a bill providing for the expenses of the government, it ought to have had a true title—one expressive of its meaning, and one which would indicate its objects. As we said in our last, it votes away, out of the treasury, the enormous sum of five millions, one hundred and ninety-two thousand, four hundred and thirty-three dollars and forty-four cents, being an amount far beyond the means of the treasury, and which must necessarily increase our already enormous debt. The title of the bill is a falsehood because it does not express its true object, and should have read: "An Act to increase the State debt, to plunder the State, and to feed the hungry beggars and plunders who infest the public roads and railroads, and to maintain the circulation of poisonous and unconstitutional shillings."

Employing the treasury would not satisfy the extravagance of the ruling powers, but the cancellation of the relief notes must be stopped, in order not to interfere with the immense projects and charities contained in the bill, so that we have in the year before us, the doors of the treasury opened to flow off millions of dollars, in channels hitherto unknown, lavished upon State officials in the most reckless manner, and old exploded claims paid probably ten times over, and new ones resorted to swell the enormous aggregate contained in the bill. Is this honest or Democratic? We say no! and the people say no! and their voices will be heard in a tone of condemnation which will shake the seats of these official emporiums to atoms. Five millions of money, the principal part taken from the pockets of the people, for a State like Pennsylvania, with no revenue from importations or any other source but direct taxation, is astonishing, and shows an utter disregard of the interest of the people, already suffering from a heavy load of taxation, which none but the most reckless, insane and corrupt would dare to inflict.

Locofoco Consistency. The 108th section of the Appropriation Bill provides: "That the cancellation of the notes issued under the act of fourth May, one thousand eight hundred and forty-one, and renewed under the act of tenth April, one thousand eight hundred and forty-nine, be, and the same is hereby postponed for another period of three years from the passage of this act." In 1848, as is well said by the Lancaster Whig, "the Locofocos appeared very indignant when a similar provision was adopted. In 1851, they have themselves declared against the cancellation of the much abused Relief Notes. Let it be remembered when they are heard denouncing a "paper currency," that when they had the power they actually refused to provide for their destruction! Gov. Bigler was last fall among the foremost in denouncing the Notes. Now he signs a bill which postpones their cancellation for three years. Who is so foolish or so stupid as to rely upon Locofoco pledges or the sincerity of Locofoco professions?"

Locofocos Endorsing the Sinking Fund. Last fall, when an election was pending, the Locos, with Wm. Bigler at their head, ridiculed and denounced the Sinking Fund Scheme. Now that the election is over, instead of repealing what they denounced as absurd and useless, they have actually strengthened it by increasing its sources of income! The 26th section of the Appropriation bill provides: "That hereafter it shall be the duty of the State Treasurer to pay over to the Commissioners of the Sinking Fund, the whole amount of the three mill tax of freight received from the Pennsylvania Railroad Company, to be applied by them to the cancellation of the public debt, in the same manner that all other receipts to that fund are applied."

A BOYLESS BODY.—The London papers describe an inquest held by the Coroner, on Elizabeth Vigors, aged five years. The body presented a horrible spectacle, being one lump of flesh, twisted and distorted. Dr. Caswell's father stated, that soon after her birth a girl threw herself on her back to the ground. Since the occurrence, she assumed a curved position, could eat nothing but bread and butter—and when touched, her bones appeared to snap. She had been under medical treatment for a long time, without deriving the least benefit. He found her dead in bed. Mr. Harrison, surgeon, made a post-mortem examination. There were no bones in the body; the limbs were purely gristle. It was an aggravated case of what was called "rickets."

A Mass Meeting of the friends of Mr. Fillmore, favorable to his nomination for the Presidency, was held in the Chinese Museum, Philadelphia, on Saturday night. John B. Myers presided, assisted by a number of vice presidents. A number of speeches were made. Great harmony prevailed in the meeting, which lauded the administration of Mr. Fillmore, and proclaimed its preference for his re-nomination as the whig candidate, without saying or doing aught to detract from any other candidate. The meeting was large and enthusiastic.

WOOL.—The price of wool has come down a little. A lot of new clip has been sold at New-York at 38 cents a pound. The first of the new clip last year brought 47 cents. The woolen manufacturers have suffered, during the past year, from the high price of the raw material, and the low price of goods.

Protection from Lightning. THE subscribers are now manufacturing in Lewistown and Bellefonte their celebrated PATENT LIGHTNING RODS, warranted superior to any in use. These rods are twisted carbonized Rods are light, half inch in ten feet lengths, perfectly screwed together, with brass sockets, and put up through glass insulators in a most substantial manner—the whole mounted with a solid silver plated copper point, that will remain bright as long as the Rod stands. In this connection we would simply remark that a rusty steel or iron point can be of no use on a Lightning Rod, for the plain reason that they answer no end that would not be accomplished simply by sharpening the end of the Rod. One of the proprietors being himself a practical Chemist and Electrician, would assure the public that these improved Rods are manufactured and put up on scientific principles. We deem the important fact that over six hundred thousand feet of these celebrated Rods have been sold in one season, a sufficient recommendation; nevertheless we have numerous certificates from prominent persons, speaking in the highest terms of their utility.

Boats Ready for the Canal! MERCHANTS, FARMERS, MILLERS, and all others are informed that the subscriber, at his large and convenient Warehouse on the canal, has established a regular line of boats for the purpose of carrying Grain, Flour, and Goods of all kinds, between Lewistown, Philadelphia, and Baltimore; and will have a boat leaving Philadelphia every Tuesday and Friday, also one leaving Lewistown every Tuesday and Friday, until the close of the season.

Important Notice. HAVING retired from the National House and closed my store, I am prepared for settlements. All persons having accounts with me, will find it to their interest to attend to their settlement immediately, as my books will be left in a short time with an officer for collection. J. THOMAS, Lewistown, May 14, 1852-4t.
