This is a question which is still unsettled, and there are as many different opinions on the subject now as at any former time, before it had been so much discussed.

It is still a question with many farmers, whether much is lost by evaporation, when manures are only partially buried in the soil. It is contended that nothing but water evaporates, and that all the real essence is left behind when the manure seems to be drying up, on the surface or very near

It is also asserted that no loss is sustained when they are spread broadcast in October, over mowing grounds, and that more benefit is realized by this mode of application than by any other. It is difficult to settle such questions satisfactorily. Seasons and circumstances alter cases. We know that manures are often buried too deep, and we are not quite sure that any other covering than that which is done by the harrow is useful.

We have now a heavy field of corn of eight acres. It was planted late in May. All the manure was from the winter heaps, made by horned cattle and a horse, and a small quantity from a cowyard. This manure was carted out in the spring, and all of it spread over the field on the green sward furrows that were turned last fall and last May. No time was found to bury this manure otherwise than with a harrow -20 oxcart loads were put on each acreand though the weather was rather dry till the middle of July, the corn is the heaviest that we have had for many years .-Massachusetts Plowman.

A Bundle of Elopements .- The Buffalo Express gives the following chapter on domestic difficulties:-Mrs. King, near Kingston, was recently taken sick, and her husband seized the opportunity to elope with a handsome servant girl named Martin. On their arrival at Albany, Miss Martin eloped with a young man named Cornelius, taking Mr. King's money .-King being penitent, returned home and found that his wife had eloped with a dry goods clerk named Jeffers with all the movable articles in the house. Whereupon King started off in pursuit, considering himself a deeply injured man.

Once upon a time," a Methodist Preacher, who, like Methodist Preacher's generally, disliked long prayers, went to a meeting at which a Presbyterian minister was officiating. He entered with his great coat on, as the worshippers were about going on their knees, knelt hard by the stove, which happened to be pretty hot .-The prayer commenced. The suppliant waxed warm and so did our Wesleyan friend by the stove. The prayer went on, and on, and on; and the perspiration rolled down the face of the Methodist gentleman, who at length arose, deliberately drew off his great coat, and then went down on his aching marrow-bones again, saying in a low, but very determined voice as he did so, to his long winded Presbyterian brother, "well here's at you for all

BOW MAN'S VEGETABLE COMPOUND.

A SAFE and speedy cure for Consumption, not only in those milder forms of Throat and Lung Diseases, such as Colds, Coughs, Quinsey, Difficulty of Breathing, Broachitis, Ministers' Sore Throat, Weakness of the Chest, Asthma, Inward Ulcer, Spitting of Blood, Influe za, Group, Whooping Cough, Pain in the Breast and Side, Hourseness, Catarrh and Catarrhal Affections, Inflam-mation of the Lungs, Bleeding of the Lungs, &c. But its superior excellence is seen and tested in the more ad-vanced affections of the Lungs. For the truth of the above statement and the efficiency of the preparation as an antidote, we refer the public to the following testimo nials. Language is scarcely strong enough to tell the great power of this wonderful discovery! The doubting may try and be convinced. The proprietors point to the following bona fide certificates with confidence in their influence on the community; they are but samples of the many hundreds of testimonials in our pos

Allegheny, July 19, 1856 Mr. H. M. Bowman—Dear Sir:—I feel it my duty to let you know what your compound has done for my daughter, and wish you to publish it if you can in hope that some suffering one may be induced by it to try your val-uable medicine and be cured. My daughter was married in 1853, and went to Cincinnati to live, where her husband (James Hoyt,) was engaged in business. In six months after her husband died, and I sent for her to come home, where in four months she was confined and caught cold which settled on her lungs. It seemed as though we could get nothing to help her. We tried six different physicians for over one year and then sent to New York to a celebrated physician there, and she took medicine from him for eight months; but he could not cure her.—
Her cough was fixed and stubborn and seemed as though it would tear her breast during the paroxysm of cough, and her breathing was at times very difficult. Failing to get relief from physicians, we thought we would try Ayer's Cherry Pectoral, and she took it regular for sever weeks, but it did her no permanent good. We then tried Sellers' Imperial Cough Syrup, but with all she still be came worse, and it seemed as though she was beyond cure, when one day my wife was in at one of our neigh bor's houses (Mr. Mayness') and she saw them give you egetable Compound to one of their children for a cough and she got three or four doses to bring home and try i After my daughter had taken it she breathed a little easier, and we sent and got a bottle of it, and when it was taken there was a marked change for the better. I the got six bottles, the most of which she took as directed until finally cured—it is three months since, and she has not had a symptom of the old complaint, and is getting a lusty as she ever was. We all unite in our prayers to God that you may be prospered and that your Vegetable Compound may be the means of restoring health to many, as it has to one who is dear to us; we cheerfully recom mend it to the public as the best medicine for Lung Dis-eases that we ever got hold of. Try it suffering one and see. Believe me, my dear sir, to ever remain

Your earnest friend, THOS. II. BANKS. Philadelphia, Aug. 13, 1856. Last spring, while in Pittsburgh, I had a bad cold and cough which troubled me much, and a friend of mine gave me a bottle of Bowman's Vegetable Compound for diseases of the throat and lungs, which I commenced taking and found relief almost immediately. I had taken many things for cough and hoarseness but never got anything to help me as it has done. I believe it to be the best antidote for coughs and hoarseness that is out, and ch commend it to the public. T. H. STANTON,

I have used Bowman's Vegetable Compound for bronchitis and cough, and believe it to be the best medicine out for those diseases, and the only one I ever got to give me any permanent relief. It will cure. I recommend it to the public as an honest and efficient medicine and will perform what it is published to do. WM. VANHORN, Esq.

I have used Bowman's Vegetable Compound in my family for coughs, colds, and ministers' sore throat and believe it to be the best thing that I ever got for those complaints, and cheerfully recommend it to the public.

Here is one from the old pioneer Methodist preacher of

Ohio, Rev. J. B. Finley:

1 believe Bowman's Vegetable Compound to be the bes remedy for diseased throat and lungs, of the day. I have tested it, and found it to be the best of all the popula remedies I ever tried, and I have tried very many. I recommend it to the public—try it and you will be conviu ed of its superiority. Rev. J. B. FINLEY. Cincinnati, July 12, 1856.

Hear what the celebrated Dr. Peck says: I have used Bowman's Vegetable Compound for coughs and hoatseness in speaking; and believe it to be the best preparation for throat and lung complaints I ever got; and I recommend it to the public speaker and singer as well as those afflicted with lung diseases. J. T. PECK.

New York, May 12, 1856. Hear what Dr. Benson, of Cincinnati, says-(extract

rom a letter); Bowman's Vegetable Compound contains a virtue that is not possessed by any other popular medicine in my knowledge. It does not only smooth the disease over, giving it only temporary relief (i ke most of patent medicines), but it commences at the root of the disease and performs a perfect cure. G. W. BENSON, M. COSUAGOQUILLAS SEMIMARY.

Er. B. Allerander, A. E., THIS Institution is designed to afford facilities to male and female pupils for the acquisition of a solid and ornamental education. The course of study in English, the classics, matheatics, and natural sciences, is thorough and extensive—designed to qualify young fadies to act well their part in life, and young men for entering any class in college or any of the liberal professions. The studies will be adapted to the capacity of the student, so as to secure a symmetrical development of the mid. This institution enjoys many superior advantages. The locality is proverbial for healthfulness—students are far from scenes of vice and immortality so common to large towns and small villages, as the institution is entirely in the country. It also enjoys the advantages of a preached Gospel, of a moral and intelligent community, and of the most beautiful mountain and valley scenery. Parents and guardians may rest assured that the Principals will spare no pains to preserve the health, and improve the minds and morals of all

s, at 20 clock, p. m. The exhibitional performances will take place at 6½ o'clock, p. m.— examination previous. These exercises the friends of education are respectfully invited to attend. The next Session opens on Wednesday, the 29th of October.

This institution holds out peculiar inducements to young men seeking an education. The board of Instructors is composed of gentlemen of high literary attainments and skilled in their profession. The location is very healthy, having the pure mountain air, and free from all noxious vapors arising from stagment waters and marshy ground. Those subject to ague could not find a more desirable place.

The course of instruction is such as is best calculated to prepare young men for business, for teaching, or taking a high stand in college. For those desiring to become teachers, a Normal class will be formed, in which practical instruction will be given in the art of teaching. To this

class lectures will be given.

The temptations to vice, idleness and dissipation are few. There is nothing to draw the mind of the student from his studies. It is quiet and retired—just such a situation as a young man desirous of improvement would seek. The societies are in a flourishing condition, and each has a fine library of choice books. The buildings are large and commodious. An additional buildig is now in the course of construction, which will be finished this fall.
