THE GAZETTE. LEWISTOWN, PA. Thursday Morning, Dec. 11.

The attention of our readers who desire a city weekly is requested 'to the Prospectus' of the Saturday Evening Post, an old and well established paper, conducted with much ability, and weekly furnishing a large quantity of matter suited to almost every taste.

Mr. Childs, who advertises a free lecture for Saturday evening, is an artist of merit, and among other matters has taken some beautiful sketches of scenery in this county, some of which can be seen at the residence of Gen. W. H. Irwin.

LANCASTER BANK.

The stockholders of this institution held a meeting on Saturday last, at which the committee previously appointed made the following report:

The Committee appointed at a meeting of the stockholders of the Lancaster Bank, held at Fulton Hall on the 22d ultimo, to investigate the affairs of the Bank, beg leave to report that they have discharged that duty, and find that the statements of assets and liabilities, presented by the directors to the stockholders at that meeting, is substantially correct, as far as it is possible to ascertain at this

The Committee also find by the certificates obtained from the engravers and printers of all the notes of the Bank since its organization as a Bank, that they correspond with the issues exhibited on the books of the Bank .---The Committee are therefore of the opinion that there could be no over issue, unless the notes reported on the books as burned were not so destroyed, and again fraudulently put in circulation. We have no reason to think that such has been the case.

The Committee deem it inexpedient at this time to report to the public the causes of the suspension of the Bank, inasmuch as they have assurances from the principal debtors of the Bank, previously reported as doubtful, that they are making every effort to discharge their liabilities, and because an exposition at this time of the mismanagement of the Bank would greatly prejudice the chances of the recovery of a considerable portion of the as-sets which are put down as doubtful.

The Committee therefore recommend to all interested parties, believing it is not their interest at this time, to expose the mismanagement of the Bank, as such a course would only augment the personal liabilities of the Stockholders, and would tend to retard the speedy resuscitation of the Bank, an event so anxiously looked for by the business commu-

nity. The condition of the Bank as compared with the statement made to the Stockholders, Nov. 22, 1856, is as follows:

Nov. 22. Notes in circulation, \$724,869 Dec. 6. 552,477

LOCAL AFFAIRS.

AN OTTER CAPTURED .-- A large black otter was shot in Jack's creek last week, about a up a snag or stump and diving from it. These animals are becoming quite rare, and it is escaping.

We regret to learn that a telegraphic despatch was received on Menday last from Council Bluffs, Iowa, announcing the death of Dorsey Grey, son-in-law of James Burns, Esq. Mr. B. immediately left for that distant post on the western frontier with the intention of bringing home his widowed daughter.

LECTURE .- Hon. E. Banks will deliver a lecture before the Phrenokosmian Society in the Apprentices' Hall on Monday evening next. The public are invited to attend.

Park Benjamin, Esq., delivered his lecture on Amusing Traits of American Character in the Town Hall last evening. It was pretty well attended and gratified all.

ALLEGED NEGRO PLOTS IN TENNES-SEE, &C.

NASHVILLE, Dec. 5 .- A plot for the rising of the negroes in this State, has been detected, and caused a great excitement in Montgomery county, where it was first discovered. It is alleged that Christmas eve had been fixed upon for the rising, and the most extensive arrangements had been made to carry it out successfully. One white man has been arrested, together with a great many negroes, including many of the generals, captains and other officers of the proposed movement .--Several of them have made full confessions. A large collection of arms and ammunition has been seized. The church of Louisa Furnace had been undermined, and powder placed beneath it ready to be blown up when filled with people. The plot, it is believed, extends over a wide range of territory South and West. There is an extra patrol on duty every night at Clarksville, and every housekeep-

gency has reached the city that the negroes in Southern Kentucky had broken out in rebellionand that a general insurrection was feared. They had commenced an attack upon the Iron Works, and Vigilance Committees have been formed in Lafayette and Hopkinsville, for the purpose of taking prompt action in the matter.

NASHVILLE, Dec. 8 .- The excitement regarding the attempted insurrection of the negroes continues. Four of the ringleaders have been seized and executed at Dover, for being implicated in the conspiracy.

Reports similar to the above have been rife in several Southern states, and created a great deal of excitement. This however is the nature of the peculiar institution, and those who hold anything in the shape of man in bondage, must always look for insurrections, because liberty is precious to all, whether civilized, savage or barbarous.
