

THE GAZETTE.

PAID UP, the American Newspaper Agent... authorized agent for this paper in the cities of New York, and Philadelphia, and is duly empowered...

Olla Podrida. Gaged—The girl with red cheeks. For sale—The young lady with the basque. Destroyed by fire—The house of R. B. Wilson on the Vandyke farm, near Bellefonte.

Question for the High School—How big is piece of ice before it is frozen? Didn't guess well—The Democrat last week when it thought Gen. Cameron could not come near an election.

Smith's drawing of his Gift Enterprise is said will come off the last week in January. Becoming fashionable—Shawls with the men and long boots with the ladies. A fair swap.

Discreditable—The conduct of some naval officers as developed in the trial of Com. Rowan at Philadelphia. The Volksfreund at Middleburg, Snyder county, wants a jour "drucker" who knows a little of Dutch and English.

The jails of Union, Centre and Potter counties were all lately vacant—no evidence however nowadays of good morals. Two students at Lewisburg lately skated on the canal from that place to Lockport, a distance of 60 miles, in about six hours.

A celebrated inventor of our town is engaged in perfecting a trap to catch beavers. If he succeeds his fortune is made. Yesterday it tried to snow, but somehow 'twas no go; whereupon the girls were sad, and the other horses glad.

J. A. Rodgers of Milroy has come out in a card in the Democrat alleging know-nothingism. A friend from up there says his "loss" is a gain. It is estimated that in about twenty years the whole militia force will be Aids de Camp to the Governor, with the rank of Col.

Congress has got up another bribery case, Mr. Lane having made known that he was offered \$5000 for his vote on some land speculation. W. W. Brown's minority report on the Lancaster Bank has found its way into the Lancaster papers. It implicates the late President, former Cashier, and some of the Directors, but in other respects makes vague charges.

Medical Utensils—If there were health in a multitude of medical systems as there is said to be wisdom in a multitude of counsels, sickness would be unknown in this age of so called pathological discoveries. The homeopaths tell us that the salvation of our lives in sickness depends upon infinitesimal doses and infinite dilution; the hydropaths prefer to sink health upon us with slower baths, or soak disease out of us with sinecure buringg tea up to the axils in the earth—putting back foot in the grave as it were, by way of saving our lives! Then, we have Sangraders, who are all for bleeding, blistering, and low diet; and mineralists, who believe in nothing but mercury and its oxides. It happens, unfortunately, however, for all these theorists that they can show no practical proof of the assumed infallibility of their methods of cure. Not so Professor Holloway, who has really inaugurated a new era in the history of the healing art, and whose medicines for the last twenty years have annually rescued tens of thousands from impending death. This is no assumption, but a fact verified by the unimpeachable evidence of a "cloud of witnesses." The archives of his central offices in London and New York, contain more than half a million of manuscript certificates, authenticated in the strongest manner, and placing beyond the possibility of doubt the infallibility of his Pills and Ointment in upwards of twenty of the most distressing diseases of Europe, Asia, Australia, the United States, West Indies, British America, every civilized land, and every country to which the possessors of civilization, commercial and religious, have found their way, ting with the fame of those conquering remedies. There is no written language in which he cannot produce testimonials of their efficacy, no printed one in which they are not advertised and recommended. Such is the demand for them in all parts of the world that they may be justly called a great commercial staple, and the number of agencies for their sale amounts to tens of thousands.

Professor Holloway, whose comprehensive mind is the motive principle of this immense system of popular dispensaries is now in this country. His manufactory for the Continent is at New York, and there is no newspaper in the Union that has not endorsed his preparations, no city or town within the same limits, where they are not known and appreciated. These facts speak for themselves, and clearly show, that while so many medical dogmatists have been groping in the dark, he has actually discovered, and applied the true and only means of eradicating the primary causes of disease in the human system. N. Y. Sunday Times.

A New Toy.—A Paris correspondent of the New Orleans Picayune speaks of a new toy which is making the fortune of its inventor, and is thus described:— His invention consists in a balloon, which appears to be made of a bladder colored red and inflated with hydrogen gas, but I am assured they are made of gutta percha or India rubber. The public gardens present a singular appearance with hundreds of these balloons in the hands of children, floating with a swanlike grace a yard above their heads. At a little distance the string becomes invisible, and they seem to follow the children by a sort of magnetic attraction. Now and then, a negligent child lets the string slip out of his hand, the balloon rises majestically, despite the tears of the child, the screams

and leaps of the nurse, and the "agitations" of the crowd, until it is lost to sight.

Altitude of Spires.—Trinity Church spire, in New York, is 294 feet high; St. Paul's, 235; the Presbyterian Church in Cincinnati, 272; St. Peter's, Philadelphia, 233; St. Peter's, Rome, 550 feet.

After Seven Years Study! J. L. GRIFFITH'S HAIR VICTORY GOING AHEAD! THIS Wash is his own composition. It possesses wonderful properties for removing all dandruff and all scrofulous excrescences from the head, causing the hair to thrive and grow luxuriantly wherever any roots remain, and consequently all persons, young and old, whose hair is falling off and becoming thin, can have the evil remedied by GRIFFITH'S VICTORY in a very short time. Persons who are bald, should give this Wash a fair trial, for, unless the hair roots are actually dead, a hairbrusher's use of hair cream heretofore used, is unquestionably a valuable article, which cannot be surpassed by any hair mixture ever invented. Read the following Certificates. We, the undersigned, citizens of Lewisburg, do certify that we have used Griffith's Hair Victory, and cheerfully recommend it to all persons as a most valuable article for causing hair to grow, and removing dandruff and other excrescences from the head. George W. Patton, Roswell D. Smith, Maj. D. Eisenbise, Lafayette Webb, Wm. Shimp, John R. Weekes. The Hair Victory is for sale at the Briber Shop of the undersigned. J. L.
