REPUBLICAN ORGANIZATION.

We observe that in Philadelphia, New York, and other places it has been determined to adhere to the existing Republican organization. We propounded on all sides "What is to be done?" A

who has been true to a union sition, seems to feel that there is a strength in this State which if combined would carry with it more certain defeat to the project that will combine that strength .the Americans and Republicans in this State unite together under the name of American Republicans, hold county and organization, and call a State Convention has been so smoky as to darken the sun." for the nomination of a candidate for Governor, &c. There is some wisdom in this suggestion, though if such a State Convention should be called for the purpose of deliberating on the formation of a union of this kind, care must be taken that the wolves in sheep's clothing, who in the last campaign played the part of traitors, be excluded from it. The difference between genuine Americanism and true Reprinciples of both.

A Vile Coquette.—A piece of perfidy is related of a bride at St. Joseph's, Mo., which has happily not often a parallel. It seems that two young men were addressing a young belle up town, and that she smiled equally upon both. They fled at , and were wedded at Bloomington, just relye miles distant, and continued on their way to realms unknown.

On this occasion he had drunk a quantity of whiskey, and several large potations of milk, and it is supposed the lizard got drunk on milk punch, and was unable to resist the ojective process.

The election riots in Baltimore on Tuesday a week were as serious as many a regular battle. The Republican reports that twenty-five persons were either killed or mortally wounded, twenty-seven dangerously, fifty-one severely, and thirty-four slightly wounded-making a total of one hundred and thirty-seven persons injured in the riots at the extent of about 6500 at Torbert's and this election.

BEA young man named Youtzy met a terrible death in Alleghany township, Somerset county, Pa., on Friday last. He had been to Berlin with a two horse wagon, and on his return home his horses became frightened, ran off, jerked him out, down in between the front hounds, with his head hanging downward. His face and head were horribly bruised, his eyes torn out and the sockets filled with dirt and sand, presenting a most horrible appearance.

Terrible Tornado.-We learn from the Peoria Transcript, that on Friday afternoon, the 24th ult., a most destructive tornado passed over the northern portion of Schuyler county, Illinois, and in its course completely prostrated the flourishing village of Littleton. The place contained over a hundred houses, besides is 3,142; over Buchanan, 4,817; over Fillmore, barns and out-houses, all of which were destroved, or so much damaged as to be useless. AN ASTONISHING MAN, Famed Throughout the World .- New York and London are now the great manufacturing depots for Holloway's Pills and Ointment.— From No. 80 Maiden Lane, this city, and No.

244 Strand, London, are sent forth, daily, millions of boxes and pots of these inestimable medicines. The heavy duty imposed by our government upon patent medicines, and the large and constantly increasing sale of Holloway's Pills and Ointment in this country, determined their proprieter to make this city his residence. Our republican system of government is also in harmony with the predilections of Professor Holloway; and though Kings and Emperors have conferred upon him honors and especial favors, these will never be so gratifying to him as the grateful hearts of millions of free citizens, who with-out any endorsement of sovereign authority,

freely patronize his celebrated remedies for

the prevention and removal of disease.

As a member of the medical faculty, having long witnessed the inefficiency of the prefession in curing disease, and being familiar with the errors and follies of the profession, we feel it an imperative duty to acquaint the American public with the arrival of this distinguished physician in our city. His fame, in a measure, preceded him to our shores, but the extent of the good he has done in the world has never yet been proclaimed to the American public. Great as his reputation is, it is destined to increase far beyond that which ever adorned the character of any man whose profession was that of healing the

We shall embrace other occasions to explain to the American people the system, the theory and mode of cure adopted by Professor Holloway. His Pills and Ointment, the one taken internally, and the other applied externally, act in harmonious conjunction, and if his directions are followed, will eradicate every disease incident to man in all climes .-They purify and cleanse the body, and restore healthy action in every organ. Our space will not permit us to say more at this time respecting this distinguished man and his celebrated remedies. He has one ambition, and it is an honorable one. He wishes to

ceed in his desire.

It is our object to address the American public in a series of articles, showing conclusively that, in the whole history of medical ticles we shall necessarily explain much of the human system, and these physiological laws of life controlling our bodies, both in them around the City of Baltimore, and after health and disease. The American public riding for several hours they beat the driver are sufficiently intelligent to judge of their interests, and it is no longer in the power of badly and shot him with a pistol, wounding these styling themselves regular physicians im very severely.
