The Tomato.

To many persons there is something unpleasant, not to say disgusting, in the flavor of this excellent fruit. It has, however, long been used for culinary purposes, in various countries of Europe, and has of late years been extensively cultivated and become a general favorite in this country. Dr. Bennett, a professor of some celebrity, considers it an invaluable article as diet, and ascribes to it very important medical properties. He declares:

1. That the tomato is one of the most powerful deobstruents of the *Materia Medica*, and that in all those affections of the liver and other organs where colic is indicated, and is probably the most effective and least harmful remedial agent known in the profession.
2. That a chemical extract will be obtained from it, which will altogether supersede the use of colic in the cure of diseases.
3. That he has successfully treated diarrhoea with this article alone.
4. That when used as an article of diet, it is almost a sovereign remedy for dyspepsia and indigestion.
5. That persons arriving from east or north, to the south and west, should by all means make use of it as an aliment, as it would, in that event, save them the danger attendant upon those violent bilious attacks to which almost all unacclimated persons are liable.
6. That the citizens in ordinary should make use of it, either raw, cooked, or in the form of a catsup, with their daily food, as it is the most healthy article in the *materia alimentaria*.

Professor Rafinesque, of France, says: "It is everywhere deemed a very healthy vegetable, and invaluable article of food." Dungeleson says: "It may be looked upon as one of the most wholesome and valuable esculents that belongs to the vegetable kingdom."

Prof. Dickens asserts that it may be considered more wholesome than any other acid sauce.

A writer in *Farmer's Register* says: "It has been tried by several persons, with decided success. They were afflicted with a chronic cough, the primary cause of which, in one case, was supposed to be diseased liver—in another, diseased lungs. It mitigates, and sometimes effectually checks a fit of coughing."

The method most commonly adopted in preparing this fruit for daily use, is to cut them in slices, and serve them in salt, pepper and vinegar as you do cucumbers.

To stew them ripe from the vines, slice up, and put them in a pot over the fire without water.—Stew them slowly, and when done, put in a small piece of good butter and eat them as you do apple sauce. Some add a little flour, bread, finely crumbled, or a couple of crackers pulverized.

Tuscarora Academy.

THIS flourishing institution is located in Tuscarora Valley, Juniata county, Pa., eight miles S. W. of Mill Run, and six miles from the Perryville station, on the Pennsylvania Railroad. It has been in successful operation for more than fourteen years, and is believed to be equal to any Academy in the State, in affording facilities to young men for acquiring a thorough Academic education, either for business or for college. There were present, during the last session, (previous to the fire,) more than one hundred students. Since then, the buildings have been entirely remodelled and greatly enlarged, so as to afford private rooms to all the students; an advantage not ordinarily found even in the best institutions in the country. Being in the country, the students are removed from those temptations of dissipation, idleness, and vice, which are the bane of similar institutions in towns.
TERMS.
For Boarding, (per week) \$1 25
" Washing, private room, and incidentals, (per quarter) 4 00
" Tuition in Latin, Greek and Mathematics (per quarter) 6 00
" Natural Philosophy, Chemistry, Rhetoric, Political Economy, Book Keeping, Botany, History, &c. &c. 4 50

Sketching from Nature and Painting—Vocal Music and Stenography, (when desired)—Hebrew, (to young men preparing for the ministry), gratis.
Thus it will be seen that \$23 25 will defray the whole average expense of a student, at the Institution, per quarter—Light, Books and Stationery are found by the Student; and may be obtained at the stores in the neighborhood. There are no extra charges whatever.
The Institution will accept of the most favorable terms for the admission of the culture of the mind, morals, and manners of their pupils; and hope, therefore, to commend the Institution to the continued liberal patronage of the public.
The Vacations occur in April and October; but Students will be admitted at any time during the session when there are vacancies.

THE TRUE DIGESTIVE FLUID, or, Gastric Juice.

Prepared from RENNET, or the fourth STOMACH OF THE OX, after directions of BARON LIEBIG, the great Physiological Chemist, by J. S. HOUGHTON, M. D. Philadelphia, Pa.
This is a truly wonderful remedy for INDIGESTION, DYSPEPSIA, JAUNDICE, LIVER COMPLAINT, CONSTIPATION, and DEBILITY, curing after Nature's own method, by Nature's own Agent, the Gastric Juice.
25 Half a teaspoonful of Pepsin, infused in water, will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach.
PEPSIN is the chief element, or Great Digesting Principle of the Gastric Juice—the Salient of the Food, the Preserving, Preserving, and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an ARTIFICIAL DIGESTIVE FLUID, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a COMPLETE and PERFECT SUBSTITUTE for it. By the aid of this preparation, the pains and evils of INDIGESTION, and DYSPEPSIA are removed, just as they would be by a healthy stomach. It is doing wonders for Dyspepsia, curing cases of DEBILITY, EMACIATION, NERVOUS DECLINE, and DYSPEPTIC CONSUMPTION, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree CURIOUS and REMARKABLE.

As a Dyspepsia Curer,
Dr. HOUGHTON'S PEPSIN has produced the most marvellous effects, in curing cases of *Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption*. It is impossible to give the details of the cases in the limits of this advertisement; but authenticated certificates have been given of more than TWO HUNDRED REMARKABLE CURES, in Philadelphia, New York and Boston, alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful, but permanent.
It is a great NERVOUS ANTIDOTE, and particularly useful for tendency to Bilious disorder, Liver Complaint, Fever and Ague, and the evil effects of Quinine, Mercury, and other Drugs upon the Digestive Organs, after a long sickness. Also, for excess in eating, and the too free use of ardent spirits. It almost reconciles Health with Intemperance.
Dr. HOUGHTON'S PEPSIN, is sold by nearly all the dealers in Fine Drugs and Popular Medicines, throughout the United States. It is prepared in Powder, and in Fluid form—and in prescription vials for the use of Physicians.
PRIVATE CIRCULARS for the use of Physicians, may be obtained of Dr. Houghton or his Agents, describing the whole process of preparation, and giving the authorities upon which the claims of the new remedy are based. As it is NOT A SECRET REMEDY, no objection can be raised against its use by physicians in respect to standing and regular practice. Price, ONE DOLLAR per bottle.
OBSERVE THIS!—Every bottle of the genuine PEPSIN bears the written signature of J. S. HOUGHTON, M. D., sole proprietor, Philadelphia, Pa. Copyright and Trade Mark secured.
25 Sold by all Druggists and dealers in Medicines.

THE TRUE DIGESTIVE FLUID, or, Gastric Juice.

Prepared from RENNET, or the fourth STOMACH OF THE OX, after directions of BARON LIEBIG, the great Physiological Chemist, by J. S. HOUGHTON, M. D. Philadelphia, Pa.
This is a truly wonderful remedy for INDIGESTION, DYSPEPSIA, JAUNDICE, LIVER COMPLAINT, CONSTIPATION, and DEBILITY, curing after Nature's own method, by Nature's own Agent, the Gastric Juice.
25 Half a teaspoonful of Pepsin, infused in water, will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach.
PEPSIN is the chief element, or Great Digesting Principle of the Gastric Juice—the Salient of the Food, the Preserving, Preserving, and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an ARTIFICIAL DIGESTIVE FLUID, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a COMPLETE and PERFECT SUBSTITUTE for it. By the aid of this preparation, the pains and evils of INDIGESTION, and DYSPEPSIA are removed, just as they would be by a healthy stomach. It is doing wonders for Dyspepsia, curing cases of DEBILITY, EMACIATION, NERVOUS DECLINE, and DYSPEPTIC CONSUMPTION, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree CURIOUS and REMARKABLE.
