Extraordinary Adventure of a Child. The Pawtuket (R. I.) Gazette relates the following adventure of a child, only three and a half years of age, which wandered into the woods on the 10th instant, and was

The course of the child was followed, in part, by the information of those who had seen him, but mainly by his foot-prints in ploughed fields and muddy places. He was found on Saturday evening five and a half miles, in a straight line, from his home, fiftyfour hours and a half after his disappearance, and fifty-nine after he ate his breakfast on the previous Thursday morning. He left home barefooted and very thinly clad, having nothing on but a very thin dress and an apron, and these were wet when he was found In this condition he had wandered to the place where he was found, through ploughed fields and woods, and across ditches and swamps. So far as it is known or believed. he had not eaten a mouthful of food since the previous Thursday morning. Two nights little fellow must have slept in the open air, on the cold, damp ground, and they were cold nights, too, there being a frost on each. His feet were badly lacerated, by stones, briars, &c., and much swollen, but he appeared to be otherwise in good condition, and is doing well.

The latter part of the strange adventure of the child was in and through an extensive swamp, in which people have been lost, and where, some forty years ago, a woman, unable to find her way out, perished, and her body was not found until nine days afterwards. In this swamp is a stream of water five or six feet wide, and of considerable depth, and the mud in its bed and on the bank is so soft that it is difficult to cross it .-But this child did cross it! how, every one who has seen it is puzzled to conjecture. From the appearance of his tracks in the swamp, it is supposed that he wandered about therein several miles. He was found on the margin of the swamp, but was supposed to be in it, and between one and two hundred men were engaged on Saturday in searching for him. We question whether there is another instance on record in which a child of so tender years survived so much fatigue, privation and exposure.

Shocking Murder.

On Saturday night last, a painter named Nathan Keast, in consequence of some previous misunderstanding, waylayed Mr. John Martin, in Union street, and beat him severely. One of Mr. Martin's journeymen, named Joseph Meloy, coming up at the time separated them. In an hour or two afterwards the parties met at the White Swan Hotel, when Meloy knowing the character of Keast, and fearing further violence, resolved to ac-company Mr. Martin home. At the alley directly in the rear of Graff's store they were met by Keast, who immediately made a murderous assault on Mr. Martin with a long dirk knife. Meloy interfered, when Keast plunged his knife into Meloy's left breast, penetrating the right ventricle of the heart, and killing him almost instantly. During the fracas a number of persons congregated who identified Keast, notwithstanding which, he made his escape and went home.-The alarm soon spread, and the most intense excitement prevailed. The body of Meloy was removed to a house at the basin, after which Officer Lindsey, accompanied by a number of men, went to Keast's house and arrested him. He was found in bed, the clothes besmeared with blood, and the bloody knife beside it. It was now about 12 o'clock but Esq. Cox was aroused, heard the charge, and made out a commitment, and Keast was lodged in iail.

On Sunday morning a post mortem examination was held by Drs. Roderigue and Christy. It was found that the wound on Meloy was about eight inches deep, and three inches in length, inflicted in the left breast, the blade passing between the ribs, and entirely through the right ventricle of neart-sufficient to produce instant death. -Hollidaysburg Standard.

Mr. Robeson had sold his shantee to a man named Wm. Tracy, who had taken possession, and who, on the night the murder was committed, was sleeping up stairs.

Tracy testified before the Coroner's Inquisition, that on the night in question, hearing found the door open, and six men in the room, three of them armed with axes, and two with guns; that they threatened him; that his wife got up and lit a candle, and came down stairs just as one of the robbers felled him. The wife's testimony differed in forward, and assist by their contributions, to some very essential points. On examination, the jury found blood and brain in the indentions made on the door and window by the alleged robbers, proving pretty conch sively that the axe that committed the fatal deed broke open the house after the murder was committed! A train of circumstantial evidence, at once plain and palpable, was elicited, and Tracy was arrested, and lodged

THE OLD CEMETERY.

Messrs. Editors:-You will oblige numerous friends and subscribers by publishing the following preamble, report, &c., of the Committee appointed to superintend the Fen-cing and Improvement of the Old Cemetery in the Borough of Lewistown.

In 1849, a number of Ladies formed an as sociation for the purpose of raising funds to be applied to fence and improve the old cem-etery, in this Borough. Their plan was to furnish and procure from persons interested the necessary materials for a supper, and make a moderate charge for admission to partake of it. The net proceeds of this supper amounted to \$167 52. Finding this sum insufficient to accomplish the object in view, at a subsequent meeting at the house of Hon. E. Banks, they formally organized their Society by electing Mrs. Stoner, President, Mrs. Dickson, Treasurer, and Miss N. M. Moore, Secretary, and resolved to make an effort to the necessary funds by voluntary procure the necessary funds by voluntary contributions, from persons who felt interested in the matter. At this meeting, Mrs. E. Stoner, Mrs. E. Dickson, Miss N. M. Moore, Mrs. J. E. Buoy, Mrs. E. Jacob, Miss M. A. Elliott, Francis McClure, Dr. J. Culbertson and T. W. Moore, were appointed a committee to receive proposals and enter into a contract for erecting a substantial and suitable fence around the cemetery, and to superintend the work until completed, the funds of the Society being placed at their disposal for the accomplishment of this object. The progress of the work has been slow, on account scarcity of funds, and sickness and death in the family of Mr. Shipton, one of the contractors. The Committee have succeeded, through many obstacles, in having a splendid Iron railing, (manufactured by Messrs. Faxon Co. at their Foundry in this place,) erected front, on Brown street-the wall along Water street thoroughly repaired and raised higher,—a new wall along the alley at the North end finished complete, and a new wall along back or West side, finished all to capping. The Committee present the following report of expenditures and receipts, viz: By Messrs. Faxon & Co.'s bill for 200

And believing that in that hallowed earth repose the mortal remains of those who were near and dear to many of our citizens, who have not as yet rendered us any aid, we would earnestly request them now to come put the old cemetery in the condition it should be, and make it a beautiful place, sacred to the memory of departed friends.

THE subscribers are now manufacturing in Lewistown and Bellefonte their celebrated PATENT LIGHTNING RODS, warranted superior to any in use. These spiral twisted car-bonised Rods are light half inch in ten feet ngths, perfectly screwed together, with brass sockets, and put up through glass insulators in a most substantial manner—the whole mounted with a solid silver plated copper point, that will remain bright as long as the Rod stands. In this connection we would simply remark that a rusty steel or iron point can be of no use on a Light-ning Rod, for the plain reason that they answer no end that would not be accomplished simply by sharpening the end of the Rod. One of the proprietors being himself a practical Chemist and Electrician, would assure the public that these improved Rods are manufactured and put up on scientific principles. We deem the imortant fact that over six hundred thousand feet of these celebrated Rods have been sold in one season, a sufficient recommendation; neverthe less we have numerous certificates from prominent persons, speaking in the highest termsof their utility.

Our teams are traversing all parts of the country with all the necessary apparatus for putting up Rods at once.

We can be seen at Hamaker's Hotel, in Lewistown. Pedlars will find it greatly to their in terest to call on us, as we are prepared to sell to them on accommodating terms. REYBURN & BAKER. Lewistown, May 7, 1852. (D)

facilities it affords for a convenient and ready market for its wares, together with its very extensive patronage, renders it one of the most desirable in the country. The WARES manufactured at this establishment are far superior to any other in the six counties, and have a reputation that will ever se-

cure the patronage of the public, from the fact of the material being inexhaustible, and con-nected with the concern by a lease of a number of years. The business of Potting has been carried on successfully at this stand by myself and father for over 30 years, which is of itself sufficient ad-

vertisement to prove its advantages as a business stand. The PERSONAL PROPERTY in connection with the concern, will also be sold, if purchasers desire it.
For further information, apply to the under-

signed on the premises, or by mail to Lewistown The business will be conducted as heretofore until further notice. All orders promptly attended to, and wholesale merchants allowed the usual discount upon the delivery of their or-

Possessiou given on or after 1st January next, to suit purchasers.
