In addition to the above list, a discretionary premium, diploma, or certificate of merit will be awarded to exhibitors of Cabinet Work or other articles not enumerated, if the article be considered deserving by the committee.

Although an article be the best of the kind exhibited, yet, if it be no more than common, or, in opinion of the Judges, undeserving, no premium will be allowed.

In accordance with a resolution of the Society, passed at the Annual Meeting in April, a volume of the Pennsylvania Farm Journal is to be given in lieu of the dollar, and in part payment of larger premiums, in all cases when the recipient is a farmer and not already a subscriber to the Journal, and to such other persons as may be willing to receive it, and in some cases a diploma or other suitable reward of merit will be given in place of the money premiums.

All members of the Society whose dues are paid, and all others who may become members, previous to, or at the fair, will be furnished with tickets or badges, which will admit the person and ladies of his family to the exhibition at all times during its continuance. Tickets to admit persons not members of the Society, 25 cts. each.

All exhibitors at the Fair must become members of the Society, and have their animals or articles entered at the office before taking them into the enclosure. Cards, with the number of each article as entered, will be given to exhibitors at time of entry, which card they must have attached to or near the animal or article exhibited.

All animals or articles should be on the ground before 10 o'clock on Tuesday, ready for inspection of the Judges. No animal or article entered for exhibition can be taken away before the close of the Fair without permission of the Executive Committee, or if removed in violation of this rule, no premium will be allowed.

A supply of good hay will be furnished gratis for all animals entered for premiums. All exhibitors must be subject to these rules, and any others the Executive Committee may adopt for the better regulation of the exhibition.

Farmers, Manufacturers, Mechanics, Inventors, and the citizens in general of Mifflin and the adjoining counties, are invited to come and bring their Cattle, Agricultural Productions, Implements, Machines, Models, &c., &c., and compete for our premiums, and let us have a display worthy the occasion.

The Committee respectfully invite the Ladies, and feel assured that the display of the useful and the ornamental in their line will equal, if not exceed, any other department of the exhibition, and even surpass that of last year. Two premiums cannot we awarded for the same animal or article in any case excepting it be included in the best and largest collection.

It will be necessary for persons who wish to compete for the premium for the best improved, managed and cultivated Farm, and those who wish to compete for the premium for the best Field of Corn, to notify the President of the Society, (SHEM ZOOK, Esq.,) or the Corresponding Secretary, (Gen. R. C. HALE,) before the 20th day of September next, in order that a Committee be appointed to view said farm or corn field; and it shall be the duty of such Committee to measure one-fourth of an acre of an average part of said corn field for the proprietor to husk and exhibit a specimen, and certify to the quantity of corn grown thereon, at time of exhibition, and state his method of cultivation.

Entered according to Act of Congress, in the year 1851, by J. S. HOUGHTON, M. D., in the Clerk's Office of the District Court for the Eastern District of Pa.

ANOTHER SCIENTIFIC DISCOVERY!

GREAT CURE FOR DYSPEPSIA!

DR. J. S. HOUGHTON'S

THE TRUE DIGESTIVE FLUID, or, Gastric Juice.

Prepared from RENNET, of the fourth STOMACH OF THE OX, after directions of BARON LIEBIG, the great Physiologist, Chemist, by J. S. HOUGHTON, M. D. Philadelphia, Pa.

This is a truly wonderful remedy for INDIGESTION, DYSPEPSIA, JAUNDICE, LIVER COMPLAINT, CONSTIPATION, and DEBILITY. Curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

Half a teaspoonful of Pepsin, infused in water, will digest or dissolve, *Five Pounds of Raw Beef in about two hours, out of the stomach.*

PEPSIN is the chief element, or Great Digesting Principle of the Gastric Juice—the Salient of the Food, the Purifying, Preserving, and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an ARTIFICIAL DIGESTIVE FLUID, precisely like the natural Gastric Juice, in its Chemical powers, and furnishing a convenient and PERFECT SUBSTITUTE for it. By the aid of this preparation, the pains and evils of INDIGESTION and DYSPEPSIA are removed, just as they would be by a healthy stomach. It is doing wonders for Dyspepsia, curing cases of DEBILITY, EMACIATION, NERVOUS DECLINE, and DYSPEPTIC CONSUMPTION, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree CURIOUS and REMARKABLE.

Scientific Evidence!
BARON LIEBIG in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Call on the Agent, and get a Descriptive Circular, gratis, giving a large amount of Scientific Evidence similar to the above, together with reports of REMARKABLE CURES, from all parts of the United States.

As a Dyspepsia Curer,
DR. HOUGHTON'S PEPSIN has produced the most wonderful effects, in curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of the cases in the limits of this advertisement; but authenticated certificates have been given of more than TWO HUNDRED REMARKABLE CURES, in Philadelphia, New York and Boston, alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful, but permanent.

It is a great NERVOUS ANTIDOTE, and particularly useful for tendency to Bilious disorder, Liver Complaint, Fever and Ague, and the evil effects of Quinine, Mercury, and other Drugs upon the Digestive Organs, after a long sickness. Also, for excess in eating, and the too free use of ardent spirits. It almost reconciles Health with Intemperance.

DR. HOUGHTON'S PEPSIN is sold by nearly all the dealers in Fine Drugs and Popular Medicines, throughout the United States. It is prepared in Powder and in Fluid form—and in prescription vials for the use of physicians.

PRIVATE CIRCULARS for the use of physicians, may be obtained of Dr. Houghton or his Agents, describing the whole process of preparation, and giving the authorities upon which the claims of this new remedy are based. As it is NOT A SECRET REMEDY, no objection can be raised against its use by physicians in respectable standing and regular practice. Price, ONE DOLLAR per Bottle.

Tuscarora Academy.

This flourishing institution is located in Tuscarora Valley, Juniata county, Pa., eight miles S. W. of Mifflintown and six miles from the Perryville station, on the Pennsylvania Railroad. It has been in successful operation for more than fourteen years, and is believed to be equal to any Academy in the State, in affording facilities to young men for acquiring a thorough Academic education, either for business or for college. There were present, during the last session, (previous to the fire) more than one hundred students. Since then, the buildings have been entirely remodelled and greatly enlarged, so as to afford private rooms to all the students, an advantage not ordinarily found even in the best institutions in the country. Being in the country, the students are removed from those temptations to idleness, dissipation, and vice, which are the bane of similar institutions in towns.

TERMS.
For Boarding, (per week), \$1 25
Washing, private room, and incidentals, (per quarter), 4 00
Tuition in Latin, Greek and Mathematics (per quarter), 6 00

Natural Philosophy, Chemistry, Rhetoric, Political Economy, Book Keeping, Botany, History, &c. &c. 4 00
Arithmetic, English Grammar, Geography, Reading, Writing, &c. (per quarter), 3 00

Sketching from Nature and Painting—Vocal Music and Stenography, (when desired), Hebrew, (to young men preparing for the ministry,) gratis.

Thus it will be seen that \$25 will defray the whole average expense of a student, at the Institution, per quarter.—Light, Books and Station
