The coon meeting, which is acknowledged to have been "pretty well attended by both parties," comes in for a slice of a column, and the writer is particularly indignant because Pierce fainted and fell from his horse, while other generals, corporals and privates didn't take time to faint.

Our neighbor talks of refuting the Searight calumny. Very well-whenever it is shown that Searight's skirts are clear, and that he is not the author of the bungling letter (itself proof of guilt) published by us last statesman in whose hands the helm of state week, we will say he has been grossly libeled.

LUNDY'S LANE CELEBRATION .- This immense gathering of the enthusiastic and true hearted Whigs of the Union appears to have surpassed the most sanguine expectations that were entertained either as to the number that would participate in it or the spirit that would be evinced. The New York Commercial says that it is supposed that one hun-dred thousand persons visited the ground during the celebration, and that on the last day from fifty to sixty thousand were in attendance. A telegraph dispatch to the Tribune mentions as among the mighty host a full tent of democrats from Cleveland, Ohio, who dissatisfied probably with the strange selection of a candidate by the Baltimore Convention, have renounced their party affinities and will go strong for General scott.

The Voice of the People! COUNTY MEETING.

On Tuesday evening, the whigs of this county and friends of Gen. Scott assembled in front of the Lewistown Hotel, and soon formed a most imposing demonstration. AU-GUSTINE WAKEFIELD, Esq., of Oliver LING, JOSEPH CAMPBELL, and several others whose names we cannot recal just now, appointed Vice Presidents; and George D. Hall and Wm. B. Johnston Secretaries.

On motion, George Frysinger, John Davis, E. E. Locke, Holmes Maclay, A. B. Cruet, Wm. Wakefield. Thomas L. Utley, and Wm. Brothers were appointed a committee to draft resolutions expressive of the sense of the meeting; who having retired-

mously adopted: The Democrat appeared yesterday after- when the people of the United States will be thus designate on whom the honor of high and exalted stations should fall. On the one hand, the party claiming, at least in the possession of inalienable rights, but whose actions too frequently are in opposition to their doctrines, have presented the name of Franklin Pierce, of New Hampshire, a man who, although nine years in Congress, certainly never gave evidence that he possessed more ability than nine-tenths of the members of the legal profession who become circle in which they move; and who, while men of acknowledged statesmanship, holding similar political principles, were manfully been forgotten, his "services" lost sight of, and his "statesmanship" buried in oblivion until the "noise and confusion" at the Baltimore Convention drove great men into small ones, and converted lesser lights into great men. On the other hand the whigs of this mighty nation, whose doctrines embrace every cardinal principle of democracy as taught by our forefathers, have presented the name of Winfield Scott-a name familiar as household words, not only over our own broad domains, but wherever civilization has carried a knowledge of letters—a man who has for many years conducted our military affairs with such signal ability as never in a single instance to interfere with the civil authority; who has time and again been entrusted by Madison, Monroe, Jackson and Van Buren with trusts of great reponsibility, requiring an intimate knowledge of civil jurisdiction, all which he performed in a manner so satifactory as to call forth the highest commendations, which prove him to be, not only a great hero and warrior, but a comprehensive may be trusted with an abiding confidence that it will be steered aright. Between two such men, can the American People hesitate to decide? We believe that their answer will be no, and that the same feelings of gratitude that elevated Washington, Jackson, Harrison and Taylor to perhaps the highest position on earth, will give an emphatic verdict in favor

of the Gallant Scott. Be it therefore Resolved by the whigs of Mifflin, in county meeting assembled, that we hail the nomina-tion of Major General Winfield Scott for President as an act of justice to a distinguished public servant, who has long and faithfully served his country, and who still bears upon his person the evidence that he was foremost in the din and carnage that established for our soldiers an enviable reputa-We hail it too as a tribute due to talent soar. from the cars.

The Democratic papers in Uniontown attempted to explain the "Hugh Graham Disclosures," and, in so doing, they seem to admit the authenticity of the letter said to have been written by Mr. Searight to Mr.

Now, the revolting part of the whole business is Mr. Searight's own letter, and, if this is admitted, all the locomotive power in the State could not drag the Democracy into his support, and it would be degrading to the principles we profess, to ask them to vote for such a candidate, with such a production fastened upon him!

This has become a grave question-one which rises above all considerations about ANY MAN—and if it is not met fearlessly and honestly, without dodging or equivocation, it will involve the Democratic party in a degree of odium, the effect of which cannot

Locofoco County Convention and Ratification Meeting.

The usual preliminaries having been gone through with on Saturday last by electing delegates, the conscript fathers thus chosen assembled at the Town Hall on Monday to hold their annual pow-wow. An organization being effected, quite a number of candidates were nominated for the Legislature, but ballot after ballot was taken without bringing either within the "haven of rest." In the meantime, the proceedings were interspersed with spicy criminations and recriminations that occasionally boded a storm, if not an explosion-in fact it is said sundry hats were at one time where folks place them when they intend taking leave-but a little oil thrown on the troubled waters fortunately calmed them enough to proceed with the business before them. Both factions-for that there are two cannot well be achied-now set to work for the purpose of outwitting each other, and accordingly brought up what might be called the "rear." The names thus far prominently before the convention now began a descending scale, and Wilson, Bates, and others were soon nowhere, while Hemphill and Taylor got to be somewhere. The former was undoubtedly the chosen apostle for the mantle of legislative dignity, and would certainly have received the nomination, had not the friends of Bates, (to whom report gave the absolute promise) &c., determined to head him, as the saying goes. Consequently on the next ballot, the latter quietly slipped in their votes for HENRY P. TAYLOR, of Union township, and, to the astonishment of those who were complimenting him with a vote, as they thought, a clear majority was announced for him. Our double-glassed telescope, to which brick and mortar are no obstacle, having been properly adjusted, at this time showed a number of blank faces, seemingly lost in wonder, perhaps cogitating what effect this unlooked for event would have upon Uncle Jim, Uncle John, and the remainder of the family. Night having however approached, and the members being probably tired, dry and hungry, after their herculean task of nominating a candidate for the Assembly, adjourned to the more agreeable work of seeing whether "Dolly had put the kettle on," so that they could all take tea.

Having renovated the inner man, and being thus better prepared to stand a siege, the convention again assembled to conclude its labors. Some hours of hard work at last ground out Cyrus Stine, of Wayne township, as the candidate for Commissioner, Joshua Morrison, of Granville township, for Poor Director, and David Rothrock, of Derry, for Auditor. Between these and other matters the convention was kept together until after any within our knowledge with so little business to transact.

Mr. Belser, on being loudly called for, remarked that it was not his desire or intention to make a speech, but that he was one who was not afraid to declare at all times his opinions, nor was he affected by the slanderous misrepresentations in reference to General Scott-that he had carefully examined for himself the character and acts of General Scott throughout his whole career, and that he was free to declare that there was no citizen of the whole country who could show so clean a bill, so perfect and untarnished a record, or any one who was more worthy to receive the highest honors his country bestow, &c. The remarks of Mr. Belser, though brief, were highly animated and elo-quent, and were received with unanimous and continued cheering.

THE FISHERY DIFFICULTY DIMINISHED .-The New York Courier and Enquirer learns that despatches were received on Wednesday night from Mr. Webster, containing assur ances that the fishery difficulties would be promptly and satisfactorily settled. The British pretensions, as generally understood, are disclaimed, and extend no further than to that portion of the fishing grounds where the British jurisdiction is undisputed.

The New York Herald publishes a secret circular which it alleges Kossuth addressed to the Germans before leaving this country. It contains recommendations to them to organize associations and to cast their votes at the coming elections so as to make them tell in favor of his intervention doctrines. HARD RUN.—The lecofoco papers having found it an uphill business to prove Gen.
