Rotation in Crops.
There is living in Northampton county, Pa., on the bank of the river Lehigh, a very aged man, whose success in raising upon a system of rotation by which he could obtain the greatest possible yield of wheat in a given term of years, has caused it to be greatly adopted in fertile regions. It is called Shomer's system, after the discoverer, Jacob Shomer, whom I had the curiosity to visit at his most substantial homestead some years ago, and from whom I obtained the following account:
When a young man, with a large family of children growing up around him, and dependent on him for support, he plainly perceived that under the rude practice then existing, he would not be able to maintain them. He often thought over the difficulties while following the plough, and at length determined upon his plan, which followed up without faltering, has conducted him in the decline of life to ease and affluence.
When I saw him, he had resigned the active duties of his farm, to a son, who was following in his footsteps; after having himself practised his system of rotation for thirty-five years, with a constant improvement in the quality of his land, which indeed had the unmistakable stamp of fertility upon it.
The farm contained one hundred acres, which was divided as nearly as possible, into eight year's rotation.
Commencing with a fallow field, he ploughed and sowed in May, June and August; harvested and seeded one bushel and three pecks per acre of wheat, which was ploughed under.
2d. Clover seed sown on wheat in the spring, six quarts to the acre, which was pastured after harvest.
3d. Plastered clover in the spring, one bushel per acre; cut in June, and ploughed under second crop, and seeded grain with wheat.
4th. Wheat same as number 2.
5th. Pastured early in the season, ploughed under second crop in August, and sowed wheat.
6th. Wheat again, and rye sowed on the stubble.
7th. Sowed cloverseed in the spring on rye, and next season recommenced.
It will be observed that there were every year three fields in wheat—one with rye, two with clover, and one with fallow. The produce had one season reached as high as 1,100 bushels of wheat, 600 do. of corn, and 300 do. of rye.—*Langsdell's Address.*

Great Scientific Discoveries.
BY DR. J. W. COOPER.
FEVER AND AGUE
Completely Cured in Three Days,
By Dr. J. W. Cooper's Vegetable Compound Fever and Ague Pills.
THESE PILLS are composed entirely of Vegetable Substances, and in sixty nine cases out of every hundred, will perform a perfect and Complete cure in three days. No instance has ever been known, where more than six days have been required to perform a complete cure, even in the very worst cases, and on the strongest constitutions. We would earnestly say to all who are afflicted with this distressing disease, to get one box and try them, and in all cases, two boxes are warranted to cure, if taken according to the directions, or the money returned.
These pills not only perform a perfect cure in three days, but remove the bile and create a healthy action of the liver, and consequently fortify the system against a future attack.
ALSO,
My Vegetable Anti-Dyspepsia Bitters.
This Medicine is a certain cure for Dyspepsia in its very worst forms. Thousands of cases have been completely cured by it within the last year, which have been entirely despaired of by the regular family physicians. We do not mean to create vanity, but we can recommend it in cure Dyspepsia, and on the strongest constitutions from it, and that it will cure in almost every case, and it is recommended for nothing else. In many instances, even the worst cases have been completely cured in two or three months, but it depends somewhat upon the constitution of the patient. We would say to all who are afflicted with Dyspepsia, give this medicine a fair trial, and if it fails to do good, your money will be returned.
ALSO,
My Vegetable Worm Powders.
This is the most wonderful Worm Destroyer ever known, and at the same time, so pleasant to take, that almost every child will be found of it, and many instances have been known of children crying for more after once taking it.
This medicine is in the form of a powder, the only medicine ever used in that form, and it operates on a principle entirely different from any other medicine ever administered by any other physician. It is the only medicine which has no Worm-seed Oil or Turpentine combined with it, which is believed by all other physicians to be the only two the most violent and destructive worms, and these two things combined, together with castor oil, are the active principles of all other worm medicines, which every person who has ever tasted or smelled, knows to be the most nauseous of all nauseous medicines, and on account of which, there is generally something added to destroy this nauseous taste, and in order to do this, it must be something stronger than the medicine itself, and therefore, it will not only destroy the seat worms, or Ascarides, and long round worms, or Teres, but is the most effectual medicine for the destruction of the Tape Worm ever known. Ten doses have brought as many as FIVE Tape Worms from one person. If your child has any symptoms of worms, try these powders, and in nine cases out of ten, you will never use any other. These are also warranted.
These medicines are all separate, and one for each disease, and each for only one disease. They are not recommended, as many other medicines are, to cure some fifteen or twenty diseases, and all of different natures, but they are each to cure one disease, and that they will do in ninety-nine cases out of every hundred, and where they have a fair trial and fail in all cases, the money will be returned.
