Agricultural, &c.

From the Pennsylvania Farm Journal. Improvement of the Dung Hill Fowl. Mr. EDITOR: In looking over several other Agricultural Journals which I receive from month to month, I have been struck with the unanimity with which they all condemn the practice of breeding in and in. But the remarks of the writers apply mainly to the breeding of cattle, horses, &c., poultry being, I presume, too small a subject to claim their

Feeling, however, a deep interest in chickens, you will, I hope, allow me a brief space in your valuable journal for the purpose of directing the attention of farmers to a subject which interests them all, because they are all

to a greater or less extent engaged in it. Every one is aware of the fact that generally speaking, the fowls kept by our farmers are small in size, and usually, but indifferent lay-ers. Neither their inferiority in size, nor their poor egg-laying qualities is, however, to be attributed to the kind of food they receive, (for farmers fowls generally fare well) nor to any want of attention; but to the fact that in very many cases, the stock is never changed, or if changed at all, so seldom as to be ductive of no good results. Thousands of miserable, weak-minded people, idiots and lunatics, attest the evil results of marriages between blood relations. If such be the consequences resulting from breeding in and in from the human family, will not the principle apply to fowls. Will not a stock of fowls degenerate from year to year, both in size and in other good qualities, if no additions from other varieties or from other premises are made? Look to the condition of the chickens usually known, as "dung hill fowls," a variety more generally had than any other kinds in the United States, and which although now small, and comparatively worthless, were doubtless one time in every respec equal to those for which such enormous prices are now asked. Why this degeneracy is very easily understood. The idea of improving the breed of fowls rarely visits a farmer's mind, and in the multiplicity of duties resting upon him, he does not think it a matter of sufficient importance to change rowers" with his neighbor, or to kill off his old ones and purchase new. But this is a great error as I shall endeavor to prove, by facts gathered from my own experience, and which I respectfully offer for the benefit of my fellow subscribers to the Farm Journal.

Several years since, convinced that by changing my plan of breeding chickens, I could very materially improve them in some very essential particulars, I purchased twenty of the finest dung hill chickens I could find -eighteen hens and two cocks, paying attention to size and form only, color being disregarded. The oldest chicken in the flock was not more than seven months. I purchased them in the fall of the year, provided comfortable quarters for them during winter, fed them well, and received in return, a fair sup-

From this flock I raised during the ensuing summer, about two hundred chickens. young cocks were either sent to market, or served up for my own table. I did not retain a single one of them. The old ones were also disposed of, and an entire new supply young cocks of the best form and size I could find, purchased. The ensuing spring the same system was pursued, and I thought the progeny of the second year somewhat superior in size to their progenitors. The year following, the cocks of the previous year were discarded, and their places filled with new ones. The two year old hens were also put aside, or retained merely for hatching. The third year I had the satisfaction of beholding the results I had anticipated.

My chickens were not only greatly improved in appearance, but I received nearly double the quantity of eggs from the same number of fowls. I still pursue this plan, and cannot but commend it to the attention ome of our farmers. My fowls are one half larger than formerly, and cost me no more feed or trouble than the smaller ones, and when sent to market they command a

cocks every year, although I have done with advantage. Every second year would perhaps answer as well; but changed they should be by all means, if larger fowls ar

Plowing in Clover for Wheat.

and others who read the Farm Journal, know the effect that plowing in green clover has with me, and give them an opportunity of judging whether it will benefit the land or In the summer of 1849, I had a small field of 4½ acroes in clover, which I pastured a while, and then let the clover grow until it was fit to cut for seed. With a large plow call at the sub and three strong horses, I plowed it, then harrowed it effectually, and let it lie until 28th of September, when I seeded it. In the harvest of 1850, I cut 135 dozen of wheat, which visided 155 best 1850. which yielded 165 bushels or 36½ bushels per acre. It did not require to be seeded with clover the next season. I plowed it down last season again, and the wheat now looks fine, although a part was winter-killed. It is proper to state that the crop of wheat that was on it before the clover was plowed down, did not exceed ten bushels per acre.

Kishacoquillas Valley, Mifflin co,. Pa. Cure for Dysentery.

A highly respectable correspondent, who has read with pain the account of the prevalence of this distressing complaint in Newberry District, as published in Saturday's Courier, requests the publication of the following specific for its cure, which, though very simple, has never failed under his observation for many years, viz: Take an equal quantity of good sweet molasses, olive oil and good West India rum, stir together and simmer over the fire, stirring whilst simmering until the decoction is well incorporated together; then take it off the fire, but continue stirring until the mixture is quite cool. It is then ready for bottling or use. The dose for an adult, if the disease is very violent and system much reduced, is one tablespoonful three times a day, morning, noon and night—and if the attack is slight, one spoonful taken at night will have the desired effect. For children and young persons, in proportion to age; for infants, a teaspoonful is sufficient. It is also a radical cure for summer complaint in children. If the disease should be checked too suddenly, so as to occasion costiveness, reduce the dose, and use a little castor oil.

Cloverseed in a Cubic Inch.

Charleston Courier.

Some one who claims to have made requisite examination, states that the number of

one hundred per minute, and to work ten hours per day, it would require 324 days, 4 hours, 35 minutes and 43 3-5 seconds to enumerate them.

MEDICAL DEPARTMENT OF PENN-SYLVANIA COLLEGE, Ninth street, below Locust street, Philadelphia.

The Lectures of this Institution for the session of 1852—3, will commence on Monday, Oct., 11th, and be continued until the ing 1st of March.

The faculty is constituted as follows: WILLIAM DARRACH, M. D. Professor of Theory and Practice of Medicine.

John Wiltbank, M. D. Professor of Obstet-

rics and Diseases of Women and Children. HENRY S. PATTERSON, M. D. Professor of Materia Medica and Therapeutics. DAVID GILBERT, M. D. Professor of Prin-

ciples and Practice of Surgery REESE, M. D. Professor of Medical Chemistry and Pharmacy.

J. M. Allen, M. D. Professor of Anatomy.

FRANCIS G. SMITH, M. D. Professor of Institutes of Medicine WM. H. GOBRECHT, M. D. Demonstrator

of Anatomy. There is a Medical and Surgical Clinic in the College twice a week. Second Courc Students are furnished with tickets to the Clinical Lectures of Pennsylvania Hospital, without charge.

The Anatomical Rooms will be opened early in September. FEES.—Matriculation \$5. Ticket of each

Chair \$15. Graduation \$30. For further information, address,

D. GILBERT, M. D., Registrar, No. 181 N. 9th Street. Philadelphia, July, 2, 1852—3t.

MAUTION! CAUTION! -- All persons are hereby cautioned against a swindler, who represents himself as my agent; he is going about soliciting persons to buy Lightning Rods, which he represents as my Electric Point Rods. In some instances he has produced a certificate, purporting to be from me, authorizing him to act as my agent. He has not confined himself to this city, but has been operating on the unsuspecting farmers in the adjacent country. In one instance, a building (on which one of these rods had been placed, with assurance that it was one of my make,) was struck by lightning, and burnt to the ground. The point was brought to my factory, and on examination proved to be a a piece of cast iron, polished. Complaints of

is kind are coming in daily. I now give notice, that I have no agent with-70 miles of Philadelphia, and all orders must e addressed to my Factory, Vine street, above 12th, Philadelphia, where they will receive

rompt attention.
This is the only place where the genuine dectric Magnet Lightning Rod can be procured, a this city, wholesale or retail, and the electric influence wholly belongs to myself.

Beware of imposters and pedlers.

ANOTHER SCIENTIFIC DISCOVERY! GREAT CURE FOR DYSPEPSIA DR. J. S. HOUGHTON'S

THE TRUE

DIGESTIVE FLUID, or, Gastric Juice.

Prepared from RENNET, or the fourth STOMACH OF THE OX, after directions of BARON LIEBIG, the great Physiological Chemist, by J. S. HOUGHTON, M. D. Philadelphia, Pa.

M. D. Philadeipnia, Fa.

This is a truly wonderful remedy for INDIGESTION,
DYSPEPSIA, JAUNDICE, LIVER COMPLAINT, CONSTIPATION, and DEBILITY, Curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

Half a teaspoonful of Persin, infused in water, will

digest or dissolve, Five Pounds of Roast Berf in about two hours, out of the stomach.

PEPSIN is the chief element, or Great Digesting Principle of the Gastric Juice—the Solvent of the Food, the Parifying, Preserving, and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digesting Stomach and Intestines. tive Stomach of the Ox, thus forming an ARTIFICIAL DIGESTIVE FLUID, precisely like the natural Gastric DIGESTIVE FLUID, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation, the pains and evils of INDIGESTION and DYSPEPSLA are removed, just as they would be by a healthy stomach. It is doing wonders for Dyspeptics, curing cases of DEBILITY, EMACIATION, NERVOUS DECLINE, and DYSPEPTIC CONSUMPTION, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree CURIOUS and REMARKABLE.

CURIOUS and REMARKABLE. Scientific Evidence!

BARON LIEBIG in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

& Call on the Agent, and get a Descriptive Circular, gratis, giving a large amount of Scientific Evidence similar to the above, together with reports of REMARK; BLE CURES, from all parts of the United States.

As a Dyspepsia Curer,

Dr. HOUGHTON'S PEPSIN has produced the most marvellous effects, in curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption.
It is impossible to give the details of the cases in the
limits of this advertisement; but authenticated certificates have been given of more than TWO HUNDRED
REMARKABLE CURES, in Philadelphia, New York
and Boston, alone. These were nearly all despreade and Boston, alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful,

It is a great NER VOUS ANTIDOTE, and particularly useful for tendency to Billions disorder, Liver Complaint, Fever and Ague, and the evil effects of Quinine, Mercury, and other Drugs upon the Digestive Organs, after a long sickness. Also, for excess in eating, and the too free use of ardent spirits. It almost reconciles Health with

Dr. HOUGHTON'S PEPSIN, is sold by nearly ali the dealers in fine Drugs and Popular Medicines, throughout the United States. It is prepared in Powder and in Fluid form—and in prescription vials for the use of

PRIVATE CIRCULARS for the use of physicians, PRIVATE CIRCULARS for the use of physicians, may be obtained of Dr. Houghton or his Agents, describing the whole process of preparation, and giving the authorities upon which the claims of this new remedy are based. As it is NOTA SECRET REMEDY, no objection can be raised against its use by physicians in respectable standing and regular practice. Price, ONE DOLLAR per bottle.

COBSERVE THIS!—Every bottle of the genuine PEPSIN bears the written signature of J. S. HOUGHTON, M. D., sole proprietor, Philadelphia, Pa. Copyright and Trade Mark secured.

25-Sold by all Druggists and dealers in Medicines. AGENTS.—Dr. E. W. HALE, Lewistown; J. M. EYSTER & BRO., Harrisburg. [fe20]

Tuscarora Academy.

Vailey, Juniata county, Pa., eight miles S. W. of Miffintown, and six miles from the Perryville station, on the Pennsylvania Railroad. It has been in successful operation for more than fourteen years, and is believed to be equal to any Academy in the State, in affording facilities to young men for grouping to your facilities to young men for grouping the state. to be equal to any Academy in the State, in affording facilities to young men for acquiring a thorough Academical education, eliher for business or for college. There were present, during the last session, (previous to the fre.) more than one hundred students. Since then, the buildings have been entirely remodeled and greatly enlarged, so as to afford private rooms to all the students; an advantage not ordinarily found even in the best Institutions in the country. Being in the country. the best Institutions in the country. Being in the country, the students are removed from those temptations to idleness, dissipation, and vice, which are the bane of

similar institutions in towns. TERMS. For Boarding, (per week,) Washing, private room, and incidentals, (per

quarter,)
Tuition in Latin, Greek and Mathematics (per quarter,)
" Natural Philosophy, Chemistry, Rhetoric, Political Economy, Book Keeping, Botany, History, &c. &c. 4 50

Arithmetic, English Grammar, Geography, Reading, Writing, &c. (per quarter,) 3 (6) Sketching from Nature and Painting-Vocal Music and Stenography, (when desired)-Hebrew, (to young

men preparing for the ministry,) gratis, Thus it will be seen that \$22 25 will defray the whole average expense of a student, at the Institution, per quarter.—Light, Books and Stationary are found by the Students; and may be obtained at the stores in the neighborhood. There are no extra charges whatever.

The Principals will devote themselves with unremit-

manners of their pupils; and hope, therefore, to com-mend the Institution to the continued liberal patronage of The Vacations occur in April and October: but Stu

ting assiduity to the culture of the minds, morals, and

dents will be admitted at any time during the session when there are vacancies. 35 For full information, address all communions (post

paid.) to "Academia P. Q.

Great Scientific Discoveries. BY DR. J. W. COOPER.

REARB VUD VEDE Completely Cured in Three Days, By Dr. J. W. Ccoper's Vegetable Compound

Fever and Ague Pills. THISSE PILLS are composed entirely of Vegetable 1 Substances, and in ninty-nine cases out of every hundred, will perform a perfect and Complete cure in three No instance has ever been known, where n than six days have been required to perform a complete cure, even in the very worst cases, and on the strongest constitutions. We would earnestly say to all who are afflicted with this distressing disease, to get one box and try them, and in all cases, two horses are sense. try them, and in all cases, two boxes are warranted to cure, if taken according to the directions, or the money

These pills not only perform a perfect cure in three days, but remove the bile and create a healthy action of the liver, and consequently fortify the system against a futureattack

ALSO, My Vegetable Anti-Dyspepsia Bitters. This Medicine is a certain cure for Dyspepsia in its very worst forms. Thousands of cases have been com-pletely cured by it within the last year, which have

been entirely despaired of by the regular family physicians. We do not recommend it to cure everything—we recommend it to cure Dyspepsia, and the d senses originating from it, and that it will cure in almost every case, and it is recommended for nothing else. In many in-stances, even the worst of cases have been completely cured in two and three months, but it depends somewhat npon the constitution of the patient. We would say to all who are afflicted with Dyspepsia, give this medicine a fair trial, and if it fails to do good, your money will be

My Vegetable Worm Powders.

This is the most wonderful Worm Destroyer ever known, and at the same time, so pleasant to take, that almost every child will be fend of it, and many instances have been known of children crying for more after once taking it.

This medicine is in the form of a powder, the only

cians, to be the only two things which will destroy worms, and these two things combined, together with castor oil, are the active principles of all other worm medicines, which every person who has ever tasted a smelled, knows to be the most nauseous of all nauseous smetted, knows to be the most takeneds of all hauterbar medicines, and on account of which, there is generally something added to destroy this nauseous taste, and in order to do this, it must be something stronger than the order to do this, it must be something stronger than the medicine itself, and therefore, it must necessarily destroy some of its medicinal properties. These powders are simple and so harmless, that a child may eat a whole box at once, and it will not be hurt, while at the same time, the principle upon which it acts being different from anything else ever used, it will destroy all kinds of Worms with a certainty never squared. It will not only destroy. thing else ever used, it will destroy all kinds of Worms with a certainty never equaled. It will not only destroy the seat worms, or Ascarides, and long, round worms, or Teres, but is the most effectual medicine for the destruction of the Tape Worm ever known. Ten doses have brought as many as FIVE Tape Worms from one person. If your children have any symptoms of worms, try these powders, and in nine cases out of ten, you will never use any other. These are also warranted.

These are also warranted.

These medicines are all separate, and one for each disease, and each for only one disease. They are not recommended, as many other medicines are, to cure some fifteen or twenty diseases, and all of different natures, but they are each transfer. but they are each to cure but one disease, and that they

DR. J. W. COOPER'S Celebrated Vegetable Anti-Dyspepsia Pills,

A certain cure for Indigestion, Debility, Sickness or Burning in the Stomach, Pain in the Side and Stomach, Costiveness, Sensation, of Weight in the Stomach after Eating, Difficulty of Breathing, Restlessness, Want of Appetite, Palpitation of the Heart, and all other Diseases which arise from INDIGESTION
