

**Agricultural, &c.**

To the Farmers of Pennsylvania and the Neighboring States.

The First Exhibition of the Pennsylvania State Agricultural Society afforded satisfactory evidence that it is not difficult to develop the resources of our State for so interesting an occasion. The exhibition itself, the pleasure we derived from it, and its profitable effects, in the face of the doubts and fears which hang heavily upon new projects, were beyond our reasonable expectations. Now we know what can be done, and we propose to hold our SECOND ANNUAL EXHIBITION at Lancaster on Wednesday, Thursday and Friday, the 20th, 21st and 22d of October, 1852, to which we invite all persons everywhere who feel an interest in the subject. We have made arrangements for the most ample accommodations and care of all animals, products and machinery which shall be brought there, and we trust that every Farmer, Horticulturist, Manufacturer, Mechanic and Inventor, will partake with us, and consider himself as one engaged in the work of making this exhibition as great, interesting and profitable, as it is our design it should be.

Our Society especially desires to recognize the influence and power that mothers and daughters may exert in promoting our object; and we therefore cordially invite them to our meeting, and solicit the contributions of their taste and industry to give beauty and interest to our exhibition. FRED'K WATTS, President.

**Cookery for Young Housekeepers.**

**SAUCES.** Sauces are piquant preparations which are used to impart a savory flavor to dishes, or to heighten their relish. They are various: indeed, through the ingenuity and skill of cooks, they may almost be termed innumerable.

Each sauce should have its peculiar flavor, which should either amalgamate with, or be in agreeable contrast to the dish with which it is served. The foundation of most sauces is melted butter; the other ingredients are varied, according to the viands they are to be used with.

Tomatoes, parsley, mushrooms, oysters, onions, eggs, capers, celery, and an infinite variety of other substances, are employed in this portion of cookery. As sauces spoil by standing long after they are made, they should be prepared last, and be served hot.

**MELTED BUTTER.**—Put a tablespoon of flour into a clean saucpan, mix it carefully with a little water at the time, till you have about a cupful; now cut into it, in small pieces, four ounces of butter, shake it rapidly around till well mixed, then place it on the fire, watch it constantly, and keep shaking and turning it round until it boils; it is then ready. Be careful to turn it always one way, or the butter will oil. Should this happen, you may recover it in some measure by putting into it a little cold water, and pouring it backwards and forwards several times.

**ONION SAUCE.**—Peel the onions and boil them in plenty of water till they are perfectly soft; then strain them from the water and chop them very fine, season them with pepper and salt, and stir them into melted butter. Some persons add a little milk, which makes the sauce both rich and white.

**EGG SAUCE.**—Boil the eggs till they are quite hard. Peel and chop them fine, season with a little pepper and salt, and stir them into melted butter.

**BREAD SAUCE.**—Crumble some stale bread very fine, set it on the fire in a saucpan, with as much sweet milk as will make it thick, put in a slice of onion, and stir it till the bread is soaked and the sauce is quite smooth. Season with pepper and salt.

**MINT SAUCE.**—Pick off the leaves of fresh green mint; wash them, then chop them very fine, mix up some vinegar and sugar, and stir in the mint.

**OYSTER SAUCE.**—Simmer the oysters in their own liquor till they are plump; strain off the liquor through a sieve, wash the oysters clean, and heard them; put them into a saucpan, and pour the liquor over them, taking care you do not pour in any of the sediment; add a blade of mace, a quarter of a lemon, a spoonful of anchovy liquor, and a bit of horseradish, the mace, and the lemon, the juice of which must be squeezed into the sauce.—Now add some thick melted butter, toss it together and boil it up.

**A GOOD COMMON SAUCE FOR FISH.**—Plain butter melted thick, with a spoonful of walnut pickle or mushroom ketchup.

**SWEET SAUCE.**—Plain melted butter sweetened with sugar to your taste.

**CAUDLE SAUCE FOR FISH PUDING.**—Make melted butter, and stir into it a glass of sherry, half a glass of brandy or rum, a little sugar, grated lemon-peel, and nutmeg. Shake the saucpan round, but do not let it boil after you have added the spirits.

**APPLE SAUCE.**—Pare your apples, cut them in quarters and core them, put them into a saucpan with a very little water, let them boil till perfectly soft; then strain the liquor off, and wash the apples with a spoon; add two or three cloves, or a little bit of cinnamon, a bit of butter, a little grated lemon-peel, and sugar to your taste; mix all together, and set the saucpan on the hob for a few minutes.

**CELERY SAUCE FOR FOWLS AND GAME.**—Take a large bunch of celery, wash and pare it clean, cut it in small thin pieces, and boil it gently in a little water till tender; then add some beaten mace, nutmeg, pepper, and salt, thicken with a piece of butter rolled in flour, then boil it up, and pour into a dish.

You may make it with cream, thus: boil celery as before directed, and add mace, nutmeg, a piece of butter the size

of a walnut, rolled in flour, and half a pint of cream; boil all together.

**PARSLEY AND BUTTER.**—Pick and wash a handful of parsley, tie it up and throw it into boiling water for a minute or two; then cut away the stalks and chop the parsley very small; make melted butter and stir in the parsley.

**WISE SAUCE FOR MUTTON OR VENISON.**—Take a sufficient quantity of the liquor in which the meat was boiled, put in pepper, salt, currant jelly, and wine to your taste; boil all up and thicken it with scorched flour, mixed with a little water.

WHERE may be found a large and splendid assortment of the best modern Improved Eight Day and Thirty Hour Brass and Alarm Clocks and Time Pieces, suitable for Churches, Halls, Hotels, Steamboats, Railroad Cars, Parlors, Offices, Bed Rooms, Kitchens, &c., which will be sold in lots to suit purchasers, from one to one thousand, at the lowest cash prices.

**CAUTION! CAUTION!**—All persons are hereby cautioned against a swindler, who represents himself as my agent; he is going about soliciting persons to buy Lightning Rods, which he represents as my Electric Point Rods. In some instances he has produced a certificate, purporting to be from me, authorizing him to act as my agent. He has not confined himself to this city, but has been operating on the unsuspecting farmers in the adjacent country. In one instance, a building (on which one of these rods had been placed, with assurance that it was one of my rods) was struck by lightning, and burnt to the ground. The point was brought to my factory, and an examination proved to be a piece of cast iron, polished. Complaints of this kind are coming in daily. I now give notice, that I have no agent within 70 miles of Philadelphia, and all orders must be addressed to my Factory, Vine street, above 12th, Philadelphia, where they will receive prompt attention. This is the only place where the genuine Electric Magnet Lightning Rod can be procured, in this city, wholesale or retail, and the electric influence wholly belongs to myself. Beware of impostors and peddlers. July 2—1m. THOMAS ARMITAGE.

**Fire--Fire--Fire.** BARN Builders call and examine Blake's Patent Fire-Proof Paint, of all colors, which costs less than half as much as White Lead—is far more durable, and renders the building fire and weather proof by two or three applications of the paint, mixed up with oil costing but 45 cents per gallon, which in a short time forms a coating of slate on whatever part the paint has been applied. 50 barrels expected in a few days. Specimens seen at my store, with recommendations and experiments. Warranted to give satisfaction or no charge. may 21 F. G. FRANCISCUS.

**ANOTHER SCIENTIFIC DISCOVERY! GREAT CURE FOR DYSPEPSIA! DR. J. S. HOUGHTON'S**

**PEPSIN** THE TRUE DIGESTIVE FLUID, or, Gastric Juice.

Prepared from BENNETT, or the fourth STOMACH OF THE OX, after directions of BARON LIEBIG, the great Physiological Chemist, by J. S. HOUGHTON, M. D. Philadelphia, Pa.

This is truly wonderful remedy for INDIGESTION, DYSPEPSIA, JAUNDICE, LIVER COMPLAINT, CONSTIPATION, and DEBILITY, during after Nature's own method, by Nature's own Agent, the Gastric Juice.

Half a teaspoonful of Pepsin, infused in water, will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach. PEP-SIN is the chief element, or Great Digesting Principle of the Gastric Juice—the Sole Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the OX, thus forming an ARTIFICIAL DIGESTIVE FLUID, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation, the pains and evils of INDIGESTION and DYSPEPSIA are removed, just as they would be by a healthy stomach. It is doing wonders for Dyspepsia, curing cases of DEBILITY, EMACIATION, NERVOUS DECLINE, and DYSPEPTIC CONSUMPTION, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree CURIOUS and REMARKABLE.

**Scientific Evidence!** BARON LIEBIG, in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Call on the Agent, and get a Descriptive Circular, gratis, giving a large amount of Scientific Evidence in support of the above, together with reports of REMARKABLE CURES, from all parts of the United States.

**As a Dyspepsia Curer,** DR. HOUGHTON'S PEPSIN has produced the most marvellous effects, in curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of the cases in the limits of this advertisement; but authenticated certificates have been given of more than TWO HUNDRED REMARKABLE CURES, in Philadelphia, New York and Boston, alone. These were nearly all desperate cases, and the NERVOUS NOT ONLY rapid and wonderful, but permanent.

It is a great NERVOUS ANTIDOTE, and particularly useful for tendency to Bilious disorder, Liver Complaint, Fever and Ague, and the evil effects of Quinine, Mercury, and other Drugs upon the Digestive Organs, after a long use. Also, for excess in eating, and the too free use of ardent spirits. It almost reconciles Health with Intemperance.

DR. HOUGHTON'S PEPSIN, is sold by nearly all the dealers in fine Drugs and Popular Medicines, throughout the United States. It is prepared in Powder and in Fluid form—and in prescription vials for the use of physicians.

PRIVATE CIRCULARS for the use of physicians, may be obtained of Dr. Houghton or his Agents, describing the whole process of preparation, and giving the authorities upon which the claims of this new remedy are based. As it is NOT A SECRET REMEDY, no objection can be raised against its use by physicians in respectable standing and regular practice. Price, ONE DOLLAR per bottle.

AGENTS.—Dr. E. W. HALE, Lewistown; J. M. EYSTER & Bro., Harrisburg. [620

**Tuscarora Academy.**

THIS flourishing institution is located in Tuscarora Valley, Juniata county, Pa., eight miles S. W. of Milltown, and six miles from the Perryville station, on the Pennsylvania Railroad. It has been in successful operation for more than fourteen years, and is believed to be equal to any Academy in the State, in affording facilities to young men for acquiring a thorough classical education, either for business or for college.

There were present, during the last session, (previous to the fire) more than one hundred students. Since then, the buildings have been entirely remodelled and suitably enlarged, so as to afford private rooms to all the students; an advantage not ordinarily found even in the best institutions in the country. Being in the country, the students are removed from those temptations to idleness, dissipation, and vice, which are the bane of similar institutions in towns.

For Boarding, (per week) \$1 25 " Washing, private room, and incidentals, (per quarter) 4 00 " Tuition in Latin, Greek and Mathematics (per quarter) 6 00

" Natural Philosophy, Chemistry, Rhetoric, Political Economy, Book Keeping, Botany, History, &c. &c. 4 50 " Arithmetic, English Grammar, Geography, Reading, Writing, &c. (per quarter) 3 00

Sketching from Nature and Painting—Vocal Music and Stenography, (when desired)—Hire, (to young men preparing for the ministry), gratis.

Thus it will be seen that \$22 25 will defray the whole average expense of a student, at the Institution, per quarter—Light, Books and Stationery are found by the Students, and may be obtained at the stores in the neighborhood. There are no extra charges whatever.

The Principals will devote themselves with unremitting assiduity to the culture of the minds, morals, and manners of their pupils; and hope, therefore, to commend the Institution to the continued liberal patronage of the public.

The Vacations occur in April and October; but Students will be admitted at any time during the session when there are vacancies.

For full information, address all communications (post paid) to "Tuscarora P. O." Rev. WM. S. GARHTHWAIT, Principals. Rev. GEO. W. THOMPSON, Jr., Principals. Tuscarora Valley, Juniata county, June 18, 1852.

N. B.—Students from a distance can always find a ready conveyance from Perryville, up to the Academy; but if the Principals are informed of the day of arrival at that point, a carriage will be waiting.
